Private offering of foreign convertible corporate bonds

To cope with needs for funds in the longer term and allow more diversified and flexible funding channels, the AGM is urged to authorize the board to consecutively or simultaneously select one of or combine issuing GDRs through cash capital increases, conducting domestic cash capital increases by issuing common shares, and privately offering foreign convertible corporate bonds at appropriate times depending on market circumstances and needs for funds.

According to Article 43-6 of the Securities and Exchange Act and the Directions for Public Companies Conducting Private Placements of Securities, the aforementioned privately offering of foreign convertible corporate bonds is described as follows:

(1)Basis and reasonableness of private offering price:

The issue price for the private offering of foreign convertible corporate bonds is set to be not lower than 80% of the formula price referred to in the Directions for Public Companies Conducting Private Placements of Securities. For the actual issue price, the shareholders meeting will be requested to grant the board of directors the authority to set the price according to the law and not below the range approved by the shareholders meeting and depending on current market and company circumstances. The price for this private offering of foreign convertible corporate bonds is set according to the regulations and in consideration of the strict restrictions for transfer timing, recipient, and quantity of the privately offered securities. In addition, the shares converted from the corporate bonds may not be publicly listed for three years of the delivery. The price for this private offering of foreign convertible corporate bonds is deemed to be reasonable under the terms and factors such as weaker liquidity.

(2)Selection method and purpose for designated persons, necessity, and expected benefits:

The offeree selection procedure shall follow the rules under Article 43-6 of the Securities and Exchange Act and the previous order (91) Tai-Cai-Zheng-1 No. 0910003455 on June 13, 2002 from the Securities and Futures Commission of the Ministry of Finance. The purpose for selecting offerees is to introduce strategic investors. A strategic investor refers to an individual or corporate entity that, for the purpose of increasing the Company's profits, assists the Company to enhance technology, improve quality, increase efficiency, and expand market through vertical or horizontal industrial integration or collaboration in product or market development. The selection of offerees shall be decided by the board of directors as authorized by the shareholders meeting. The purpose, necessity, and expected benefits are to meet the demands of the Company's operations by having private offering investors provide the Company with assistance in enhancing technology, improving quality, reducing costs, increasing efficiency, and expanding the market in order to strengthen the Company's competitiveness and improve operational efficiency and long term development.

(3)The necessity, use of funds, and expected benefits:

1. Reasons against a public offering: The choice of a private offering is in support of the Company's future business development and plans to introduce strategic investors and in consideration of the time sensitiveness, convenience, issue costs and shareholder stability provided by a private offering. In addition, privately offered securities are restricted from free transfers under the Securities and Exchange Act, and the rule will ensure a long term partnership between the Company and its strategic investors.
2. Maximum amount of private offering: This private offering of foreign convertible corporate bonds is subject to a maximum of NT\$15 billion or the equivalent in foreign currencies. However, the actual amount of the private offering shall be determined according to the applicable regulations and financial market circumstances at the

time. When a convertible corporate bond holder obtains common shares of the Company by exercising the conversion right, the number of shares is calculated based on the conversion price at the time of conversion.

3. Use of funds and expected benefits: This private offering of foreign convertible corporate bonds may be made by the board of directors as

authorized by the shareholders meeting within one year of the passing of the resolution. The raised capital is expected to be used for one or more purposes of capital expenditure, providing for working capital increases, repaying bank loans, and reinvestments. In addition, it is expected that the fund will be completely used within three years after the private offering is completed. The expected benefits include a positive impact on shareholder rights and one or more of strengthened position in the industry, enhanced long term competitiveness, improved financial structure, and savings in interest expenses. However, the actual private offering and the schedule for the use of funds shall depend on the Company's needs for funds, regulations, and financial market circumstances.

- (4) Rights and obligations associated with converting corporate bonds to common shares

The rights and obligations associated with the common shares converted from this private offering of foreign convertible corporate bonds are identical to those associated with the existing common shares of the Company. However, the listing and resale of such common shares shall be subject to the rules under the Securities and Exchange Act. Private offerings of foreign convertible corporate bonds shall be conducted in compliance with the letter from the Financial Supervisory Commission of the Executive Yuan, Jin-Guan-Zheng-1 No. 09700513881 on October 21, 2008.

- (5) The private offering plan includes primarily the issue and conversion rules, actual private offering price, private offering terms, plan items, amounts, scheduled progress and expected benefits, and other matters potentially related to the issue plan. The shareholders meeting will be requested to authorize the board of directors to make adjustments at its full discretion according to the Company's financial needs, financial market circumstances, and relevant regulations. The shareholders meeting will also be requested to authorize the board of directors to make modification or correction at its full discretion in response to future changes in regulations, orders from competent authorities, or changes in market circumstances, business assessments, or objective environmental conditions.
- (6) In order to complete the private offering of foreign convertible corporate bonds, the shareholders meeting will also be requested to authorize the chairman of the board or a designated person to represent the Company in signing all relevant contracts and documents and complete all subsequent procedures for the Company.
- (7) For matters that are not covered herein, the shareholders meeting will be requested to authorize the board of directors to, in accordance with law, proceed at its discretion.

For more information on private offerings, please visit the following websites: The Market Observation Post System

<http://mops.twse.com.tw/mops/web/index>, the Company's website: <http://www.aseglobal.com>

Instructions for use of the Proxy

1. The proxy is provided with two different forms and the shareholder may opt to use any of them. However, if both forms are used simultaneously, it shall be deemed as carte blanche.
2. Before solicitation for proxy is made by the other party, shareholders are advised to ask the solicitor to provide the information on the written and advertising contents or consult with the Company-compiled general information of the solicitor's written and advertising contents in order to fully understand the background information of the solicitor and the candidate to be elected as well as the opinions on the agenda by the solicitor.

Note A total of NT\$7,987,973,811 is distributed as dividends, NT\$1.05 per share, all of which will be distributed in cash. The above distribution of dividends to shareholders and the cash and stock dividend distribution rates are calculated based on the number (7,607,594,106) of shares recorded in the Register of Shareholders as of March 28, 2013. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation and make adjustments accordingly.

Note In response to the introduction of an integrated income tax system, earnings of the most recent year will be distributed this time.

2. Basis date for dividend distribution: The board of directors is authorized to set the date after it is passed at the shareholders meeting.

Resolution:

Matters for Discussion

Case 1 (proposed by the Board of Directors)

Proposal: To discuss whether to consecutively or simultaneously select one of or combine cash capital increase by issuing common shares and GDR, domestic cash capital increase by issuing common shares, and privately offered foreign convertible corporate bonds.

Explanation: To finance future capacity expansion, provide for working capital increases, repay bank loans, or cope with other needs for funds in the longer term, the Company is urged to authorize the board of directors to consecutively or simultaneously select one of or combine issuing GDRs through cash capital increases, conducting domestic cash capital increases by issuing common shares, and privately offering foreign convertible corporate bonds according to articles of incorporation, relevant regulations and the following rules.

1. The principles to issue new common shares and GDR for capital increase in cash shall be as follows:

(1) This capital increase by issuing common shares and GDR shall not exceed 500 million shares with the board of directors authorized to decide how many shares to be issued depending on market circumstances.

(2) The price at which shares are issued via issuance of GDRs through cash capital increases shall not fall below 90% of the simple arithmetic mean of the share's closing price on the date the issue price is set and its closing price one, three or five days prior to the price-setting date after adjustment for any distribution of stock dividends (or cancelled shares for capital reduction) as per "Self-imposed Rules Governing Underwriters Assisting Companies in Issuing Securities" announced by Taiwan Securities Association. If relevant regulations change, the pricing method may be changed accordingly. As share prices often fluctuate substantially in a short time, the president is authorized to set the issue price by following international practices after consulting the underwriter and considering international capital markets' circumstances, domestic market prices, and the book building status. The GDR's issue price is decided based on the fair market price of the company's common stock. Original shareholders who did not participate in the offering, if for the purpose of maintaining shareholding structure, may purchase common stock in Taiwan's stock market at a price close to the GDR's issue price without having to assume exchange and liquidity risks. In addition, shares issued via issuance of GDRs through cash capital increases will

dilute the original shareholders' equity to a maximum of 6.57%, not a major impact on shareholders' rights and interests.

(3) 10%~15% of common shares issued for this capital increase in cash shall, according to Article 267 of The Company Act, be reserved for subscription by company employees and the shareholders meeting will be requested to fully appropriated the remaining 85%~90% for open issuance as the securities for GDR as the original shareholders have waived their rights for subscription in accordance with Article 28-1 of the Securities Exchange Act. For the part that employees have not subscribed, the president is authorized to contact specific party for purchase or, depending on the market requirements, list as the original securities for participation in the issuance of GDR.

(4) The funds raised by shares issued via issuance of GDRs through this cash capital increases shall be used to expanding the factories, purchase equipment, purchase materials overseas, make reinvestments, and/or repay bank loans. Implementation shall be completed within 2 years after the funds are raised. The project is expected to boost the Company's competitiveness, improve its efficiency, and have a positive impact on shareholders' rights and interests.

(5) The board of directors is authorized to adjust, set, and administer the major contents of the cash capital increase by GDR issuance plan, which includes issuance rules, source of capital, plan items, estimated progress and estimated probable effect generated as well as other matters relevant to the issuance of GDR, according to market conditions. If a cash capital increase must be changed as ordered by the regulatory authority or required by circumstances, the board of directors is authorized to make corresponding changes.

(6) In conjunction with the issuance method of common shares for this capital increase in cash and participation in GDR issuance, the president or his designated representative is authorized to represent the Company in signing all documents related to the participation in the issuance of GDR as well as handling all needed matters.

2. The principles for domestic cash capital increase by issuing common shares:

(1) The number of common shares issued for this domestic cash capital increase may not exceed 500 million shares.

(2) Face value of shares issued via cash capital increases is NT\$10 per share. The issue price shall be decided by the president after consulting the underwriter as per "Self-imposed Rules Governing Underwriters Assisting Companies in Issuing Securities" announced by Taiwan Securities Association and market conditions at time of issue and filed

with the regulatory authority.

(3) According to Article 28-1 of the Securities Exchange Act, the underwriting method for the publicly offered portion shall be decided by the board of directors as authorized between public subscription and book building.

A. If public subscription is selected:

Apart from the 10%~15% of the issued shares to be reserved for employee subscription at the actual issue price according to Article 267 of the Company Act, 10% of the newly issued shares will be publicly offered to comply with Article 28-1 of the Securities Exchange Act, while the remaining 75%~80% will be subscribed by the existing shareholders based on the shareholding percentages on the basis date. For an existing shareholder who holds less than enough shares to subscribe one new share, joint subscription with other shareholders or combined subscription by one person will be allowed; any existing shareholder who does not subscribe authorizes the president to subscribe at the issue price from the designated person.

B. If book building is selected:

Apart from the 10%~15% of the issued shares to be reserved for employee subscription at the actual issue price according to Article 267 of the Company Act, the remaining shares will be subject to Article 28-1 of the Securities Exchange Act, and the existing shareholders waive the right to subscribe before the shares all become publicly offered based on the book building method. In addition, if the Company's employees have not subscribed sufficiently and adequately or waived the right to subscribe, the chairman may contact specific party for purchase.

(4) The rights and obligations associated with the new shares issued for the cash capital increase are identical to those associated with the existing shares.

(5) The funds raised by common shares issued through this cash capital increases shall be used to expanding the factories, purchase equipment, purchase materials overseas, provide for working capital increase, make reinvestments, and/or repay bank loans. Implementation shall be completed within 2 years after the funds are raised. The project is expected to boost the Company's competitiveness, improve its efficiency, and have a positive impact on shareholders' rights and interests.

(6) The board of directors is authorized to adjust, set, and administer the major contents of the cash capital increase plan, which includes issuance rules, source of capital, plan items, estimated progress and estimated

probable effect generated as well as other matters relevant to the issuance of GDR, according to market conditions. If a cash capital increase must be changed as ordered by the regulatory authority or required by circumstances, the board of directors is authorized to make corresponding changes.

(7) Once the plan for cash capital increase in cash is filed with the competent regulatory authority, the president will be authorized to set the base date, payment period, and ex-rights date for new share issue.

3. The principles to privately issue foreign convertible corporate bonds:

(1) This private offering of foreign convertible corporate bonds is subject to a maximum of NT\$15 billion or the equivalent in foreign currencies. Please see Attachment to this Agenda Manual for the tentative issue and conversion rules for this private offering of foreign convertible corporate bonds, which will be handled by the board of directors authorized by the shareholders meeting based on the Company's needs for funds or financial market circumstances.

(2) Basis and reasonableness of private offering price:

The issue price for the private offering of foreign convertible corporate bonds is set to be not lower than 80% of the formula price referred to in the Directions for Public Companies Conducting Private Placements of Securities. For the actual issue price, the shareholders meeting will be requested to grant the board of directors the authority to set the price according to the law and not below the range approved by the shareholders meeting and depending on current market and company circumstances. The price for this private offering of foreign convertible corporate bonds is set according to the regulations and in consideration of the strict restrictions for transfer timing, recipient, and quantity of the privately offered securities. In addition, the shares converted from the corporate bonds may not be publicly listed for three years of the delivery. The price for this private offering of foreign convertible corporate bonds is deemed to be reasonable under the terms and factors such as weaker liquidity.

(3) Selection method and purpose for designated persons, necessity, and expected benefits:

The offeree selection procedure shall follow the rules under Article 43-6 of the Securities and Exchange Act and the previous order (91) Tai-Cai-Zheng-1 No. 0910003455 on June 13, 2002 from the Securities and Futures Commission of the Ministry of Finance. The purpose for selecting offerees is to introduce strategic investors. A strategic investor refers to an individual or corporate entity that, for the purpose of increasing the Company's profits, assists the Company to enhance technology, improve quality, increase efficiency, and expand market through vertical or horizontal industrial integration or collaboration in product or market development. The selection of offerees shall be decided by the board of directors as authorized by the shareholders meeting. The purpose, necessity, and expected benefits are to meet the demands of the Company's operations by having private offering investors provide the Company with assistance in enhancing technology, improving quality, reducing costs, increasing efficiency, and expanding the market in order to strengthen the Company's competitiveness and improve operational efficiency and long term development.

(4) The necessity, use of funds, and expected benefits:

A. Reasons against a public offering:

The choice of a private offering is in support of the Company's future business development and plans to introduce strategic investors and in consideration of the time sensitiveness, convenience, issue costs and shareholder stability provided by a private offering. In addition, privately offered securities are restricted from free transfers under the Securities and Exchange Act, and the rule will ensure a long term partnership between the Company and its strategic investors.

B. Maximum amount of private offering:

This private offering of foreign convertible corporate bonds is subject to a maximum of NT\$15 billion or the equivalent in foreign currencies. However, the actual amount of the private offering shall be determined according to the applicable regulations and financial market circumstances at the time. When a convertible corporate bond holder obtains common shares of the Company by exercising the conversion right, the number of shares is calculated based on the conversion price at the time of conversion.

C. Use of funds and expected benefits:

This private offering of foreign convertible corporate bonds may be made by the board of directors as authorized by the shareholders meeting within one year of the passing of the resolution. The raised capital is expected to be used for one or more purposes of capital expenditure, providing for working capital increases, repaying bank loans, and reinvestments. In addition, it is expected that the fund will be completely used within three years after the private offering is completed. The

expected benefits include a positive impact on shareholder rights and one or more of strengthened position in the industry, enhanced long term competitiveness, improved financial structure, and savings in interest expenses. However, the actual private offering and the schedule for the use of funds shall depend on the Company's needs for funds, regulations, and financial market circumstances.

(5) Rights and obligations associated with converting corporate bonds to common shares The rights and obligations associated with the common shares converted from this private offering of foreign convertible corporate bonds are identical to those associated with the existing common shares of the Company. However, the listing and resale of such common shares shall be subject to the rules under the Securities and Exchange Act. Private offerings of foreign convertible corporate bonds shall be conducted in compliance with the letter from the Financial Supervisory Commission of the Executive Yuan, Jin-Guan-Zheng-1 No. 09700513881 on October 21, 2008.

(6) The private offering plan includes primarily the issue and conversion rules, actual private offering price, private offering terms, plan items, amounts, scheduled progress and expected benefits, and other matters potentially related to the issue plan. The shareholders meeting will be requested to authorize the board of directors to make adjustments at its full discretion according to the Company's financial needs, financial market circumstances, and relevant regulations. The shareholders meeting will also be requested to authorize the board of directors to make modification or correction at its full discretion in response to future changes in regulations, orders from competent authorities, or changes in market circumstances, business assessments, or objective environmental conditions.

(7) In order to complete the private offering of foreign convertible corporate bonds, the shareholders meeting will also be requested to authorize the chairman of the board of directors or a designated person to represent the Company in signing all relevant contracts and documents and complete all subsequent procedures for the Company.

(8) For matters that are not covered herein, the shareholders meeting will be requested to authorize the board of directors to, in accordance with law, proceed at its discretion.

Resolution:

Case 2 (proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Procedures for Lending Funds to Other Parties.

Explanation:

1. In response to the amendment of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies released by the Financial Supervisory Commission on July 6, 2012, the Company's board of directors approved the amendment of the Company's Procedures for Lending Funds to Other Parties on September 27, 2012.

2. Your approval of a comparison of the Procedures for Lending Funds to Other Parties before and after revisions as shown in Attachment is requested.

Resolution:

Case 3 (proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Procedures of Making of Endorsement and Guarantees.

Explanation: 1. In response to the amendment of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies released by the Financial Supervisory Commission on July 6, 2012, the Company's board of directors approved the amendment of the Company's Procedures of Making of Endorsement and Guarantees on September 27, 2012.

2. Your approval of a comparison of the Procedures of Making of Endorsement and Guarantees before and after revisions as shown in Attachment is requested.

Resolution:

Case 4 (proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Articles of Incorporation.

Explanation:

1. In order to accommodate the Company's operating requirements and to comply with Article 26 of the Corporate Governance Best-Practice Principles for TWSE/GTSM Listed Companies as required by the Financial Supervisory Commission, the dividend distribution method for a special surplus reserve reversal is specified in the Articles of Incorporation. Moreover, in response to the accounting principles to be adopted in 2015

after the IFRS implementation and in consideration of the average percentage of remunerations to the directors and supervisors in the industry and market trends, the Company's board of directors approved the amendment of the Company's Articles of Incorporation on April 8, 2013. .

2. Your approval of a comparison of articles of incorporation before and after revisions as shown in Attachment is requested.

Advanced Semiconductor Engineering, Inc.
Business Report

The weakening trend of 2011 persisted in the global economy, and the European debt crisis has spread to European countries including Spain and Italy in 2012. The economic recovery in the United States had also slowed down in 2012, while the Chinese economy cooled down to the lowest point in recent years. All of the elements above had a severe impact on the global economy. Taiwan cannot separate itself from the global economy, and its economic performance sustained a significant impact. When combined with the various policy reforms last year, the conditions in Taiwan have become more challenging, and the overall economy has cooled down in terms of both imports and exports. According to the World Semiconductor Trade Statistics (WSTS), the global semiconductor sales fell by 2.7% in 2012. According to the report from the IEK ITIS Project, the semiconductor industry in Taiwan produced an output of NT\$1,634.2 billion in 2012, a growth of 4.6% compared to 2011. In spite of excellent growth in the IC packaging and testing industry from smartphones and tablets, the weak PC sales evened out the performance of the industry as a whole. The output of the packaging industry amounted to NT\$272 billion, a growth of 0.9% compared to 2011. The output of the testing industry amounted to NT\$121.5 billion, a growth of 0.6% compared to 2011. In the face of the harsh, challenging conditions, the Company will exercise caution in meeting the changes in the macro environment. The following is our report on the company's operation for the past year:

"2012 Operating Results"

1. Implementation results for the 2012 business plan

The Company's combined revenues for 2012 were NT\$194 billion, an increase of NT\$8.6 billion and a growth of 4.7% compared to 2011. For semiconductor packaging and testing services, the Company's combined revenue in 2012 was NT\$130 billion, a growth of 1.9%. The revenue from advanced packaging services reached US\$246 million with a quarterly growth of 25% in 2012 Q4; and US\$834 million for the entire year with an annual growth of 27%. The Company's revenue from copper wire bonding was US\$500 million in 2012, and copper wire bonding accounted for 60% of the total revenue as of Q4, far exceeding the industry average of 20%. In spite of the US\$600 million dollar decrease in gold wire bonding revenue, the change in revenue was primarily caused by the larger shift from gold to copper. Therefore, even if the sales volume had remained unchanged, the revenue would have fallen anyway. In addition, the gold price was weak in 2012, leading to lower costs and positive benefits for the Company's profitability.

2. Budget performance

No financial forecast was disclosed in 2012.

3. Analysis of financial accounts and profitability

As of the end of 2012, the Company's paid-in capital was NT\$75,941,496 thousands and shareholders' equity NT\$109,514,885 thousands, accounting for 58% of total assets of NT\$189,000,561 thousands. Its long-term funds are 252% of fixed assets and current ratio 42%. This year's

ratios are slightly lower than those in the preceding year, but the Company's financial structure and ability to repay debts are relatively sound. This year's operating profit was NT\$10,732,774 thousands, a decrease of NT\$126,358 thousands compared to 2011. Under the overall unfavorable economic conditions, the Company strived for a stable position in the semiconductor packaging and testing services. This year's after-tax net profit rose to NT\$13,091,359 thousands, a 4.6% decrease compared to the previous year. The Company's overall operational performance, compared to the conservative approach in the main areas of business, was satisfactory.

4. R&D Overview

As cloud computing emerges and smart mobile devices such as cell phones and tablets become more popular, the demands of advanced semiconductor chip packaging and testing markets are now a growing trend. The Company continues with the three focuses of product development: Advanced packaging, advanced copper wire bonding and low-pin-count packaging drove the Company's successes and global competitive advantages to be applied in the advanced technologies including 28-nanometer advanced packaging, flip-chip assembly, wafer copper pillar bumps, and 3D packaging. New technologies successfully developed by the Company in 2012 developed are categorized as follows: (1) Flip-chip assembly is extended to 28 nano copper process / nano copper process of wafers with an ultra-low dielectric coefficient with tin and lead-free flip-chip assembly FCBGA / FCCSP and other applications and new mass production. (2) Wire-bond assembly is extended to 28 nano copper / gold wire-bond assembly of wafers with an ultra-low dielectric coefficient and other applications and new mass production, 18 μm copper wire bond assembly. (3) For 3D packaging, 300mm 28 nm 3D stacked flip chip packaging with through silicon vias, RF wireless Wi-Fi + BT + GPS+ FM system module solutions, and integrated microelectromechanical systems. (4) For wafer assembly, tin-silver electroplated lead-free bumps and 40 μm Pitch Cu Pillar Bump. (5) Faced with the eco-friendly product development trends around the world, the Company has adopted a green design strategy, which is built on the basis of eco-friendly packaged products and supported by eco-design in order to begin with product design and introduction of new technology and combine specification considerations such as low pollution, low energy consumption, and water conservation and other environmentally friendly elements as well as operational safety. It is hoped that the products' potential impact on the environment may be considered and the risks be reduced as soon as possible.

"Outline of 2013 Business Plan"

1. Operating policy

(1) Providing customers with a first-class service (2) creating long-term, stable profits for the Company and customers (3) working with partner firms to jointly create a prosperous future (4) being as flexible as possible in its business dealings.

2. Projects sales volume and references

In light of current industry dynamics, future market demand and ASE's capacity, the projected sales volume for 2013 is as follows:

Item	Project Sales
Assembly	Approx. 13 billion chips
Test	Approx. 1.9 billion chips

3. Important production and sales policies

The Company's capital expenditures continued to rise in 2012 to allow production capacity and technology to reach the intended levels earlier than expected. As the 28 nm production becomes more mature, the wafer outsourcing services continued to progress toward the 20 nm production while the demand for advanced packaging remained strong. In addition, the copper wire bonding process capability stayed in a leading position, and the Company's long term commitment to technology can be expected to come to fruition. 2013 will be the year in which copper wire bonding's growth base period will exceed that of gold wire bonding. It is expected that the wire bonding revenue will grow in 2013 without being subject to the interference of price changes in gold and copper wire bonding products. As the global economy lost momentum, the demand turned to the age of miniscule profit, which led to changes in the structure of the industry. Integrated device manufacturers (IDMs) would keep releasing relatively mid- and low end packaging and testing orders in order to increase operational efficiency. The Company has the most comprehensive production capacity in this aspect and the closest relationship with IDMs, and so has the best opportunity to reap the benefits. The Company remains optimistic about the outlook of the packaging and testing industry and the growth in the demand of IDM outsourcing packaging and testing and copper process. The Company has been investing a lot of effort in IDMs for years, and IDM clients currently accounts for close to 40% of its revenue. The Company is confident about raising the revenue contribution from IDMs and staying more competitive than the other companies. Meanwhile, the competitive gap between the Company and its competitors will continue to be widened for the copper process.

"Development Strategy"

Looking forward to the semiconductor industry in 2013, market instability will remain high, but the demand for advanced production capacity will stay unreduced. In terms of the macroeconomy, though the semiconductor industry's performance fell below expectations in the last two years, Japan and the United States have started to show improvement, and so the risk of Europe and China deteriorating has temporarily been alleviated. As long as there is no major changes in the world, Gartner has proposed that the annual output of the semiconductor industry in 2013 can be expected to reach the target of 4.5%. From a broad perspective, economic conditions and the cycle nature of the packaging and testing industry have always had an impact on the Company's net profit. However, the Company's global strategies of extending the reach of its sales, combining production capacity and products, and entering new markets and helping clients promote sales have proven suitable long term development tactics for the Company's continuing success. It is obvious that the semiconductor industry is sitting at the top of a wave of global technological transformation, and the Company faces opportunities in the transformation process. The Company continued to expand its business and achieved nearly 5% in revenue growth in 2012 compared to the same period last year, reaching yet another record high. The Company is committed to its promises to the shareholders, clients, partners, and employees, which have laid a solid foundation for the Company's growth, especially in the age of mobile communication and business optimization.

"Impacts of Competition, Legislation and Operating Environment"

Under the current conditions, the worries over the fiscal cliff in the United States continued from last year and the global economy will remain uncertain in 2013. There seems to be

no solution for the European debt crisis any time soon. The economic outlook in China is unclear and the major countries around the world will adopt quantitative easing to stimulate their economies, which will indirectly cause uncontrollable hot money flows and inflationary pressure. We cannot afford not to be conservative about the economic performance in 2013. However, after the adjustment period in which demand decreases and inventory increases over the last two years, it is believed that the semiconductor industry will start to grow again in the next few years. The demand for smartphones and tablets in the emerging markets will grow rapidly, which in turn will drive the semiconductor industry forward. We look forward to a stronger relationship of trust and cooperation between the employees and shareholders of the Company in meeting the challenges in the coming year together and sharing the fruit of success.

Table of Comparison of Proceedings of Board of Directors Meetings

Original Provisions

Provisions after Revision

Article 3:

The board of directors meeting shall be convened at least once every quarter.

Board of directors meetings shall be notified to directors and supervisors seven days in advance with the reason indicated. In an emergency, a board of directors meeting may be called at any time.

Items under Paragraph 1, Article 12 of these proceedings shall be listed in the reasons for convening a meeting, except in the case of an emergency or with just cause, and the items may not be raised in the form of an extempore motion.

Article 8:

When a board of directors meeting is called, the Finance Department shall have the relevant information ready at hand for the reference of the attending directors.

Members of the management team who are not directors may be notified to attend a board of directors meeting depending on the agenda. CPAs, lawyers, or other professionals may be invited to attend a board of directors meeting if necessary.

The chairperson shall announce that the meeting begins when it is time to begin and at least half of the directors are present. If half or more of the directors are not present when it is time to begin a meeting, the chairperson may postpone the meeting. A meeting may be postponed twice. If after two postponements the number of directors present is still insufficient, the chairman may reconvene the meeting by following the procedure under Paragraph 2, Article 3.

Article 3:

The board of directors meeting shall be convened at least once every quarter.

Board of directors meetings shall be notified to directors and supervisors seven days in advance with the reason indicated. In an emergency, a board of directors meeting may be called at any time.

According to the Company's Articles of Incorporation, notifications of board of directors meetings may be in writing or via email or fax.

Items under Paragraph 1, Article 12 of these proceedings shall be listed in the reasons for convening a meeting, except in the case of an emergency or with just cause, and the items may not be raised in the form of an extempore motion.

Article 8:

When a board of directors meeting is called, the Finance Department shall have the relevant information ready at hand for the reference of the attending directors.

Members of the relevant departments or subsidiaries may be notified to attend a board of directors meeting depending on the agenda. CPAs, lawyers, or other professionals may be invited to attend a board of directors meeting if necessary, but shall excuse themselves from the discussion and voting process.

The chairperson shall announce that the meeting begins when it is time to begin and at least half of the directors are present. If half or more of the directors are not present when it is time to begin a meeting, the chairperson may postpone the meeting. A meeting may be postponed twice. If after two postponements the number of directors present is still insufficient, the chairman may reconvene the meeting by following the procedure under Paragraph 2, Article 3.

Original Provisions

Provisions after Revision

Article 12:

The following items shall be submitted to the board of directors for discussion:

1. The Company's business plans.
2. Annual and semiannual financial statements.
3. Implementation or amendment of internal control mechanisms in accordance with Article 14-1 of the Securities and Exchange Act.
4. Implementation or amendment of guidelines for major financial operations including asset acquisition and disposal, trading derivatives, lending funds to other parties, and making of endorsement and guarantees for other parties.
5. Making offers, issuances, or private offers of securities with rights to shares.
6. Appointment and discharge of financial, accounting, or internal audit supervisors.
7. Decisions that require a resolution of the shareholders meeting or the board of directors according to Article 14-3 of the Securities and Exchange Act, other laws or the articles of incorporation or other important matters specified by the competent authorities.

Article 12:

The following items shall be submitted to the board of directors for discussion:

1. The Company's business plans.
2. Annual financial statements.
3. Implementation or amendment of internal control mechanisms in accordance with Article 14-1 of the Securities and Exchange Act.
4. Implementation or amendment of guidelines for major financial operations including asset acquisition and disposal, trading derivatives, lending funds to other parties, and making of endorsement and guarantees for other parties.
5. Making offers, issuances, or private offers of securities with rights to shares.
6. Appointment and discharge of financial, accounting, or internal audit supervisors.
7. Donations to stakeholders and material donations to nonstakeholders. However, charity donations as emergency relief after major natural disasters may be submitted to the next board of directors for recognition.
8. Decisions that require a resolution of the shareholders meeting or the board of directors according to Article 14-3 of the Securities and Exchange Act, other laws or the articles of incorporation or other important matters specified by the competent authorities.

The stakeholders under Item 7 refer to the stakeholders specified in the Guidelines Governing the Preparation of Financial Reports by Securities Issuers. Material donations to nonstakeholders refer to a single donation or an annual sum to a single recipient of NT\$100 million or above or of 1% of the net operating revenue or 5% of the paid-in capital indicated in the latest audited financial statements.

The annual sum referred to in the preceding paragraph is based on the year preceding the date of the current board of directors meeting, and the amount previously approved by a board of directors meeting resolution may be exempted from the calculation.

Original Provisions

Provisions after Revision

Regarding matters that require a resolution of the board of directors according to Article 14-3 of the Securities and Exchange Act, independent directors shall attend the meetings in person or appoint other independent directors to attend on their behalf. Any objection or reservation expressed by an independent director shall be recorded in the meeting minutes of the board meeting. Any objection or reservation expressed by an independent director who is unable to attend the meeting in person shall be made in writing and in advance, except with just cause, and recorded in the meeting minutes of a board of directors meeting.

Article 15:

With respect to matters of which a director or the corporate entity represented by the director is a stakeholder, which may be in conflict with the Company's interest, the director may make comments and answer questions, but may not join the discussion and voting process. In addition, the director shall excuse himself from the discussion and voting process and may not exercise the voting right on the behalf of another director.

A resolution of the Company's board of directors subject to any director who may not exercise the voting right as specified in the preceding paragraph shall be handled according to the rules under Paragraph 2, Article 180 of the Company Act as specified under Paragraph 2, Article 206 of the same act.

Article 16:

All meetings of the board of directors shall be recorded in the meeting minutes, which shall include detailed accounts of the following items:

1. The number (or year), time and location of a meeting.
2. The name of the chairman.
3. Director attendance, including the names and number of the directors who are attending, on leave, and absent.
4. The names and titles of those present.
5. The name of the person recording the meeting.
6. Items to report.

Regarding matters that require a resolution of the board of directors according to Article 14-3 of the Securities and Exchange Act, independent directors shall attend the meetings in person or appoint other independent directors to attend on their behalf. Any objection or reservation expressed by an independent director shall be recorded in the meeting minutes of the board of directors meeting. INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2012 and 2011, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2012 and 2011, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of and for the years ended December 31, 2012 and 2011, and have issued an unqualified opinion.

March 4, 2013

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively, the “Company”) as of December 31, 2011 and 2012, and the related consolidated statements of income, changes in shareholders’ equity and cash flows for each of the three years in the period ended December 31, 2012, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in the Republic of China (“ROC”) and the Standards of the Public Company Accounting Oversight Board (United States of America). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2011 and 2012, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with accounting principles generally accepted in the ROC.

Accounting principles generally accepted in the ROC differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 32 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of the readers.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States of America), the Company's internal control over financial reporting as of December 31, 2012, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 12, 2013 expressed an unqualified opinion on the Company's internal control over financial reporting.

The accompanying notes are an integral part of the consolidated financial statements.

Advanced Semiconductor Engineering, Inc.
Guidelines for Issuance and Conversion of Privately Offered Foreign Non-
guaranteed Convertible Corporate Bonds (Tentative)

1. Total issue

The maximum amount of a corporate bond issue for the Company is US\$. The par value is US\$, issued at par value.

2. Issuance duration

The issuance duration is years.

3. Coupon rate

Coupon rate at 0%-5%.

4. Date and method of return of principle

Except for conversion or resale by the bond holders or premature recall or buyback and cancellation by the Company, the Company will repay the face value of the bonds or with interest compensation in a cash lump sum to the bond holders upon the maturity of the bonds.

5. Issuance method

This private offering of foreign convertible corporate bonds will be issued outside the Republic of China and processed according to the laws and regulations of the country of sale and common international practice.

6. Price and method of conversion

The conversion price may not fall below the simple arithmetic mean of the share's closing price on TWSE on the date the issue price is set and its closing price one, three or five days prior to the price-setting date after deducting distribution of stock dividends and adding reversed dividends for capital reduction or 80% of the simple arithmetic mean of the share's closing price over the thirty business days preceding the price-setting date after deducting distribution of stock dividends and interests and adding reversed dividends for capital reduction. For the actual issue price, the shareholders meeting will be requested to grant the board of directors the authority to set the price according to the law.

After the bond has been issued, the conversion price will be adjusted when the number of the Company's outstanding (or privately offered) common shares increases (including but not limited to capital increase by public or private offerings for cash, by surplus, and by capital reserve, corporate mergers or acceptance of new shares issued by other companies, stock splits and cash capital increase through GDRs), cash dividends are distributed, conversion or subscription of reissue (or private offering) is made below the share price for securities with option to convert to or subscribe common shares is below the market price

or subscription price, or the number of common shares falls due to capital reduction by cancellation of treasury shares.

With the exception of the statutory period in which ownership may not be transferred, a bond holder may request to have his bonds converted to common shares in the Company at any time after months from the issue date and prior to ten days before the maturity.

7. The Company's right to reclaim the bonds

The Company may choose not to include a right to reclaim or buy back the outstanding bonds in cash at par value or with interests in one of the following circumstances.

1. If the amount of the outstanding bonds falls below 10% of the total amount of the original issue after one year from the issue date and prior to 40 days before the maturity.
2. If the closing price of the Company's common shares on TWSE exceeds the current conversion price by 130% or more for 30 consecutive business days after one year from the issue date and prior to 40 days before the maturity.

8. The bond holder's resale right:

The Company may choose not to include a resale right or a bond holder may request that the Company buys back the bonds at the full or partial price calculated at an annual yield of % after months from the issue date.

9. Public offering for shares converted from the corporate bonds

The shares converted from the corporate bonds may be filed with the Financial Supervisory Commission for a public offering after three years from the corporate bonds' delivery date, and an application may be submitted to TWSE for trading on the stock exchange.

10. Applicable laws

The issuance, administration, and disposal of the corporate bonds shall be subject to the laws of [the New York State]. However, the approval for issuance and exercise of conversion rights for the corporate bonds shall be conducted according to the laws of the Republic of China and be subject to the restrictions under the laws of the Republic of China.

11. Sale restrictions

The corporate bonds may not be offered, sold, or delivered in the Republic of China. The corporate bonds shall be sold according to the laws of the country of sale outside the Republic of China.

12. Taxes

1. Withholding tax: According to the existing tax laws, a 15% tax shall be withheld on interests and returns (if any) on the corporate bonds held by profit making organizations without fixed business addresses in the Republic of China or individuals who do not reside in the Republic of China.
2. Securities transactions tax: Investors shall be subject to a securities transactions tax at 0.3% of the total amount when selling shares.

3. Capital gains tax for securities: When selling shares, investors must calculate, file, and pay the capital gains tax and the income basic tax by following the Income Tax Act and the Income Basic Tax Act. Foreign individuals shall pay a capital gains tax for securities of 15% of the capital gain calculated under the rules. Foreign corporate entities may be exempted from capital gains taxes, but those with fixed business addresses in the Republic of China or business agents shall calculate whether they have to pay income basic taxes.

The aforementioned withholding tax, securities transactions tax, and capital gains tax are described according to the current rules, and shall be subject to changes in the future if the tax laws in the Republic of China change.

Rules of Procedure for the Shareholders' Meeting

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules specified herein.
2. Shareholders attending the meeting in person (or their proxies) shall wear attendance badges and shall submit sign-in cards in lieu of signing in. The Company's weight of share ownership in attendance shall be based on the weight of share ownership described in the preceding, plus the weight of share ownership exercised via electronic voting.
3. Unless specified in Article 179 of the Company Act whereas no voting right is entitled or restricted by the applicable rules under the Company Act whereas limited voting right is entitled, a shareholder of the Company shall be entitled to one vote for each share held. When a shareholder is unable to attend the shareholders' meeting for whatever the reason, the shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the shareholders' meeting. With the exception of trust enterprises or stock affair agencies approved by competent securities authorities concerned, the votes that may be cast by one proxy representing two or more shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
A shareholder may only execute one power of attorney and appoint one proxy only, which shall be delivered to the Company at least five days prior to the shareholders meeting. In case of overlapping proxies, the first one to arrive at the Company shall apply. However, exception applies when a proxy is rescinded.
Once the proxy has been delivered to the Company and the shareholder wishes to personally attend the meeting or exercise his or her voting rights by electronic means, the concerned shareholder should notify the Company in writing two days prior to the shareholders' meeting to rescind the notice for proxy. If the shareholder fails to do so by the deadline, the voting right cast by the trustee agent shall govern.

4. Venue of ANNUAL SHAREHOLDERS' MEETINGS shall be where the Company is located or a different location convenient for shareholders to attend and for the meeting to be held with the commencement no earlier than 9am or later than 3pm.
5. Unless otherwise stipulated in the Company Act, ANNUAL SHAREHOLDERS' MEETINGS shall be called by the board of directors and chaired by the president. Article 208.3 of the Company Act shall be followed if the president is absent. If an ANNUAL SHAREHOLDERS' MEETING is called by someone other than the president who has the right to call the meeting, the said person shall chair the meeting. If more than one person has the right to call the meeting, one shall be elected to chair the meeting.
6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to attend the shareholders' meeting. The staff handling administrative affairs of the shareholders' meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the shareholders' meeting on audio tape or video tape, and shall keep the tapes on file for at least one year.
8. The chairperson shall announce that the meeting begins when it is time to begin. If shareholders representing more than half of all voting rights are not present, the chairperson may delay the meeting. A meeting may be delayed twice for a combined maximum of one hour. If after two postponements the number of shareholders present is still insufficient while the shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of the Company Act. If prior to the end of the meeting the shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the meeting for a vote in accordance with Article 174 of The Company Act.

9. Agenda of an ANNUAL SHAREHOLDERS' MEETING called by the board of directors shall be decided by the board of directors. The meeting shall proceed according to the agenda unless changed by an ANNUAL SHAREHOLDERS' MEETING resolution.
If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the rules of the preceding paragraph shall apply mutatis mutandis. Unless by the resolution of the shareholders' meeting, the chairperson may not declare the meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two paragraphs have been completed.
After the meeting is declared ended, shareholders may not elect a chairperson to resume the meeting at the original location or other premises, unless such declaration by the chairperson has violated the rules of procedure, whereas one person may be elected the chairperson with the consent of one half of the votes represented by shareholders present to resume the Meeting.
10. When the shareholders' meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.
11. Before a shareholder present at the meeting speaks, he/she shall first fill out a statement slip stating therein the main points of the statement, the shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The shareholder present at the meeting that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking shareholder, the other shareholders may not speak to interrupt when a shareholder is speaking; otherwise the chairperson shall stop the interruption.
12. Unless permitted by the chairperson, no shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.
If a shareholder violates rules under the preceding paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.

13. When an institutional person attends the shareholders' meeting as a proxy, the institutional person may assign only one representative to attend the meeting. When an institutional shareholder assigns two or more representatives to attend the shareholders' meeting, only one of them may speak for any single proposal.
14. After a shareholder present at the meeting speaks, the chairperson may reply in person or assign concerned personnel to reply.
15. With respect to discussions of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussions shall cease and the proposal be submitted for a vote.
16. The chairperson shall appoint monitors and ballot counters for voting on proposals. For qualifications, monitors must be shareholders. The results of each vote shall be announced on the spot and made into the minutes.
17. Unless otherwise provided by The Company Act or the Company's Articles of Incorporation, a proposal shall be approved by the consent of more than half of the votes of shares represented by shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as does voting by ballot.
18. Where there is an amendment or an alternative for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.
19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector."
20. All matters not provided by these Rules herein shall be handled in accordance with The Company Act, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. These Rules shall come into force given the approval of the shareholders' meeting, and so shall be the amendment.

- Article 4 : The Company may provide external guarantees.
- Article 5 : The Company is headquartered in the Nantz Export Processing Zone in Kaohsiung, Taiwan. Branches, offices or business locations may be set up in Taiwan or overseas with board of directors resolutions.

Chapter II Shares

Article 6

:

The Company's registered capital is NT\$95 billion, divided into 9.5 billion shares with a face value of NT\$10 per share. Stock options worth NT\$8 billion are set aside for employee subscription. The board of directors is

-70-

authorized to issue the remainder in several batches.

- Article 7 : Share certificates of the Company are all registered in form, which shall be signed or affixed with seal by more than three directors as well as duly attested before they can be issued. According to Article 162.2 of the Company Act, the Company may choose to not provide share certificates in print form.
- Article 8 : Title transfer of stocks shall all be suspended from within sixty days before the shareholders' general meeting is held, within thirty days before the shareholders' provisional meeting is held, or within five days before the basis date for distribution of stock dividends and bonuses or other benefits determined by the Company.
- Article 9 : The Company's processing rules of stock affairs shall fully comply with pertinent laws and regulations promulgated by the authorities concerned

Chapter III Shareholders' Meeting

- Article 10 : The Company holds general and provisional shareholders' meetings. A general meeting is called by the board of directors once a year within six months after the end of a fiscal year according to law. The provisional meeting is convened when necessary according to law.
- Article 11 : To convene the shareholders' general meeting and the shareholders' provisional meeting, the Company shall inform each and every shareholder of the date, venue and purpose of convening the meeting thirty days and fifteen days respectively in advance before the meeting is held.
- Article 12 : Unless otherwise provided by The Company Act, a resolution of the shareholders' meeting shall be adopted by the consent of more than one half of the votes represented by the shareholders present in a meeting attended by shareholders representing more than one half of the total issued shares.
- Article 13 : Unless specified in Article 179 of The Company Act whereas no voting right is entitled, a shareholder of the Company shall be entitled to one vote for each share held.
- Article 14 : If a shareholder is unable to attend the shareholders' meeting for whatever the reason, he/she may present a proxy statement printed by the Company, stating therein the scope of authorization to entrust a proxy to appear on his/her behalf. The above proxy statement shall be delivered to the Company five days in advance before the

shareholders' meeting is held.

Article 15 : Unless otherwise stipulated in the Company Act, ANNUAL SHAREHOLDERS' MEETINGS shall be called by the board of directors and chaired by the president. Article 208.3 of the Company Act shall be followed

if the president is absent. If an ANNUAL SHAREHOLDERS' MEETING is called by someone other than the president who has the right to call the meeting, the said person shall chair the meeting. If more than one person has the right to call the meeting, one shall be elected to chair the meeting.

Chapter IV Directors and Supervisors

Article 16 : The Company shall have seven to nine Directors, of which there shall be two independent Directors and five to seven non-independent Directors, and also five to seven Supervisors to be elected by the shareholders' meeting from candidates with legal capacity. Each director and supervisor shall hold office for a term of three years, and may continue to serve in the office if re-elected.

At the time of election of Directors and Supervisors, it should be handled according to Article 198 of the Company Act and the relevant laws and regulations.

When handling the aforementioned election of Directors, the election of independent Directors and non-independent Directors should be held together, with the names of the elected separately calculated, and those that receive more ballots that represent voting rights will be elected as independent Directors or non-independent Directors.

Article 16.1 : Shareholders retaining at least 1% of all outstanding shares and the board of directors may nominate candidates for independent directorship. A list of candidates determined at board of directors meetings to meet the criteria for being elected independent directors are submitted by the board of directors to the ANNUAL SHAREHOLDERS' MEETING for consideration. If the Shareholder's Meeting is convened by another person with the authority to convene the meeting, after the person with the authority to convene the meeting examines the qualifications of the candidate(s) for serving as an independent Director, the names are sent to the Shareholder's meeting for election. All matters regarding the acceptance method and announcement of the nomination of candidates for independent Director will be handled according to the Company Act, the Securities Exchange Law, and other relevant laws and regulations.

Article 16.2 : Independent directors shall be remunerated with NT\$2 million per person per year. If an independent serves on the board of directors for less than a year, s/he shall be paid part of that amount for the number

of days served. An independent director of the Company, if also serving as a member of the Company's Remuneration Committee, shall receive compensation of NT\$360,000 per year. If the term of service is less than one year, the actual compensation received shall be calculated on a pro-rata basis on the actual days served.

Article 17

:

The board of directors shall be organized by the directors whose functions are as follows:

- (1) Preparing the business plan.
- (2) Making proposals regarding profit distribution or loss replenishment.
- (3) Making proposals regarding capital increase/decrease.
- (4) Reviewing and approving important rules and contracts.

- (5) Appointing and dismissing the president of the Company.
- (6) Establishing and dissolving branch organizations of the Company.
- (7) Reviewing and approving budgets and actual budget.
- (8) Other functions vested by The Company Act or by the resolution of the shareholders' meeting.

- Article 18 : The board of directors is formed by directors. The president shall be elected from the directors with 2/3 attending and over half of those attending voting for him/her. A vice president may be elected in the same way. The president represents the Company in its dealings with third parties. When the chairperson is on leave or unable to exercise his/her official functions for whatever the reason, the acting chairperson shall be designated in accordance with Article 208 of The Company Act.
- Article 19 : Unless otherwise provided by The Company Act, the board of directors meeting shall be convened by the chairperson according to law. The meeting may be held at any location at home, or by video conference.
- Article 19.1 : Board of directors meetings shall be notified to directors and supervisors seven days in advance with the reason indicated. In an emergency, a board of directors meeting may be called at any time. Notifications of board of directors meetings may be in writing or via email or fax.
- Article 20 : A director may present a written proxy statement to entrust another director as the proxy to attend the board of directors meeting and exercise the voting right on his/her behalf, but each director may act as a proxy for only one other director.
- Chapter V Manager
- Article 21 : The Company shall have one president, whose appointment, dismissal and remuneration shall be handled in accordance with Article 29 of The Company Act.
- Chapter VI Accounting
- Article 22 : The Company's fiscal year shall run from January 1 to December 31 each year. At the end of each fiscal year, the board of directors shall prepare the various statements and reports as required by The Company Act and submit them to the shareholders' general meeting for ratification according to law.
- Article 23 :

The Company's net profits each year after the actual budget shall be distributed in the following order:

- (1) Replenishment of losses.
- (2) Allocation of 10% as the legal surplus reserve.
- (3) Allocation of a special surplus reserve in accordance with laws or

regulations set forth by the authorities concerned.

(4) For the unrealized portion of long-term investment profits calculated by the equity method that is not cash dividends, it may be listed as the special surplus reserve under the item of current profits, to be included for profit distribution after being realized.

Any remaining profits, if any, shall be distributed as follows:

(5) Allocation of 2%, inclusive, or less from the balance after the amounts mandated by Subparagraphs 1 to 4 above have been deducted as the remuneration for directors and supervisors.

(6) 7%-10% of the remainder after deducting the amounts indicated in (1)-(4) above shall be set aside for distribution as employees bonuses. 7% of the amount earmarked for employee bonuses shall be distributed according to the rules governing distribution of employee bonuses; the remainder exceeding the 7% is to be distributed by the board of directors among employees based on their individual contributions.

(7) The board of directors shall be delegated to draw up a plan to distribute the remaining profits to shareholders pro rata according to the percentage of shares held by each Sshareholder.

Employees referred to in Subparagraph 6 of the preceding paragraph include employees of subsidiary companies that meet certain conditions, which are to be prescribed by the board of directors.

Article 24 : The Company is now at the stage of steady growth. To provide the Company with the funds it needs to expand and satisfy shareholders' desire for cash inflow, the Company adopts a Residual Dividend Policy. With which, cash dividends shall not fall below 30% of all dividends, with the remainder distributed in the form of stock dividends. Dividend distribution proposals shall be drafted by the board of directors and approved by the ANNUAL SHAREHOLDERS' MEETING before they are implemented.

Chapter VII Supplementary Provisions

Article 25 : The Articles of Incorporation and By-Laws of the Company shall be separately established.

Article 26 : Any matters that are not completely provided by the Articles of Incorporation shall be handled in accordance with The Company Act.

Information Concerning Employee Bonus and Information
Remuneration for Directors and Supervisors

2012 resolution to distribute earnings was passed at the board of directors meeting held on April 8, 2013. Distribution of earnings passed at the board of directors meeting is as follows:

1. Distribution of employee cash bonus of NT\$1,147,223,000.
2. NT\$228,000,000 is distributed as remuneration to directors and supervisors.
3. The difference between the amount to be distributed and the combined amount of employee bonuses of NT\$1,178,222,351 and remuneration to directors and supervisors of NT\$235,644,470 already expensed is NT\$38,643,821.
 1. Reason for the difference: Accounting estimate adjustments.
 2. Handling of the difference: The difference was recognized as changes in accounting estimates at the time the board of directors passed the resolution. If the amount still changes on the day shareholders pass the resolution, it shall be treated as changes in accounting estimates and entered into accounts in the year shareholders pass the resolution.

Note After a resolution is passed at ANNUAL SHAREHOLDERS' MEETING 2013.

1:

Note A total of NT\$7,987,973,811 is distributed as dividends, NT\$1.05 per share, all of which will be distributed in cash. The above distribution of dividends to shareholders and the cash and stock dividend distribution rates are calculated based on the number (7,607,594,106) of shares recorded in the Register of Shareholders as of March 28, 2013. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation and make adjustments accordingly.

Note According to the "Guidance Concerning Handling of Financial Forecast Information of Public Companies", the Company is not required to disclose its financial forecast for 2013.

Summary of Corporate
Governance Differences

-79-

Item 16G. Corporate Governance

As a company listed on the New York Stock Exchange, or the NYSE, we are subject to certain corporate governance rules of the NYSE. The application of the NYSE's corporate governance rules is limited for foreign private issuers, recognizing that they have to comply with domestic requirements. As a foreign private issuer, we must comply with the following NYSE corporate governance rules: 1) satisfy the audit committee requirements of the SEC; 2) chief executive officer must promptly notify the NYSE in writing upon becoming aware of any material non-compliance with applicable NYSE corporate governance rules; 3) submit annual and interim affirmations to the NYSE regarding compliance with applicable NYSE corporate governance requirements; and 4) provide a brief description of any significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards. The table below sets forth the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

New York Stock Exchange Corporate Governance Rules Applicable to U.S. Companies	Description of Significant Differences between Our Governance Practices and the NYSE Corporate Governance Rules Applicable to U.S. Companies
Director independence Listed companies must have a majority of independent directors, as defined under the NYSE listing standards.	Two members of our board of directors are independent as defined in Rule 10A-3 under the Exchange Act. We do not assess the independence of our directors under the independence requirements of the NYSE listing standards.
To empower non-management directors to serve as a more effective check on management, the non-management directors of each company must meet at regularly scheduled executive sessions without management.	Pursuant to relevant laws and regulations of the ROC, we have two independent directors on our board of directors that were elected through the candidate nomination system at our annual general meeting on June 21, 2012. All of our directors attend the meetings of the board of directors. Our non-management directors do not meet at regularly scheduled executive sessions without management. The ROC Company Law does not require companies incorporated in the ROC to have their non-management directors meet at regularly scheduled executive sessions without management.
Nominating/Corporate governance committee Listed companies must have a nominating/corporate governance committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.	We do not have a nominating/corporate governance committee. The ROC Company Law does not require companies incorporated in the ROC to have a nominating/corporate governance committee. Currently, our board of directors performs the duties of a corporate governance committee and regularly reviews our corporate governance principles and practices.

The ROC Company Law requires that directors be elected by shareholders. Under ROC law and regulations, companies that have independent directors are required to adopt a candidate nomination system for the election of independent directors. Our two independent directors were elected through the candidate nomination system provided in our articles of incorporation. All of our non-independent directors were elected directly by our shareholders at our

shareholders meetings without a nomination process.

Compensation committee

Listed companies must have a compensation committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We have established a compensation committee on September 29, 2011 which was required by the regulations promulgated by the FSC in March 2011. The charter of such committee contains similar responsibilities as those provided under NYSE listing standards.

Audit committee

Listed companies must have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act.

We have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act. Pursuant to the ROC Securities and Exchange Law, public companies shall either establish an audit committee or install supervisors provided that the FSC may, after considering the scale, business nature of a public company and other essential conditions, require the company to establish an audit committee in place of its supervisor. The FSC has promulgated such compulsory ruling on February 20, 2013 (the "FSC Ruling"), and all public companies meeting the criteria provided in the FSC Ruling shall retain an audit committee no later than the expiration of the term of the current directors and supervisors. We currently have supervisors and shall replace our supervisors by establishing an audit committee no later than the expiration of the term of our current directors and supervisors in accordance with the FSC Ruling.

The audit committee must have a minimum of three members.

We currently have two members on our audit committee. Our audit committee members satisfy the independence requirements of Rule 10A-3 under the Exchange Act. We do not assess the independence of our audit committee member under the independence requirements of the NYSE listing standards.

In addition to any requirement of Rule 10A-3(b)(1), all audit committee members must satisfy the independence requirements for independent directors set out in the NYSE listing standards.

The audit committee must have a written charter that provides for the duties and responsibilities set out in Rule 10A-3 and addresses certain other matters required by the NYSE listing standards.

Our audit committee charter provides for the audit committee to assist our board of directors in its oversight of (i) the integrity of our financial statements, (ii) the qualifications, independence and performance of our independent auditor and (iii) our compliance with legal and regulatory requirements and provides for the duties and responsibilities set out in Rule 10A-3. Our audit committee charter

does not address all the matters required by the NYSE listing standards beyond the requirements of Rule 10A-3.

Because the appointment and retention of our independent auditor are the responsibility of our entire board of directors under ROC law and regulations, our audit committee charter provides that the audit committee shall make recommendations to the board of directors with respect to these matters.

Each listed company must have an internal audit function.

We have an internal audit function. Under the ROC Regulations for the Establishment of Internal Control Systems by Public Companies, a public company is required to set out its internal control systems in writing, including internal audit implementation rules, which must be approved by the board of directors. Our entire board of directors and the Chief Executive Officer are responsible for the establishment of the internal audit functions, compliance with the internal audit implementation rules and oversight of our internal control systems, including the appointment and retention of our independent auditor.

Equity compensation plans

Shareholders must be given the opportunity to vote on all equity compensation plans and material revisions thereto, except for employment inducement awards, certain grants, plans and amendments in the context of mergers and acquisitions, and certain specific types of plans.

We comply with the corresponding requirements of the ROC Company Law, the ROC Securities and Exchange Law, and the ROC Criteria Governing the Offering and Issuance of Securities by Securities Issuers, which require shareholders' approval for the distribution of employee bonuses, while the board of directors has authority to approve employee stock option plans by a majority vote of the board of directors at a meeting where at least two-thirds of all directors are present and to grant options to employees pursuant to such plans, subject to the approval of the Securities and Futures Bureau of the FSC, and to approve treasury stock programs and the transfer of shares to employees under such programs by a majority vote of the board of directors in a meeting where at least two-thirds of all directors are present.

Corporate governance guidelines

Listed companies must adopt and disclose corporate governance guidelines.

We currently comply with the domestic non-binding Corporate Governance Best-Practice Principles for Taiwan Stock Exchange and GreTai Securities Market Listed Companies promulgated by the Taiwan Stock Exchange and the GreTai Securities Market, and we provide an explanation of differences between our practice and the principles, if any, in our ROC annual report.

Code of ethics for directors, officers and employees

Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.	We have adopted a code of ethics that satisfies the requirements of Item 16B of Form 20-F and applies to all employees, officers, supervisors and directors of our company and our subsidiaries and will disclose any waivers of the code as required by Item 16B of Form 20-F. We have posted our code of ethics on our website.

companies under NYSE listing standards.

CEO certification

Each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards, qualifying the certification to the extent necessary.

As a foreign private issuer, we are not required to comply with this rule; however, our Chief Executive Officer provides certifications under Sections 302 and 906 of the Sarbanes-Oxley Act.

Each listed company CEO must promptly notify the NYSE in writing after any executive officer of the listed company becomes aware of any material non-compliance with any applicable provisions of Section 303A.

We intend to comply with this requirement.

Each listed company must submit an executed Written Affirmation annually to the NYSE. In addition, each listed company must submit an interim Written Affirmation each time a change occurs to the board or any of the committees subject to Section 303A. The annual and interim Written Affirmations must be in the form specified by the NYSE.

We have complied with this requirement to date and intend to continue to comply going forward.
