ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS

On April 8, 2004, Nuevo Energy Company entered into definitive agreements with Lankan Inc. and Perenco S.A. for the sale of the stock of our subsidiaries that hold our oil and gas interests in the Republic of Congo for an estimated \$62 million, subject to working capital and other purchase price adjustments. These assets include a non-operating 50% working interest (37.5% revenue interest) in the Yombo field, a 50% interest in a floating production, storage and off loading vessel, and a 50% interest in the Masseko field. The oil field is located in the Marine 1 Permit 27 miles offshore the Republic of Congo in approximately 370 feet of water. Estimated net proved reserves of the Yombo oil field as of December 31, 2003 were 14.1 MMbl, and production during 2003 average 4.8 MBOE/day. The floating production storage, an off loading vessel, is a converted super tanker with storage capacity of over one million barrels, and our production is converted to No. 6 fuel oil with less than 0.3% sulfur content. The Masseko field is currently under renewed analysis for possible development. The sale was approved by Nuevo's Board of Directors and is subject to certain third party and governmental releases and consents. Closing of this sale is expected to be in the second quarter of 2004.
