ROYAL BANK OF SCOTLAND PLC Form 424B5 January 27, 2012 Final Pricing Supplement No. 126 to Product Prospectus Supplement No. VIN-1 dated January 3, 2012 and Prospectus dated May 18, 2010

The Royal Bank of Scotland plc (Issuer) The Royal Bank of Scotland Group plc (Guarantor)

\$528,000 RBS Variable Income Notes Linked to a Basket of Ten Stocks 100% repayment of principal at maturity, subject to the credit risk of RBS and RBSG

> Coupon Payment Dates are January 31, 2013; January 31, 2014; January 30, 2015; January 29, 2016; and January 31, 2017.†

Coupon Valuation Dates are January 24, 2013; January 24, 2014; January 23, 2015; January 22, 2016; and January 24, 2017.†

The Coupon Rate for each Coupon Payment will be the arithmetic average of the Share Performance of each Underlying Share within the Basket on the applicable Coupon Valuation Date, subject to the Minimum Coupon Rate of 1.00% per annum.

The Coupon Rate will not exceed the Auto-Cap Rate of 9.25%.

The Share Performance for each Underlying Share on a Coupon Valuation Date will be equal to either (i) the Auto-Cap Rate of 9.25%, if the Ending Share Price for such Underlying Share on such Coupon Valuation Date is greater than or equal to its Initial Share Price, or (ii) the greater of the Underlying Share Return or the Floor Rate of -30.00%, if the Ending Share Price for such Underlying Share on such Coupon Valuation Date is less than its Initial Share Price.

100% repayment of principal at maturity, subject to the creditworthiness of The Royal Bank of Scotland plc, as the issuer, and The Royal Bank of Scotland Group plc, as the Filed pursuant to Rule 424(b)(5) Registration Statement Nos. 333-162219 and 333-162219-01 January 26, 2012

guarantor of the issuer's obligations under the securities.

5-year term (approximately).

No listing on any securities exchange.

The RBS Variable Income Notes Linked to a Basket of Ten Stocks due January 31, 2017 (together with the related guarantees, the "securities") involve risks not associated with an investment in conventional debt securities. See "Risk Factors" beginning on page PS-7 of this pricing supplement and beginning on page S-13 of Product Prospectus Supplement No. VIN-1 (the "product supplement").

The securities are not bank deposits and are not insured or guaranteed by the Federal Deposit Insurance Corporation, the Deposit Insurance Fund or any other government agency.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved the securities, or determined if this pricing supplement, the product supplement or the prospectus are truthful or complete. Any representation to the contrary is a criminal offense.

	Per	Total
	security	
Original Offering Price (1)	\$ 1,000.00	\$ 528,000.00
Underwriting discount (2)	\$ 42.50	\$ 22,440.00
Proceeds, before expenses, to The Royal Bank of	\$ 957.50	\$ 505,560.00
Scotland plc		

(1) The value you might expect to receive if you were able to resell the securities on the pricing date is less than the Original Offering Price. This is because the Original Offering Price includes the underwriting discount set forth above and also reflects our cost of hedging our obligations under the securities. For additional information, see "Risk Factors—The value of your securities on the pricing date is less than the Original Offering Price due to the underwriting discount and our cost of hedging, both of which can be expected to be reflected in secondary market prices" on page S-18 of the product supplement.

(2) RBS Securities Inc. ("RBSSI") has entered into an agreement with Infinex Investments, Inc. ("Infinex"), a registered broker-dealer and FINRA member, under which RBSSI will pay Infinex a fee in an amount equal to 1.00% of the face value of the securities issued by The Royal Bank of Scotland plc on the settlement date in consideration for its role in marketing the securities. For additional information, see "Supplemental Plan of Distribution (Conflicts of Interest)" on page PS-15 of this pricing supplement.

RBS Securities Inc. January 26, 2012

Summary

The RBS Variable Income Notes Linked to a Basket of Ten Stocks due January 31, 2017 (together with the related guarantees, each, a "security" and collectively, the "securities") are senior unsecured obligations issued by us, The Royal Bank of Scotland plc, and are fully and unconditionally guaranteed by our parent company, The Royal Bank of Scotland Group plc. The securities will rank equally with all of our other senior unsecured indebtedness from time to time outstanding, and any payments due on the securities, including any coupon payments and the payment at maturity, will be subject to the ability of RBS, as the issuer of the securities, and RBSG, as the guarantor of the issuer's obligations under the securities, to pay their respective obligations as they become due. The securities provide investors with annual Coupon Payments the amount of which will depend on the arithmetic average of the Share Performance of the Underlying Shares within the Basket on each Coupon Valuation Date. An investor's return on the securities will be limited to the Coupon Payments which will be subject to a Minimum Coupon Rate and which will never exceed the Auto-Cap Rate. In addition to the final Coupon Payment, investors will be entitled to receive a Payment at Maturity equal to the Original Offering Price of \$1,000 per security.

Share Performance:	If (i) the Underlying Share Return on a Coupon Valuation Date is greater than or equal to zero (i.e. the Ending Share Price for an Underlying Share on a Coupon Valuation Date is greater than or equal to its Initial Share Price), the Share Performance for such Underlying Share on such Coupon Valuation Date will equal the Auto-Cap Rate or (ii) if the Underlying Share Return on a Coupon Valuation Date is less than zero (i.e. the Ending Share Price for an Underlying Share on a Coupon Valuation Date is less than its Initial Share Price), the Share Performance for such Underlying Share on such Coupon Valuation Date is less than its Initial Share Price), the Share Performance for such Underlying Share on such Coupon Valuation Date will equal the greater of the Underlying Share Return and the Floor Rate.
Underlying Share Return:	The percentage increase or decrease in the price of an Underlying Share from its Initial Share Price to its Ending Share Price determined on the applicable Coupon Valuation Date. The Underlying Share Return (expressed as a percentage) for any Underlying Share will be equal to:
Initial Share Price:	The closing price per share of each Underlying Share on the pricing date, as indicated in the table above.
Ending Share Price:	The closing price per share of each Underlying Share on the applicable Coupon Valuation Date, as determined by the calculation agent, multiplied by the Adjustment Factor.
Adjustment Factor:	With respect to each Underlying Share, the Adjustment Factor will be set initially at 1.0, but will be subject to adjustment upon the occurrence of certain corporate events affecting such Underlying Share. See "Description of the Securities —Adjustment Events" in the accompanying product supplement.
Maturity Date:	January 31, 2017, subject to postponement if the final Coupon Valuation Date is postponed.
Payment at Maturity:	On the Maturity Date, you will be entitled to receive a cash payment per security equal to \$1,000 plus the final Coupon Payment, subject to the credit risk of the Issuer and the Guarantor.
Calculation Agent:	RBS Securities Inc., an affiliate of RBS

Determining the Average Share Performance and the Coupon Payment

Each Coupon Payment will equal the product of the Original Offering Price and the applicable Coupon Rate.

The Coupon Rate for each Coupon Payment will be determined based on the arithmetic average of the Share Performance of each Underlying Share within the Basket on the applicable Coupon Valuation Date, subject to the Minimum Coupon Rate of 1.00% per annum.

On each Coupon Valuation Date, the Share Performance of each Underlying Share within the Basket will be determined as follows:

Examples of Coupon Rate Calculations

The following tables and examples illustrate hypothetical Coupon Rates for a Coupon Payment Date for securities linked to a Basket of ten hypothetical Underlying Shares, each with a hypothetical Initial Share Price of \$100 and a hypothetical Ending Share Price as set forth in the table for each example. The following tables and examples assume the Auto-Cap Rate of 9.25%, the Minimum Coupon Rate of 1.00% per annum and the Floor Rate of -30.00%.

The actual Ending Share Price for each Underlying Share included in the Basket will be determined on the applicable Coupon Valuation Date and will likely be different from the hypothetical Ending Share Prices set forth below. The hypothetical Coupon Rates and Coupon Payments set forth below are for illustrative purposes only and may not be the actual Coupon Rates or Coupon Payments for any Coupon Payment Date applicable to an investor of the securities. The numbers appearing in the following tables and examples have been rounded for ease of analysis.

Example 1:

Underlying Share	Ending Share Price	Underlying Share Return	Share Performance
Stock 1	\$103.00	3.00%	9.25%
Stock 2	\$119.00	19.00%	9.25%
Stock 3	\$95.00	-5.00%	-5.00%
Stock 4	\$103.00	3.00%	9.25%
Stock 5	\$104.50	4.50%	9.25%
Stock 6	\$106.00	6.00%	9.25%
Stock 7	\$90.00	-10.00%	-10.00%
Stock 8	\$102.50	2.50%	9.25%
Stock 9	\$110.00	10.00%	9.25%
Stock 10	\$100.00	0.00%	9.25%
		Average Share Performance =	5.90%
		Coupon Rate per annum =	5.90%
		Coupon Payment =	\$59.00

TABLE 1

Explanation for Example 1

As illustrated by Table 1 above, if the number of Underlying Share Returns that are greater than or equal to zero (i.e., the Underlying Shares that have Ending Share Prices greater than or equal to their Initial Share Prices) is sufficient to

offset any negative Underlying Share Returns for the other Underlying Shares, then the Coupon Rate for the applicable Coupon Payment Date may be greater than the Minimum Coupon Rate.

Example 2:

TABLE 2

Underlying Share	Ending Share Price	Underlying Share Return	Share Performance
Stock 1	\$105.00	5.00%	9.25%
Stock 2	\$100.00	0.00%	9.25%
Stock 3	\$75.00	-25.00%	-25.00%
Stock 4	\$110.00	10.00%	9.25%
Stock 5	\$104.00	4.00%	9.25%
Stock 6	\$83.00	-17.00%	-17.00%
Stock 7	\$150.00	50.00%	9.25%
Stock 8	\$97.00	-3.00%	-3.00%
Stock 9	\$40.00	-60.00%	-30.00%
Stock 10	\$115.00	15.00%	9.25%
		Average Share Performance =	-1.95%
		Coupon Rate per annum =	1.00%
		Coupon Payment =	\$10.00

Explanation for Example 2

As illustrated by Table 2 above, even when most of the Underlying Share Returns are greater than or equal to zero (i.e., the Ending Share Prices for the Underlying Shares are greater than or equal to their Initial Share Prices), if the Underlying Share Returns for the other Underlying Shares are sufficiently negative, the investor may receive a Coupon Payment on the applicable Coupon Payment Date based on the Minimum Coupon Rate.

Example 3:

TABLE 3

Underlying Share	Ending Share Price	Underlying Share Return	Share Performance
Stock 1	\$115.00	15.00%	9.25%
Stock 2	\$115.00	15.00%	9.25%
Stock 3	\$120.00	20.00%	9.25%
Stock 4	\$150.00	50.00%	9.25%

Stock 5	\$100.00	0.00%	9.25%
Stock 6	\$130.00	30.00%	9.25%
Stock 7	\$135.00	35.00%	9.25%
Stock 8	\$125.00	25.00%	9.25%
Stock 9	\$145.00	45.00%	9.25%
Stock 10	\$115.00	15.00%	9.25%
		Average Share Performance =	9.25%
		Coupon Rate per annum =	9.25%
		Coupon Payment =	\$92.50

Explanation for Example 3

As illustrated by Table 3 above, even when all of the Underlying Share Returns are greater than or equal to zero (i.e., the Ending Share Prices for the Underlying Shares are greater than or equal to their Initial Share Prices), the Coupon Rate on the applicable Coupon Payment Date is limited to the Auto-Cap Rate.

Risk Factors

There are important differences between the securities and a conventional debt security. An investment in the securities involves significant risks, including those listed below. You should carefully review the more detailed explanation of risks relating to the securities in the "Risk Factors" sections beginning on page S-13 of the product supplement. We also urge you to consult with your investment, legal, accounting, tax, and other advisors before you invest in the securities.

The amount of Coupon Payments is uncertain and the Coupon Rate may not be more than the Minimum Coupon Rate.

The Coupon Rate on your securities will not exceed the Auto-Cap Rate.

The credit risk of The Royal Bank of Scotland plc and The Royal Bank of Scotland Group plc, and their credit ratings and their credit spreads may adversely affect the value of the securities prior to maturity, and all payments on the securities will be subject to the ability of RBS and RBSG to pay their respective obligations as they become due.

The Auto-Cap Rate has a lower absolute value than the Floor Rate, and a negative performance of an Underlying Share may have a greater influence on the average Share Performance and, consequently, the Coupon Rate than any positive performance of an Underlying Share.

The Basket contains a limited number of specific Underlying Shares and is not intended to provide diversification in or broad exposure to specific sectors or industries or to the equity markets in general.

Your investment will be exposed to the performance of each Underlying Share within the Basket, and you should be familiar with and make your own investment decision with respect to an investment linked to such Underlying Shares.

The Share Performances of the Underlying Shares within the Basket may offset each other.

To the extent the Underlying Shares within the Basket are concentrated in the same industry or sector, prices of such Underlying Shares may correlate with each other.

Your return on an investment in the securities may be less than an investment directly in the Underlying Shares within the Basket.

In addition to the final Coupon Payment, the Payment at Maturity will never exceed the Original Offering Price, regardless of how well each Underlying Share within the Basket performs.

The securities may not be a suitable investment for you.

Although we are a bank, the securities are not bank deposits and are not insured or guaranteed by the Federal Deposit Insurance Corporation, the Deposit Insurance Fund or any other government agency.

The securities will not be listed on any securities exchange and there may be little or no secondary market for the securities.

The value of the securities prior to maturity will be influenced by many unpredictable factors, and may be less than the Original Offering Price.

In the event that the U.K. tax treatment of the securities changes in certain ways, allowing us or RBSG, as guarantor, to exercise our option to redeem the securities, the amount of cash you will be entitled to receive upon redemption of the securities is uncertain.

The value of your securities on the pricing date is less than the Original Offering Price due to the underwriting discount and our cost of hedging, both of which can be expected to be reflected in secondary market prices.

Hedging and trading activities by us or our affiliates may adversely affect your return on the securities and the value of the securities.

There may be potential conflicts of interest between security holders and the calculation agent or other of our affiliates.

RBSSI and its affiliates may publish reports, express opinions or provide recommendations that are inconsistent with investing in or holding the securities. Any such reports, opinions or recommendations could affect the price of each Underlying Share and therefore the value of the securities.

There is uncertainty regarding the U.S. federal income tax consequences of an investment in the securities.

We may engage in business with or involving one or more of the issuers of the Underlying Shares (each, an "Underlying Company") without regard to your interests.

We do not control any Underlying Company and we are not responsible for any of their disclosure.

There may be limited anti-dilution protection for securities linked to an Underlying Share.

In some circumstances, the payment you receive at maturity on the securities may be based on the common stock of another company and not the common stock of the Underlying Company.

Investor Considerations

You may wish to consider an investment in the securities if:

You anticipate that the price of a sufficient number of Underlying Shares within the Basket will increase moderately from their respective Initial Share Prices, determined on the pricing date, to their respective Ending Share Prices, determined on each Coupon Valuation Date, to provide a sufficient return on investment. In other words, you have a moderately bullish view on the Underlying Shares and believe that an investment in the securities will yield a better return than market rates of interest payable on conventional interest-bearing debt securities.

You do not anticipate a significant decrease in the price of any Underlying Share within the Basket from its Initial Share Price to its Ending Share Price on each Coupon Valuation Date.

You seek annual cash coupons, you understand that such cash coupons will comprise the only return on your investment and you believe that such cash coupons will provide a sufficient return on investment.

You accept that the Coupon Rate determined on each Coupon Valuation Date is uncertain and may not be more than the Minimum Coupon Rate during the term of the securities.

You accept that there is an asymmetric floor and cap applied to the performance of each Underlying Share (i.e. the Floor Rate has a greater absolute value than the Auto-Cap Rate), such that a negative performance of an Underlying Share may have a greater influence on the average Share Performance and, consequently, the Coupon Rate than any positive performance of an Underlying Share.

You accept that the annual return on the securities will not exceed the Auto-Cap Rate and you accept that, in addition to the final Coupon Payment, the Payment at Maturity will not exceed the Original Offering Price.

You seek exposure to the performance of each particular Underlying Share within the Basket with no expectation of dividends or other benefits of owning such Underlying Share.

You are willing to forgo market rates of interest on the securities such as fixed or floating rate interest paid on conventional interest-bearing debt securities.

You are willing to accept that a trading market is not expected to develop for the securities, and you understand that secondary market prices for the securities, if any, will be affected by various factors, including our actual and perceived creditworthiness.

You are able to and willing to hold the securities until maturity.

You are willing to make an investment, the payments on which depend on the creditworthiness of RBS, as the issuer of the securities, and RBSG, as the guarantor of the issuer's obligations under the securities.

The securities may not be an appropriate investment for you if:

You are not willing to be exposed to the performance of each Underlying Share within the Basket, subject to the Floor Rate and the Auto-Cap Rate.

You believe that the prices of one or more Underlying Shares within the Basket will decrease from their Initial Share Prices, determined on the pricing date, to their Ending Share Prices, determined on each Coupon Valuation Date, such that the performance of the Basket will not result in a sufficient return on investment.

You have a bullish view on the Underlying Shares and believe that a direct investment in the Underlying Shares will yield (i) a better return than an investment in the securities or (ii) a return on investment that is greater than the Auto-Cap Rate.

You cannot accept that your return on investment may be limited to the Minimum Coupon Rate.

You want to receive dividends or other distributions paid on each Underlying Share.

You seek assurances that there will be a liquid market if and when you want to sell the securities prior to maturity.

You are unwilling or are unable to assume the credit risk associated with RBS, as the issuer, and RBSG, as the guarantor of the issuer's obligations under the securities.

The Underlying Shares

None of the Underlying Companies has authorized or sanctioned the securities or participated in the preparation of this pricing supplement. Each Underlying Company is subject to the informational requirements of the Exchange Act and files reports and other information with the SEC. Information filed with the SEC can be inspected and copied at the Public Reference Room of the SEC, 100 F Street, N.E., Washington, D.C. 20549. Copies of this material also can be obtained from the Public Reference Room at prescribed rates. In addition, information filed electronically by each Underlying Company with the SEC can be reviewed through a website maintained by the SEC. The address of the SEC's website is http://www.sec.gov.

This pricing supplement relates only to the securities and does not relate to the Underlying Shares. We are not offering or selling securities of any Underlying Company. The descriptions of the Underlying Shares in this section are derived from the publicly available documents described in the preceding paragraph. None of us or our affiliates has participated in the preparation of these documents, verified the accuracy or the completeness of the information concerning the Underlying Shares included in the publicly available documents or made any due diligence inquiry with respect to the Underlying Shares. We do not make any representation that the publicly available documents or any other publicly available information about the Underlying Shares are accurate or complete. There can be no assurance that events occurring prior or subsequent to the date of this pricing supplement (including events that would affect the accuracy or completeness of the publicly available documents described in the preceding paragraph) that might affect the price of any of the Underlying Shares have been or will be publicly disclosed. Because each Coupon Payment is related to the price of the Underlying Shares, those events, if any, also would affect the market value of the securities. We do not intend to furnish to you any additional information about the Underlying Shares. Neither we nor any of our affiliates makes any representation to you as to the future performance of any of the Underlying Shares.

We obtained the historical prices of the Underlying Shares shown below from the Bloomberg Financial® service, without independent verification. The historical price of any Underlying Share should not be taken as an indication of its future performance, and we cannot assure you that its Ending Share Price determined on any Coupon Valuation Date will not decrease from its Initial Share Price.

You should make your own investigation into the Underlying Shares.

Historical Data on the Underlying Shares

The following tables set forth the high and low closing prices of each of the Underlying Shares on its principal exchange from the first quarter of 2007 through January 26, 2012.

Amazon.com, Inc. ("Amazon")

According to its publicly available filings with the SEC, Amazon serves customers through its retail websites, which enable products to be sold by Amazon as well as third parties across different product categories. Amazon also manufactures and sells the Kindle e-reader. Amazon also generates revenue through marketing and promotional services, such as online advertising and co-branded credit card agreements. The common stock of Amazon, par value \$0.01 per share, is listed on The NASDAQ Global Select Market. Amazon's SEC file number is 0-22513.
