REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and the Harris Corporation Employee Benefits Committee
Harris Corporation Retirement Plan

We have audited the accompanying statements of net assets available for benefits of Harris Corporation Retirement Plan as of December 31, 2009 and July 3, 2009, and the related statement of changes in net assets available for benefits for the period from July 4, 2009 to December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and July 3, 2009, and the changes in its net assets available for benefits for the period from July 4, 2009 to December 31, 2009, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2009 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

HARRIS CORPORATION RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2009 and July 3, 2009

NOTE 1 DESCRIPTION OF PLAN

The following description of the Harris Corporation Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. **General** The Plan is a defined contribution plan with a 401(k) feature covering substantially all eligible employees of Harris Corporation and certain of its subsidiaries (collectively, the Company or Employer) as defined in the Plan document. The Plan Administrator is the Harris Corporation Employee Benefits Committee comprised of persons appointed by Harris Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).
- B. **Contributions** Participants may contribute a percentage of both pre-tax and after-tax eligible compensation, as defined in the Plan document and subject to Internal Revenue Code (the Code) limitations. After-tax contributions may be made either on a regular after-tax basis or on a designated Roth after-tax basis. Participants age 50 and older by the end of the calendar year can contribute an additional amount above the annual pre-tax limitation, as defined in the Plan document and subject to Code limitations. The Company matches up to 50% or 100% (depending on business unit) of pre-tax and after-tax contributions subject to a limit of 4% or 6% (depending on business unit) of eligible compensation for any eligible employee who has completed the Plan's service requirement (either six months or one year, depending on business unit). Full-time regular participants who make no election with respect to their contribution percentage are deemed to have elected deferment of 6% of eligible compensation on a pre-tax basis. The Company may make discretionary profit sharing contributions to the Plan in an amount determined by the Company, allocated to eligible participants based on compensation as defined in the Plan document. With respect to the period from July 4, 2009 to December 31, 2009, no profit sharing contributions were made; instead, the Company's cash-based Performance Reward Plan permitted each participant eligible for such plan to elect a special, unmatched pre-tax contribution to the Plan of 0%, 50% or 100% of the amount, if any, otherwise payable to the participant by the Company in cash under the Performance Reward Plan, subject to Code limitations. In addition, participants may rollover amounts to the Plan from other qualified plans.
- C. **Payments of Benefits** Prior to termination of employment, a participant may withdraw all or any portion of his or her regular after-tax account balance or rollover balance. A participant may also receive a distribution while employed for financial hardship, as defined in the Plan document, upon attainment of age 59^{1/2} or in certain cases, in connection with active military duty. Upon retirement or other termination of employment, a participant may elect to receive either a lump-sum amount equal to all or a portion of the participant's vested account, or installments of his or her vested account over a future period.
- D. **Participant Loans** The loan program permits participants to borrow against their pre-tax, regular after-tax, designated Roth after-tax and rollover contributions. A participant may borrow in increments of \$100 from a minimum of \$500 to a maximum of 50% of the vested portion of the participant's account or \$50,000 whichever is lower, within certain limitations established by the Plan document. Payback periods range from one to five years unless the loan is to be used for the purchase of a principal residence, in which case the payback period may not exceed ten years. Interest rates are established by the Company based on market rates. Loans are paid back ratably through payroll deductions (or, if the participant is not receiving paychecks, then they are paid back by personal, certified or cashier's check, money order or electronic transfer). The outstanding loans have been established as a separate fund.
- E. **Participant Accounts** Each participant's account is credited with the participant's contribution, including the contribution, if any, in respect of the participant's election under the Company's cash-based Performance Reward

Plan, and allocations of (a) the Company's matching contribution, (b) the Company's discretionary profit sharing contribution, if any, and (c) Plan earnings, and is charged with an allocation of Plan losses and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

- F. **Vesting** Participants are immediately vested in their pre-tax, regular after-tax, designated Roth after-tax and rollover contributions plus earnings thereon. Vesting in the Employer matching and any profit sharing contributions, plus earnings thereon,

Table of Contents

is based on years of service, as defined in the Plan document. A participant is 100% vested after four years of service, based on the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years	100%

However, certain vesting schedules applicable to assets merged into the Plan have been preserved, as legally required, and may result in the vesting of Employer contributions more quickly than described above.

A participant also becomes 100% vested in Employer contributions upon his or her termination of employment after attaining age 55 or on account of his or her death or disability.

- G. Forfeitures** A terminated participant who is not 100% vested will forfeit the non-vested portion of the Company's contributions unless the participant returns to employment within five years. The forfeited contributions are used first, to restore the accounts of recently located missing participants, as defined in the Plan document; next, to restore the accounts of participants who are reemployed prior to incurring a break in service of five consecutive years; next, to fund any matching or profit sharing contributions to be allocated to participants who are reemployed after a period of qualified military service, as defined in the Plan document; and finally, to reduce future contributions to the Plan by the Company. Forfeited amounts included in Plan assets at December 31, 2009 and July 3, 2009 were \$931,697 and \$406,710, respectively. For the period from July 4, 2009 through December 31, 2009 and for the fiscal year ended July 3, 2009, Employer contributions were reduced by \$0 and \$573,127, respectively, from forfeited non-vested accounts.
- H. Plan Termination** Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
- I. Investment Options** Upon enrollment into the Plan, a participant may direct Employer and participant contributions into any of several investment options, including the Harris Stock Fund. A participant may transfer amounts from other investment options into the Harris Stock Fund, provided that no transfer shall cause more than 20% of a participant's account to be invested in the Harris Stock Fund. The investment options are fully described in the Employer Summary Plan Description, which is available to all participants. In the event no investment option is selected by the participant, the default investment option for contributions is the LifeCycle Fund that is age-appropriate for the participant. Elections to change funds can be made daily; however, amounts in the Stable Value Fund cannot be transferred directly to the Money Market Fund. Investments are also governed by other limitations described in the Plan document and the Employer Summary Plan Description.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accounting records of the Plan are maintained on the accrual basis. Certain prior year data have been reclassified to conform to the presentation for the transition period from July 4, 2009 to December 31, 2009.

Fiscal Year Change Effective December 31, 2009, the Plan changed from a fiscal year end corresponding to the Company's fiscal year ending to a calendar year ending. As such, these financial statements represent the transition period from July 4, 2009 to December 31, 2009 which precedes the beginning of the new calendar year fiscal cycle.

Recent Accounting Pronouncements

Fair Value Measurements In April and September 2009, the Financial Accounting Standards Board (FASB) issued guidance which (i) provided additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, (ii) provided guidance on identifying circumstances that indicate a transaction is not orderly, (iii) permitted, as a practical expedient, entities to measure the fair value of certain investments based on the net asset value per share and (iv) expanded the required disclosures about fair value measurements. The Plan's adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

Subsequent Events In May 2009 and February 2010, the FASB issued guidance which established general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this guidance established (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The plan's adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

FASB Codification In June 2009, the FASB issued new codification standards which represent the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by non-governmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The codification supersedes all non-SEC accounting and reporting standards which existed prior to the codification. All other non-grandfathered, non-SEC accounting literature not included in the codification is non-authoritative. The new codification standards were effective for 2009.

Fair Value Disclosures In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Valuation of Investments The Plan's investments are stated at fair value. Quoted market prices are used, when available, to value investments. Investments for which quoted market values are not available are stated at fair values as reported by the trustee or investee company. Participant loans are valued at their outstanding balances, which approximate fair value. See Note 7 Financial Instruments for further information on the valuation of investments.

Table of Contents

Synthetic Guaranteed Investment Contracts During the period from July 4, 2009 to December 31, 2009 and for the period ended July 3, 2009, the Plan held synthetic guaranteed investment contracts (synthetic GICs) in its Stable Value Fund (the Fund). A corresponding contract wrapper with the issuer of the synthetic GICs was also held in order to provide a variable rate of return on the cost of the investment. The fair value of the synthetic GICs was determined using a discounted cash flow method or quoted market value of underlying investments. The fair value of the contract wrapper was based on the present value of the difference between the current fee and fee re-bids provided by the issuers and was \$301,449 and \$138,918 at December 31, 2009 and July 3, 2009, respectively. The Plan values all investments at fair value. See Note 7 Financial Instruments for further discussion of fair value measurements.

The interest crediting rate of synthetic GICs is based on the contract value, and the fair value, duration and yield to maturity of the portfolio of bonds underlying the synthetic GICs. The interest crediting rate is reset quarterly. The minimum crediting rate is zero percent.

The interest crediting rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

The primary variables impacting the future interest crediting rates of synthetic GICs include the current yield of the assets underlying the contract, the duration of the assets underlying the contract and the existing difference between the fair value and contract value of the assets within the contract.

The investments in synthetic GICs are presented at fair value on the Statements of Net Assets Available for Benefits.

To the extent that the underlying portfolio of a synthetic GIC has unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future interest crediting rate may be lower over time than the then-current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future interest crediting rate may be higher than the then-current market rates. The adjustments ensure that ending net assets available for benefits are recorded at contract value and reflect the unrealized and/or realized gains and losses on the underlying portfolio of synthetic GICs.

Synthetic GICs generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment. Such events include but are not limited to the following: material amendments to the Plan or in the administration of the Fund; changes to the Plan's competing investment options including the elimination of equity wash provisions; complete or partial termination of the Plan; the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by the Plan at the direction of the Plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit or affiliate, the bankruptcy or insolvency of the Plan sponsor, the merger of the Plan with another plan, or the Plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position or accounting requirement, applicable to the Fund or the Plan; or the delivery of any communication to Plan participants designed to influence a participant not to invest in the Fund.

At this time, the Plan does not believe that the occurrence of any such market value adjustment-triggering event, which would limit the Plan's ability to transact at contract value with participants, is probable.

If the Plan defaults in its obligations under any synthetic GIC (including the issuer's determination that the agreement constitutes a non-exempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Plan will receive the fair value of the underlying investments as of the date of termination. With the exception of this circumstance, termination of the contract by the issuer would be settled at contract value.

The average yield based on actual earnings was approximately 3.65% at December 31, 2009 and 4.49% at July 3, 2009. The average yield based on interest rate credited to participants was approximately 2.99% at December 31, 2009 and 2.61% at July 3, 2009.

Table of Contents

Use of Estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses Unless otherwise elected by Harris Corporation, all reasonable charges and expenses incurred in connection with the administration of the Plan are paid by the trustee from the assets of the trust.

NOTE 3 INVESTMENTS

During the period from July 4, 2009 to December 31, 2009, the Plan's investments (including investments bought, sold and held during such period) appreciated or depreciated in value as follows:

Net appreciation (depreciation) in fair value as determined by quoted market prices:

Preferred stocks	\$ 169,863
Common stocks	140,646,271
Registered investment companies	54,288,098
Corporate bonds and debentures	2,628,147
Municipal and provincial bonds	(15,549)
Foreign bonds	338,123
U.S. Government securities	(629,112)
	197,425,841
Net appreciation in fair value as determined by investee company/trustee:	
Common/collective trust funds	140,839,741
Total net appreciation in fair value	\$ 338,265,582

The fair value of individual investments that represent 5% or more of Plan net assets at December 31, 2009 and July 3, 2009 is as follows:

	December 31, 2009	July 3, 2009

at end of period.*

Table of Contents**NOTE 4 RELATED-PARTY TRANSACTIONS**

Certain Plan investments are shares of common stock of Harris Corporation and balances in a common/collective trust fund that are managed by Northern Trust. Harris Corporation is the Plan sponsor and Northern Trust is the Trustee and, therefore, these transactions qualify as exempt party-in-interest transactions under the provisions of ERISA. The Plan's investments in Harris Corporation common stock (included with other common stock) and in common/collective trust funds managed by Northern Trust (included with other common/collective trust funds) at December 31, 2009 and July 3, 2009 are as follows:

	December 31, 2009		July 3, 2009	
	Shares	Fair Value	Shares	Fair Value

* *Activity in this fund represents overnight interest bearing deposits (sweeps) of otherwise uninvested daily cash.*

NOTE 5 INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated April 21, 2004, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan has been amended and restated on multiple occasions and further amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended and restated and further amended, is qualified and the related trust is exempt from taxation.

NOTE 6 CREDIT RISKS AND UNCERTAINTIES

Cash amounts at the Trustee may exceed the federally insured limit from time to time. The Plan provides for investments in various investment securities, which, in general, are exposed to certain risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Table of Contents**NOTE 7 FINANCIAL INSTRUMENTS**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal market (or most advantageous market, in the absence of a principal market) for the asset or liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). A three-level fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models and similar techniques for which some or all significant assumptions are not observable.

The following section describes the valuation methodologies the Plan uses to measure financial assets at fair value. In general, and where applicable, the Plan uses quoted prices in active markets for identical assets to determine fair value. This pricing methodology applies to the Plan's Level 1 assets which include interest bearing cash, preferred stocks, common stocks, registered investment companies, U.S. Government securities, corporate bonds and debentures, municipal and provincial bonds and foreign bonds. If quoted prices in active markets for identical assets are not available to determine fair value, then the Plan uses quoted prices for similar assets or inputs other than the quoted prices that are observable either directly or indirectly. These assets are included in Level 2 and consist of common/collective trust funds and synthetic guaranteed investment contract wrappers. Assets for which fair value is determined by management using assumptions that market participants would use in pricing assets are included in Level 3 and consist of loans to participants.

Assets Measured at Fair Value on a Recurring Basis

Assets measured at fair value on a recurring basis at December 31, 2009, are as follows:

	Level 1	Level 2	Level 3	Total
Assets

Total Assets Measured at Fair Value	\$ 857,893,804	\$ 1,278,604,476	\$ 36,636,578	\$ 2,173,134,858

(a) Common/collective trust funds share the common goal of first growing then later preserving principal and

contain a mix of U.S. common stocks, U.S. issued bonds and cash. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.

Summary of changes in the fair value of the Plan's Level 3 assets as of December 31, 2009:

	Participant loans
Balance as of July 3, 2009	\$ 36,636,578
Issuances, repayments and settlements, net	2,815,770
Balance as of December 31, 2009	\$ 39,452,348

Summary of changes in the fair value of the Plan's Level 3 assets for the fiscal year ended July 3, 2009:

	Participant Loans
Balance as of June 28, 2008	\$ 33,500,965
Issuances, repayments and settlements, net	3,135,613
Balance as of July 3, 2009	\$ 36,636,578

The fair value of participant loans is based on the collective face value of all participant loans outstanding at the end of the applicable period, in accordance with the terms in the respective loan agreements. Income from participant loan investments is included in interest income in the Statement of Changes in Net Assets Available for Benefits.

Table of Contents**NOTE 8 RECONCILIATION OF PLAN FINANCIAL STATEMENTS TO THE FORM 5500**

Form 5500 requires the recording of a liability for benefit amounts processed prior to year-end but not yet paid and requires fully benefit-responsive contracts to be reported at fair value. These requirements conflict with accounting principles generally accepted in the United States and the presentation of such amounts in the financial statements where they remain as part of net assets available for benefits.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2009 and July 3, 2009:

	December 31, 2009	July 3, 2009
Net assets available for benefits per the financial statements	\$ 2,542,748,461	\$ 2,199,971,397
Benefits due to participants	(702,072)	(133,366)
Adjustment to fair value from contract value for fully benefit-responsive investment contracts	(8,865,730)	(26,928,225)
Net assets available for benefits per the Form 5500	\$ 2,533,180,659	\$ 2,172,909,806

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the period from July 4, 2009 to December 31, 2009:

Benefits paid to participants per the financial statements	\$ 93,500,785
Add: benefits due but unpaid at December 31, 2009	702,072
Less: benefits due but unpaid at July 3, 2009	(133,366)
Total benefit payments, corrective distributions and deemed distributions per the Form 5500	\$ 94,069,491

The following is a reconciliation of investment income per the financial statements to the Form 5500 for the period from July 4, 2009 to December 31, 2009:

Net increase in Plan assets per the financial statements	\$ 342,777,064
Add: adjustment from fair value to contract value for fully benefit-responsive investment contracts at July 3, 2009	26,928,225
Less: adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2009	(8,865,730)
Benefits due but unpaid at December 31, 2009	(702,072)
Benefits due but unpaid at July 3, 2009	133,366
Net income and transfers in per the Form 5500	\$ 360,270,853
