THE COMPANY

As used in this prospectus, "Company," "us," "we," "our" and similar terms means Sun Communities, Inc., a Maryland corporation, and one or more of its subsidiaries (including the Operating Partnership (as defined below) and Sun Home Services, Inc.).

We are a self-administered and self-managed real estate investment trust, or REIT. We own, operate, develop and finance manufactured housing communities concentrated in the midwestern and southeastern United States. We are a fully integrated real estate company which, together with our affiliates and predecessors, have been in the business of acquiring, operating and expanding manufactured housing communities since 1975. As of September 30, 2007, we owned and operated a portfolio of 136 properties located in eighteen states (the "Properties" or "Property"), including 124 manufactured housing communities, four recreational vehicle communities, and eight properties containing both manufactured housing and recreational vehicle sites. As of September 30, 2007, the Properties contained an aggregate of 47,608 developed sites comprised of 42,265 developed manufactured home sites and 5,343 recreational vehicle sites and an additional 6,590 manufactured home sites suitable for development. In order to enhance property performance and cash flow, the Company, through Sun Home Services, Inc., a Michigan corporation ("SHS"), actively markets, sells and leases new and pre-owned manufactured homes for placement in the Properties.

Structured as an umbrella partnership REIT, or UPREIT, Sun Communities Operating Limited Partnership, a Michigan limited partnership (the "Operating Partnership"), is the entity through which we conduct substantially all of our operations, and which owns, either directly or indirectly through subsidiaries,

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

all of our assets (the subsidiaries, collectively with the Operating Partnership, the "Subsidiaries"). This UPREIT structure enables us to comply with certain complex requirements under the Federal tax rules and regulations applicable to REITs, and to acquire manufactured housing communities in transactions that defer some or all of the sellers' tax consequences. We are the sole general partner of, and, as of September 30, 2007, held approximately 88% of the interests (not including preferred limited partnership interests) in, the Operating Partnership. The Subsidiaries also include SHS, which provides manufactured home sales and other services to current and prospective tenants of the Properties.

Our executive and principal property management office is located at 27777 Franklin Road, Suite 200, Southfield, Michigan 48034 and our telephone number is (248) 208-2500. We have regional property management offices located in Austin, Texas; Dayton, Ohio; Grand Rapids, Michigan; Elkhart, Indiana; and Orlando, Florida, and we employed an aggregate of approximately 650 people as of September 30, 2007.

For this purpose, any statements contained in this filing that relate to prospective events or developments are deemed to be forward-looking statements. Words such as "believes," "forecasts," "anticipates," "intends," "plans," "expects," "may," "will" and similar expressions are intended to identify forward-looking statements. These forward-looking statements reflect the Company's current views with respect to future events and financial performance, but involve known and unknown risks and uncertainties, both general and specific to the matters discussed in this filing. These risks and uncertainties may cause the actual results of the Company to be materially different from any future results expressed or implied by such forward looking statements. Such risks and uncertainties include the national, regional and local economic climates, the ability to maintain rental rates and occupancy levels, competitive market forces, changes in market rates of interest, the ability of manufactured home buyers to obtain financing, the level of repossessions by manufactured home lenders and those risks and uncertainties referenced under the headings entitled "Risk Factors" contained in this prospectus and the Company's filings with the Securities and Exchange Commission. The forward-looking statements contained in this prospectus speak only as of the date hereof and the Company expressly disclaims any obligation to provide public updates, revisions or amendments to any forward-looking statements made herein to reflect changes in the Company's expectations of future events.

RISK FACTORS

Our prospects are subject to certain uncertainties and risks. Our future results could differ materially from current results, and our actual results could differ materially from those projected in forward-looking statements as a result of certain risk factors. These risk factors include, but are not limited to, those set forth below, other one-time events, and important factors disclosed previously and from time to time in other Company filings with the Securities and Exchange Commission. This registration statement contains certain forward-looking statements.

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

REAL ESTATE RISKS

General economic conditions and the concentration of our properties in Michigan, Florida, and Indiana may affect our ability to generate sufficient revenue.

The market and economic conditions in our current markets generally, and specifically in metropolitan areas of our current markets, may significantly affect manufactured home occupancy or rental rates. Occupancy and rental rates, in turn, may significantly affect our revenues, and if our communities do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay or refinance our debt obligations could be adversely affected. We derived significant amounts of rental income for the twelve month period ended December 31, 2006 and the nine month period ended September 30, 2007 from properties located in Michigan, Florida, and Indiana. As of September 30, 2007, 47 of our 136 Properties, or approximately 30% of developed sites, are located in Michigan, 19 Properties, or approximately 21% of developed sites, are located in Florida, and 18 Properties, or approximately 14% of developed sites, are located in Indiana. As a result of the geographic concentration of our Properties in Michigan, Florida, and Indiana, we are exposed to the risks of downturns in the local economy or other local real estate market conditions which could adversely affect occupancy rates, rental rates and property values of properties in these markets.

5

The following factors, among others, may adversely affect the revenues generated by our communities:

- the national and local economic climate which may be adversely impacted by, among other factors, plant closings and industry slowdowns;
- local real estate market conditions such as the oversupply of manufactured housing sites or a reduction in demand for manufactured housing sites in an area;
- the number of repossessed homes in a particular market;
- the lack of an established dealer network;
- the rental market which may limit the extent to which rents may be increased to meet increased expenses without decreasing occupancy rates;
- the perceptions by prospective tenants of the safety, convenience and attractiveness of the Properties and the neighborhoods where they are located;
- zoning or other regulatory restrictions;
- competition from other available manufactured housing sites and alternative forms of housing (such as apartment buildings and site-built single-family homes);
- our ability to provide adequate management, maintenance and insurance;
- increased operating costs, including insurance premiums, real estate taxes and utilities; or

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

- the enactment of rent control laws or laws taxing the owners of manufactured homes.

Our income would also be adversely affected if tenants were unable to pay rent or if sites were unable to be rented on favorable terms. If we were unable to promptly relet or renew the leases for a significant number of the sites, or if the rental rates upon such renewal or reletting were significantly lower than expected rates, then our business and results of operations could be adversely affected. In addition, certain expenditures associated with each equity investment (such as real estate taxes and maintenance costs) generally are not reduced when circumstances cause a reduction in income from the investment. Furthermore, real estate investments are relatively illiquid and, therefore, will tend to limit our ability to vary our portfolio promptly in response to changes in economic or other conditions.

Competition affects occupancy levels and rents which could adversely affect our revenues.

All of our Properties are located in developed areas that include other manufactured housing community properties. The number of competitive manufactured housing community properties in a particular area could have a material adverse effect on our ability to lease sites and increase rents charged at our Properties or at any newly acquired properties. We may be competing with others with greater resources and whose officers and directors have more experience than our officers and directors. In addition, other forms of multi-family residential properties, such as private and federally funded or assisted multi-family housing projects and single-family housing, provide housing alternatives to potential tenants of manufactured housing communities.

6

Our ability to sell or lease manufactured homes may be affected by various factors, which may in turn adversely affect our profitability.

SHS is in the manufactured home market offering manufactured home sales and leasing services to tenants and prospective tenants of our communities. The market for the sale and lease of manufactured homes may be adversely affected by the following factors:

- downturns in economic conditions which adversely impact the housing market;
- an oversupply of, or a reduced demand for, manufactured homes;
- the difficulty facing potential purchasers in obtaining affordable financing as a result of heightened lending criteria; and
- an increase or decrease in the rate of manufactured home repossessions which provide aggressively priced competition to new manufactured home sales.

Any of the above listed factors could adversely impact our rate of manufactured home sales and leases, which would result in a decrease in profitability.

Increases in taxes and regulatory compliance costs may reduce our revenue.

Costs resulting from changes in real estate laws, income taxes, service or other taxes, generally are not passed through to tenants under leases and may

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

adversely affect our funds from operations and our ability to pay or refinance our debt. Similarly, changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures, which would adversely affect our business and results of operations.

We may not be able to integrate or finance our development activities.

From time to time, we engage in the construction and development of new communities, and may continue to engage in the development and construction business in the future. Our development and construction business may be exposed to the following risks which are in addition to those risks associated with the ownership and operation of established manufactured housing communities:

- we may not be able to obtain financing with favorable terms for community development which may make us unable to proceed with the development;
- we may be unable to obtain, or face delays in obtaining, necessary zoning, building and other governmental permits and authorizations, which could result in increased costs and delays, and even require us to abandon development of the community entirely if we are unable to obtain such permits or authorizations;
- we may abandon development opportunities that we have already begun to explore and as a result we may not recover expenses already incurred in connection with exploring such development opportunities;

7

- we may be unable to complete construction and lease-up of a community on schedule resulting in increased debt service expense and construction costs;
- we may incur construction and development costs for a community which exceed our original estimates due to increased materials, labor or other costs, which could make completion of the community uneconomical and we may not be able to increase rents to compensate for the increase in development costs which may impact our profitability;
- we may be unable to secure long-term financing on completion of development resulting in increased debt service and lower profitability; and
- occupancy rates and rents at a newly developed community may fluctuate depending on several factors, including market and economic conditions, which may result in the community not being profitable.

If any of the above occurred, our business and results of operations could be adversely affected.

We may not be able to integrate or finance our acquisitions and our acquisitions may not perform as expected.

We acquire and intend to continue to acquire manufactured housing communities on a select basis. Our acquisition activities and their success are subject to the following risks:

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

- we may be unable to acquire a desired property because of competition from other well capitalized real estate investors, including both publicly traded real estate investment trusts and institutional investment funds;
- even if we enter into an acquisition agreement for a property, it is usually subject to customary conditions to closing, including completion of due diligence investigations to our satisfaction, which may not be satisfied;
- even if we are able to acquire a desired property, competition from other real estate investors may significantly increase the purchase price;
- we may be unable to finance acquisitions on favorable terms;
- acquired properties may fail to perform as expected;
- acquired properties may be located in new markets where we face risks associated with a lack of market knowledge or understanding of the local economy, lack of business relationships in the area and unfamiliarity with local governmental and permitting procedures; and
- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations.

If any of the above occurred, our business and results of operations could be adversely affected.

8

In addition, we may acquire properties subject to liabilities and without any recourse, or with only limited recourse, with respect to unknown liabilities. As a result, if a liability were to be asserted against us based upon ownership of those properties, we might have to pay substantial sums to settle it, which could adversely affect our cash flow.

Rent control legislation may harm our ability to increase rents.

State and local rent control laws in certain jurisdictions may limit our ability to increase rents and to recover increases in operating expenses and the costs of capital improvements. Enactment of such laws has been considered from time to time in other jurisdictions. Certain Properties are located, and we may purchase additional properties, in markets that are either subject to rent control or in which rent-limiting legislation exists or may be enacted.

We may be subject to environmental liability.

Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate is liable for the costs of removal or remediation of certain hazardous substances at, on, under or in such property. Such laws often impose such liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous substances. The presence of such substances, or the failure to properly remediate such substances, may adversely affect the owner's ability to sell or rent such property, to borrow using such property as collateral or to develop such property. Persons who arrange for the disposal or treatment of hazardous

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

substances also may be liable for the costs of removal or remediation of such substances at a disposal or treatment facility owned or operated by another person. In addition, certain environmental laws impose liability for the management and disposal of asbestos-containing materials and for the release of such materials into the air. These laws may provide for third parties to seek recovery from owners or operators of real properties for personal injury associated with asbestos-containing materials. In connection with the ownership, operation, management, and development of real properties, we may be considered an owner or operator of such properties and, therefore, are potentially liable for removal or remediation costs, and also may be liable for governmental fines and injuries to persons and property. When we arrange for the treatment or disposal of hazardous substances at landfills or other facilities owned by other persons, we may be liable for the removal or remediation costs at such facilities.

All of the Properties have been subject to a Phase I or similar environmental audit (which involves general inspections without soil sampling or ground water analysis) completed by independent environmental consultants. These environmental audits have not revealed any significant environmental liability that would have a material adverse effect on our business. These audits cannot reflect conditions arising after the studies were completed, and no assurances can be given that existing environmental studies reveal all environmental liabilities, that any prior owner or operator of a property or neighboring owner or operator did not create any material environmental condition not known to us, or that a material environmental condition does not otherwise exist as to any one or more Properties.

Losses in excess of our insurance coverage or uninsured losses could adversely affect our cash flow.

We maintain comprehensive liability, fire, flood (where appropriate), extended coverage, and rental loss insurance on the Properties with policy specifications, limits, and deductibles which are customarily carried for similar properties. As a result of market conditions in the insurance industry, we carry a \$250,000 deductible on our liability insurance. Certain types of losses, however, may be either uninsurable or not economically insurable, such as losses due to earthquakes, riots, or acts of war. In the event an uninsured loss occurs, we could lose both

9

our investment in and anticipated profits and cash flow from the affected property. Any loss would adversely affect our ability to repay our debt.

FINANCING AND INVESTMENT RISKS

Our significant amount of debt could limit our operational flexibility or otherwise adversely affect our financial condition.

We have a significant amount of debt. As of September 30, 2007, we had approximately \$1.2 billion of total debt outstanding, consisting of approximately \$1.1 billion in debt that is collateralized by mortgage liens on 103 of the Properties (the "Mortgage Debt"), and approximately \$125.5 million in unsecured debt. If we fail to meet our obligations under the Mortgage Debt, the lender would be entitled to foreclose on all or some of the Properties securing such debt which could have a material adverse effect on us and our ability to make expected distributions, and could threaten our continued viability.

We are subject to the risks normally associated with debt financing,

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

including the following risks:

- our cash flow may be insufficient to meet required payments of principal and interest, or require us to dedicate a substantial portion of our cash flow to pay our debt and the interest associated with our debt rather than to other areas of our business;
- our existing indebtedness may limit our operating flexibility due to financial and other restrictive covenants, including restrictions on incurring additional debt;
- it may be more difficult for us to obtain additional financing in the future for our operations, working capital requirements, capital expenditures, debt service or other general requirements;
- we may be more vulnerable in the event of adverse economic and industry conditions or a downturn in our business; and
- we may be placed at a competitive disadvantage compared to our competitors that have less debt.

If any of the above risks occurred, our financial condition and results of operations could be materially adversely affected.

We may be able to incur substantially more debt which would increase the risks associated with our substantial leverage.

Despite our current indebtedness levels, we may still be able to incur substantially more debt in the future. If new debt is added to our current debt levels, an even greater portion of our cash flow will be needed to satisfy our debt service obligations. As a result, the related risks that we now face could intensify and increase the risk of a default on our indebtedness.

10

Our equity investment in Origen Financial, Inc., may subject us to certain risks.

In October 2003, Origen Financial, LLC completed a \$150 million recapitalization. In this transaction, we purchased 5,000,000 shares of common stock (representing approximately 19% of the issued and outstanding shares of common stock as of September 30, 2007) of Origen Financial, Inc. ("Origen") for \$50 million. Origen is a publicly traded real estate investment trust in the business of originating, acquiring and servicing manufactured home loans. Our equity investment in Origen is subject to all of the risks associated with Origen's business, including the risks associated with the manufactured housing finance industry. The failure of Origen to achieve its development and operating goals could have a material adverse effect on the value of our investment in Origen. At December 31, 2006, the Company determined that an impairment to its investment in Origen had occurred and recorded an \$18.0 million adjustment to the carrying value of this investment. Additional information is included in Footnote 1.g. to our consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

The financial condition and solvency of our borrowers and the market value of our properties may adversely affect our investments in real estate, installment and other loans.

As of December 31, 2006, we had an investment of approximately \$13.5

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

million in a real estate loan to an entity which owns a manufactured home community located in Arizona. The loan was secured by a first lien on the underlying property and was repaid in full on March 1, 2007. Also, as of September 30, 2007, we had outstanding approximately \$28.7 million in installment loans to owners of manufactured homes. These installment loans are collateralized by the manufactured homes. We may invest in additional mortgages and installment loans in the future. By virtue of our investment in the mortgages and the loans, we are subject to the following risks of such investment:

- the borrowers may not be able to make debt service payments or pay principal when due;
- the value of property securing the mortgages and loans may be less than the amounts owed; and
- interest rates payable on the mortgages and loans may be lower than our cost of funds.

If any of the above occurred, our business and results of operations could be adversely affected.

TAX RISKS

We may suffer adverse tax consequences and be unable to attract capital if we fail to qualify as a REIT.

We believe that since our taxable year ended December 31, 1994, we have been organized and operated, and intend to continue to operate, so as to qualify for taxation as a REIT under the Internal Revenue Code ("Code"). Although we believe that we have been and will continue to be organized and have operated and will continue to operate so as to qualify for taxation as a REIT, we cannot assure you that we have been or will continue to be organized or operated in a manner to so qualify or remain so qualified. Qualification as a REIT involves the satisfaction of numerous requirements (some on an annual and quarterly basis) established under highly technical and complex Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. In addition, frequent changes occur in the area of REIT taxation, which require the Company continually to monitor its tax status.

11

If we fail to qualify as a REIT in any taxable year, we would be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. Moreover, unless entitled to relief under certain statutory provisions, we also would be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost. This treatment would reduce our net earnings available for investment or distribution to stockholders because of the additional tax liability to us for the years involved. In addition, distributions to stockholders would no longer be required to be made. Even if we qualify for and maintain our REIT status, we will be subject to certain federal, state and local taxes on our property and certain of our operations.

We intend for the Operating Partnership to qualify as a partnership, but we cannot guarantee that it will qualify.

We believe that the Operating Partnership has been organized as a

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

partnership and will qualify for treatment as such under the Code. However, if the Operating Partnership is deemed to be a "publicly traded partnership," it will be treated as a corporation instead of a partnership for federal income tax purposes unless at least 90% of its income is qualifying income as defined in the Code. The income requirements applicable to REITs and the definition of "qualifying income" for purposes of this 90% test are similar in most respects. Qualifying income for the 90% test generally includes passive income, such as specified types of real property rents, dividends and interest. We believe that the Operating Partnership would meet this 90% test, but we cannot guarantee that it would. If the Operating Partnership were to be taxed as a corporation, it would incur substantial tax liabilities, we would fail to qualify as a REIT for federal income tax purposes, and our ability to raise additional capital could be significantly impaired.

Our ability to accumulate cash is restricted due to certain REIT distribution requirements.

In order to qualify as a REIT, we must distribute to our stockholders at least 90% of our REIT taxable income (calculated without any deduction for dividends paid and excluding net capital gain) and to avoid federal income taxation, our distributions must not be less than 100% of our REIT taxable income, including capital gains. As a result of the distribution requirements, we do not expect to accumulate significant amounts of cash. Accordingly, these distributions could significantly reduce the cash available to us in subsequent periods to fund our operations and future growth.

BUSINESS RISKS

Some of our directors and officers may have conflicts of interest with respect to certain related party transactions and other business interests.

Ownership of Origen. In the 2003 recapitalization of Origen Financial, Inc., ("Origen"), the Company purchased 5,000,000 shares of Origen common stock for \$50 million and Shiffman Origen LLC (which is owned by the Milton M. Shiffman Spouse's Marital Trust, Gary A. Shiffman (the Company's Chief Executive Officer), and members of Mr. Shiffman's family) purchased 1,025,000 shares of Origen common stock for \$10.25 million. Gary A. Shiffman is a member of the board of directors of Origen and Arthur A. Weiss, a director of the Company, is a trustee of the Milton M. Shiffman Spouse's Marital Trust.

Accordingly, in all transactions involving Origen, Mr. Shiffman and/or Mr. Weiss may have a conflict of interest with respect to their respective obligations as an officer and/or director of the Company. The following are the current transactions and agreements involving Origen which may present a conflict of interest for Mr. Shiffman or Mr. Weiss:

12

- Origen Servicing Inc., a wholly owned subsidiary of Origen, services approximately \$28.8 million of manufactured home loans for the Company as of September 30, 2007, for an annual servicing fee of 100 to 150 basis points of the outstanding principal balance of the loans pursuant to a Loan Servicing Agreement.
- Origen has agreed to fund loans that meet the Company's underwriting guidelines and then transfer those loans to the Company pursuant to a Loan Origination, Sale and Purchase Agreement. During 2006 and 2005, the Company purchased \$7.9 million and \$7.2 million of these loans, respectively.

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

- The Company purchases certain repossessed manufactured houses owned by Origen located in its manufactured housing communities. The Company purchased approximately \$1.2 million and \$2.1 million of repossessed homes from Origen during 2006 and 2005, respectively. This program allows the Company to retain houses for resale and rent in its communities and allows Origen to enhance recoveries on its repossessed homes.
- As noted above, Origen services manufactured home loans for the Company under a Loan Servicing Agreement. Certain loans may, from time to time, be sold to Origen. For loans that are made below published rates, the Company will pay Origen the interest differential between market rates and the rate paid by the borrower for any such loans sold to Origen. During 2004, the Company sold a portfolio of below published rates loans totaling \$1.6 million to Origen. No sales of such loans were made in 2005 and 2006. The Company paid interest differential of approximately \$0.1 million during 2006, 2005 and 2004. In addition, in the third quarter of 2006, the Company sold a portfolio of installment loans on manufactured homes totaling approximately \$4.1 million to a wholly-owned subsidiary of Origen Financial, Inc. for 100.5 percent of the principal balance for loans that were 89 days or less delinquent and 100 percent of the principal balance for loans that were 90 days or more delinquent. The Company recognized a gain on the sale of these notes of \$0.02 million.

Tax Consequences Upon Sale of Properties. Gary A. Shiffman holds limited partnership interests in the Operating Partnership which were received in connection with the contribution of 24 properties (four of which have been sold) from partnerships previously affiliated with him (the "Sun Partnerships"). Prior to any redemption of these limited partnership interests for our common stock, Mr. Shiffman will have tax consequences different from those of us and our public stockholders on the sale of any of the Sun Partnerships. Therefore, Mr. Shiffman and the Company may have different objectives regarding the appropriate pricing and timing of any sale of those properties.

Lease of Executive Offices. Gary A. Shiffman, together with certain family members, indirectly owns approximately a 21 percent equity interest in American Center LLC, the entity from which we lease office space for our principal executive offices. Arthur A. Weiss owns a 0.75 percent indirect interest in American Center LLC. This lease was for an initial term of five years, beginning May 1, 2003, with the right to extend the lease for an additional five year term. On July 30, 2007, the Company exercised its option to extend its lease for its executive offices. The extension is for a period of five years commencing on May 1, 2008. The base rent for the option term will continue to be the same as the rent payable at the end of the current term. The current annual base rent under the current lease is \$21.25 per square foot (gross). Mr. Shiffman may have a conflict of interest with respect to his obligations as an officer and/or director of the Company and his ownership interest in American Center LLC.

13

We rely on key management.

We are dependent on the efforts of our executive officers, particularly Gary A. Shiffman, Brian W. Fannon, John B. McLaren, Karen J. Dearing and Jonathan M. Colman (together, the "Senior Officers"). As disclosed under "Legal Proceedings" in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, the SEC has initiated civil action against three of our

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

employees, including Mr. Shiffman with respect to our accounting of the SunChamp LLC investment during 2000, 2001 and 2002. The defense of this civil action may divert the time and attention of these employees, be costly to the Company and/or result in the loss of services, or change in duties, of one or more of these employees. The loss of services of one or more of our executive officers could have a temporary adverse effect on our operations. We do not currently maintain or contemplate obtaining any "key-man" life insurance on the Senior Officers.

Certain provisions in our governing documents may make it difficult for a third-party to acquire us.

9.8% Ownership Limit. In order to qualify and maintain our qualification as a REIT, not more than 50% of the outstanding shares of our capital stock may be owned, directly or indirectly, by five or fewer individuals. Thus, ownership of more than 9.8% of our outstanding shares of common stock by any single stockholder has been restricted, with certain exceptions, for the purpose of maintaining our qualification as a REIT under the Code. Such restrictions in our charter do not apply to Gary Shiffman, the Milton M. Shiffman Spouse's Marital Trust and the Estate of Robert B. Bayer.

The 9.8% ownership limit, as well as our ability to issue additional shares of common stock or shares of other stock (which may have rights and preferences over the common stock), may discourage a change of control of the Company and may also: (1) deter tender offers for the common stock, which offers may be advantageous to stockholders; and (2) limit the opportunity for stockholders to receive a premium for their common stock that might otherwise exist if an investor were attempting to assemble a block of common stock in excess of 9.8% of the outstanding shares of the Company or otherwise effect a change of control of the Company.

Staggered Board. Our Board of Directors has been divided into three classes of directors. The term of one class will expire each year. Directors for each class will be chosen for a three-year term upon the expiration of such class's term, and the directors in the other two classes will continue in office. The staggered terms for directors may affect the stockholders' ability to change control of the Company even if a change in control were in the stockholders' interest.

Preferred Stock. Our charter authorizes the Board of Directors to issue up to 10,000,000 shares of preferred stock and to establish the preferences and rights (including the right to vote and the right to convert into shares of common stock) of any shares issued. The power to issue preferred stock could have the effect of delaying or preventing a change in control of the Company even if a change in control were in the stockholders' interest.

Rights Plan. We adopted a stockholders' rights plan in 1998 that provides our stockholders (other than a stockholder attempting to acquire a 15% or greater interest in the Company) with the right to purchase stock in the Company at a discount in the event any person attempts to acquire a 15% or greater interest in the Company. Because this plan could make it more expensive for a person to acquire a controlling interest in the Company, it could have the effect of delaying or preventing a change in control of the Company even if a change in control were in the stockholders' interest.

Changes in our investment and financing policies may be made without stockholder approval.

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

Our investment and financing policies, and our policies with respect to certain other activities, including our growth, debt, capitalization, distributions, REIT status, and operating policies, are determined by our Board of Directors. Although the Board of Directors has no present intention to do so, these policies may be amended or revised from time to time at the discretion of the Board of Directors without notice to or a vote of our stockholders. Accordingly, stockholders may not have control over changes in our policies and changes in our policies may not fully serve the interests of all stockholders.

Substantial sales of our common stock could cause our stock price to fall.

Sales of a substantial number of shares of our common stock, or the perception that such sales could occur, could adversely affect prevailing market prices for shares. As of September 30, 2007, up to approximately 2,828,000 shares of our common stock may be issued in the future to the limited partners of the Operating Partnership in exchange for their common limited partnership interests ("Common OP Units") and preferred limited partnership interests ("Preferred OP Units"). These Preferred OP Units are convertible into common shares at a price of \$68 per share. The limited partners may sell such shares pursuant to registration rights or an available exemption from registration. Also, in 2008 and 2009, Water Oak, Ltd., a former owner of one of the Properties, may be issued Common OP Units with a value of approximately \$1,250,000. In addition, as of September 30, 2007, options to purchase 300,137 shares of our common stock were outstanding under our 1993 Employee Stock Option Plan, our 1993 Non-Employee Director Stock Option Plan and our Long-Term Incentive Plan (the "Plans"). No prediction can be made regarding the effect that future sales of shares of our common stock will have on the market price of shares.

An increase in interest rates may have an adverse effect on the price of our common stock.

One of the factors that may influence the price of our common stock in the public market will be the annual distributions to stockholders relative to the prevailing market price of the common stock. An increase in market interest rates may tend to make the common stock less attractive relative to other investments, which could adversely affect the market price of our common stock.

SELLING STOCKHOLDERS

The Selling Stockholders may use this prospectus for the resale of shares of Common Stock being registered by this prospectus, although no Selling Stockholder is obligated to sell any such shares. Each of the Selling Stockholders is a holder of Common OP Units and/or shares of Common Stock. We are the sole general partner of the Operating Partnership. Under the terms of the Operating Partnership's Second Amended and Restated Limited Partnership Agreement (the "Partnership Agreement"), the Common OP Units may be exchanged for shares of Common Stock. As of the date of this prospectus, the exchange ratio is one share for each Common OP Unit exchanged, but such exchange ratio is subject to adjustment in certain events pursuant to anti-dilution provisions contained in the Partnership Agreement. The Common Stock offered by this prospectus has been or will be issued to the Selling Stockholders in exchange for Common OP Units held by the Selling Stockholders (the "Shares"). The Selling Stockholders are not required to exchange Common OP Units to Common Stock. Mr. Shiffman, and Mr. Jorissen are affiliates of the Company.

USE OF PROCEEDS

We will not receive any of the proceeds of any sale by the Selling Stockholders. We have agreed to pay the fees, costs and expenses of this offering.

PLAN OF DISTRIBUTION

The Company is registering the Shares on behalf of the Selling Stockholders. As used herein, "Selling Stockholders" includes pledgees, donees, transferees or other successors in interest (collectively with the Selling Stockholders, the "Sellers") selling shares received from a Selling Stockholder after the date of this prospectus. The registration of the Shares, however, does not necessarily mean that any of the Shares will be offered or sold by the Selling Stockholders or their respective donees, pledgees or other transferees or successors in interest. We will not receive any proceeds from the sale of the Shares offered by this prospectus.

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

Subject to certain restrictions on transfer that may be applicable to the Selling Stockholders, they may sell the Shares described in this prospectus and any prospectus supplement to one or more underwriters for public offering and sale, or they may sell the Shares to investors directly or through dealers or agents.

The Selling Stockholders may act independently of us in making decisions with respect to the timing, manner and size of each of their sales. The Selling Stockholders may make sales on the New York Stock Exchange or otherwise, at prices and under terms prevailing at the time of the sale, or at prices related to the then-current market price, at fixed prices, or in privately negotiated transactions. The Selling Stockholders may sell the Shares offered by this prospectus by one or more of, or a combination of, the following methods:

- purchases by a broker-dealer as principal and resales by such broker-dealer for its own account pursuant to this prospectus;
- ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- block trades in which the broker-dealer so engaged will attempt to sell the Shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction; or
- privately negotiated transactions, which include direct sales to purchasers and sales effected through agents.

In effecting sales, broker-dealers engaged by the Selling Stockholders may arrange for other broker-dealers to participate. Broker-dealers may receive compensation from the Selling Stockholders in the form of commissions, discounts or concessions. Broker-dealers may also receive compensation from purchasers of the Shares for whom they act as agents or to whom they sell as principals or both. Compensation as to a particular broker-dealer may be in excess of customary commissions and will be in amounts to be negotiated.

The distribution of the Shares also may be effected from time to time in one or more underwritten transactions. Any underwritten offering may be on a "best efforts" or a "firm commitment" basis. In connection with any underwritten offering, underwriters or agents may receive compensation in the form of discounts, concessions or commissions from the Selling Stockholders or from purchasers of the Shares. Underwriters may sell the Shares to or through dealers, and dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents.

Any underwriting compensation paid by any Selling Stockholders to underwriters or agents in connection with the offering of the Shares, and any discounts, concessions or commissions allowed by underwriters to participating

dealers, will be set forth in the applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of the Shares may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the Shares may be deemed to be underwriting discounts and commissions under the Securities Act. Any underwriter, dealer or agent involved in the offer and sale of the Shares will be named in the applicable prospectus supplement.

Edgar Filing: SUN COMMUNITIES INC - Form 424B3

In addition, any securities registered and offered pursuant to this prospectus which qualify for sale pursuant to Rule 144 of the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus.

The Selling Stockholders may be required by the securities laws of some states to offer and sell the Shares only through registered or licensed brokers or dealers.

We have agreed to pay all expenses incident to the offering and sale of the Shares offered by this prospectus, other than commissions, discounts and fees of underwriters, broker-dealers or agents. Pursuant to the registration rights granted to the Selling Stockholders in connection with the issuance of Common OP Units to the Selling Stockholders, we have agreed to indemnify the Selling Stockholders and any person who controls a Selling Stockholder against certain liabilities and expenses arising out of, or based upon the information set forth in, or incorporated by reference in, this prospectus, and the registration statement of which this prospectus is a part, including liabilities under the Securities Act.

If a prospectus supplement so indicates, the Selling Stockholders may authorize agents, underwriters or dealers to solicit offers by institutional investors to purchase the Shares to which such prospectus supplement relates, providing for payment and delivery on a future date specified in such prospectus supplement. There may be limitations on the minimum amount that may be purchased by any institutional investor or on the number of the Shares that may be sold pursuant to such arrangements. Institutional investors include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and such other institutions as we may approve.
