PROXY STATEMENT

GENERAL INFORMATION

The Board of Directors of The Dun & Bradstreet Corporation (D&B or the Company) is soliciting your proxy for use at the Annual Meeting of Shareholders to be held on May 22, 2003. These proxy materials are being mailed to shareholders beginning on or about April 16, 2003. The principal executive offices of D&B are located at 103 JFK Parkway, Short Hills, New Jersey 07078-2708, and the Company's main telephone number is 973.921.5500.

On September 30, 2000, the company then known as The Dun & Bradstreet Corporation (Old D&B) separated into two publicly traded companies: the new Dun & Bradstreet Corporation (*i.e.*, the company to which this Proxy Statement relates) and Moody's Corporation. The separation of the two companies was accomplished through a tax-free distribution by Old D&B of the shares of Common Stock of the Company (the Spin-Off). Old D&B then changed its name to Moody's Corporation. Information included in this Proxy Statement concerning the Company and its management during periods prior to the Spin-Off actually relates to Old D&B and its management.

Annual Meeting Admission

You will need an admission ticket to enter the Annual Meeting. For shareholders of record, an admission ticket is attached to the proxy card sent to you. If your shares are held in the name of a bank, broker or other holder of record and you plan to attend the meeting in person, you may obtain an admission ticket in advance by sending a written request, along with proof of share ownership, such as a bank or brokerage account statement, to the Company's Corporate Secretary at the address noted above. Shareholders who do not have admission tickets will be admitted only following verification of ownership at the door.

Who Can Vote

Shareholders of record at the close of business on April 7, 2003, are eligible to vote at the meeting. As of the close of business on that date, D&B had outstanding 74,521,041 shares of Common Stock.

How to Vote

In addition to voting in person at the meeting, shareholders of record can vote by proxy by calling a toll-free telephone number, by using the Internet or by mailing their signed proxy cards. The telephone and Internet voting procedures are designed to authenticate shareholders identities, to allow shareholders to give their voting instructions and to confirm that shareholders' instructions have been recorded properly. Specific instructions for shareholders of record who wish to use the telephone or Internet voting procedures are set forth on the enclosed proxy card.

If your shares are held in the name of a bank, broker or other holder of record, you will receive instructions from the holder of record that you must follow in order for your shares to be voted. Certain of these institutions offer telephone and Internet voting.

Revocation of Proxies

A shareholder of record can revoke a proxy at any time before the vote is taken at the meeting by sending written notice of the revocation to the Corporate Secretary of the Company, by submitting another proxy that is properly signed and bears a later date, or by voting in person at the meeting. All properly executed proxies not revoked will be voted at the meeting in accordance with their instructions. A proxy that is signed and returned by a shareholder of record without specifications marked in the instruction boxes will be voted in accordance with the recommendations of the Board of Directors, as outlined in this Proxy Statement. If any other proposals are brought before the meeting and submitted to a vote, all proxies will be voted in accordance with the judgment of the persons voting the proxies.

Table of Contents

Special Voting Procedures for Certain Current and Former Employees

Many current and former employees of the Company have share balances in the D&B Common Stock Fund of the D&B or Moody's Corporation Profit Participation Plan (collectively, the "PPP"). The voting procedures described above do not apply to these share balances. Instead, any proxy given by such an employee or former employee will serve as a voting instruction for the trustee of the PPP, as well as a proxy for any shares registered in that person's own name (including shares acquired under the D&B Employee Stock Purchase Plan or otherwise). To allow sufficient time for voting by the trustee, PPP voting instructions must be received by May 16, 2003. If voting instructions have not been received by that date, the trustee will vote those PPP shares in the same proportion as the respective PPP shares for which it has received instructions, except as otherwise required by law.

Proxy Solicitation

Directors, officers and employees of D&B may solicit proxies on behalf of the Company by communicating with shareholders personally or by telephone, facsimile, e-mail, telegraph or mail. D&B will pay all expenses related to such solicitations of proxies. D&B will request banks and brokers to solicit proxies from their customers, where appropriate, and will reimburse them for reasonable out-of-pocket expenses.

Quorum and Voting Requirements

D&B's by-laws provide that a majority of the shares entitled to vote, whether present in person or represented by proxy, constitute a quorum at meetings of shareholders. Abstentions and broker non-votes are counted for purposes of establishing a quorum. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee has not received instructions from the beneficial owner and does not have discretionary voting power for that particular matter. Brokers are permitted by the New York Stock Exchange to vote shares without instructions from the beneficial owners on routine matters such as the election of directors and the ratification of the selection of independent accountants.

Election of directors (Proposal No. 1) shall be determined by a plurality of the voting power present in person or represented by proxy at the meeting (*i.e.*, the nominees receiving the greatest number of votes will be elected). Only shares that are voted in favor of a particular nominee will be counted toward such nominee's achievement of a plurality. Thus, shares present at the meeting that are not voted for a particular nominee, shares present by proxy for which the shareholder properly withholds authority to vote for such nominees, and broker non-votes will not be counted towards such nominee's achievement of a plurality.

Ratification of the selection of independent accountants (Proposal No. 2) shall be determined by the affirmative vote of the majority of the voting power represented at the meeting and entitled to vote on the matter. If a shareholder abstains from voting or directs the shareholder's proxy to abstain from voting on the matter, the shares are considered present at the meeting and entitled to vote on such matter, but since they are not affirmative votes for the matter, they will have the same effect as votes against the matter. On the other hand, shares resulting in broker non-votes are considered present at the meeting but not entitled to vote on such matter and, therefore, have the practical effect of reducing the number of affirmative votes required to achieve a majority for such matter by reducing the total number of shares from which the majority is calculated.

All members of these committees are independent (as defined in the New York Stock Exchange listing standards).

The Audit Committee consists of Messrs. Kuehn, Pelson (chairman) and Salerno and Ms. Seligman. The Audit Committee held nine meetings during 2002. As set forth in the charter adopted by the Audit Committee, the Committee's primary function is to assist the Board in the oversight of: 1) the integrity of the financial statements of the Company, 2) the independent auditors' qualifications and independence, 3) the performance of the Company's internal audit function and independent auditors, and 4) the compliance by the Company with legal and regulatory requirements. of the Board, review the qualifications of candidates for Board membership, and recommend candidates to fill Board vacancies. The Committee also reviews the Company's Corporate Governance Principles annually and initiates annual Board effectiveness discussions. Although the Board Affairs Committee has not adopted formal procedures for the submission of shareholders' recommendations for nominees for Board membership, such recommendations may be made by submitting the names in writing to: Michael R. Report of the Audit Committee

The membership of the Audit Committee fully complies with all current requirements of law and the rules of the Securities and Exchange Commission and the New York Stock Exchange. The Audit Committee selects the Company's independent auditors. Management has the primary responsibility for the Company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in compliance with generally accepted accounting principles, applicable laws and regulations. The Company's independent auditors are responsible for expressing an opinion on the conformity of the audited financial statements to generally accepted accounting principles and for ensuring that generally accepted auditing standards are met. The Audit Committee's responsibility is to monitor and review these processes. It is not the Committee's duty or responsibility to conduct auditing or accounting reviews or procedures.

The Company restated its audited financial statements for the fiscal years ended December 31, 2001, 2000 and 1999, its selected financial data for 1998 and 1997, as well as quarterly results for the first three fiscal quarters of 2002. This non-cash restatement was made to correct timing errors in the recognition of some of the revenue associated with 14 of the Company's 200+ products. This restatement reduced the total amount of revenue recognized during the period January 1, 1997, through September 30, 2002, by \$32.3 million, or 0.4% of the revenue reported during that period, and reduced net income for the same period by \$21.5 million, or 1.9%. In connection with the restatement, the Audit Committee held joint and independent discussions with management and the independent auditors regarding the matters that gave rise to the restatement.

Management represented to the Audit Committee that the Company's fiscal 2002 audited financial statements, its restated audited financial statements for fiscal years 1999 through 2001, its selected financial data for 1997 and 1998, and its unaudited financial statements for the quarters ended March 31, June 30 and September 30, 2002, were prepared in accordance with accounting principles generally accepted in the United States, and the Audit Committee has reviewed and discussed these audited financial statements, selected financial data and unaudited quarterly financial statements with management and the independent auditors. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). In addition, the Audit Committee has received from the independent auditors the written disclosures required by Independence Standards Board No. 1 (Independence Discussions with Audit Committees) and discussed with them their independence from the Company and its management. The Audit Committee also considered whether the independent auditors' provision of non-audit services to the Company is compatible with the auditors' independence.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on SEC Form 10-K for the year ended December 31, 2002, for filing with the Securities and Exchange Commission.

Table of Contents**SECURITY OWNERSHIP OF MANAGEMENT AND OTHERS**

The following table shows the number of shares of the Company's Common Stock beneficially owned by each of the directors and director nominees, each of the executive officers named in the Summary Compensation Table on page 14 of this Proxy Statement (the "named executive officers"), and all present directors and executive officers of D&B as a group, on April 7, 2003. The table also shows the names, addresses and share ownership of the only persons known to D&B to be the beneficial owners (the "Owners") of more than 5% of the outstanding Common Stock. This information is based upon information furnished by each such person (or, in the case of the Owners, based upon public filings by such Owners with the Securities and Exchange Commission (the "SEC")). Unless otherwise stated, the indicated persons have sole voting and investment power over the shares listed. Percentages are based upon the number of shares of D&B Common Stock outstanding on April 7, 2003, plus, where applicable, the number of shares that the indicated person or group had a right to acquire within 60 days of such date. The table also sets forth ownership information concerning Stock Units, the value of which is measured by the price of the Company's Common Stock. Stock Units do not confer voting rights and are not considered beneficially owned shares under SEC rules.

FINANCIAL PERFORMANCE COMPARISON GRAPH*

SINCE OCTOBER 3, 2000

In accordance with SEC rules, the graph below compares the Company's cumulative total shareholder return against the cumulative total return of the Standard & Poor's MidCap 400 Index and a published industry index starting on October 3, 2000, the date on which the Company's Common Stock commenced regular-way trading on the New York Stock Exchange after the Spin-Off. In the Company's Proxy Statement for the 2002 Annual Shareholders Meeting, the S&P MidCap Commercial Services Specialized Index was used as the published industry index because it was a subset of the S&P 400 MidCap Index that included companies that provide business-to-business services. S&P discontinued the MidCap Commercial Services Specialized Index as of December 31, 2001, and replaced it with a new index, the S&P MidCap Diversified Commercial Services Specialized Index. This new index also includes companies that provide business-to-business services. Both indexes are shown below.

COMPENSATION OF EXECUTIVE OFFICERS AND DIRECTORS**Report of the Compensation & Benefits Committee**

Overview of Executive Compensation Philosophy and Program

The Compensation & Benefits Committee has responsibility for establishing the compensation of the Company's executive officers, including Allan Z. Loren, its chairman and chief executive officer. The Committee consists entirely of independent, non-employee directors. The Committee meets regularly to

Table of Contents

review and administer the executive compensation program to ensure that it continues to support the Company's Blueprint for Growth strategy.

The Company's 2002 executive compensation program was designed to:

Attract, motivate and retain top leadership by providing a total compensation opportunity that is competitive with the Company's market for executive talent;

Strengthen the relationship between pay and Company performance and the alignment of executive and shareholder interests; and

Reinforce behaviors that are consistent with the Company's strategy to build a "Winning Culture" in order to drive superior execution of its business plan.

To meet these objectives, the 2002 compensation program for executive officers consisted of the following three components:

Base Salaries. In setting the executive officers' base salaries, a variety of factors were considered, including: individual performance, competencies, skills and prior experience; scope of responsibility and accountability within the organization; and pay levels in the compensation comparison group (*i.e.*, a select group of companies in business information and technology services as provided by an independent third-party consulting organization).

Annual Cash Incentives. Through annual cash incentives, a significant portion of total 2002 cash compensation was at risk since payment was based on performance against predetermined annual goals. These goals, or performance measures, were set early in the year by the Committee after a detailed review by the Board of Directors of the 2002 business plan. Minimum, target and maximum levels of performance were established for each performance goal. Under this program, a full bonus is earned for a measure if the target is achieved. Achievement below the target results in a smaller or zero bonus for that measure; achievement above the target yields a larger bonus. No bonus is earned for performance below the minimum level. The performance measures for 2002 were apportioned into two key categories: 70% was apportioned to the financial goals of earnings per share (EPS) and revenue growth; and 30% was apportioned to leadership, which comprises three key components: employee satisfaction (the employee satisfaction index as measured by the Company's Winning Culture Survey, which gauges employee perspectives in a number of important areas such as leadership, strategy and work environment); customer satisfaction (as measured by the Company's Customer Satisfaction Survey); and an individual's overall leadership competency rating.

Payouts under the Company's bonus plan for executive officers and other bonus plan participants are subject to two potential adjustments. The first is the chairman of the board's discretionary adjustment of +/-20% based on individual performance relative to the Company's Leadership Model. The second is the Company Scorecard adjustment, which can increase or decrease the size of the total bonus pool. This adjustment is designed to ensure that the sum of individual bonus payouts reflect overall Company results. The Company Scorecard is based on internal performance measures such as revenue growth, earnings per share, operating income, customer and employee satisfaction, and implementation of the Company's financial flexibility program, as well as qualitative assessments by the Compensation & Benefits Committee of the challenges in the marketplace, including the economy, the Company's performance relative to other companies during 2002 and the Company's performance relative to external guidance to shareholders.

Long-term Incentives. Through the long-term incentive program, over half of the total compensation opportunity provided to executive officers was equity-based (*i.e.*, stock options). This emphasis on equity compensation reflects the Committee's view that there should be a close alignment between executive rewards and shareholder value creation.

Company Performance

In linking pay to performance, the Committee determined that the most important measure of Company performance for the Company's executive officers is the increase in long-term shareholder value, evidenced through improvements in EPS and core revenue growth, and supported by improvements in customer satisfaction, employee satisfaction and leadership. For other bonus plan participants, the Committee also established goals linked to the Company's Blueprint for Growth strategy that it believed were critical in increasing the longer-term value of the Company to its shareholders, such as operating income. For bonus plan purposes, EPS growth and revenue growth were calculated in the same manner communicated to shareholders in connection with the Company's 2002 EPS and revenue growth guidance given to investors. Namely, revenue growth was calculated before the effects of foreign exchange and excluding the revenue of non-core, divested businesses. EPS growth was calculated before restructuring charges, whether recurring or non-recurring, and certain other items that management does not consider to reflect the Company's underlying business performance. Management refers to these restructuring charges and other items as non-core gains and charges.

In 2002, overall Company results against these various performance measures were as follows:

EPS growth of 26%, which was above the external guidance of 22% to 24%¹;

Revenue growth of 3%, which met the external guidance of 3%²;

Employee satisfaction index as measured by the Winning Culture Survey decreased two percentage points, but was within the range of scores set for target; and

Customer satisfaction as measured by the Company's Customer Satisfaction Survey increased three percentage points, which was below the target set by the Committee.

Based on these results, the net impact of individual chairman's adjustments, and an increase in the bonus pool resulting from the qualitative performance assessments made by the Committee referred to above (see Annual Cash Incentives), total bonus recommendations were made at 98.7% of target opportunities and resulted in the 2002 compensation awards for executive officers shown in the Summary Compensation Table that follows this report.

Compensation of the Chairman and Chief Executive Officer

Total Cash Compensation. Allan Z. Loren, the Company's chairman and chief executive officer, received a salary of \$700,000 in 2002. Mr. Loren had a target annual cash incentive opportunity of 115% of base salary, or \$805,000. Mr. Loren's target annual cash incentive opportunity was apportioned 35% to EPS, 35% to revenue growth, 10% to the results of the Company's Customer Satisfaction Survey, 10% to improvements in the employee satisfaction index as measured by the Company's Winning Culture Survey and 10% to his individual leadership rating. Based on performance against these criteria, and the Company's strong results relative to external guidance in an uncertain and challenging market, Mr. Loren's bonus award was \$975,000, representing 121.1% of his 2002 target annual cash incentive opportunity.

1. The Company achieved 2002 reported EPS growth of 2%. See Schedule I to this Proxy Statement for a quantitative reconciliation of reported EPS to EPS before non-core gains and charges for the 2002 and 2001 years. See Item 1. Business How We Evaluate Our Performance in the Company's Form 10-K for the year ended December 31, 2002 for a discussion of why the Company uses EPS before non-core gains and charges and why management believes this measure provides useful information to investors.
 2. The Company achieved 2002 total revenue decline of 2%. See Schedule II to this Proxy Statement for a quantitative reconciliation of total revenue to core revenue for the 2002 and 2001 years, as well as the effects of foreign exchange on the 2002 core revenue growth rate. See Item 1. Business How We Evaluate Our Performance in the Company's Form 10-K for the year ended December 31, 2002 for a discussion of why the Company uses core revenue growth before the effects of foreign exchange and why management believes this measure provides useful information to investors.

Table of Contents

Long-term Compensation. Approximately 79% of Mr. Loren's 2002 target total compensation (*i.e.*, base salary plus annual cash incentive opportunity plus the value of longer-term grants) consisted of equity-based awards. A grant to Mr. Loren of 250,000 stock options was approved by the Committee effective December 19, 2001, after consideration of performance and pay positioning versus the Company's compensation comparison group. The Committee considered this option grant to be part of Mr. Loren's 2002 compensation. Mr. Loren did not receive any other equity-based awards during 2002.

Executive Stock Ownership Guidelines

In 2002, the Company adopted stock ownership guidelines whereby executive officers and other members of senior management are expected to acquire over time a minimum amount of Common Stock. These amounts are 100,000 shares for the chairman and chief executive officer (about five times salary), 30,000 shares (about three times average salary) for the Leadership Team (*i.e.*, senior executives who report directly to the chairman and chief executive officer or president and chief operating officer), and 5,000 shares (about one times average salary) for other participants in the program. The establishment of these guidelines is another component of the Company's efforts to link the interests of executives and shareholders.

Tax Deductibility

Section 162(m) of the U.S. Internal Revenue Code limits the deductibility of compensation in excess of \$1 million paid to the Company's chairman and chief executive officer or to any of the Company's four highest-paid other executive officers unless certain specific and detailed criteria are satisfied. The Committee considers the anticipated tax treatment to the Company and its executive officers in its review and establishment of compensation programs and payments, but has determined that it will not necessarily seek to limit compensation to that deductible under Section 162(m).

following the acquisition of at least 20% of the outstanding Common Stock pursuant to a tender or exchange offer not made by the Company. Each limited SAR permits the holder to receive cash equal to the excess over the related option exercise price of the highest price paid pursuant to a tender or exchange offer for Common Stock that is in effect at any time during the 60 days preceding the date upon which the limited SAR is exercised. Limited SARs can be exercised regardless of whether the Company supports or opposes the offer.

These assumptions may or may not be fulfilled. The amounts shown cannot be considered predictions of future value. In addition, the options will gain value only to the extent the stock price exceeds the option exercise price during the life of the option.

The number of full years of credited service under the plans for Mr. Loren, Mr. Alesio, Ms. Mathew, Mr. Klausner and Ms. Hamburger are 3, 2, 2, 28 and 2, respectively.

Compensation, for the purpose of determining retirement benefits, consists of salary, wages, regular cash bonuses, commissions and overtime pay. Severance pay, contingent payments and other forms of special remuneration are excluded. Bonuses included in the Summary Compensation Table, on page 14 of this Proxy Statement, are normally not paid until the year following the year in which they are accrued and expensed. Therefore, compensation for purposes of determining retirement benefits varies from the Summary Compensation Table amounts in that bonuses expensed in the previous year, but paid in the current year, are part of retirement compensation in the current year, and the current year's bonuses accrued and included in the Summary Compensation Table are not.

For the reasons discussed above, compensation for determining retirement benefits for the named executive officers differed by more than 10% from the amounts shown in the Summary Compensation Table. 2002 compensation for purposes of determining retirement benefits for Mr. Loren, Mr. Alesio, Ms. Mathew, Mr. Klausner and Ms. Hamburger was \$1,275,000, \$995,000, \$523,500, \$593,452 and \$680,000, respectively.

Average final compensation is defined as the highest average annual compensation during five consecutive 12-month periods in the last ten consecutive 12-month periods of the member's credited service. Members vest in their accrued retirement benefit upon completion of five years of service. The benefits shown in the table above are calculated on a straight-life annuity basis.

The Retirement Account Plan, together with the PBEP, provides retirement income based on a percentage of annual compensation. The percentage of compensation allocated annually ranges from 3% to 12.5%, based on age and credited service. Amounts allocated also receive interest credits based on the average yield on 30-year Treasuries, with a minimum compounded annual interest credit rate of 3%.

The SEBP provides retirement benefits in addition to the benefits provided under the Retirement Account Plan and the PBEP. The SEBP has the effect of increasing the retirement benefits under the Retirement Account Plan and the PBEP to the amounts shown in the preceding table. The SEBP provides maximum benefits after 20 years.

Table of Contents**Employment, Change-in-Control, Severance and Deferral Arrangements*****Employment Arrangements***

On May 15, 2000, Old D&B entered into an employment agreement with Mr. Loren that was assigned to the Company in connection with the Spin-Off. The agreement was amended in February 2002. The term of the amended employment agreement ends on May 30, 2005. The amended employment agreement provides that Mr. Loren will serve as chief executive officer and chairman of the Board of Directors of the Company. It also provides for an annual base salary of \$700,000 and sign-on bonuses of \$460,400 (paid in January 2001) and \$700,000 (paid in January 2002). Mr. Loren is also entitled to an annual bonus if certain performance criteria are attained. The amended employment agreement provides that the target bonus for fiscal year 2002 will equal 115% of his annual base salary, with a maximum annual bonus of 200% of his annual base salary. The minimum target bonus for each fiscal year after 2002 will be the greater of \$805,000 or 100% of his annual base salary. Upon the commencement of his employment, Mr. Loren was granted a stock option to purchase 500,000 shares of Old D&B Common Stock and 75,000 shares of Old D&B restricted Common Stock. As of the Spin-Off, this stock option was canceled and replaced with a stock option to purchase 1,012,867 shares of Common Stock of the Company, and the grant of restricted stock was canceled and replaced with a grant of 151,930 shares of restricted Common Stock of the Company. Subject to Mr. Loren's continued employment, both the stock option and the restricted stock vest on May 30, 2003. However, if Mr. Loren is terminated by the Company without cause (as defined in the amended employment agreement), terminates his employment for good reason (as defined in the amended employment agreement), dies or becomes disabled, or a change in control of the Company occurs, the stock option and the restricted stock will immediately vest. In addition, if Mr. Loren's employment is terminated by the Company without cause or Mr. Loren terminates his employment for good reason, Mr. Loren will be entitled to continued payment of his annual base salary until May 30, 2005, and, to the extent not previously paid, his sign-on bonuses and his target bonuses for each fiscal year through fiscal year 2005 (prorated for the partial year), but in no event will Mr. Loren receive less than \$805,000.

On January 8, 2001, the Company entered into an employment agreement with Mr. Alesio, which began on January 8, 2001, and ended on July 8, 2002. On July 8, 2002, the Company entered into a new employment agreement with Mr. Alesio, which began on July 8, 2002, and ends on July 8, 2005. The new employment agreement provides that Mr. Alesio will serve as president and chief operating officer of the Company as well as a member of the Board of Directors of the Company. It also provides for an annual base salary of \$500,000 and an annual bonus if certain performance criteria are attained. The maximum annual bonus for each fiscal year will be 200% of his annual base salary and will be based on performance goals in excess of estimated performance by the Company. The target bonus for each fiscal year will be at least 100% of his annual base salary. Upon commencement of his employment, Mr. Alesio was granted a stock option to purchase 300,000 shares of D&B Common Stock and 40,000 restricted shares of D&B Common Stock. Subject to Mr. Alesio's continued employment, the option vests in three equal installments on January 8, 2004, 2005 and 2006, and the restricted stock vests on January 8, 2004. If Mr. Alesio is terminated by the Company without cause (as defined in the new employment agreement) or terminates his employment for good reason (as defined in the new employment agreement), Mr. Alesio will be entitled to a lump-sum payment equal to the sum of his annual base salary and target annual bonuses through July 8, 2005, an enhanced benefit under the Company's Supplemental Executive Benefit Plan, as well as special pro rata accelerated vesting of stock options previously granted to him.

Change-in-Control Arrangements

The Company has entered into agreements with the executive officers named in the Summary Compensation Table, on page 14 of this Proxy Statement, providing for certain benefits upon actual or constructive termination of employment in the event of a change in control of the Company. If, following a change in control, the executive is terminated other than for cause or by reason of death, disability or normal retirement, or the executive terminates employment for good reason (generally, an unfavorable change in employment status, compensation or benefits or a required relocation), the executive shall be entitled to receive: (i) a lump-sum payment equal to three times the sum of salary plus the annual target bonus then in

effect; (ii) continuation of welfare benefits and certain prerequisites for three years; (iii) retiree medical and life insurance benefits starting at age 55; (iv) outplacement consulting in the amount of 20% of the sum of salary plus the annual target bonus then in effect, but not exceeding \$100,000; (v) immediate vesting of certain entitlements; (vi) a prorated annual target bonus for the year in which the change in control occurs and a full target bonus for all other bonus plans in effect at the time of termination; and (vii) payment of any excise taxes due in respect of the foregoing benefits.

Severance Arrangements

The Company has adopted an Executive Transition Plan (ETP) that provides severance benefits for the Company's chief executive officer and other designated executives. The ETP currently provides for the payment of severance benefits if an eligible executive's employment terminates by reason of a reduction in force, job elimination, unsatisfactory job performance (not constituting cause) or a mutually agreed resignation. In the event of an eligible termination, the executive will be paid 104 weeks of salary continuation and (unless the executive's employment is terminated by the Company for unsatisfactory performance) the executive's guideline annual bonus opportunity for the year of termination, payment of which will be prorated annually over a period equal to the number of weeks of salary continuation. Salary continuation is payable at the times the executive's salary would have been paid if employment had not terminated. In addition, the executive will receive continued medical, dental and life insurance benefits during the salary continuation period and will be entitled to such outplacement services during the salary continuation period as are being provided by the Company. Except in the case of a termination by the Company for unsatisfactory performance, the executive also will receive: (i) a prorated portion of the actual bonus for the year of termination that would have been payable to the executive under the annual bonus plan in which the executive is participating; (ii) cash payments equal in value to a prorated portion of any performance-based awards under the Company's stock incentive plan, provided that the executive was employed for at least half of the applicable performance period; and (iii) financial planning/counseling services during the salary continuation period to the same extent afforded immediately prior to the termination of employment. The ETP gives the Company's chief executive officer the discretion to reduce or increase the benefits otherwise payable to, or otherwise modify the terms and conditions applicable to, an eligible executive under the ETP, other than the chief executive officer; the Compensation & Benefits Committee of the Company has this discretion with respect to the chief executive officer.

Executive officers who do not participate in the ETP are eligible for severance benefits under the Company's Career Transition Plan (CTP). The CTP generally provides for the payment of benefits if an eligible executive's employment terminates by reason of a reduction in force, job elimination, unsatisfactory job performance (not constituting cause) or a mutually agreed resignation. In the event of an eligible termination, an executive officer will be paid 52 weeks of salary continuation (26 weeks if the executive is terminated by the Company for unsatisfactory performance), payable at the times the executive's salary would have been paid if employment had not terminated. For this purpose, salary consists of the executive's annual base salary at the time of termination. In addition, the executive will receive continued medical, dental and life insurance benefits during the applicable salary continuation period and will be entitled to such outplacement services during the salary continuation period as are being provided by the Company. Except in the case of a termination by the Company for unsatisfactory performance, the executive also will receive: (i) a prorated portion of the actual bonus for the year of termination that would have been payable to the executive under the annual bonus plan in which the executive is participating, provided that the executive was employed for at least six full months during the calendar year of termination; (ii) cash payments equal in value to a prorated portion of any performance-based awards under the Company's stock incentive plan, provided that the executive was employed for at least half of the applicable performance period; and (iii) financial planning/counseling services during the salary continuation period to the same extent afforded immediately prior to termination of employment. The CTP gives the Company's chief executive officer the discretion to reduce or increase the benefits otherwise payable to, or otherwise modify the terms and conditions applicable to, an eligible executive under the CTP.

Table of Contents

Mr. Loren has waived participation in both the ETP and CTP, subject to the provisions of his employment agreement with the Company described above. Mr. Alesio's employment agreement provides for his severance arrangements. All other executive officers named in the Summary Compensation Table, on page 14 of this Proxy Statement, currently participate in the CTP.

Deferral Program

During 2002, the Company adopted a Key Employees Nonqualified Deferred Compensation Plan under which executives may defer part of their current salary, annual cash incentive and certain cash-based long-term incentives to a later date. Under this program, executives have the opportunity to earn tax-deferred appreciation based on the performance of the investment funds offered in the Company's Profit Participation Plan.

Compensation of Directors

Only non-employee directors receive compensation for serving on the Board.

The Company's 2002 non-employee director compensation program consists of equity-based awards and cash, with equity representing at least 75% of total targeted compensation. Each non-employee director receives an annual grant of stock options with a nominal grant value (based on a Black-Scholes methodology) of \$80,000 and an annual retainer of \$75,000. \$40,000 of the annual retainer is paid in restricted share units (payable in shares of Common Stock upon vesting) and the balance in cash. Committee chairpersons receive \$5,000 annual cash retainers. No separate fees are paid for attendance at Board or Committee meetings. Directors may elect to convert Committee chairperson retainers and the cash portion of their annual retainers into additional restricted share units at a 10% conversion premium or defer such cash amounts in the directors' deferred compensation plan. In addition, each new non-employee director receives a one-time stock option grant with a nominal value of \$35,000 upon his or her appointment to the Board.

Non-employee directors are also provided other benefits by the Company during their tenure as a director as follows: reimbursement for reasonable Company-related travel and other expenses; travel accident insurance when traveling on Company business; participation in the Company's charitable matching gift program (up to \$4,000 per calendar year); and participation in the Company's executive health program.

Director Stock Ownership Guidelines

Non-employee directors are required to hold no less than 50% of all shares or restricted share units obtained through the non-employee director compensation program throughout their tenure as a director of the Company. The establishment of these guidelines is another component of the Company's efforts to link the interests of directors and shareholders.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires D&B's officers and directors, and persons who own more than 10% of a registered class of D&B's equity securities (insiders), to file reports of ownership and changes in ownership with the SEC. Insiders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file. Based solely on a review of the copies of such forms furnished to the Company, the Company believes that during 2002 all Section 16(a) filing requirements applicable to its insiders were complied with.

OTHER MATTERS

D&B knows of no matters, other than those referred to herein that will be presented at the meeting. If, however, any other appropriate business should properly be presented at the meeting, the persons named in the enclosed form of proxy will vote the proxies in accordance with their best judgment.

Meetings of the Committee should be attended by representatives of the Company's principal external auditors (independent auditors), the chief financial officer, the controller, the leader of internal audit, the general counsel and others as and when deemed appropriate by the Committee. The Committee shall meet privately with such persons or groups, whenever the Committee deems it appropriate.

The Committee Chairperson shall be responsible for calling the meetings of the Committee, establishing meeting agenda with input from management and supervising the conduct of the meetings.

The Committee shall also prepare the report required by the rules of the Commission to be included in the Company's annual Proxy Statement.

Committee Authority and Responsibilities

Relationship with the Independent Auditors

The Committee has the sole authority to appoint or replace the independent auditors. Notwithstanding this authority, the Committee will continue its longstanding practice of recommending that the Board ask shareholders to ratify the Committee's selection. If shareholders fail to so ratify, the Committee will consider that fact in its future selection of the independent auditors.

The Committee is responsible for the compensation and oversight of the work of the independent auditors for the purpose of preparing or issuing an audit report or related work. The independent auditors will report directly to the Committee.

Preapproval of Audit and Non-Audit Services

The Committee has the sole authority to preapprove all auditing services and permitted non-audit services to be performed by the independent auditors. The Committee may delegate this authority to subcommittees consisting of one or more members when appropriate, including the authority to grant

Table of Contents

preapprovals of audit and permitted non-audit services, provided that decisions of such subcommittee to grant preapprovals are presented to the full Committee at its next scheduled meeting.

Resources of the Committee

The Committee has the authority to retain independent legal, accounting or other advisers. The Company will provide for appropriate funding, as determined by the Committee, for payment of compensation to the independent auditors and to any advisers employed by the Committee.

Reports to the Board

Charter Reviews

The Committee will review and reassess the adequacy of this Charter annually and recommend any proposed changes to the Board for approval.

Performance Assessment

The Committee will annually review the Audit Committee's own performance.

Other Responsibilities

The Committee, to the extent it deems necessary or appropriate, will:

 - (a) The annual audited financial statements (and related Form 10-K) and quarterly unaudited financial statements (and related Forms 10-Q), including disclosures made in management's discussion and analysis, and recommend to the Board whether the audited financial statements should be included in the Company's Form 10-K.
 - (b) Significant financial reporting issues and judgments made in connection with the preparation of the Company's financial statements, including any significant changes in the Company's selection or application of accounting principles, any major issues as to the adequacy of the Company's internal controls and any special steps adopted in light of material control deficiencies.

2. Review and discuss reports from the independent auditors on:
 - (a) All critical accounting policies and practices to be used.
 - (b) All material alternative treatments of financial information within generally accepted accounting principles that have been discussed with management, ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the independent auditors.

3. Discuss with management the Company's earnings press releases (including any use of pro forma or adjusted non-GAAP information), financial information and earnings guidance provided to analysts and rating agencies.

Table of Contents

4. Discuss with management the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures, including the Company's risk assessment and risk management policies.
5. 6. Review disclosures made to the Audit Committee by the Company's CEO and CFO during their certification process for the Forms 10-K and 10-Q about any significant deficiencies in the design or operation of internal controls or material weaknesses therein, and any fraud involving management or other employees who have a significant role in the Company's internal controls.

Oversight of the Company's Relationship with the Independent Auditors

7. At least annually, review a report from the independent auditors describing:
 - (a) the independent auditors' internal quality-control procedures,
 - (b) any material issues raised by the most recent internal quality-control review, or peer review, of the firm, or by any inquiry or investigation by governmental or professional authorities within the preceding five years respecting one or more independent audits carried out by the firm,
 - (c) any steps taken to deal with any such issues, and
 - (d) all relationships between the independent auditors and the Company.
8. Evaluate the qualifications, performance and independence of the independent auditors, including considering whether the auditors' quality controls are adequate and the provision of permitted non-audit services is compatible with maintaining the auditors' independence. This review should also include an evaluation of the lead audit partner. The Committee shall present its conclusions with respect to the independent auditors and lead audit partner to the Board.
9. Ensure the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law. 18. Obtain from the independent auditors assurance that Section 10A(b) of the Exchange Act has not been implicated.

Limitation of Audit Committee's Role

While the Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements and disclosures are complete and accurate and are in accordance with generally accepted accounting principles and applicable rules and regulations. These are the responsibilities of management and the independent auditors.
