### FORWARD LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 contains safe harbor provisions regarding forward-looking statements. When used in this discussion, the words "believes," "anticipates," "contemplates," "expects," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those projected. Those risks and uncertainties as detailed in Item 1A include:

- o our ability to effectively manage future growth
- o loan losses in excess of our allowance
- o risks inherent in commercial lending
- o real estate collateral which is subject to declines in value
- o regional economic factors
- o loss of senior officers
- o comparatively low legal lending limits
- o limited market for the Company's stock
- o restrictions on ability to pay dividends
- o common stock may lose value
- o competitive environment
- o issuing additional shares may dilute ownership
- o extensive and complex governmental regulation and associated cost
- o interest rate risks

Norwood Financial Corp. undertakes no obligation to publicly release the results of any revisions to those forward-looking statements which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

### ITEM 1. BUSINESS

-----

#### GENERAL

Norwood Financial Corp. (the "Company"), a Pennsylvania corporation, is the holding company for Wayne Bank. On March 29, 1996, the Bank completed a holding company reorganization and became a wholly owned subsidiary of the Company. As of December 31, 2006, the Company had total assets of \$454.4 million, deposits of \$358.1 million, and stockholders' equity of \$52.2 million. The Company's ratio of average equity to average assets was 11.23%, 11.19% and 11.15% for fiscal years, 2006, 2005 and 2004, respectively

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

Wayne Bank is a Pennsylvania chartered commercial bank headquartered in Honesdale, Pennsylvania. The Bank was originally chartered on February 17, 1870 as Wayne County Savings Bank. Wayne County Savings Bank changed its name to Wayne County Bank and Trust in December 1943. In September 1993, the Bank adopted the name Wayne Bank. The Bank's deposits are currently insured to applicable limits by the Deposit Insurance Fund ("DIF") as administered by the Federal Deposit Insurance Corporation ("FDIC"). The Bank is regulated by the Pennsylvania Department of Banking ("PDB") and the FDIC.

2

The Bank is an independent community bank with six offices in Wayne County, three offices in Pike County and three offices in Monroe County. The Bank offers a wide variety of personal and business credit services and trust and investment products and real estate settlement services to the consumers, businesses, nonprofit organizations, and municipalities in each of the communities that the Bank serves. The Bank primarily serves the Pennsylvania counties of Wayne, Pike and Monroe, and to a much lesser extent, the counties of Lackawanna and Susquehanna. In addition, the Bank operates twelve automated teller machines, one in each of its branch locations. The Company's main office is located at 717 Main Street, Honesdale, Pennsylvania and its telephone number is (570) 253-1455. The Bank maintains a website at [www.waynebank.com](http://www.waynebank.com).

### COMPETITION

The competition for deposit products comes from other insured financial institutions such as commercial banks, thrift institutions, credit unions, and multi-state regional banks in the Company's market area of Wayne, Pike and Monroe Counties, Pennsylvania. Based on data compiled by the FDIC as of June 30, 2006 (the latest date for which data is available), the Bank had the third largest share of FDIC-insured deposits in Wayne County with approximately 20.5%, second in Pike County with 18.5%, and 12th in Monroe County with 1.3%. This data does not reflect deposits held by credit unions with which the Bank also competes. Deposit competition also includes a number of insurance products sold by local agents and investment products such as mutual funds and other securities sold by local and regional brokers. Loan competition varies depending upon market conditions and comes from other insured financial institutions such as commercial banks, thrift institutions, credit unions, multi-state regional banks, and mortgage bankers.

### PERSONNEL

As of December 31, 2006, the Bank had 117 full-time and 5 part-time employees. None of the Bank's employees are represented by a collective bargaining group.

### LENDING ACTIVITIES

The Bank's loan products include loans for personal and business use. This includes mortgage lending to finance principal residences as well as second home dwellings. The products include adjustable rate mortgages with terms up to 30 years which are retained and serviced through the Bank, fixed rate mortgage products which may be sold, servicing retained, in the secondary market through the Federal National Mortgage Association (Fannie Mae) or held in the Bank's portfolio subject to the extent consistent with our asset/liability management strategies. Fixed-rate home equity loans are originated on terms up to 180 months, as well as offering a home equity line of credit tied to prime rate. The Bank to a lesser extent also offers indirect dealer financing of automobiles (new and used), boats, and recreational vehicles through a limited network of dealers in Northeast Pennsylvania.

Commercial loans and commercial mortgages are provided to local small and

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

mid-sized businesses at a variety of terms and rate structures. Commercial lending activities include lines of credit, revolving credit, term loans, mortgages, various forms of secured lending and a limited amount of letter of credit facilities. The structure may be fixed, immediately repricing tied to the prime rate or adjustable at set intervals.

Adjustable-rate loans decrease the risks associated with changes in interest rates by periodically repricing, but involve other risks because as interest rates increase, the underlying payments by the borrower increase, thus increasing the potential for payment default. At the same time, the

3

marketability of the underlying collateral may be adversely affected by higher interest rates. Upward adjustment of the contractual interest rate may also be limited by the maximum periodic interest rate adjustment permitted in certain adjustable-rate mortgage loan documents, and, therefore is potentially limited in effectiveness during periods of rapidly rising interest rates. These risks have not had an adverse effect on the Bank.

Consumer lending, including indirect financing provides benefits to the Bank's asset/liability management program by reducing the Bank's exposure to interest rate changes, due to their generally shorter terms. Such loans may entail additional credit risks compared to owner-occupied residential mortgage lending. As a result, the Bank has de-emphasized the indirect lending product line.

Commercial lending including real-estate related loans entail significant additional risks when compared with residential real estate and consumer lending. For example, commercial loans typically involve larger loan balances to single borrowers or groups of related borrowers. The payment experience on such loans typically is dependent on the successful operation of the project and these risks can be significantly impacted by the cash flow of the borrowers and market conditions for commercial office, retail, and warehouse space. In periods of decreasing cash flows, the commercial borrower may permit a lapse in general maintenance of the property causing the value of the underlying collateral to deteriorate. The liquidation of commercial property is often more costly and may involve more time to sell than residential real estate. The Bank offsets such factors with requiring more owner equity, a lower loan to value ratio and by obtaining the personal guaranties of the principals. In addition, a majority of the Bank's commercial real estate portfolio is owner occupied property.

Due to the type and nature of the collateral, consumer lending generally involves more credit risk when compared with residential real estate lending. Consumer lending collections are typically dependent on the borrower's continuing financial stability, and thus, are more likely to be adversely affected by job loss, divorce, illness and personal bankruptcy. In most cases, any repossessed collateral for a defaulted consumer loan will not provide an adequate source of repayment of the outstanding loan balance. The remaining deficiency is usually turned over to a collection agency.

There are additional risks associated with indirect automobile lending since we must rely on the automobile dealer to provide accurate information to us and accurate disclosures to the borrowers. These loans are principally done on a non-recourse basis. We seek to mitigate these risks by only dealing with dealers with whom we have a long-standing relationship.

### LOAN SOLICITATION AND PROCESSING

The Bank has established various lending limits for its officers and also maintains an Officer Loan Committee to approve higher loan amounts. The loan committee is comprised of the President and Chief Executive Officer, Senior

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

Lending Officer and other Bank officers. The Loan Committee has the authority to approve all loans up to set limits based on the type of loan and the collateral. Requests in excess of these limits must be submitted to the Directors' Loan Committee or Board of Directors for approval. Additionally, the President and Chief Executive Officer, and the Senior Lending Officer and other officers have the authority to approve secured and unsecured loans up to amounts approved by the Board of Directors and maintained in the Bank's Loan Policy. Notwithstanding individual lending authority, certain loan policy exceptions must be submitted to the loan committee for approval.

4

Hazard insurance coverage is required on all properties securing loans made by the Bank. Flood insurance is also required, when applicable.

Loan applicants are notified of the credit decision by letter. If the loan is approved, the loan commitment specifies the terms and conditions of the proposed loan including the amount, interest rate, amortization term, a brief description of the required collateral, and the required insurance coverage. The borrower must provide proof of fire, flood (if applicable) and casualty insurance on the property serving as collateral and title insurance, and these applicable insurances must be maintained during the full term of the loan.

5

TYPES OF LOANS. Set forth below is selected data relating to the composition of the Bank's loan portfolio at the dates indicated.

NON-PERFORMING ASSETS. The following table sets forth information regarding non-accrual loans, foreclosed real estate owned and loans that are 90 days or more delinquent but on which the Bank was accruing interest at the dates indicated. The Bank did not have any loans accounted for as troubled debt restructurings at the dates indicated. For the year ended December 31, 2006, interest income that would have been recorded on loans accounted for on a non-accrual basis under the original terms of such loans was \$37,000 of which \$8,000 was collected.

7

	As of December 31		
	2006 -----	2005 -----	2004 -----
	(dollars in thousand)

### INVESTMENT ACTIVITIES

-----

GENERAL. The Company maintains a portfolio of investment securities consisting principally of obligations of the U.S. Government and its agencies including mortgage-backed securities and obligations of states, counties and municipalities including school districts. To a lesser extent, the Company also has corporate debt obligations in the portfolio as well as a portfolio of equity instruments of other financial services companies. The Company considers its investment portfolio a source of earnings and liquidity.

SECURITIES PORTFOLIO. Carrying values of securities at the dates indicated are as follows:

	As of December 31,		
(dollars in thousands)	2006	2005	2004
	-----	-----	-----

MATURITY DISTRIBUTION OF SECURITIES. The following table sets forth certain information regarding carrying values, weighted average yields, and maturities of the Company's securities portfolio as of December 31, 2006. Yields on tax-exempt securities are stated on a fully taxable equivalent basis using a Federal tax rate of 34%. Actual maturities may differ from contractual maturities as certain instruments have call features which allow prepayment of obligations. Maturity on the mortgage-backed securities is based upon contractual terms, the average life may differ as a result of changes in cash flow. Equity securities with no stated maturity are classified as "one year or less."

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

DEPOSIT ACTIVITIES.

GENERAL. The Bank provides a full range of deposit products to its retail and business customers. These include interest-bearing and noninterest bearing transaction accounts, statement savings and money market accounts. Certificate of deposit terms range up to 5 years for retail instruments. The Bank participates in Jumbo CD (\$100,000 and over) markets with local municipalities and school districts which are typically priced on a competitive bid basis. Other services the Bank offers its customers on a limited basis include cash management, direct deposit and Automated Clearing House (ACH) activity. The Bank operates twelve automated teller machines and is affiliated with the STAR ATM network. Internet banking including bill-pay is offered through the website at www.waynebank.com.

The following table sets forth information regarding deposit categories of the Company.

(dollars in thousands)	2006		2005		Balance

SHORT-TERM BORROWINGS

The following table sets forth information concerning short-term borrowings (those maturing within one year) which consist principally of securities sold under agreements to repurchase, federal funds purchased and U.S. Treasury demand notes, that the Company had during the periods indicated.

(dollars in thousands)

Years ended December 31,

	-----	-----	-----
	2006	2005	2004
	-----	-----	-----

Short term borrowings:

Average balance during the year .....	\$22,209	\$15,059	\$12,965
Maximum month-end balance during the year .....	29,677	24,956	22,982
Average interest rate during the year .....	4.39%	2.76%	1.17%
Total short-term borrowings at end of the year .....	\$22,736	\$18,564	\$22,982
Weighted average interest rate at the end of the year	4.20%	3.76%	1.83%

TRUST ACTIVITIES

The Bank operates a Wealth Management/Trust Department which provides estate planning, investment management and financial planning to customers for which it is generally compensated based on a percentage of assets under management. As of December 31, 2006, the Bank had \$96.9 million of assets under management compared to \$87.0 million as of December 31, 2005.

SUBSIDIARY ACTIVITIES

The Bank, a Pennsylvania chartered bank, is the only wholly owned subsidiary of the Company. Norwood Investment Corp. (NIC), a Pennsylvania Corporation incorporated in 1996, a Pennsylvania licensed insurance agency, is a wholly-owned subsidiary of the Bank. NIC's business is annuity and mutual fund sales and discount brokerage activities primarily to customers of the Bank. The annuities, mutual funds and other investment products are not insured by the FDIC or any other government agency. They are not deposits, obligations of or guaranteed by any bank. The securities are offered through Invest Financial a registered broker/dealer. NIC had sales volume of \$10.1 million in 2006, generating gross revenues for the Company of \$131,000, compared to \$150,000 in

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

2005 included in Other Income.

WCB Realty Corp., a Pennsylvania Corporation, is a wholly-owned real estate subsidiary of the Bank whose principal asset is the administrative offices of the Company, which also includes the Main Office of the Bank.

WTRO Properties Inc., a Pennsylvania Corporation, is a wholly-owned real estate subsidiary of the Bank established to hold title to certain real estate upon which the Bank has foreclosed. WTRO did not hold title to any property as of December 31, 2006 and 2005.

Norwood Settlement Services, LLC, a Pennsylvania Limited Liability Company, was established in 2004 to provide title and settlement service to bank customers and non-customers. The subsidiary is 70% owned by Wayne Bank and 30% owned by Title Strategies, LLC. Gross revenues, included in other income, for 2006 totaled \$37,000 and \$26,000 in 2005.

14

### REGULATION

Set forth below is a brief description of certain laws which relate to the regulation of the Registrant and the Bank. The description does not purport to be complete and is qualified in its entirety by reference to applicable laws and regulations.

#### REGULATION OF THE COMPANY

GENERAL. The Company, as a bank holding company under the Bank Holding Company Act of 1956, as amended ("BHCA"), is subject to regulation and supervision by the Board of Governors of the Federal Reserve System ("Federal Reserve") and by the Pennsylvania Department of Banking (the "Department"). The Company is required to file annually a report of its operations with, and is subject to examination by, the Federal Reserve and the Department. This regulation and oversight is generally intended to ensure that the Company limits its activities to those allowed by law and that it operates in a safe and sound manner without endangering the financial health of its subsidiary banks.

Under the BHCA, the Company must obtain the prior approval of the Federal Reserve before it may acquire control of another bank or bank holding company, merge or consolidate with another bank holding company, acquire all or substantially all of the assets of another bank or bank holding company, or acquire direct or indirect ownership or control of any voting shares of any bank or bank holding company if, after such acquisition, the bank holding company would directly or indirectly own or control more than 5% of such shares.

Federal statutes impose restrictions on the ability of a bank holding company and its nonbank subsidiaries to obtain extensions of credit from its subsidiary bank, on the subsidiary bank's investments in the stock or securities of the holding company, and on the subsidiary bank's taking of the holding company's stock or securities as collateral for loans to any borrower. A bank holding company and its subsidiaries are also prevented from engaging in certain tie-in arrangements in connection with any extension of credit, lease or sale of property, or furnishing of services by the subsidiary bank.

A bank holding company is required to serve as a source of financial and managerial strength to its subsidiary banks and may not conduct its operations in an unsafe or unsound manner. In addition, it is the policy of the Federal Reserve that a bank holding company should stand ready to use available resources to provide adequate capital to its subsidiary banks during periods of financial stress or adversity and should maintain the financial flexibility and

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

capital-raising capacity to obtain additional resources for assisting its subsidiary banks. A bank holding company's failure to meet its obligations to serve as a source of strength to its subsidiary banks will generally be considered by the Federal Reserve to be an unsafe and unsound banking practice or a violation of the Federal Reserve regulations, or both.

**NON-BANKING ACTIVITIES.** The business activities of the Company, as a bank holding company, are restricted by the BHCA. Under the BHCA and the Federal Reserve's bank holding company regulations, the Company may only engage in, or acquire or control voting securities or assets of a company engaged in, (1) banking or managing or controlling banks and other subsidiaries authorized under the BHCA and (2) any BHCA activity the Federal Reserve has determined to be so closely related to banking or managing or controlling banks to be a proper incident thereto. These include any incidental activities necessary to carry on those activities, as

15

well as a lengthy list of activities that the Federal Reserve has determined to be so closely related to the business of banking as to be a proper incident thereto.

**FINANCIAL MODERNIZATION.** The Gramm-Leach-Bliley Act, permits greater affiliation among banks, securities firms, insurance companies, and other companies under a new type of financial services company known as a "financial holding company." A financial holding company essentially is a bank holding company with significantly expanded powers. Financial holding companies are authorized by statute to engage in a number of financial activities previously impermissible for bank holding companies, including securities underwriting, dealing and market making; sponsoring mutual funds and investment companies; insurance underwriting and agency; and merchant banking activities. The Act also permits the Federal Reserve and the Treasury Department to authorize additional activities for financial holding companies if they are "financial in nature" or "incidental" to financial activities. A bank holding company may become a financial holding company if each of its subsidiary banks is well capitalized, well managed, and has at least a "satisfactory" CRA rating. A financial holding company must provide notice to the Federal Reserve within 30 days after commencing activities previously determined by statute or by the Federal Reserve and Department of the Treasury to be permissible. The Company has not submitted notice to the Federal Reserve of its intent to be deemed a financial holding company.

**REGULATORY CAPITAL REQUIREMENTS.** The Federal Reserve has adopted capital adequacy guidelines pursuant to which it assesses the adequacy of capital in examining and supervising a bank holding company and in analyzing applications to it under the Bank Holding Company Act. The Federal Reserve's capital adequacy guidelines are similar to those imposed on the Bank by the Federal Deposit Insurance Corporation. See "Regulation of the Bank-Regulatory Capital Requirements."

### REGULATION OF THE BANK

**GENERAL.** As a Pennsylvania chartered, insured commercial bank, the Bank is subject to extensive regulation and examination by the Department and by the FDIC, which insures its deposits to the maximum extent permitted by law. The federal and state laws and regulations applicable to banks regulate, among other things, the scope of their business, their investments, the reserves required to be kept against deposits, the timing of the availability of deposited funds and the nature and amount of collateral for certain loans. The laws and regulations governing the Bank generally have been promulgated to protect depositors and not for the purpose of protecting stockholders. This regulatory

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

structure also gives the federal and state banking agencies extensive discretion in connection with their supervisory and enforcement activities and examination policies, including policies with respect to the classification of assets and the establishment of adequate loan loss reserves for regulatory purposes. Any change in such regulation, whether by the Department, the FDIC or the United States Congress, could have a material impact on the Company, the Bank and their operations.

PENNSYLVANIA BANKING LAW. The Pennsylvania Banking Code ("Banking Code") contains detailed provisions governing the organization, location of offices, rights and responsibilities of directors, officers, and employees, as well as corporate powers, savings and investment operations and other aspects of the Bank and its affairs. The Banking Code delegates extensive rule-making power and administrative discretion to the Department so that the supervision and regulation of state chartered banks may be flexible and readily responsive to changes in economic conditions and in savings and lending practices.

The Federal Deposit Insurance Corporation Act ("FDIA"), however, prohibits state chartered banks from making new investments, loans, or becoming involved in activities as principal and equity investments which are not permitted for national banks unless (1) the FDIC determines the activity or investment does not pose a

16

significant risk of loss to the BIF and (2) the bank meets all applicable capital requirements. Accordingly, the additional operating authority provided to the Bank by the Banking Code is significantly restricted by the FDIA.

FEDERAL DEPOSIT INSURANCE. The FDIC is an independent federal agency that insures the deposits, up to prescribed statutory limits, of federally insured banks and savings institutions and safeguards the safety and soundness of the banking and savings industries. The FDIC previously administered two separate insurance funds, the Bank Insurance Fund (BIF), which generally insured commercial bank and state savings bank deposits, and the Savings Insurance Fund ("SAIF"), which generally insured savings association deposits.

Under the Federal Deposit Insurance Reform Act of 2005 (The "Reform Act"), which was signed into law on February 15, 2006 (i) the Bank Insurance Fund and the Savings Association Insurance Fund were merged into a new combined fund, called the Deposit Insurance Fund effective March 31, 2006, (ii) the current \$100,000 deposit insurance coverage will be indexed for inflation (with adjustments every five years, commencing January 1, 2011); and (iii) deposit insurance coverage for retirement accounts were increased to \$250,000 per participant subject to adjustment for inflation. The FDIC has been given greater latitude in setting the assessment rates for insured depository institutions which could be used to impose minimum assessments.

The FDIC is authorized to set the reserve ratios for the Deposit Insurance Fund annually at between 1.15% and 1.5% of estimated insured deposits. If the Deposit Insurance Fund's reserves exceed the designated reserve ratio, the FDIC is required to pay out all or, if the reserve ratio is less than 1.5%, a portion of the excess as a dividend to insured depository institutions based on the percentage of insured deposits held on December 31, 1996 adjusted for subsequently paid premiums. Insured depository institutions that were in existence on December 31, 1996 and paid assessments prior to that date (or their successors) are entitled to a one-time credit against future assessments based on their past contributions to the BIF or SAIF.

Pursuant to the Reform Act, the FDIC has determined to maintain the

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

designated reserve ratio at its current 1.25%. The FDIC has also adopted a new risk-based premium system that provides for quarterly assessments based on an insured institution's ranking in one of four risk categories based on their examination ratings and capital ratios. Beginning in 2007, well-capitalized institutions with the CAMELS ratings of 1 or 2 will be grouped in Risk Category I and will be assessed for deposit insurance at an annual rate of between five and seven basis points with the assessment rate for an individual institution to be determined according to a formula based on a weighted average of the institution's individual CAMEL component ratings plus either five financial ratios or the average ratings of its long-term debt. Institutions in Risk Categories II, III and IV will be assessed at annual rates of 10, 28 and 43 basis points, respectively. The Bank anticipates that it will be able to offset its deposit insurance premium for 2007 with the special assessment credit.

In addition, all insured institutions of the FDIC are required to pay assessments to fund interest payments on bonds issued by the Financing Corporation, an agency of the Federal government established to finance resolutions of insolvent thrifts. These assessments, the current quarterly rate of which is approximately .0154 of insured deposits, will continue until the Financing Corporation bonds mature in 2017.

**REGULATORY CAPITAL REQUIREMENTS.** The FDIC has promulgated capital adequacy requirements for state-chartered banks that, like the Bank, are not members of the Federal Reserve System. At December 31, 2006, the Bank exceeded all regulatory capital requirements and was classified as "well capitalized."

The FDIC's capital regulations establish a minimum 3% Tier I leverage capital requirement for the most highly-rated state-chartered, non-member banks, with an additional cushion of at least 100 to 200 basis points for all other state-chartered, non-member banks, which effectively increases the minimum Tier I leverage ratio for

17

such other banks to 4% to 5%. Under the FDIC's regulation, the highest-rated banks are those that the FDIC determines are not anticipating or experiencing significant growth and have well diversified risk, including no undue interest rate risk exposure, excellent asset quality, high liquidity, good earnings and, in general, which are considered a strong banking organization, rated composite 1 under the Uniform Financial Institutions Rating System. Tier I or core capital is defined as the sum of common stockholders' equity (including retained earnings), noncumulative perpetual preferred stock and related surplus, and minority interests in consolidated subsidiaries, minus all intangible assets other than certain servicing and purchased credit card relationships, and minus certain other listed assets.

The FDIC's regulations also require that state-chartered, non-member banks meet a risk-based capital standard. The risk-based capital standard requires the maintenance of total capital (which is defined as Tier I capital and supplementary (Tier 2) capital) to risk weighted assets of 8%. In determining the amount of risk-weighted assets, all assets, plus certain off balance sheet assets, are multiplied by a risk-weight of 0% to 100%, based on the risks the FDIC believes are inherent in the type of asset or item. The components of Tier I capital for the risk-based standards are the same as those for the leverage capital requirement. The components of supplementary (Tier 2) capital include cumulative perpetual preferred stock, mandatory subordinated debt, perpetual subordinated debt, intermediate-term preferred stock, up to 45% of unrealized gains on equity securities and a bank's allowance for loan and lease losses. Allowance for loan and lease losses includable in supplementary capital is limited to a maximum of 1.25% of risk-weighted assets. Overall, the amount of supplementary capital that may be included in total capital is limited to 100%

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

of Tier I capital.

A bank that has less than the minimum leverage capital requirement is subject to various capital plan and activities restriction requirements. The FDIC's regulations also provide that any insured depository institution with a ratio of Tier I capital to total assets that is less than 2.0% is deemed to be operating in an unsafe or unsound condition pursuant to Section 8(a) of the FDIA and could be subject to potential termination of deposit insurance.

The Bank is also subject to minimum capital requirements imposed by the Department on Pennsylvania-chartered depository institutions. Under the Department's capital regulations, a Pennsylvania bank or savings bank must maintain a minimum leverage ratio of Tier 1 capital (as defined under the FDIC's capital regulations) to total assets of 4%. In addition, the Department has the supervisory discretion to require a higher leverage ratio for any institutions based on the institution's substandard performance in any of a number of areas. The Bank was in compliance in both the FDIC and Pennsylvania capital requirements as of December 31, 2006.

**AFFILIATE TRANSACTION RESTRICTIONS.** Federal laws strictly limit the ability of banks to engage in transactions with their affiliates, including their bank holding companies. In particular loans by a subsidiary bank and its parent company or the nonbank subsidiaries of the bank holding company are limited to 10% of a bank subsidiary's capital and surplus and, with respect to such parent company and all such nonbank subsidiaries, to an aggregate of 20% of the bank subsidiary's capital and surplus. Further, loans and other extensions of credit generally are required to be secured by eligible collateral in specified amounts. Federal law also requires that all transactions between a bank and its affiliates be on terms as favorable to the bank as transactions with non-affiliates.

**LOANS TO ONE BORROWER.** Under Pennsylvania law, commercial banks have, subject to certain exemptions, lending limits to one borrower in an amount equal to 15% of the institution's capital accounts. An institution's capital account includes the aggregate of all capital, surplus, undivided profits, capital securities and general reserves for loan losses. Pursuant to the national bank parity provisions of the Pennsylvania Banking Code, the Bank may also lend up to the maximum amounts permissible for national banks, which are allowed to

18

make loans to one borrower of up to 25% of capital and surplus in certain circumstances. As of December 31, 2006, loans-to-one-borrower limitation was \$8.2 million and the Bank was in compliance with such limitation.

**FEDERAL HOME LOAN BANK SYSTEM.** The Bank is a member of the FHLB of Pittsburgh, which is one of 12 regional FHLBs. Each FHLB serves as a reserve or central bank for its members within its assigned region. It is funded primarily from funds deposited by member institutions and proceeds from the sale of consolidated obligations of the FHLB System. It makes loans to members (i.e., advances) in accordance with policies and procedures established by the Board of Trustees of the FHLB.

As a member, the Bank is required to purchase and maintain stock in the FHLB of Pittsburgh in an amount equal to the greater of 1% of its aggregate unpaid residential mortgage loans, home purchase contracts or similar obligations at the beginning of each year or 5% of the Bank's outstanding advances from the FHLB. At December 31, 2006, the Bank was in compliance with this requirement.

**FEDERAL RESERVE SYSTEM.** The Federal Reserve requires all depository

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

institutions to maintain non-interest bearing reserves at specified levels against their transaction accounts (primarily checking and NOW accounts) and non-personal time deposits. The balances maintained to meet the reserve requirements imposed by the Federal Reserve may be used to satisfy the liquidity requirements that are imposed by the Department. At December 31, 2006, the Bank met its reserve requirements.

RESTRICTIONS ON DIVIDENDS. The Pennsylvania Banking Code states, in part, that dividends may be declared and paid only out of accumulated net earnings and may not be declared or paid unless surplus (retained earnings) is at least equal to contributed capital. The Bank has not declared or paid any dividends which cause the Bank's retained earnings to be reduced below the amount required. Finally, dividends may not be declared or paid if the Bank is in default in payment of any assessment due the FDIC.

The Federal Reserve has issued a policy statement on the payment of cash dividends by bank holding companies, which expresses the Federal Reserve's view that a bank holding company should pay cash dividends only to the extent that the holding company's net income for the past year is sufficient to cover both the cash dividends and a rate of earnings retention that is consistent with the holding company's capital needs, asset quality and overall financial condition. The Federal Reserve also indicated that it would be inappropriate for a company experiencing serious financial problems to borrow funds to pay dividends. Furthermore, under the federal prompt corrective action regulations, the Federal Reserve may prohibit a bank holding company from paying any dividends if the holding company's bank subsidiary is classified as "undercapitalized."

### ITEM 1A. RISK FACTORS

-----

In determining whether to invest in our securities, investors should consider, among other factors, the following:

19

#### RISKS RELATED TO OUR BUSINESS

OUR SUCCESS WILL DEPEND UPON OUR ABILITY TO EFFECTIVELY MANAGE OUR FUTURE GROWTH.

We believe that we have in place the management and systems, including data processing systems, internal controls and a strong credit culture, to support continued growth. However, our continued growth and profitability depend on the ability of our officers and key employees to manage such growth effectively, to attract and retain skilled employees and to maintain adequate internal controls and a strong credit culture. Accordingly, there can be no assurance that we will be successful in managing our expansion, and the failure to do so would adversely affect our financial condition and results of operations.

IF WE EXPERIENCE LOAN LOSSES IN EXCESS OF OUR ALLOWANCE, OUR EARNINGS WILL BE ADVERSELY AFFECTED.

The risk of credit losses on loans varies with, among other things, general economic conditions, the type of loan being made, the creditworthiness of the borrower over the term of the loan and, in the case of a collateralized loan, the value and marketability of the collateral for the loan. Management maintains an allowance for loan losses based upon, among other things, historical experience, an evaluation of economic conditions and regular reviews of delinquencies and loan portfolio quality. Based upon such factors, management makes various assumptions and judgments about the ultimate collectibility of the loan portfolio and provides an allowance for loan losses based upon a percentage

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

of the outstanding balances and for specific loans when their ultimate collectibility is considered questionable. If management's assumptions and judgments prove to be incorrect and the allowance for loan losses is inadequate to absorb future losses, or if the bank regulatory authorities require us to increase the allowance for loan losses as a part of their examination process, our earnings and capital could be significantly and adversely affected.

As of December 31, 2006, our allowance for loan losses was \$3,828,000 which represented 1.21% of outstanding loans. At such date, we had 10 nonperforming loans totaling \$409,000. We actively manage our nonperforming loans in an effort to minimize credit losses. Although management believes that its allowance for loan losses is adequate, there can be no assurance that the allowance will prove sufficient to cover future loan losses. Further, although management uses the best information available to make determinations with respect to the allowance for loan losses, future adjustments may be necessary if economic conditions differ substantially from the assumptions used or adverse developments arise with respect to our non-performing or performing loans. Material additions to our allowance for loan losses would result in a decrease in our net income and capital, and could have a material adverse effect on our financial condition and results of operations.

MOST OF OUR LOANS ARE TO COMMERCIAL BORROWERS, WHICH HAVE A HIGHER DEGREE OF RISK THAN OTHER TYPES OF LOANS.

Commercial loans are often larger and may involve greater risks than other types of lending. Because payments on such loans are often dependent on the successful operation of the property or business involved, repayment of such loans may be more sensitive than other types of loans to adverse conditions in the real estate market or the economy. Unlike residential mortgage loans, which generally are made on the basis of the borrower's ability to make repayment from his or her employment and other income and which are secured by real property whose value tends to be more easily ascertainable, commercial loans typically are made on the basis of the borrower's ability to make repayment from the cash flow of the borrower's business. As a result, the availability of funds for the repayment of commercial loans may be substantially dependent on the success of the business itself and

20

the general economic environment. If the cash flow from business operations is reduced, the borrower's ability to repay the loan may be impaired.

MOST OF OUR LOANS ARE SECURED, IN WHOLE OR IN PART, WITH REAL ESTATE COLLATERAL WHICH IS SUBJECT TO DECLINES IN VALUE.

In addition to the financial strength and cash flow characteristics of the borrower in each case, we often secure our loans with real estate collateral. As of December 31, 2006, approximately 82% of our loans, had real estate as a primary, secondary or tertiary component of collateral. Real estate values and real estate markets are generally affected by, among other things, changes in national, regional or local economic conditions, fluctuations in interest rates and the availability of loans to potential purchasers, changes in tax laws and other governmental statutes, regulations and policies, and acts of nature. The real estate collateral in each case provides an alternate source of repayment in the event of default by the borrower. If real estate prices in our markets decline, the value of the real estate collateral securing our loans could be reduced. If we are required to liquidate the collateral securing a loan during a period of reduced real estate values to satisfy the debt, our earnings and capital could be adversely affected.

OUR BUSINESS IS GEOGRAPHICALLY CONCENTRATED AND IS SUBJECT TO REGIONAL ECONOMIC

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

### FACTORS THAT COULD HAVE AN ADVERSE IMPACT ON OUR BUSINESS.

Substantially all of our business is with customers in our market area of Northeastern Pennsylvania. Most of our customers are consumers and small and medium-sized businesses which are dependent upon the regional economy. Adverse changes in economic and business conditions in our markets could adversely affect our borrowers, their ability to repay their loans and to borrow additional funds, and consequently our financial condition and performance.

Additionally, we often secure our loans with real estate collateral, most of which is located in Northeastern Pennsylvania. A decline in local economic conditions could adversely affect the values of such real estate. Consequently, a decline in local economic conditions may have a greater effect on our earnings and capital than on the earnings and capital of larger financial institutions whose real estate loan portfolios are geographically diverse.

### THE LOSS OF SENIOR EXECUTIVE OFFICERS AND CERTAIN OTHER KEY PERSONNEL COULD HURT OUR BUSINESS.

Our success depends, to a great extent, upon the services of William W. Davis, Jr., our President and Chief Executive Officer, and Lewis J. Critelli, our Executive Vice President and Chief Financial Officer. Although we have employment agreements with non-compete provisions with Messrs. Davis and Critelli, the existence of such agreements does not assure that we will retain their services. The unexpected loss of these individuals could have a material adverse effect on our operations. From time to time, we also need to recruit personnel to fill vacant positions for experienced lending officers and branch managers. Competition for qualified personnel in the banking industry is intense, and there can be no assurance that we will continue to be successful in attracting, recruiting and retaining the necessary skilled managerial, marketing and technical personnel for the successful operation of our existing lending, operations, accounting and administrative functions or to support the expansion of the functions necessary for our future growth. Our inability to hire or retain key personnel could have a material adverse effect on our results of operations.

21

### OUR LEGAL LENDING LIMITS ARE RELATIVELY LOW AND RESTRICT OUR ABILITY TO COMPETE FOR LARGER CUSTOMERS.

At December 31, 2006, our lending limit per borrower was approximately \$8.2 million, or approximately 15% of our capital plus allowance for loan losses. Accordingly, the size of loans that we can offer to potential borrowers is less than the size of loans that many of our competitors with larger capitalization are able to offer. We may engage in loan participations with other banks for loans in excess of our legal lending limits. However, there can be no assurance that such participations will be available at all or on terms which are favorable to us and our customers.

### RISKS RELATED TO OUR COMMON STOCK

THERE IS A LIMITED TRADING MARKET FOR OUR COMMON STOCK, WHICH MAY ADVERSELY IMPACT YOUR ABILITY TO SELL YOUR SHARES AND THE PRICE YOU RECEIVE FOR YOUR SHARES.

Although our common stock is quoted on the Nasdaq Global Market, there has been limited trading activity in our stock and an active trading market is not expected to develop. This means that there may be limited liquidity for our common stock, which may make it difficult to buy or sell our common stock, may negatively affect the price of our common stock and may cause volatility in the price of our common stock.

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

THERE ARE RESTRICTIONS ON OUR ABILITY TO PAY CASH DIVIDENDS.

Although we have paid cash dividends on a quarterly basis since 1996, and the Bank has paid dividends for many previous years, there is no assurance that we will continue to pay cash dividends. Future payment of cash dividends, if any, will be at the discretion of the Board of Directors and will be dependent upon our financial condition, results of operations, capital requirements and such other factors as the Board may deem relevant and will be subject to applicable federal and state laws that impose restrictions on our ability to pay dividends.

OUR COMMON STOCK IS NOT INSURED AND YOU COULD LOSE THE VALUE OF YOUR ENTIRE INVESTMENT.

An investment in shares of our common stock is not a deposit and is not insured against loss by the government.

OUR MANAGEMENT AND SIGNIFICANT SHAREHOLDERS CONTROL A SUBSTANTIAL PERCENTAGE OF OUR STOCK AND THEREFORE HAVE THE ABILITY TO EXERCISE SUBSTANTIAL CONTROL OVER OUR AFFAIRS.

As of December 31, 2006, our directors and executive officers beneficially owned approximately 374,733 shares, or approximately 12.8 % of our common stock, including options to purchase 125,187 shares, in the aggregate, of our common stock at exercise prices ranging from \$10.36 to \$31.50 per share. Because of the large percentage of stock held by our directors and executive officers and other significant shareholders, these persons could influence the outcome of any matter submitted to a vote of our shareholders.

WE MAY ISSUE ADDITIONAL SHARES OF COMMON OR PREFERRED STOCK, WHICH MAY DILUTE THE OWNERSHIP AND VOTING POWER OF OUR SHAREHOLDERS AND THE BOOK VALUE OF OUR COMMON STOCK.

We are currently authorized to issue up to 10,000,000 shares of common stock of which 2,797,151 shares are currently outstanding and up to 5,000,000 shares of preferred stock of which no shares are outstanding. Our Board of Directors has authority, without action or vote of the shareholders, to issue all or part of the authorized but unissued shares and to establish the terms of any series of preferred stock. These authorized but unissued

22

shares could be issued on terms or in circumstances that could dilute the interests of other stockholders. In addition, a total of 250,000 shares of common stock have been reserved for issuance under the Norwood Financial Corp 2006 Stock Option Plan, of which 47,700 were issued as of December 31, 2006. As of December 31, 2006, options to purchase a total of 135,945 shares were exercisable and had exercise prices ranging from \$10.36 to \$31.50. Any such issuance will dilute the percentage ownership interest of shareholders and may further dilute the book value of our common stock.

PROVISIONS OF OUR ARTICLES OF INCORPORATION AND THE PENNSYLVANIA BUSINESS CORPORATION LAW COULD DETER TAKEOVERS WHICH ARE OPPOSED BY THE BOARD OF DIRECTORS.

Our articles of incorporation require the approval of 80% of our outstanding shares for any merger or consolidation unless the transaction meets certain fair price criteria or the business combination has been approved or authorized by the Board of Directors. In addition, our articles of incorporation may require the disgorgement of profits realized by any person who attempts to acquire control of the Company. As a Pennsylvania corporation with a class of securities

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

registered with the Securities and Exchange Commission, the Company is governed by certain provisions of the Pennsylvania Business Corporation Law that, inter alia, permit the disparate treatment of certain shareholders; prohibit calls of special meetings of shareholders; require unanimous written consent for shareholder action in lieu of a meeting; require shareholder approval for certain transactions in which a shareholder has an interest; and impose additional requirements on business combinations with persons who are the beneficial owners of more than 20% of the Company's stock.

### RISKS RELATED TO OUR INDUSTRY

WE OPERATE IN A COMPETITIVE MARKET WHICH COULD CONSTRAIN OUR FUTURE GROWTH AND PROFITABILITY.

We operate in a competitive environment, competing for deposits and loans with commercial banks, savings associations and other financial entities. Competition for deposits comes primarily from other commercial banks, savings associations, credit unions, money market and mutual funds and other investment alternatives. Competition for loans comes primarily from other commercial banks, savings associations, mortgage banking firms, credit unions and other financial intermediaries. Many of the financial intermediaries operating in our market area offer certain services, such as international banking services, which we do not offer. Moreover, banks with a larger capitalization and financial intermediaries not subject to bank regulatory restrictions have larger lending limits and are thereby able to serve the needs of larger customers.

WE ARE REQUIRED TO COMPLY WITH EXTENSIVE AND COMPLEX GOVERNMENTAL REGULATION WHICH CAN ADVERSELY AFFECT OUR BUSINESS.

Our operations are and will be affected by current and future legislation and by the policies established from time to time by various federal and state regulatory authorities. We are subject to supervision and periodic examination by the Federal Reserve Board (the "FRB"), the Federal Deposit Insurance Corporation (the "FDIC") and the Pennsylvania Department of Banking. Banking regulations, designed primarily for the safety of depositors, may limit a financial institution's growth and the return to its investors by restricting such activities as the payment of dividends, mergers with or acquisitions by other institutions, investments, loans and interest rates, interest rates paid on deposits, expansion of branch offices, and the offering of securities or trust services. We are also subject to capitalization guidelines established by federal law and could be subject to enforcement actions to the extent that we are found by regulatory examiners to be undercapitalized. It is not possible to predict what changes, if any, will be made to existing federal and state legislation and regulations or the effect that any such

23

changes may have on our future business and earnings prospects. Further, the cost of compliance with regulatory requirements may adversely affect our ability to operate profitably.

In addition, the monetary policies of the FRB have had a significant effect on the operating results of banks in the past and are expected to continue to do so in the future. Among the instruments of monetary policy used by the FRB to implement its objectives are changes in the discount rate charged on bank borrowings and changes in the reserve requirements on bank deposits. It is not possible to predict what changes, if any, will be made to the monetary policies of the FRB or to existing federal and state legislation or the effect that such change may have on our future business and earnings prospects.

During the past several years, significant legislative attention has been

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

focused on the regulation and deregulation of the financial services industry. Non-bank financial institutions, such as securities brokerage firms, insurance companies and money market funds, have been permitted to engage in activities which compete directly with traditional bank business.

WE REALIZE INCOME PRIMARILY FROM THE DIFFERENCE BETWEEN INTEREST EARNED ON LOANS AND INVESTMENTS AND INTEREST PAID ON DEPOSITS AND BORROWINGS, AND CHANGES IN INTEREST RATES MAY ADVERSELY AFFECT OUR PROFITABILITY AND ASSETS.

Changes in prevailing interest rates may hurt our business. We derive our income mainly from the difference or "spread" between the interest earned on loans, securities and other interest-earning assets, and interest paid on deposits, borrowings and other interest-bearing liabilities. In general, the larger the spread, the more we earn. When market rates of interest change, the interest we receive on our assets and the interest we pay on our liabilities will fluctuate. This can cause decreases in our spread and can adversely affect our income.

Interest rates affect how much money we can lend. For example, when interest rates rise, the cost of borrowing increases and loan originations tend to decrease. In addition, changes in interest rates can affect the average life of loans and investment securities. A reduction in interest rates generally results in increased prepayments of loans and mortgage-backed securities, as borrowers refinance their debt in order to reduce their borrowing cost. This causes reinvestment risk, because we generally are not able to reinvest prepayments at rates that are comparable to the rates we earned on the prepaid loans or securities. Changes in market interest rates could also reduce the value of our financial assets. If we are unsuccessful in managing the effects of changes in interest rates, our financial condition and results of operations could suffer.

AS A PUBLIC COMPANY, WE ARE SUBJECT TO NUMEROUS REPORTING REQUIREMENTS THAT ARE CURRENTLY EVOLVING AND COULD SUBSTANTIALLY INCREASE OUR OPERATING EXPENSES AND DIVERT MANAGEMENT'S ATTENTION FROM THE OPERATION OF OUR BUSINESS.

The Sarbanes-Oxley Act of 2002, which became law in July 2002, has required changes in some of our corporate governance, securities disclosure and compliance practices. In response to the requirements of that Act, the SEC has promulgated new rules covering a variety of subjects. Compliance with these new rules has significantly increased our legal and financial and accounting costs, and we expect these increased costs to continue. In addition, compliance with the requirements has taken a significant amount of management's and the Board of Directors' time and resources. Likewise, these developments may make it more difficult for us to attract and retain qualified members of our board of directors, particularly independent directors, or qualified executive officers.

24

As directed by Section 404 of the Sarbanes-Oxley Act, the SEC adopted rules requiring public companies to include a report of management on the company's internal control over financial reporting in their annual reports on Form 10-K that contains an assessment by management of the effectiveness of the company's internal control over financial reporting beginning with the annual report on Form 10-K for our fiscal year ending December 31, 2007. In addition, in the future, the public accounting firm auditing the company's financial statements must attest to and report on management's assessment of the effectiveness of the company's internal control over financial reporting. This requirement is first applicable to our annual report on Form 10-K for fiscal 2008 and for all future annual reports. The costs associated with the implementation of this requirement, including documentation and testing, have not been estimated by us. If we are ever unable to conclude that we have effective internal control over financial reporting or, if our independent auditors are unable to provide us with an unqualified report as to the effectiveness of our internal control over

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

financial reporting for any future year-ends as required by Section 404, investors could lose confidence in the reliability of our financial statements, which could result in a decrease in the value of our securities.

### ITEM 1B. UNRESOLVED STAFF COMMENTS

-----

None

### ITEM 2. PROPERTIES

-----

The Bank operates from its main office located at 717 Main Street, Honesdale, Pennsylvania and eleven additional branch offices. The Bank's total investment in office property and equipment is \$13.3 million with a net book value of \$6.0 million as of December 31, 2006. The Bank currently operates automated teller machines at all twelve of its facilities. The Bank leases four of its locations with minimum lease commitments of \$4,011,000 through 2029. The four locations have various renewal options.

### ITEM 3. LEGAL PROCEEDINGS

-----

Neither the Company nor its subsidiaries are involved in any pending legal proceedings, other than routine legal matters occurring in the ordinary course of business, which in the aggregate involve amounts which are believed by management to be immaterial to the consolidated financial condition or results of operations of the Company.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY-HOLDERS

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND  
-----

FINANCIAL DISCLOSURE  
-----

None.

ITEM 9A. CONTROLS AND PROCEDURES  
-----

The Company's management evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures, as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

### ITEM 9B. OTHER INFORMATION

-----

None.

27

## PART III

### ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

-----

The information contained under the sections captioned "Section 16(a) Beneficial Ownership Reporting Compliance" and "Proposal I-- Election of Directors" and "Corporate Governance" in the Proxy Statement for the 2007 Annual Meeting of Stockholders (the "Proxy Statement") are incorporated herein by reference.

The Company has adopted a Code of Ethics that applies to its principal executive officer, principal financial officer and principal accounting officer or controller. The Company undertakes to provide a copy of the Code of Ethics to any person without charge, upon request to Lewis J. Critelli Executive Vice President and Chief Financial Officer, Norwood Financial Corp., 717 Main Street, Honesdale, PA 18431.

### ITEM 11. EXECUTIVE COMPENSATION

-----

The information contained under the section captioned "Director and Executive Compensation" in the Proxy Statement is incorporated herein by reference.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

-----

#### (a) Security Ownership of Certain Beneficial Owners

Information required by this item is incorporated herein by reference to the Section captioned "Principal Holders of Our Common Stock" of the Proxy Statement.

#### (b) Security Ownership of Management

Information required by this item is incorporated herein by reference to the sections captioned "Proposal I -- Election of Directors" of the Proxy Statement.

#### (c) Changes in Control

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-K

Management of the Company knows of no arrangements, including any pledge by any person of securities of the Company, the operation of which may at a subsequent date result in a change in control of the registrant.

(d) Equity Compensation Plan Information

28

EQUITY COMPENSATION PLAN INFORMATION

	(a)	(b)	(c)
	Number of securities To be issued upon Exercise of outstanding options, warrants and rights -----	Weighted average exercise price of outstanding options, warrants and rights -----	Number of securities remaining under the plan at the end of the period (excluding reflections of -----
Equity compensation plans approved by shareholders:			
Stock Option Plan.....	128,027	\$18.71	
2006 Stock Option Plan.....	47,700	30.91	
Equity compensation plan not approved by shareholders:			
1999 Directors Stock Compensation Plan.....	7,918 -----	17.10 -----	
TOTAL.....	183,645 =====	\$21.81 =====	

The 1999 Directors Stock Compensation Plan provides for annual grants of options to non-employee directors as of the close of business on the day of the first regularly scheduled board meeting in December of each year. The amounts of such awards are determined by the board or a committee thereof. The exercise price for each option is equal to the fair market value of the stock as of the date of grant. Options generally have terms of ten years and one day from the date of grant and vest over periods ranging from six months to one year from the date of grant. Except in the event of death or disability, optionees may not sell shares acquired on exercise of options within six months of the date of grant. Options are not transferable except in the event of the death of the optionee.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE  
-----

The information required by this item is incorporated herein by reference to the section in the Proxy Statement captioned "Related Party Transactions" and "Corporate Governance".
