In the opinion of management, these interim financial statements include all adjustments necessary in order to make these financial statements not misleading. The results of operations for such interim periods are not necessarily indicative of the results of operations for a full year or any other period. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto of the Company included in the Company's Annual Report on Form 10-K for the year ended October 31, 2001.

You should read the following discussion and analysis in conjunction with the audited financial statements (and notes thereto) and other financial information of our company appearing elsewhere in this report.

We have focused primarily on capital issues and on expanding our business during the three months ended January 31, 2002.

#### RESULTS OF OPERATION

Total revenues for the three months ended January 31, 2002 were \$11,954 as compared to \$34,395 for the three months ended January 31, 2001. Our cost of goods sold for the three months ended January 31, 2002 was \$9,281 as compared to \$20,707 for the three months ended January 31, 2001. Selling and general and administrative expenses for the three months ended January 31, 2002 were \$34,774 as compared to \$55,334 for the three months ended January 31, 2001.

#### LIQUIDITY AND CAPITAL RESOURCES

For the three months ended January 31, 2002, we had net cash used in operating activities of \$29,061 as compared to \$39,994 for the three months ended January 31, 2001.

Cash used in investment activities for the three months ended January 31, 2002 was 0 as compared to 3,062 for the three months ended January 31, 2001.

Cash provided by financing activities for the three months ended January 31, 2002 was (\$219) as compared to \$253,504 for the three months ended January 31, 2001

At January 31, 2002, we had cash in the amount of \$4,604 as compared to \$33,884 at November 1, 2001.

We believe that our current cash will be sufficient to meet our anticipated cash

needs for working capital and capital expenditures for at least the next twelve months. If cash generated from operations is insufficient to satisfy liquidity requirements, we may seek to sell additional equity or debt securities or to obtain a credit facility. If we issue debt securities, fixed obligations will increase and we may have to comply with covenants that might inhibit our operations. Moreover, such financing may not be available in amounts or on terms acceptable to us, if at all.
