Non-GAAP Measures

Edgar Filing: TALK AMERICA HOLDINGS INC - Form 8-K

The release and presentation furnished as exhibits to this report include non-GAAP financial information. Management believes that adjusted gross margin, free cash flow and net debt, non-GAAP financial measures, are useful to investors and other users of our financial information in evaluating liquidity and operating financial performance. Free cash flow and net debt are financial measures that are commonly used by readers of financial information in assessing financial performance, including liquidity and the ability to meet obligations with available cash flows and cash balances. Management uses free cash flow information as an indication of its overall business performance as well as resources available for the retirement of debt. The definition of free cash flows, cash from operating activities less capital expenditures and capitalized software development costs, is readily determinable from amounts provided in our consolidated statements of cash flows.

It is management's intent to provide non-GAAP financial information to enhance understanding of our GAAP financial results. This information should be considered by the reader in addition to, but not instead of, our financial statements prepared in accordance with GAAP.
