PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus and may not contain all of the information that may be important to you. You should read this entire prospectus carefully, including the information set forth in Risk Factors before making an investment decision.

Seacoast Banking Corporation of Florida

We are the second largest publicly traded Florida domiciled bank measured by total deposits. At June 30, 2009, Seacoast National had 40 banking offices in 14 counties in Florida. Our core markets, which consist of Martin, Palm Beach, St. Lucie and Indian River counties have projected population growth of 14.4% versus 6.3% nationwide.

As of June 30, 2009, we had total consolidated assets of approximately \$2.1 billion, total deposits of approximately \$1.8 billion, total consolidated liabilities, including deposits, of approximately \$2.0 billion and consolidated shareholders' equity of approximately \$148.6 million. We have a history of strong performance and returns having realized a return on average assets of greater than 1% and a return on average equity of greater than 12% in 8 of the last 10 years.

We offer a full array of deposit accounts and retail banking services, engage in consumer and commercial lending and provide a wide variety of trust and asset management services. We have built our franchise upon relationship banking and a strong core deposit base. Our strategy has focused on transaction accounts and certificates of deposit with customers who maintain transaction accounts with us. During the quarter ended June 30, 2009, we had \$281.7 million of average non-interest bearing demand deposits, and \$808.4 million of lower cost interest bearing savings, NOW and money market deposit accounts. Our cost of deposits is lower than many of our peers, and we have a strong net interest margin relative to our peers.

We have expanded from Martin County, Florida into 13 other counties by establishing new branches, acquiring branches, acquisitions from the receiver of failed banks, and whole bank acquisitions. We have grown internally in nearby markets from Palm Beach County north to Brevard County. Our last two acquisitions, in 2005 and 2006, added 12 branches and over \$600 million of deposits. These acquisitions also brought us low cost deposits and diversified our loan and deposit sources away from coastal Florida, and into the Orlando and central Florida markets. We continuously evaluate our branch network to determine how to best serve our customers efficiently and to improve our profitability.

We have expanded our management team in recent years and have focused on credit quality and identification and resolution of assets that are or are expected to become problems. Our efforts to identify potential problems and reduce loan concentrations and risks began in 2006, and we have sold \$143.3 million of troubled loans since then at prices of 100% of their aggregate balance in 2007, at prices ranging from 30% to 100% of their aggregate balance in 2008 and at prices of 24% of their aggregate balance in 2009. We believe we began addressing these risks early and have made continuous progress in managing our credit quality. We may sell additional assets in the future, and take advantage of market opportunities to dispose of problem assets. Recently, we have emphasized cost controls, which have been increasingly important as economic growth has slowed.

We are a bank holding company registered under the Bank Holding Company Act of 1956, as amended, and our principal subsidiary is Seacoast National Bank. Seacoast National commenced its operations in 1933, and operated prior to 2006 as First National Bank & Trust Company of the Treasure Coast. In addition, Seacoast Marine Finance Division, a division of Seacoast National, has offices located in Florida and California. Our subsidiary, FNB

Brokerage Services, Inc., is a securities broker-dealer engaged in securities brokerage and annuity sales.

Our principal executive offices are located at 815 Colorado Avenue, Stuart, Florida 34994, and our telephone number at that address is (772) 287-4000. We maintain an Internet website at www.seacoastbanking.com. Neither this website nor the information on this website is included or incorporated in, or is a part of, this prospectus.

Recent Developments

On May 19, 2009, we announced that our board of directors had suspended regular quarterly cash dividends on our outstanding common stock and preferred stock as a result of recently adopted Federal Reserve policies related to dividends and other distributions. Our board of directors also determined to defer distributions on \$52 million of outstanding trust preferred securities.

On June 18, 2009, at our annual meeting of shareholders, our shareholders approved certain amendments to our amended and restated articles of incorporation, which we refer to as our Articles of Incorporation. However, at the time of our annual meeting, the proposal to amend Article VII of our Articles of Incorporation, which required the approval of 66²/₃% of all outstanding shares of our common stock, had not received the requisite votes. We adjourned the annual meeting with respect to this proposal to solicit the remaining votes needed for approval. On July 17, 2009, we received the necessary vote of our shareholders, and amended Article VII of our Articles of Incorporation.

In conjunction with an outside consulting firm, we performed a stress test of our loan portfolio and the potential effects on our capital of increased losses and nonperforming assets. The analysis was designed to approximate the Supervisory Capital Assessment Program, or SCAP, required of the largest banks by the Federal Reserve, with specific adjustments to reflect the more highly stressed economic conditions in Florida. As provided in the SCAP methodology, a baseline scenario assumed a path for the economy that followed a consensus forecast for certain economic variables, and a more adverse scenario was utilized to project a more significant downturn. Based on the results of the stress test, and the assumptions and estimates utilized in the analysis, we believe that following the completion of this offering, our capital should be sufficient to withstand the economic challenges facing the Company if the Florida economy weakens further or is weaker than is expected currently.

Management tests goodwill for impairment on an annual basis, or more often if events or circumstances indicate there may be impairment. Management engages external valuation firms to assist in its goodwill assessments. We completed an annual test of goodwill impairment for the year ended December 31, 2008, which was updated as of March 31, 2009 due to the decline in the price of our common stock and the net loss realized in the first quarter of 2009. These tests indicated that none of our goodwill was impaired. At June 30, 2009, due to the decline in the price of our common stock and our net loss in the second quarter of 2009, we again tested for impairment of goodwill in connection with our preparation of our quarterly financial report. Our fair value of the Company was determined using the discounted cash flow and change in control valuation methods. These two methods provided a range of valuations of \$2.43 to \$7.00 per share that we used in evaluating goodwill for possible impairment. As of June 30, 2009, we determined that our carrying amount exceeds our fair value. We were unable to complete the second step analysis required to estimate the implied fair value of our goodwill by the time of filing our quarterly report. Accordingly, we have preliminarily determined that the goodwill impairment loss is equal to the full amount of our goodwill \$49.8 million. This is an estimate and we will disclose in the third quarter any adjustments to goodwill after completing the second step analysis.

CapGen Offering

On August 10, 2009, we executed a letter of intent with CapGen Financial Partners, or CapGen, following confidential discussions and diligence about possible alternatives to a public offering, pursuant to which we agreed to sell to CapGen, or a designated affiliate of CapGen, six million shares of our common stock, at the same price at which shares are offered to the public in the previously announced offering, or the Underwritten Offering, at a price up to \$2.50 per share, or the CapGen Offering. CapGen has completed its due diligence, and the letter of intent with CapGen is subject to the execution and delivery of a definitive stock purchase agreement and the registration statement covering the shares offered in the Underwritten Offering and the CapGen Offering becoming effective. The closing of the CapGen Offering is contingent upon the receipt of necessary regulatory approvals, closing of the

Underwritten Offering and shareholder (if any) approvals. CapGen has agreed to promptly submit all required regulatory applications and notices, which will also seek approval for CapGen to increase its ownership in our company over time. Upon the closing of the CapGen Offering, CapGen will be entitled to appoint one director to our board of directors. We have also agreed to grant CapGen preemptive rights with respect to future offerings of our common stock to purchase their pro rata share for a period of 24 months. The board seat and preemptive rights are subject to CapGen retaining ownership of all shares purchased in the CapGen Offering. CapGen has indicated that its affiliate that will purchase and hold shares of our common stock will not control any other depository institution.
