FORM 10-Q

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2010

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the Transition Period From _____ to _____

Commission File Number 0-20979

INDUSTRIAL SERVICES OF AMERICA, INC.

(Exact Name of Registrant as specified in its Charter)

Florida

59-0712746

(State or other jurisdiction of
Incorporation or Organization)

(IRS Employer
Identification No.)

7100 Grade Lane, PO Box 32428
Louisville, Kentucky 40232

(Address of principal executive offices)

(502) 368-1661

(Registrant's Telephone Number, Including Area Code)

Check whether the registrant (1) has filed all Reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

(Check one): Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of June 30, 2010: 6,484,917.

INDUSTRIAL SERVICES OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U. S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U. S. generally accepted accounting principles for complete consolidated financial statements. The information furnished includes all adjustments, which are, in the opinion of management, necessary to present fairly our financial position as of June 30, 2010 and the results of our operations and changes in our cash flow for the periods ended June 30, 2010 and 2009. Results of operations for the period ended June 30, 2010 are not necessarily indicative of the results that may be expected for the entire year. Additional information, including the audited December 31, 2009 consolidated financial statements and the Summary of Significant Accounting Policies, is included in our Annual Report on Form 10-K for the year ended December 31, 2009 on file with the Securities and Exchange Commission.

Fair Value

We carry certain of our financial assets and liabilities at fair value on a recurring basis. These financial assets and liabilities are composed of trading account assets and various types of derivative instruments. In addition, we measure certain nonfinancial assets, such as goodwill and other long-lived assets, at fair value on a non-recurring basis to evaluate those assets for potential impairment. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In accordance with the accounting standard, we categorize our financial assets and liabilities into the following fair value hierarchy:

Level 1 Financial assets and liabilities with values based on unadjusted quoted prices for identical assets or liabilities in an active market. Examples of level 1 financial instruments include active exchange-traded equity securities and certain U.S. government securities.

Level 2 Financial assets and liabilities with values based on quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Examples of level 2 financial instruments include commercial paper purchased from the State Street-administered asset-backed commercial paper conduits, various types of interest-rate derivative instruments, and various types of fixed-income investment securities. Pricing models are utilized to estimate fair value for certain financial assets and liabilities categorized in level 2.

Level 3 Financial assets and liabilities with values based on prices or valuation techniques that require inputs that are both unobservable in the market and significant to the overall fair value measurement. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the asset or liability, and are based on the best available information, some of which is internally developed. Examples of

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

level 3 financial instruments include certain corporate debt with little or no market activity and a resulting lack of price transparency.

When determining the fair value measurements for financial assets and liabilities carried at fair value on a recurring basis, we consider the principal or most advantageous market in which we would transact and consider assumptions that market participants would use when pricing the asset or liability. When possible, we look to active and observable markets to price identical assets or liabilities. When identical assets and liabilities are not traded in active markets, we look to market observable data for similar assets and liabilities. Nevertheless, certain assets and liabilities are not actively traded in observable markets, and we use alternative valuation techniques to derive fair value measurements.

We use the fair value methodology outlined in the related accounting standard to value the assets and liabilities for cash, debt and derivatives. All of our cash is defined as Level 1 and all our debt and derivative contracts are defined as Level 2. In accordance with this guidance, the following table represents our fair value hierarchy for Level 1 and Level 2 financial instruments at June 30, 2010:

	Level 1	Level 2	Total
Assets			
Cash and cash equivalents	\$ 1,135,651		\$ 1,135,651
Liabilities			
Long-term debt		(\$ 30,637,353)	(\$ 30,637,353)
Derivative contract		(\$ 723,609)	(\$ 723,609)

We have had no transfers in or out of Levels 1 or 2 fair value measurements, and no activity in Level 3 fair value measurements for the quarter ending June 30, 2010. For Level 3 assets, goodwill is subject to impairment analysis each year end under Phase I of the ASC guidance. We use an annual capitalized earnings computation to evaluate Level 3 assets for impairment.

Subsequent Events

We have evaluated the period from June 30, 2010 through the date the financial statements herein were issued, for subsequent events requiring recognition or disclosure in the financial statements and the following event was identified:

Debt Restructuring:

On July 30, 2010, we entered into a Credit Agreement (the "Credit Agreement") with Fifth Third Bank pursuant to which Fifth Third Bank agreed to provide us a revolving credit facility in the amount of \$40,000,000 for the purpose of replacing the existing \$20,000,000 senior revolving credit facility with Branch Banking and Trust Company ("BB&T") and for payment of the \$5,000,000 note payable to BB&T (collectively, the

Prior Obligations). Proceeds of the new revolving credit facility in the amount of \$33,355,003 were used to repay the outstanding principal balance of the Prior Obligations. We plan to use additional proceeds of the revolving credit facility to pay closing costs and for funding temporary fluctuations in accounts receivable of most of our customers and inventory. In addition, we entered into a term loan agreement with Fifth Third Bank in the amount of \$8,800,000 for the purpose of replacing the \$6,000,000 note payable secured by our shredder system, the \$3,000,000 note payable secured by our rental fleet equipment, and the \$609,900 note payable secured by our crane.

With respect to the revolving credit facility, the interest rate is one month LIBOR plus two hundred fifty basis points (2.50%) per annum, adjusted monthly on the first day of each month. The revolving credit facility expires on July 31, 2013. Under the revolving credit facility, we are permitted to borrow the lesser of \$40,000,000 or the borrowing base, consisting of the sum of 80% of eligible accounts plus 60% of eligible inventory up to

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

\$15,000,000. Eligible accounts are generally those receivables that are less than 90 days from the invoice date. As security for the revolving credit facility, we provided Fifth Third Bank a first priority security interest in the accounts receivable from most of our customers and in our inventory. We also cross collateralized the revolving line of credit with the \$8,800,000 term loan.

The \$8,800,000 term loan provides for an interest rate that is the same as the interest rate for the revolving credit facility. Principal and interest is payable monthly in consecutive equal installments of \$105,000, with the first such payment commencing September 1, 2010 and the final payment of the then-unpaid balance due and payable in full on July 31, 2013. In addition, beginning April 30, 2011 (or, if earlier, upon completion of the Company's financial statements for the fiscal year ending December 31, 2010), we will make an annual payment equal to 25% of (i) our adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), minus (ii) our aggregate cash payments of interest expense and scheduled payments of principal (including any prepayments of the term loan), minus (iii) any non-financed capital expenditures, in each case for the Company's prior fiscal year. Any such payments will be applied to remaining installments of principal under the term loan in the inverse order of maturity, and to accrued but unpaid interest thereon. As security for the term loan, we provided Fifth Third Bank a first priority security interest in all equipment other than the rental fleet that we own.

In addition, we provided a first mortgage on the property at the following locations: 3409 Campground Road, 6709, 7023, 7025, 7101, 7103, 7110, 7124, 7200 and 7210 Grade Lane, Louisville Kentucky, 1565 East Fourth Street, Seymour, Indiana and 1617 State Road 111, New Albany, Indiana. The Company also cross collateralized the term loan with the revolving credit facility and all other existing debt the Company owes to the Bank.

In the Credit Agreement, we agreed to certain covenants, including (i) maintenance of a ratio of debt to adjusted EBITDA for the preceding 12 months of not more than 3.5 to 1 (or, if measured as of December 31 of any fiscal year, 4.0 to 1), (ii) maintenance of a ratio of adjusted EBITDA for the preceding twelve months to aggregate cash payments of interest expense and scheduled payment of principal in the preceding 12 months of not less than 1.20 to 1, and (iii) a limitation on capital expenditures of \$4,000,000 in any fiscal year.

NOTE 2 STOCK DIVIDEND

On May 3, 2010, the Board of Directors declared a 3-for-2 stock split effected by a 50% stock dividend. The stock dividend was issued to holders of record as of May 17, 2010, and paid June 1, 2010. All share numbers and share prices in these Notes have been adjusted to reflect the impact of this stock split.

NOTE 3 ESTIMATES

In preparing the condensed consolidated financial statements in accordance with U. S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X, management must make estimates and assumptions. These estimates and assumptions affect the amounts reported for assets, liabilities, revenues and expenses, as well as affecting the disclosures provided. Future results could differ from the current estimates.

NOTE 4 LONG TERM DEBT AND NOTES PAYABLE TO BANK

On April 13, 2010, the Company entered into a Loan Agreement with Branch Banking and Trust Company (the Bank) and BB&T Bankcard Corporation pursuant to which the Bank agreed to provide the Company a revolving credit facility in the amount of \$20,000,000 for the purpose of replacing the Company's existing

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

\$12,000,000 promissory note to the Bank dated February 11, 2009 and the Company's existing \$10,000,000 senior revolving credit facility with the Bank dated December 22, 2006. In addition, the Company, the Bank and certain other parties entered into a Modification and Cross-Collateralization Agreement (the "Modification Agreement") pursuant to which the Company and the Bank modified the Company's existing \$5,000,000 term loan to the Bank dated June 9, 2009. Proceeds of the new revolving credit facility in the amount of \$17.7 million were used to repay the outstanding principal balance of the \$12,000,000 promissory note and the amount outstanding under the prior credit facility and to pay closing costs. As of June 30, 2010, the outstanding balance of the restructured debt was \$16,443,272.

With respect to the revolving credit facility, the interest rate is one month LIBOR plus two hundred fifty basis points (2.50%) per annum, adjusted monthly on the first day of each month, with a floor of three and one half percent (3.50%). The revolving credit facility expires on April 13, 2013. Under the revolving credit facility, the Company is permitted to borrow the lesser of \$20,000,000 or the borrowing base, consisting of the sum of 80% of eligible accounts receivable plus 55% of eligible inventory up to \$10,000,000. Eligible accounts are generally those receivables that are less than 90 days from the invoice date. As security for the revolving credit facility, the Company provided the Bank a first priority security interest in the accounts receivable from most of its customers and in its inventory. The Company also cross collateralized the revolving line of credit with the \$5,000,000 term loan, an existing rental fleet loan in favor of the Bank and a \$500,000 purchasing credit card commitment, in addition to all other existing debt the Company owes to the Bank.

The \$5,000,000 term loan provides for an interest rate that is the same as the interest rate for the revolving credit facility. Accrued interest is payable monthly, with the first such payment commencing on May 13, 2010. The outstanding balance under the term loan plus accrued interest is payable in monthly installments in accordance with a 9.5 year amortization schedule, with a final scheduled payment of \$3.1 million of principal due at maturity of the note on April 7, 2014. As security for the modified term loan, the Company provided the Bank a first priority security interest in all equipment other than the rental fleet that the Company owns. In addition, the Company provided a first mortgage on the property at the following locations: 3409 Campground Road, 6709, 7023, 7025, 7101, 7103 and 7110 Grade Lane, Louisville Kentucky, 1565 East Fourth Street, Seymour, Indiana and 1617 State Road 111, New Albany, Indiana. The Company also cross collateralized the term loan with the revolving credit facility, the rental fleet loan, the \$500,000 purchasing credit card commitment and all other existing debt the Company owes to the Bank. As of June 30, 2010, the outstanding balance of the term loan was \$4,866,157.

In the Loan Agreement, the Company agreed to certain covenants, including the maintenance of minimum tangible net worth of \$16,000,000 as of December 31, 2009 (increasing by 40% of after tax net income annually, plus 100% of new equity issued by the Company), maintenance of a ratio of earnings before interest, taxes, depreciation and amortization (EBITDA) to the sum of the preceding 12 months interest expense plus projected principal payments on long-term debt in the next succeeding 12 months of not less than 1.25 to 1, and maintenance of a ratio of debt to tangible net worth of not more than 3.5 to 1. As of June 30, 2010, we were in compliance with these covenants.

We entered into three interest rate swap agreements swapping variable rates for fixed rates. The first swap agreement covers \$5.5 million in debt and commenced April 7, 2009 and matures on April 7, 2014. The second swap agreement covers approximately \$2.5 million in debt and commenced October 15, 2008 and matures on May 7, 2013. The third swap agreement covers approximately \$535,000 in debt and commenced October 22, 2008 and matures on October 22, 2013. The three swap agreements fix our interest rate at approximately 5.8%. At June 30, 2010, we recorded the estimated fair value of the liability related to the three swaps at approximately \$724,000. We entered into the swap agreements for the purpose of hedging the interest rate market risk for the respective notional amounts.

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

See also Subsequent Events under Note 1 Summary of Significant Accounting Policies for information regarding a new credit agreement entered into on July 30, 2010 pursuant to which the Loan Agreement with BB&T described above was paid off.

Our long term debt as of June 30, 2010 and December 31, 2009 consisted of the following:

	2010	2009
	(unaudited)	
Non-revolving line of credit with BB&T effective February 11, 2009 in the amount of \$12,000,000 with an original maturity date of February 11, 2010, which was extended to March 24, 2010, and then to April 13, 2013 under the new loan agreement (see below). Interest was payable monthly starting March 11, 2009, and the note bore interest at the adjusted LIBOR rate of one month LIBOR plus 2.25% per annum with a floor of 4%. All our assets (except rental fleet equipment) secured this note.	\$	\$ 11,517,440
Revolving credit facility of \$10 million with BB&T secured by all assets except for rental fleet equipment with a variable interest rate of Libor plus 2.25% and no required monthly principal payments. The original maturity date under this agreement was January 1, 2012, extended to April 13, 2013 under the new loan agreement.		8,166,917
Revolving credit facility of \$20 million with BB&T and BB&T Bankcard Corporation secured by accounts receivable and inventory with a variable interest rate of Libor plus 2.50% per annum with a floor of 3.50% and no required monthly principal payments. The credit facility expires on April 13, 2013.	16,443,272	
Note payable to BB&T in the amount of \$5 million secured by all equipment except for rental fleet equipment and certain real property with a variable interest rate of Libor plus 2.50% per annum with a floor of 3.50%. The repayment terms are principal and interest paid monthly commencing on May 13, 2010 with one final payment of all remaining principal and accrued interest due at maturity date on April 7, 2014. (Prior to restructuring in April, 2010, this credit facility was considered short-term and was not included in this table.)	4,866,157	
Note payable to BB&T in the amount of \$3 million secured by our rental fleet equipment with a fixed interest rate of 5.65%. The repayment terms are principal and interest paid monthly commencing on November 7, 2008 with one final payment of all remaining principal and accrued interest due at maturity on May 7, 2013.	2,473,516	2,598,526
Note payable to BB&T in the amount of \$6.0 million secured by our shredder system assets with a fixed interest rate of 5.89%. The repayment terms are principal and interest paid monthly commencing on November 7, 2008 with one final payment of all remaining principal and accrued interest due at maturity on April 7, 2014.	5,428,494	5,661,275
Note payable to BB&T in the amount of \$609,900 secured by a crane with a fixed interest rate of 5.89%. The repayment terms are principal and interest paid monthly beginning December 1, 2008 with one final payment of all remaining principal and accrued interest due at maturity in December 2013.	530,602	555,215

Note payable to Paccar Financial Corp. in the amount of \$163,655 secured by two Kenworth trucks. Payments are \$3,395.36 per month with an effective interest rate of 6.5%. The maturity date under this agreement is September 2011.

46,176 112,724

Note payable to ILS for various assets including tractor trailers, trucks and containers. The repayment terms are \$20,000 per month for 60 months at a seven percent (7%) interest rate. The maturity date under this agreement is August 2012.

NOTE 5 SEGMENT INFORMATION

Our operations include two primary segments: Recycling and Waste Services.

The Company's two reportable segments are determined by the products and services that each offers. The Recycling segment generates its revenues based on buying and selling of ferrous, non-ferrous, including stainless steel, and fiber scrap. Waste Services' revenues consist of charges to customers for waste disposal services and equipment sales and lease income. The components of the column labeled "other" are selling, general and administrative expenses that are not directly related to the two primary segments.

We evaluate segment performance based on gross profit or loss and the evaluation process for each segment includes only direct expenses and selling, general and administrative costs, omitting any other income and expense and income taxes.

NOTE 6 INVENTORIES

Our inventories primarily consist of ferrous and non-ferrous, including stainless steel, scrap metals and are valued at the lower of average purchased cost or market. Beginning in 2010, we refined this method of valuing inventory to the specific identification method, whereas in all prior years inventory is valued using the weighted average method. This enhancement became available due to a change in the inventory software, which now provides the ability to specifically track and identify individual scrap metal commodities within the system. This improvement provides a more accurate value of the inventory and will apply for all future periods. Quantities of inventories are determined based on our inventory systems and are subject to periodic physical verification using estimation techniques including observation, weighing and other industry methods. We would recognize inventory impairment when the market value, based upon current market pricing, falls below recorded value or when the estimated volume is less than the recorded volume of the inventory. We would record the loss in cost of goods sold in the period during which we identified the loss.

Some commodities are in saleable condition at acquisition. We purchase these commodities in small amounts until we have a truckload of material available for shipment. Some commodities are not in saleable condition at acquisition. These commodities must be shredded, torched, sheared or baled. We do not have work-in-process inventory that needs to be manufactured to become finished goods. We include processing costs in inventory for all commodities.

Stainless steel inventory of \$20,159,259 at June 30, 2010 was comprised only of raw materials. Ferrous inventory of \$2,268,303 at June 30, 2010 was comprised of \$2,078,080 in raw materials and \$190,223 in finished goods. Non-ferrous inventory of \$2,421,120 at June 30, 2010 was comprised of \$903,680 in raw materials and \$1,517,440 of finished goods. Replacement parts inventory for the shredder at June 30, 2010 was \$882,682. Stainless steel inventory of \$21,549,014 at December 31, 2009 was comprised only of raw materials. Ferrous inventory of \$1,587,475 at December 31, 2009 was comprised of \$269,344 in raw materials and \$1,318,131 of finished goods. Non-ferrous inventory of \$2,219,137 at December 31, 2009 was comprised of \$653,019 in raw materials and \$1,566,118 of finished goods. Replacement parts inventory for the shredder at December 31, 2009 was \$879,831. Processing costs in inventory total \$619,530 for the six months ended June 30, 2010 and \$611,372 for the year ended December 31, 2009.

Inventory also includes all types of industrial waste handling equipment and machinery held for resale such as compactors, balers, and containers. Other inventory includes cardboard and baling wire. Inventories as of June 30, 2010 and December 31, 2009 consist of the following:

	June 30, 2010 (unaudited)	December 31, 2009
Stainless steel alloys	\$ 20,159,259	\$ 21,549,014
Ferrous materials	2,268,303	1,587,475
Non-ferrous materials	2,421,120	2,219,137

Waste equipment machinery	54,950	102,032
Other	29,181	89,122
	<hr/>	<hr/>
Total inventories	\$ 25,815,495	\$ 26,426,611
	<hr/>	<hr/>

NOTE 7 - LEASE COMMITMENTSOperating Leases:

We lease our Louisville, Kentucky facility from a related party under an operating lease expiring December 2012. The rent was adjusted in December 2007 per the agreement to monthly payments of \$48,500 through December 2012. In addition, we are also responsible for real estate taxes, insurance, utilities and maintenance expense.

We also lease a management services operations facility and various pieces of equipment in Dallas, Texas for which monthly payments of \$969 are due through September 2010.

We also lease other machinery and equipment under operating leases which expire through June 2011.

2010	\$ 649,261
2011	636,000
2012	318,000
Thereafter	_____
Future minimum lease payments	<u>\$ 1,603,261</u>

Total rent expense for the six months ended June 30, 2010 and 2009 was \$444,891 and \$567,625, respectively.

Capital Leases:

We made the final payments for the equipment under capital leases in June 2010. We now own the equipment and no longer have any equipment under capital leases.

NOTE 8 PER SHARE DATA

The computation for basic and diluted earnings per share is as follows:

Six months ended June 30, 2010 compared to six months ended June 30, 2009:

	2010	2009

	<u> </u>	<u> </u>

NOTE 9 LONG TERM INCENTIVE PLAN

At our June 10, 2010 annual shareholders meeting, shareholders approved the reservation of 1,200,000 additional shares of our common stock under our long term incentive plan so that the total number of shares reserved increased from 1,200,000 to 2,400,000. The plan makes available up to 2,400,000 shares of our common stock for performance-based awards under the plan. We may grant any of these types of awards: non-qualified and incentive stock options; stock appreciation rights; and other stock awards including stock units, restricted stock units, performance shares, performance units, and restricted stock. The performance goals that we may use for such awards will be based on any one or more of the following performance measures: cash flow; earnings; earnings per share; market value added or economic value added; profits; return on assets; return on equity; return on investment; revenues; stock price; or total shareholder return.

The plan is administered by a committee selected by the Board, initially our Compensation Committee, and consisting solely of two or more outside members of the Board. The Committee may grant one or more awards to our employees, including our officers, our directors and consultants, and will determine the specific employees who will receive awards under the plan and the type and amount of any such awards. A participant who receives shares of stock awarded under the plan must hold those shares for six months before the participant may dispose of such shares. The Committee may settle an award under the plan in cash rather than stock.

As of July 1, 2009, we awarded options to purchase 30,000 shares of our stock each to our three independent directors for a total of 90,000 shares at a per share exercise price of \$4.23. As of January 11, 2010, we awarded 18,000 shares of our stock to management at a per share price of \$6.47 and as of February 11, 2010, we awarded 7,500 shares of our stock to management at a per share price of \$6.73. As of June 8, 2010, we awarded 30,000 shares of our stock to Brian Donaghy at a per share price of \$9.51.

NOTE 10 CERTAIN RELATED PARTY TRANSACTIONS

Effective April 1, 2010, Industrial Services of America, Inc. (the Company) and K&R, LLC (K&R) entered into an agreement (the Amendment) which amends a consulting agreement which the parties had entered into on January 2, 1998 (the Prior Agreement). Under the Prior Agreement, the Company engaged K&R as a

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

consultant and retained the services of K&R management personnel to perform planning and consulting services with respect to the Company's businesses, including the preparation of business plans, proforma budgets, and assistance with general operational issues. The Prior Agreement provided for a term of ten years, with an automatic renewal for additional terms of one year on January 1 of each successive calendar year unless either party provides the other party with written notice of its intent not to renew at least six months prior to the expiration of the then existing term. The Company's Chief Executive Officer, Harry Kletter, is a member of Kletter Holding, LLC, which is the sole member of K&R. The Amendment increases the consulting fees from \$240,000 per annum to \$480,000 per annum. The annual fee is payable in equal monthly installments of \$40,000. The Amendment otherwise ratifies the Prior Agreement in all respects.

Effective April 1, 2010, the Company amended and restated the employment agreement of Brian Donaghy (Mr. Donaghy), the Company's President and Chief Operating Officer, to (a) extend the term to June 30, 2015, and (b) provide for (i) an annual bonus based on the Company's achievement of certain return on net asset (RONA) targets pursuant to incentive plans to be established by the Company, to be payable in cash or partly in Common Stock at the election of Mr. Donaghy, (ii) a bonus of up to 15,000 shares of Common Stock per annum based on the Company's achievement of certain RONA targets, and (iii) a one-time bonus of up to 225,000 shares of Common Stock based on the Company's achievement of certain 5 year RONA targets as measured on December 31, 2014.

Effective July 1, 2010, the Company amended and restated the employment agreement of Steve Jones (Mr. Jones), the Company's Vice President of Operations -- ISA Alloys, to (a) extend the term to June 30, 2015, and (b) replace the annual bonus of a cash payment equal to 7.5% of the amount determined for each fiscal year of the segment profit of ISA Alloys minus selling, general and administrative expenses applicable to the ISA Alloys segment with (i) an annual bonus based on the Company's achievement of certain RONA targets pursuant to incentive plans to be established by the Company, to be payable in cash or partly in Common Stock, at the election of Mr. Jones. Also, as a result of the amendment to the asset purchase agreement between the Company and Venture Metals, LLC (Venture), further discussed below, Mr. Jones is no longer entitled to: (i) a bonus of up to 45,000 shares of Common Stock per annum based on the Company's achievement of certain RONA targets, and (ii) a one-time bonus of up to 225,000 shares of Common Stock based on the Company's achievement of certain 5 year RONA targets as of December 31, 2014.

Effective July 1, 2010, the Company amended and restated the employment agreement of Jeffrey Valentine (Mr. Valentine), the Company's General Manager of ISA Alloys, to (a) extend the term to June 30, 2015, and (b) replace the annual bonus of a cash payment equal to 7.5% of the amount determined for each fiscal year of the segment profit of ISA Alloys minus selling, general and administrative expenses applicable to the ISA Alloys segment with (i) an annual cash bonus based on the Company's achievement of certain RONA targets pursuant to an incentive plan to be established by the Company. Also, as a result of the amendment to the asset purchase agreement between the Company and Venture, Mr. Valentine is no longer entitled to: (i) a bonus of up to 45,000 shares of Common Stock per annum based on the Company's achievement of certain RONA targets, and (ii) a one-time bonus of up to 75,000 shares of Common Stock based on the Company's achievement of certain 5 year RONA targets as of December 31, 2014.

On June 16, 2010, the Company and Venture agreed to amend an asset purchase agreement dated July 1, 2010. Pursuant to this agreement, on April 12, 2010, the Company paid Venture \$1,348,942 for bonuses earned and accrued in 2009 using the line of credit facility and will issue to Venture 300,000 shares of Common Stock, in exchange for the Venture name, Venture's execution of a noncompete agreement, and Venture's agreement to cause Mr. Jones and Mr. Valentine to provide the company with noncompete agreements. Based on an independent appraisal, the Company shall deliver up to an additional 750,000 shares of ISA Common Stock in accordance with the following:

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

(a) Venture shall receive up to ninety thousand (90,000) shares of ISA common stock per annum commencing in 2011 for calendar year 2010, and thereafter in 2012, 2013, 2014, 2015 and 2016 for calendar years 2011, 2012, 2013, 2014 and 2015, respectively, resulting in a maximum of four hundred and fifty thousand (450,000) shares of ISA common stock over the such period (but in no event greater than 90,000 shares in any one calendar year) based on satisfaction of the return on net assets (RONA) criteria set forth in Exhibit 10.3 attached hereto and incorporated herein by reference. Such consideration shall be payable in the form of ISA common stock in one delivery of a stock certificate, as soon as practicable following December 31, 2015 subject to applicable withholding and other taxes and other required deductions;

(b) Venture shall be entitled to receive additional consideration for the transfer of assets up to three hundred thousand (300,000) shares of ISA common stock based on satisfaction of the 5 year (2010-2014) average return on net assets (RONA) criteria set forth in Exhibit 10.3 attached hereto and incorporated herein by reference. Such consideration shall be payable in the form of Company common stock in one delivery of a stock certificate, as soon as practicable following December 31, 2014 subject to applicable withholding and other taxes and other required deductions.

Venture is owned by Mr. Jones and Mr. Valentine.

ITEM 2: MANagements DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements and the accompanying notes thereto included elsewhere in this report.

The following discussion and analysis contains certain financial predictions, forecasts and projections which constitute forward-looking statements within the meaning of the federal securities laws. Actual results could differ materially from those financial predictions, forecasts and projections and there can be no assurance that we will achieve such financial predictions, forecasts and projections. Factors that could affect financial predictions, forecasts and projections include the fluctuations in the commodity price index and any conditions internal to our major customers, including loss of their accounts and other factors as listed in our Form 10-K for the year ended December 31, 2009, as filed with the Securities and Exchange Commission.

General

We are primarily focusing our attention now and in the future towards our recycling business. We sell processed ferrous and non-ferrous scrap material to end-users such as steel mini-mills, integrated steel makers, foundries and refineries. We purchase ferrous and non-ferrous scrap material primarily from industrial and commercial generators of steel, iron, aluminum, copper, stainless steel and other metals as well as from other scrap dealers who deliver these materials directly to our facilities. We process these materials by shredding, sorting, shearing, cutting and/or baling. We will also continue to focus on initiating growth in our management services business segment and our waste and recycling equipment sales, service and leasing division.

In 2009, we expanded into the stainless steel recycling market for super alloys and high temperature metals by purchasing inventories and related equipment from Venture Metals, LLC and hiring two of its key executives. We buy and sell stainless steel and high-temperature alloys to steel mills like North American Stainless, our primary customer. The Venture Metals asset purchase is the latest in a series of actions we have undertaken to position ourselves for strategic growth. The multi-million-dollar shredder project, completed in June 2009, expands our processing capacity, offers specialty grades of scrap and improves end-product quality. The shredder began operations on July 1, 2009. In the last quarter of 2009, we improved the Grade Lane location

and added a new entrance for our ISA Alloys operations, which we moved from the Camp Ground Road location to 7100 Grade Lane in November 2009. In 2010, we hired an Alloys Operations Manager to aid in the expansion of specialty alloys within our recycling segment, specifically in the area of aerospace alloys.

We continue to pursue a growth strategy in the waste management services arena by adding new locations of existing customers as well as marketing our services to potential customers. Currently, we service approximately 720 customer locations throughout the United States and we utilize an active database of over 6,500 vendors to provide timely, thorough and cost-effective service to our customers.

Although our focus is on the recycling industry, our goal is to remain dedicated to the management services, and equipment industry as well, while sustaining steady growth at an acceptable profit, adding to our net worth, and providing positive returns for stockholders. We intend to increase efficiencies and productivity in our core business while remaining alert for possible acquisitions, strategic partnerships, mergers and joint-ventures that would enhance our profitability.

We have operating locations in Louisville, Kentucky, Seymour, Indiana, New Albany, Indiana, and Dallas, Texas. We do not have operating locations outside the United States.

Liquidity and Capital Resources

As of June 30, 2010 we held cash and cash equivalents of \$1,182,999.

On April 13, 2010, Industrial Services of America, Inc. (the Company) entered into a Loan Agreement (the Loan Agreement) with Branch Banking and Trust Company (the Bank) and BB&T Bankcard Corporation pursuant to which the Bank agreed to provide the Company a revolving credit facility in the amount of \$20,000,000 for the purpose of replacing the Company's existing \$12,000,000 promissory note to the Bank and the Company's existing \$10,000,000 senior revolving credit facility with the Bank. In addition, the Company, the Bank and certain other parties entered into a Modification and Cross-Collateralization Agreement (the Modification Agreement) pursuant to which the Company and the Bank modified the Company's existing \$5,000,000 term loan to the Bank. Proceeds of the new revolving credit facility in the amount of \$17.7 million were used to repay the outstanding principal balance of the \$12,000,000 promissory note and the amount outstanding under the prior credit facility and to pay closing costs.

With respect to the revolving credit facility, the interest rate is one month LIBOR plus two hundred fifty basis points (2.50%) per annum, adjusted monthly on the first day of each month, with a floor of three and one half percent (3.50%). The revolving credit facility expires on April 13, 2013. Under the revolving credit facility, the Company is permitted to borrow the lesser of \$20,000,000 or the borrowing base, consisting of the sum of 80% of eligible accounts receivable plus 55% of eligible inventory up to \$10,000,000. Eligible accounts are generally those receivables that are less than 90 days from the invoice date. As security for the revolving credit facility, the Company provided the Bank a first priority security interest in the accounts receivable from most of its customers and in its inventory. The Company also cross collateralized the revolving line of credit with the \$5,000,000 term loan, an existing rental fleet loan in favor of the Bank and a \$500,000 purchasing credit card commitment, in addition to all other existing debt the Company owes to the Bank.

The \$5,000,000 term loan provides for an interest rate that is the same as the interest rate for the revolving credit facility. Accrued interest is payable monthly, with the first such payment commencing on May 13, 2010. The outstanding balance under the term loan plus accrued interest is payable in monthly installments in accordance with a 9.5 year amortization schedule, with a final scheduled payment of \$3.1 million of principal due at maturity of the note on April 7, 2014. As security for the modified term loan, the Company provided the

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

Bank a first priority security interest in all equipment other than the rental fleet that the Company owns. In addition, the Company provided a first mortgage on the property at the following locations: 3409 Campground Road, 6709, 7023, 7025, 7101, 7103 and 7110 Grade Lane, Louisville Kentucky, 1565 East Fourth Street, Seymour, Indiana and 1617 State Road 111, New Albany, Indiana. The Company also cross collateralized the term loan with the revolving credit facility, the rental fleet loan, the \$500,000 purchasing credit card commitment and all other existing debt the Company owes to the Bank.

In the Loan Agreement, the Company agreed to certain covenants, including the maintenance of minimum tangible net worth of \$16,000,000 as of December 31, 2009 (increasing by 40% of after tax net income annually, plus 100% of new equity issued by the Company), maintenance of a ratio of earnings before interest, taxes, depreciation and amortization (EBITDA) to the sum of the preceding 12 months interest expense plus projected principal payments on long-term debt in the next succeeding 12 months of not less than 1.25 to 1, and maintenance of a ratio of debt to tangible net worth of not more than 3.5 to 1.

On July 30, 2010, we entered into a Credit Agreement (the Credit Agreement) with Fifth Third Bank pursuant to which Fifth Third Bank agreed to provide us a revolving credit facility in the amount of \$40,000,000 for the purpose of replacing the existing \$20,000,000 senior revolving credit facility with Branch Banking and Trust Company (BB&T) and for payment of the \$5,000,000 note payable to BB&T (collectively, the Prior Obligations). Proceeds of the new revolving credit facility in the amount of \$33,355,003 were used to repay the outstanding principal balance of the Prior Obligations. We plan to use additional proceeds of the revolving credit facility to pay closing costs and for funding temporary fluctuations in accounts receivable of most of our customers and inventory. In addition, we entered into a term loan agreement with Fifth Third Bank in the amount of \$8,800,000 for the purpose of replacing the \$6,000,000 note payable secured by our shredder system, the \$3,000,000 note payable secured by our rental fleet equipment, and the \$609,900 note payable secured by our crane.

With respect to the revolving credit facility, the interest rate is one month LIBOR plus two hundred fifty basis points (2.50%) per annum, adjusted monthly on the first day of each month. The revolving credit facility expires on July 31, 2013. Under the revolving credit facility, we are permitted to borrow the lesser of \$40,000,000 or the borrowing base, consisting of the sum of 80% of eligible accounts plus 60% of eligible inventory up to \$15,000,000. Eligible accounts are generally those receivables that are less than 90 days from the invoice date. As security for the revolving credit facility, we provided Fifth Third Bank a first priority security interest in the accounts receivable from most of our customers and in our inventory. We also cross collateralized the revolving line of credit with the \$8,800,000 term loan.

The \$8,800,000 term loan provides for an interest rate that is the same as the interest rate for the revolving credit facility. Principal and interest is payable monthly in consecutive equal installments of \$105,000, with the first such payment commencing September 1, 2010 and the final payment of the then-unpaid balance due and payable in full on July 31, 2013. In addition, beginning April 30, 2011 (or, if earlier, upon completion of the Company s financial statements for the fiscal year ending December 31, 2010), we will make an annual payment equal to 25% of (i) our adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), minus (ii) our aggregate cash payments of interest expense and scheduled payments of principal (including any prepayments of the term loan), minus (iii) any non-financed capital expenditures, in each case for the Company s prior fiscal year. Any such payments will be applied to remaining installments of principal under the term loan in the inverse order of maturity, and to accrued but unpaid interest thereon. As security for the term loan, we provided Fifth Third Bank a first priority security interest in all equipment other than the rental fleet that we own.

In addition, we provided a first mortgage on the property at the following locations: 3409 Campground Road,

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

6709, 7023, 7025, 7101, 7103, 7110, 7124, 7200 and 7210 Grade Lane, Louisville Kentucky, 1565 East Fourth Street, Seymour, Indiana and 1617 State Road 111, New Albany, Indiana. The Company also cross collateralized the term loan with the revolving credit facility and all other existing debt the Company owes to the Bank.

In the Credit Agreement, we agreed to certain covenants, including (i) maintenance of a ratio of debt to adjusted EBITDA for the preceding 12 months of not more than 3.5 to 1 (or, if measured as of December 31 of any fiscal year, 4.0 to 1), (ii) maintenance of a ratio of adjusted EBITDA for the preceding twelve months to aggregate cash payments of interest expense and scheduled payment of principal in the preceding 12 months of not less than 1.20 to 1, and (iii) a limitation on capital expenditures of \$4,000,000 in any fiscal year.

We have long term debt comprised of the following:

	June 30, 2010 (unaudited)	December 31, 2009
Non-revolving line of credit	\$	\$ 11,517,440
Revolving line of credit	16,443,272	8,166,917
Notes payable	13,826,134	9,510,013
	\$ 30,269,406	\$ 29,194,370

As of June 30, 2010, we were in compliance with all restrictive covenants related to our debt.

We expect that existing cash flow from operations and available credit under our restructured credit facilities and other alternative financing will be sufficient to meet our cash needs for the next year and beyond. As of June 30, 2010, we have \$1,141,029 committed for the purchase and installation of sensor sorter units to be funded by our line of credit.

Results of Operations

The following table presents, for the years indicated, the percentage relationship that certain captioned items in our Consolidated Statements of Operations bear to total revenues and other pertinent data:

	Six months ended June 30,	
	2010	2009
Statements of Operations Data:		
Total Revenue	100.0%	100.0%
Cost of goods sold	91.6%	87.2%
Selling, general and administrative expenses	4.1%	8.1%
Income before other expenses	4.4%	4.7%
<u>Six months ended June 30, 2010 compared to six months ended June 30, 2009</u>		

Total revenue increased \$103,609,691 or 163.5% to \$166,983,928 in 2010 compared to \$63,374,237 in 2009. Recycling revenue increased \$104,652,902 or 180.0% to \$162,804,794 in 2010 compared to \$58,151,892 in 2009. This is primarily due to the improvements and expansions of our Grade Lane facilities made in late 2009 and the increased production from the shredder, which began production in July 2009, along with a 39.2% increase in volume of stainless steel materials shipments, a 175.3% increase in volume of ferrous materials shipments, a 24.1% increase in volume of other nonferrous materials shipments, partially offset by an average increase in cost of commodities shipped of 78.8%. Waste Services revenue decreased \$1,043,211 or 20.0% to \$4,179,134 in 2010 compared to \$5,222,345 in 2009 primarily due to the net loss of approximately

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

1,300 customer locations, as well as an \$88,623 decrease in rental revenue and VISA rebates, partially offset by a \$123,870 increase in equipment and parts sales and service and repairs revenue.

Total cost of goods sold increased \$97,708,445 or 176.9% to \$152,946,806 in 2010 compared to \$55,238,361 in 2009. Recycling cost of goods sold increased \$98,279,681 or 191.1% to \$149,711,008 in 2009 compared to \$51,431,327 in 2009. This is primarily due to the increase in volume of shipments noted above, and partially due to the increase in commodity prices noted above. Waste Services cost of goods sold decreased \$571,236 or 15.0% to \$3,235,798 in 2010 compared to \$3,807,034 in 2009 primarily due to the decrease in customer locations and a \$29,488 decrease in rental, hauling, and wire costs, partially offset by an increase of \$91,425 in cost of equipment and parts sales, service and repairs, and commissions.

Selling, general and administrative expenses increased \$1,615,749 or 31.4% to \$6,765,293 in 2010 compared to \$5,149,544 in 2009. As a percentage of revenue, selling, general and administrative expenses were 4.1% in 2010 compared to 8.1% in 2009. The primary drivers of the increase in total expense are an increase in stock bonus and bonus expense of \$896,003, an increase in labor/management-related expenses (labor, consulting, management fees, employee training, and insurance benefits) of \$292,781, an increase in legal fees, insurance expense, and compliance and reporting expenses of \$234,349, and an increase in operating supplies and computer software and equipment of \$119,633, partially offset by a decrease in bad debt expense of \$57,715.

Other expense increased \$61,845 to other expense of \$421,055 in 2010 compared to other expense of \$359,210 in 2009. This was primarily due to an increase in interest expense of \$316,945, partially offset by an increase in the gain on sale of assets of \$223,176.

Income tax provision decreased \$1,689,461 to \$2,740,310 in 2010 compared to \$1,050,849 in 2009. The effective tax rate in 2010 and 2009 was 40.0% based on federal and state statutory rates.

Three months ended June 30, 2010 compared to three months ended June 30, 2009

Total revenue increased \$53,690,648 or 137.2% to \$92,814,962 in 2010 compared to \$39,124,314 in 2009. Recycling revenue increased \$53,635,303 or 144.6% to \$90,735,560 in 2010 compared to \$37,100,257 in 2009. This is primarily due to the improvements and expansions of our Grade Lane facilities made in late 2009, the increased production from the shredder, which began production in July 2009, and an increase in stainless steel shipments of 13.1%, an increase in ferrous shipments of 164.0% and an increase in other nonferrous shipments of 8.7% and an average increase in cost of commodities shipped of 91.6%. Waste Services revenue increased \$55,345 or 2.7% to \$2,079,402 in 2010 compared to \$2,024,057 in 2009 primarily due to a \$72,755 increase in equipment sales and service and repairs revenue, partially offset by a \$40,307 decrease in rental revenue.

Total cost of goods sold increased \$50,088,055 or 143.2% to \$85,061,298 in 2010 compared to \$34,973,243 in 2009. Recycling cost of goods sold increased \$49,771,637 or 148.0% to \$83,399,034 in 2010 compared to \$33,627,397 in 2009. This is primarily due to the increase in volume of shipments noted above, and partially due to the increase in commodity prices noted above. Waste Services cost of goods sold increased \$316,418 or 23.5% to \$1,662,264 in 2010 compared to \$1,345,846 in 2009 primarily due to a decrease of \$357,204 in bankruptcy-related write offs in 2010 compared to 2009 and an increase of \$46,022 in the cost of equipment sales and service and repairs, partially offset by the decrease in customer locations.

Selling, general and administrative expenses increased \$1,124,388 or 46.1% to \$3,564,271 in 2010 compared to \$2,439,883 in 2009. As a percentage of revenue, selling, general and administrative expenses were 3.8% in 2010 compared to 6.2% in 2009. The primary drivers of the increase in total expense are increases in stock bonus and bonus expense of \$621,303, and labor/management-related expenses (labor, consulting, management

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

fees, employee training and insurance benefits) of \$303,598.

Other expense increased \$103,223 to other expense of \$277,394 in 2010 compared to other expense of \$174,171 in 2009 primarily due to the increase in interest expense due to new debt.

Income tax provision increased \$949,992 to \$1,564,799 in 2010 compared to \$614,807 in 2009. The effective tax rate in 2010 and 2009 was 40.0% based on federal and state statutory rates.

Financial condition at June 30, 2010 compared to December 31, 2009

Cash and cash equivalents increased \$469,937 to \$1,182,999 as of June 30, 2010 compared to \$713,062 as of December 31, 2009.

Net cash from operating activities of \$5,723,699 for the six months ended June 30, 2010 is primarily due to an increase in accounts receivable, partially offset by the increase in accounts payable and the decrease in inventory. The increases in accounts receivable and accounts payable are due to a combination of increased shipments, purchases, and commodity prices.

We used net cash from investing activities of \$1,308,000 for the six months ended June 30, 2010. We used \$254,047 for road and building improvements. We purchased recycling and rental fleet equipment, shredder system equipment, and shearer parts of \$751,496. The rental fleet equipment consists of solid waste handling and recycling equipment such as compactors, containers and balers. It is our intention to continue to pursue this market. Additionally, we spent \$115,634 on accounting software and computer equipment. We also purchased one truck and upgraded another for \$26,657. We received \$234,500 from sales of our rental fleet compactors, balers, and containers and \$89,513 from the sale of one of our trucks. We paid deposits of \$504,244 on machinery and equipment.

We used net cash from financing activities of \$3,945,762 for the six months ended June 30, 2010 due to the payments on debt and capital lease obligations of \$3,924,946 and \$20,798, respectively.

Accounts receivable trade increased \$19,275,312 to \$27,787,638 as of June 30, 2010 compared to \$8,512,326 as of December 31, 2009. This change is due to a combination of increased shipments and an increase in commodity prices.

Inventories consist principally of stainless steel, ferrous and nonferrous scrap materials and waste equipment machinery held for resale. We value inventory at the lower of cost or market. Inventory decreased \$611,116 or 2.3% to \$25,815,495 as of June 30, 2010 compared to \$26,426,611 as of December 31, 2009. The primary reason for the decrease was that the average cost of commodities shipped out of inventory year-to-date was higher than the average cost of commodities purchased year-to-date.

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

Inventory aging for the period ended June 30, 2010 (Days Outstanding):

Description	1-30	31-60	61-90	Over 90	Total
Stainless steel alloys	\$ 16,114,860	\$ 2,555,900	\$ 834,754	\$ 653,745	\$ 20,159,259
Ferrous materials	1,765,372	284,056	123,064	95,811	2,268,303
Non-ferrous materials	1,886,893	291,748	80,457	162,022	2,421,120
Shredder replacement parts	882,682				882,682
Waste equipment machinery				54,950	54,950
Other	29,181				29,181
	\$ 20,678,988	\$ 3,131,704	\$ 1,038,275	\$ 966,528	\$ 25,815,495

Inventory aging for the period ended December 31, 2009 (Days Outstanding):

Description	1-30	31-60	61-90	Over 90	Total
Stainless steel alloys	\$ 11,738,653	\$ 2,564,183	\$ 5,170,224	\$ 2,075,954	\$ 21,549,014
Ferrous materials	1,513,849	47,151	19,834	6,641	1,587,475
Non-ferrous materials	1,801,125	243,708	47,545	126,759	2,219,137
Shredder replacement parts	879,831				879,831
Waste equipment machinery	9,670			92,362	102,032
Other	89,122				89,122
	\$ 16,032,250	\$ 2,855,042	\$ 5,237,603	\$ 2,301,716	\$ 26,426,611

Accounts payable trade increased \$18,064,308 or 385.6% to \$22,748,694 as of June 30, 2010 compared to \$4,684,386 as of December 31, 2009, primarily due to increased purchases and an increase in commodity prices.

Working capital increased \$16,713,539 to \$28,032,224 as of June 30, 2010 compared to \$11,318,685 as of December 31, 2009. The increase was primarily driven by the \$19.3 million increase in accounts receivable, the debt restructuring, which reclassified \$16.1 million in current maturities to long-term debt, and the \$0.8 million decrease in the bonus accrual. These increases were partially offset by the \$18.1 million increase in accounts payable, the \$0.8 million increase in income taxes payable, and the \$0.6 million decrease in inventory.

Contractual Obligations

The following table provides information with respect to our known contractual obligations for the quarter ended June 30, 2010.

Obligation Description	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-Term Debt Obligations	\$ 30,269,406	\$ 1,478,788	\$ 21,019,319	\$ 7,771,299	\$
Operating Lease Obligations (1)	1,603,261	649,261	954,000		
Total	\$ 31,872,667	\$ 2,128,049	\$ 21,973,319	\$ 7,771,299	\$

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

(1) We lease the Louisville, Kentucky facility from K&R, LLC, the sole member of which is Harry Kletter, our chief executive officer, under an operating lease expiring December 2012. We have monthly rental payments of \$48,500 through December 2012. In the event of a change of control, the monthly payments become \$62,500. We have subleased the Lexington property to an unaffiliated third party for a term commencing March 1, 2007 and ending December 31, 2012 for \$4,500 per month. We currently lease this property from an unrelated party for \$4,500 per month; the lease terminates December 31, 2012. If for any reason the sub-lessee defaults, we remain liable for the remainder of the lease payments through December 31, 2012.

We also lease a management services operations facility and various pieces of equipment in Dallas, Texas for which monthly payments of \$969 are due through September 2010.

Long-term debt, including the current portions thereof, increased \$1,075,036 to \$30,269,406 as of June 30, 2010 compared to \$29,194,370 as of December 31, 2009.

Impact of Recently Issued Accounting Standards

In 2008 the FASB issued authoritative guidance on disclosures about derivative instruments and hedging activities and updated this guidance in February 2010 through guidance entitled *Technical Corrections to Various Topics*. The guidance amends and expands the disclosure requirements in the previously issued guidance on accounting for derivative instruments and hedging activities and was effective for fiscal years and interim periods beginning after November 15, 2008, the year beginning January 1, 2009 for us. The February 2010 update was effective for the first reporting period beginning after issuance, the year ending December 31, 2009 for us. We have included the required disclosures in Note 4 of our Condensed Consolidated Financial Statements.

In May 2009, the FASB issued authoritative guidance on subsequent events, but this guidance was amended by new authoritative guidance issued in February, 2010. The original guidance required the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date that is, whether that date represents the date the financial statements were issued or were available to be issued. The new guidance removes the requirement for an SEC filer to disclose a date in both issued and revised financial statements. This amendment removes potential conflicts with SEC requirements. The original guidance became effective for interim and annual periods ending after June 15, 2009, the quarter ending June 30, 2009 for us, and the amendment became effective upon issuance of the final update in February, 2010.

The FASB issued authoritative guidance on accounting for transfers of financial assets in June 2009 with an update issued in December 2009. This guidance is effective for reporting periods beginning after November 15, 2009, the year ending December 31, 2010 for us. This new guidance limits the circumstances in which a financial asset may be de-recognized when the transferor has not transferred the entire financial asset or has continuing involvement with the transferred asset. The concept of a qualifying special-purpose entity, which had previously facilitated sale accounting for certain asset transfers, is removed by this new guidance. The adoption of this new guidance did not impact our financial position or results of operations.

The FASB issued authoritative guidance on accounting for variable interest entities (VIE) in June 2009 with an update issued in December 2009. This guidance is effective for reporting periods beginning after November 15, 2009, the year ending December 2010 for us. This guidance changes the process for how an enterprise determines which party consolidates a VIE, to a primarily qualitative analysis. The party that consolidates the VIE (the primary beneficiary) is defined as the party with (1) the power to direct activities of the VIE that most significantly affect the VIE's economic performance and (2) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE. Upon adoption, reporting enterprises must reconsider their conclusions on whether an entity should be consolidated and should a change result, the effect on net assets will be recorded

as a cumulative effect adjustment to retained earnings. The adoption of this new guidance did not impact our financial position or results of operations.

In January 2010, the FASB issued authoritative guidance entitled *Accounting for Distributions to Shareholders with Components of Stock and Cash* to address and eliminate the diversity in practice related to the accounting for a distribution to shareholders that offers them the ability to elect to receive their entire distribution in cash or shares of equivalent value with a potential limitation on the total amount of cash that shareholders can elect to receive in the aggregate. The amendments in this update clarify that the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in earnings per share prospectively and is not a stock dividend for purposes of applying Topics 505 and 260 (Equity and Earnings Per Share). Those distributions should be accounted for and included in earnings per share calculations in accordance with paragraphs 480-10-25-14 and 260-10-45-45 through 45-47 of the FASB Accounting Standards Codification. The amendments in this update are effective on a retrospective basis for interim and annual periods ending on or after December 15, 2009, the year ending December 31, 2009 for us. The adoption of this new guidance did not impact our financial position or results of operations.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Fluctuating commodity prices affect market risk in our recycling segment. We mitigate this risk by selling our product on a monthly contract basis. Each month we negotiate selling prices for all commodities. Based on these monthly agreements, we determine purchase prices based on a margin needed to cover processing and administrative expenses.

We are exposed to commodity price risk, mainly associated with variations in the market price for ferrous and nonferrous metal, and other commodities. The timing and magnitude of industry cycles are difficult to predict and are impacted by general economic conditions. We respond to changes in recycled metal selling prices by adjusting purchase prices on a timely basis and by turning rather than holding inventory in expectation of higher prices. However, financial results may be negatively impacted where selling prices fall more quickly than purchase price adjustments can be made or when levels of inventory have an anticipated net realizable value that is below average cost.

We are exposed to interest rate risk on our floating rate borrowings. On April 13, 2010, we entered into a Loan Agreement with BB&T and BB&T Bankcard Corporation pursuant to which the Bank agreed to provide the Company a revolving credit facility in the amount of \$20,000,000 for the purpose of replacing the Company's existing \$12,000,000 promissory note to the Bank and the Company's existing \$10,000,000 senior revolving credit facility with the Bank. In addition, Company, the Bank and certain other parties entered into a Modification and Cross-Collateralization Agreement pursuant to which the Company and the Bank modified the Company's existing \$5,000,000 term loan to the Bank. Proceeds of the new revolving credit facility in the amount of \$17.7 million were used to repay the outstanding principal balance of the \$12,000,000 promissory note and the amount outstanding under the prior credit facility and to pay closing costs. See Note 4 Long Term Debt in the Notes to Condensed Consolidated Financial Statements for additional information on the new loan agreement and modification of the \$5,000,000 term loan. Based on our average anticipated borrowings under our credit agreements in fiscal 2010, a hypothetical increase or decrease in the LIBOR rate by 1% would increase or decrease interest expense on our variable borrowings by 1% of the outstanding balance, with a corresponding change in cash flows.

We entered into three interest rate swap agreements swapping variable rates for fixed rates. The first swap agreement covers \$5.5 million in debt and commenced April 7, 2009 and matures on April 7, 2014. The second

Edgar Filing: INDUSTRIAL SERVICES OF AMERICA INC /FL - Form 10-Q

swap agreement covers approximately \$2.5 million in debt and commenced October 15, 2008 and matures on May 7, 2013. The third swap agreement covers approximately \$535,000 in debt and commenced October 22, 2008 and matures on October 22, 2013. The three swap agreements fix our interest rate at approximately 5.8%. At June 30, 2010, we recorded the estimated fair value of the liability related to the three swaps as approximately \$724,000. Accounting rules require us to recognize all derivatives on the balance sheet at estimated fair value. We have designated these agreements as a cash flow hedge.

We are exposed to market risk from changes in interest rates in the normal course of business. Our interest income and expense are most sensitive to changes in the general level of U.S. interest rates and the LIBOR rate. In order to manage this exposure, we use a combination of debt instruments, including the use of derivatives in the form of interest rate swap agreements. We do not enter into any derivatives for trading purposes. The use of the interest rate swap agreement is intended to convert the variable rate to a fixed rate.

ITEM 4: CONTROLS AND PROCEDURES

(a) Disclosure controls and procedures.

ISA's management, including ISA's principal executive officer and principal financial officer, have evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934. Based upon their evaluation, our principal executive officer and principal financial officer concluded that, as of June 30, 2010, ISA's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that ISA files under the Exchange Act with the Securities and Exchange Commission (1) is recorded, processed, summarized and reported within the time periods specific in the SEC's rules and forms, and (2) is accumulated and communicated to ISA's management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding the required disclosure.

(b) Changes to internal control over financial reporting

There were no changes in ISA's internal control over financial reporting during the three months ended June 30, 2010 that have materially affected, or are reasonably likely to affect ISA's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

On January 4, 2007, Lennox Industries, Inc., a commercial heating and air-conditioning manufacturer, filed a suit against us in Lennox Industries, Inc. v. Industrial Services of America, Inc., Case No. CV-2007-004 in the Arkansas County, Arkansas Circuit court in Stuttgart, Arkansas. Lennox in its Second Amended Complaint currently alleges breach of contract, negligence, and breach of fiduciary duty arising from our alleged miscategorization of Lennox's scrap metal and mismanagement of the scrap metal recycling operations at three Lennox plants during the contract period April 18, 2001 through November 2005.

We filed a Motion for Summary Judgment in October, 2009, which the court denied in February, 2010. Discovery by the parties is still ongoing. There are currently no dates set for either a mediation or a jury trial. We are vigorously defending all of Lennox's claims as we believe the claims to be without merit.

Item 1A. Risk Factors

We have had no material changes from the risk factors reported in our Form 10-K for the year ended December 31, 2009, as filed with the Securities and Exchange Commission on March 22, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On November 15, 2005, our Board of Directors authorized a program to repurchase up to 300,000 shares of our common stock at current market prices. No shares were repurchased in 2010 or 2009. In 2008, we repurchased 83,411 shares. In 2007, we repurchased 60,000 shares. In 2006, we repurchased 8,264 shares, and in 2005 we repurchased 15,000 shares.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as part of Publicly Announced Plans or Programs	Maximum Number of Shares that may yet be Purchased Under the Plans or Programs
Mar-08	29,630	\$ 5.5215	112,893	187,107
Jun-08	14,781	\$ 7.6113	127,674	172,326
Sept-08	39,000	\$ 6.5268	166,674	133,326

Item 3. Defaults upon Senior Securities

None.

Item 4. Removed and Reserved

Item 5. Other Information

None.

Item 6. Exhibits

See exhibit index.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Date: August 9, 2010
