TRI-CONTINENTAL CORP Form N-Q May 26, 2010

UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, DC 20549 FORM N-Q

QUARTERLY SCHEDULE OF PORTFOLIO HOLDINGS OF REGISTERED MANAGEMENT INVESTMENT COMPANIES

Investment Company Act File Number 811-00266

TRI-CONTINENTAL CORPORATION

(Exact name of registrant as specified in charter)

50606 Ameriprise Financial Center, Minneapolis, Minnesota

55474

(Address of principal executive offices)

(Zip code)

Scott R. Plummer 5228 Ameriprise Financial Center, Minneapolis, MN 55474

(Name and address of agent for service)

Registrant s telephone number, including area code: (612) 671-1947

Date of fiscal year end: 12/31 Date of reporting period: 3/31

Portfolio of Investments <u>- -</u>

March 31, 2010 (Unaudited)

(Percentages represent value of investments compared to net assets)

Notes to Portfolio of Investments				

ADR American Depositary Receipt

(a) The Fund adopted Financial Accounting Standards Board (FASB) Staff Position FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP 157-4), on June 30, 2009. FSP 157-4 provides guidance on estimating the fair value of an investment when the trade volume and level of activity for the investment have

significantly decreased relative to historical levels. FSP 157-4 requires funds to disclose in interim and annual periods the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category. There was no impact to the Fund s net assets or results of operations upon adoption. This disclosure can be found as part of the Fair Value Measurements disclosure in the Portfolio of Investments.

Portfolio of Investments (continued) <u>— —</u>

Notes to Portfolio of Investments (continued)

All securities are valued at the close of each business day of the NYSE. Securities traded on national securities exchanges or included in national market systems are valued at the last quoted sales price. Debt securities are generally traded in the over-the-counter market and are valued by an independent pricing service using an evaluated bid. When market quotes are not readily available, the pricing service, in determining fair values of debt securities, takes into consideration such factors as current quotations by broker/dealers, coupon, maturity, quality, type of issue, trading characteristics, and other yield and risk factors it deems relevant in determining valuations. Foreign securities are valued based on quotations from the principal market in which such securities are normally traded. The procedures adopted by the Board of Directors (the Board) generally contemplate the use of fair valuation in the event that price quotations or valuations are not readily available, price quotations or valuations from other sources are not reflective of market value and thus deemed unreliable, or a significant event has occurred in relation to a security or class of securities (such as foreign securities) that is not reflected in price quotations or valuations from other sources. A fair value price is a good faith estimate of the value of a security at a given point in time.

Many securities markets and exchanges outside the U.S. close prior to the close of the NYSE and therefore the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the NYSE, including significant movements in the U.S. market after foreign exchanges have closed. Accordingly, in those situations, Ameriprise Financial, Inc. (Ameriprise Financial), parent company of RiverSource Investments, LLC*, (the Investment Manager), as administrator to the Corporation, will fair value foreign securities pursuant to procedures adopted by the Board, including utilizing a third party pricing service to determine these fair values. These procedures take into account multiple factors, including movements in the U.S. securities markets, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the NYSE.

Short-term securities maturing in more than 60 days from the valuation date are valued at the market price or approximate market value based on current interest rates. Typically, those maturing in 60 days or less that originally had maturities of more than 60 days at acquisition date are valued at amortized cost using the market value on the 61st day before maturity. Short-term securities maturing in 60 days or less at acquisition date are valued at amortized cost. Amortized cost is an approximation of market value. Investments in money market funds are valued at net asset value.

- (b) Non-income producing. For long-term debt securities, item identified is in default as to payment of interest and/or principal.
- (c) Foreign security values are stated in U.S. dollars. At March 31, 2010, the value of foreign securities, excluding short-term securities, represented 0.72% of net assets.
- (d) At March 31, 2010, investments in securities included securities valued at \$748,037 that were partially pledged as collateral to cover initial margin deposits on open stock index futures contracts.

* Effective May 1, 2010, RiverSource Investments, LLC is known as Columbia Management Investment Advisers, LLC.

Notes to Portfolio of Investments (continued)

(e) Identifies issues considered to be illiquid as to their marketability. The aggregate value of such securities at March 31, 2010 was \$1,940,776, representing 0.19% of net assets. Information concerning such security holdings at March 31, 2010 was as follows:

	Acquisition	
Security	dates	Cost
WCAS Capital Partners II LP	01-09-05 thru 03-05-97	4,212,138

(f) At March 31, 2010, the Fund owned one limited partnership investment that was purchased through a private offering and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. The investment is valued at fair value as determined in accordance with procedures approved by the Board of Directors of the Fund. The acquisition dates of investment in the limited partnership, along with the cost and value at March 31, 2010, were as follows:

Investment	Acquisition dates	Cost	Value(a)
WCAS Capital Partners II LP	12-11-90 to 03-24-98	\$4,292,803	\$1,940,776

- (g) At March 31, 2010, security was partially or fully on loan.
- (h) Affiliated Money Market Fund The Fund may invest its daily cash balance in RiverSource Short-Term Cash Fund, a money market fund established for the exclusive use of the RiverSource, Seligman and Threadneedle funds and other institutional clients of the Investment Manager. The rate shown is the seven-day current annualized yield at March 31, 2010.
- (i) The table below represents securities received as collateral subject to repurchase agreements. This collateral, which is generally high quality short-term obligations, is deposited with the Fund s custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. The market value of securities held as collateral for repurchase agreements is monitored on a daily basis to ensure the existence of the proper level of collateral.

Portfolio of Investments (continued) _ _ _

Notes to Portfolio of Investments (continued)

(j) At March 31, 2010, the cost of securities for federal income tax purposes was approximately \$1,187,773,000 and the approximate aggregate gross unrealized appreciation and depreciation based on that cost was:

Unrealized appreciation \$125,934,000 Unrealized depreciation (80,069,000)

Net unrealized appreciation \$45,865,000

Fair Value Measurements

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment is level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability is fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date. Valuation adjustments are not applied to Level 1 investments.
- Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- Level 3 Valuations based on significant unobservable inputs (including the Fund s own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Fund Administrator, along with any other relevant factors in the calculation of an investment s fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Non-U.S. equity securities actively traded in foreign markets may be reflected in Level 2 despite the availability of closing prices, because the Fund evaluates and determines whether those closing prices reflect fair value at the close of the New York Stock Exchange (NYSE) or require adjustment, as described in Note (a) to the Portfolio of Investments.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as

Portfolio of Investments (continued) <u>— —</u>

Fair Value Measurements (continued)

Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Fund Administrator. Inputs used in a valuation model may include, but are not limited to, financial statement analysis, discount rates and estimated cash flows, and comparable company data.

The following table is a summary of the inputs used to value the Fund s investments as of March 31, 2010:

	Fair value at March 31, 2010 Level 1 Level 2			
	quoted prices in active markets for	other significant observable	Level 3 significant unobservable	
Description	identical assets	inputs	inputs	Total

- (a) Industry classifications are identified in the Portfolio of Investments.
- (b) Money market fund that is a sweep investment for cash balances in the Fund at March 31, 2010.
- (c) Asset categories for Investments of Cash Collateral are identified in the Portfolio of Investments.
- (d) Other Financial Instruments are derivative instruments, which are valued at the unrealized appreciation (depreciation) on the instrument. Derivative descriptions are located in the Investments in Derivatives section of the Portfolio of Investments.

Fair Value Measurements (continued)

The following table is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value.

	Common Stocks
Balance as of Dec. 31, 2009	\$1,927,202
Accrued discounts/premiums	
Realized gain (loss)	
Change in unrealized appreciation (depreciation)*	13,574
Net purchases (sales)	
Transfers in and/or out of Level 3	
Balance as of March 31, 2010	\$1,940,776

* Change in unrealized appreciation (depreciation) relating to securities held at March 31, 2010 was \$13,574.

Item 2. Control and Procedures.

- (a) Based upon their evaluation of the registrant s disclosure controls and procedures as conducted within 90 days of the filing date of this report, the registrant s principal financial officer and principal executive officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms.
- (b) There were no changes in the registrant s internal control over financial reporting that occurred during the registrant s last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

Item 3. Exhibits.

Separate certification for the Registrant s principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.
