Attachment 1:

2006 Business Report

2006 was a year of expansion for AU Optronics Corp. (AUO). In April 2006, we announced our merger with Quanta Display, Inc. (QDI), a transaction which we successfully completed on October 1, 2006. This transaction represented the second merger in our history since the merger of Acer Display and Unipac in 2001 which established AUO. The two successful mergers have expedited our growth strategy and has positioned us alongside our Korean counterparts, Samsung and LG Philips, as world-class leaders in the TFT-LCD industry.

Our consolidated revenues in 2006 reached a record NT\$293.1 billion, a 34.8% increase over the previous year. However, our net income decreased to NT\$9.1 billion amid pricing pressures. Relative to the overall TFT-LCD industry performance, we continued to demonstrate a strong earning capability despite difficult market conditions.

The TFT-LCD industry has gone through a period of transformation in the past year. As we look back, there are four major trends worth mentioning:

1. Industry competition clearly favors large scale competitors as evidenced by the fact that the world's top three TFT-LCD panel makers are making up more than 65% of the total market share and 70% of the LCD TV panel market.
2. The TFT-LCD industry is taking a more rational approach towards capital investment which will help maintain a balance between market supply and demand resulting in order in the marketplace.
3. Increasing barriers to entry relating to the establishment of new generation fabs will widen the gap between tier one and tier two manufacturers in terms of capacity planning and technology advancement.
4. The continuous growth of the consumer electronics product-segment requires our product cycle to align with the consumer electronics market. Accordingly, we have to carefully manage our capacity planning and production costs to efficiently meet seasonal demand.

Our management team has developed its operational focus for 2007, which will be an extension of our operating plan in 2006. The following five business initiatives will be the basis of our continuous growth and achievements:

1. Our Taichung G7.5 operation commenced volume production in the fourth quarter of 2006, which made us the first volume supplier in Taiwan of 40", 42" and 46" LCD TV panels. By July 2007, our G7.5 fabrication facility will be operating on full capacity, which will further strengthen our global position.
2. Our merger with QDI will reinforce our competitive advantage in the market place in numerous ways. We believe benefits of this merger will be realized in the second quarter of this year as we combine QDI into our operating structure.
3. In addition to enhancing our competitive advantage in information technology (IT) display products for monitors and notebooks, we also plan to further develop our business in the area of LCD TV and mobile displays.
4. To cope with the new competitive environment, we are transforming our operational model from one that is driven by manufacturing to one that focuses more on our customers. We are reorganizing our operations into three business groups: IT Display Business Group (ITBG), Television Display Business Group (TVBG) and

Consumer Product Display

~ 13 ~

Business Group (CPBG). Each business group will be vertically integrated and will have designated teams in research and development, manufacturing and supply chain management, which will offer a total solution to our end customers.

5. In 2007, for the first time, we will experience negative growth in our capital expenditures. We believe this will improve our loading rates of our fabs and help us actively manage our assets.

AUO celebrated its 10th anniversary in August 2006. The theme from our celebratory activities was, "Full-fledged At Ten Years Old, AUO Full Of Heartfelt Gratitude." We are grateful for the long-term support from our shareholders, employees and their devoted families. In return, AUO's management team will strive to achieve maximum return for our shareholders.

Thank You.

Item 3

AU Optronics Corp. (“AUO”)

2007 Annual General Shareholders’ Meeting

Q & A

1. What is candidate nomination system adopted for Independent Directors?

Pursuant to the ROC Company Law, the board of directors or any shareholder holding 1% or more of the total number of outstanding shares issued by the Company may submit to the Company in writing a roster of independent director candidates. The board of directors or other authorized conveners of shareholders’ meetings shall examine and/or screen the data and information of each candidate nominated; and shall, unless under any of the circumstances specified in the ROC Company Law, include all qualified candidates in the final roster of candidates accordingly. The shareholders shall elect the independent directors from among the nominees listed in the roster of candidates.

2. What is cumulative voting?

Cumulative voting is a method of voting for the election of directors of AUO, where each common share is entitled to as many votes as the number of directors to be elected.

The votes can be concentrated on one candidate only or be allocated among several candidates. An ADS holder can allocate his/her votes among the candidates in a manner whereby the votes allocated to one candidate shall be the integral multiple of the number of shares of common stock underlying the ADSs held as of the ADS Record Date.

3. How do I calculate how many votes I have for the election of directors?

There are nine (9) directors (including three (3) independent directors) to be elected at our 2007 Annual General Shareholders’ Meeting **and please note that each ADS represents 10 common shares of AUO.**

Election of directors: you are entitled to a number of votes equal to nine (9) times the total number of common shares underlying your ADSs as of the ADS Record Date.

For example, if you own 10 ADSs as of the ADS Record Date, you are entitled to: 9 (number of candidates) x 10 (number of ADSs held as of the ADS Record Date) x 10 (number of common shares represented by each ADS) = 900 votes for directors:

4. Can I vote for more than one candidate for the board of directors?

Edgar Filing: AU OPTRONICS CORP - Form 6-K

You can cast all your votes for one candidate only or allocate your votes among several candidates in a manner whereby the votes allocated to one candidate shall be the integral multiple of the number of common shares underlying your ADSs held as of the Record Date. If you wish to allocate your votes among the candidates proposed, you must select the "EXCEPTIONS" box.

In the example provided in question number 3, you can cast your votes in the following combinations: (The votes to be allocated to one candidate shall be 100 votes or integral multiples of 100 votes, i.e. 10 ADSs held times 10 common shares represented by each ADS)

	Candidate #1	Candidate #2	Candidate #3	Candidate #4	Candidate #5	Candidate #6	Candidate #7	Candidate #8	Candidate #9	
Alternative #1	900	0	0	0	0	0	0	0	0	Effective
Alternative #2	400	0	100	100	300	0	0	0	0	Effective
Alternative #3	100	100	100	100	100	100	100	100	100	Effective
Alternative #4	50	850	0	0	0	0	0	0	0	Void

Please note that there are various alternative ways in which you may cast your votes, and the above combinations are just some examples for illustration purpose.

5. What happens if I vote for each candidate on the ballot?

If you vote for each candidate on the ballot, your votes will be split equally among the candidates. You can vote for each candidate proposed by selecting the “FOR ALL” box.

6. What happens if the Depositary does not receive vote from 51% of the outstanding ADSs?

Subject to the Deposit Agreement, if the Depositary does not receive timely voting instructions from 51% of all outstanding ADSs to vote in the same manner on any resolution on the agenda, **including the election of the directors**, the holders of all ADSs outstanding shall be deemed to have authorized and directed the Depositary to authorize the Chairman of our board of directors, or his designee, to vote the common shares underlying their ADSs in his discretion, with respect to the resolution for the election of director for which the Depositary has not received the above-mentioned 51% of the votes.

7. If I am a beneficial owner what do I need to do to cumulate my votes for the elections of directors and supervisors?

Beneficial owners should contact their broker, bank or nominee to cumulate votes for directors election.
