On February 18, 2009, BearingPoint, Inc. (the Company) along with certain of its subsidiaries based in the United States filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code (the Bankruptcy Code) in the United States Bankruptcy Court for the Southern District of New York (the Court), Case Number 09-10691 (REG) (the Chapter 11 Cases). The Company continues to operate its business as debtors-in-possession under the jurisdiction of the Court and in accordance with the applicable provisions of the Bankruptcy Code and the orders of the Court.

As previously announced, the Company is pursuing the sale of all or substantially all of its businesses and assets to a number of parties. The Company expects that these sale transactions will result in modification of the plan of reorganization filed with the Bankruptcy Court on February 18, 2009 and, if it is successful in selling all or substantially all of its assets, in the liquidation of the Company's business and the Company ceasing to operate as a going concern.

On March 23, 2009, the Company and certain of its subsidiaries entered into an asset purchase agreement to sell a substantial portion of its assets related to the Company's North American public services business. The closing of this transaction occurred on May 8, 2009. On April 2, 2009, one of the Company's indirect subsidiaries entered into a share sale agreement to sell the Company's consulting business in Japan. The closing of this transaction occurred on May 11, 2009. On April 17, 2009, the Company and certain of its subsidiaries entered into an asset purchase agreement to sell a substantial portion of its commercial services business unit, including its financial services unit. The closing of this transaction occurred on June 15, 2009.

The Company has also entered into a definitive agreement to sell its interest in a global development center in China and certain assets of a separate global development center in India. The transaction with respect to the sale of certain assets of the global development center in India closed on July 31, 2009 and the Company anticipates that the China transaction will close within the next several months. On July 9, 2009, the Company and certain of its subsidiaries entered into a stock purchase agreement for the sale of the Company's consulting business in Brazil. The closing of this transaction occurred on July 31, 2009. On July 17, 2009, the Company and certain of its subsidiaries and affiliates entered into an agreement for the sale of its Europe, Middle East and Africa business to the Company's local management team. Also, the Company is in negotiations with other interested parties and local management to sell its remaining Latin America and Asia Pacific practices and is in the process of selling certain remaining assets that were not or will not be sold pursuant to other transactions. There can be no assurance that any of these transactions will be completed.

The Company is also preparing for the Court, pursuant to the Bankruptcy Code, monthly operating reports which will be filed as a matter of public record and will include financial disclosures.

Following the commencement of the Chapter 11 Cases, the Company's available management has been particularly strained by the considerable attention required for administering the Chapter 11 Cases and marketing, negotiating and consummating the sale of the Company's businesses and assets. Furthermore, because of the Company's current financial position, coupled with the loss of a significant number of personnel who previously participated in the preparation of the Company's periodic reporting obligations, the Company is incapable of absorbing the costs and tasks associated with preparing its Form 10-Q (and any other quarterly or annual reports that may be required). Consequently, the Company will not file the Form 10-Qs for the periods ended June 30, 2009 and March 31, 2009 and has adopted a modified reporting program with respect to its reporting obligations under the federal securities laws. The Company will continue to file under cover of Form 8-K copies of the monthly financial reports that are required to be filed with the Court in lieu of continuing to file quarterly and annual reports under Section 13(a) of the Securities Exchange Act of 1934, as amended. The Company will also continue to file other current reports on Form 8-K as required by the federal securities laws. The Company believes that this modified reporting program is consistent with the protection of its investors and creditors as set forth in the Securities and Exchange Commission's Exchange Act Release No. 9660, dated June 30, 1972, and Staff Legal Bulletin No. 2, dated April 15, 1977.

Such inability to file the Form 10-Q could not have been eliminated by the Company without unreasonable effort or expense.

As discussed above, the Company filed voluntary petitions for relief under Chapter 11 of Title 11 of the Bankruptcy Code. Subsequent to the commencement of the Chapter 11 Cases, the Company has devoted its available resources to administering the Chapter 11 Cases and marketing, negotiating and consummating the sale of the Company's businesses and assets. Reasonable estimates of the results cannot be made due to the burdens these activities have imposed on the Company's available management. Such inability could not have been eliminated by the Company without unreasonable effort or expense.
