Edgar Filing: HALLIBURTON CO - Form 424B3

HALLIBURTON CO Form 424B3 March 15, 2005

Filed pursuant to Rule 424(b)(3) Registration No. 333-110035

Prospectus Supplement (To Prospectus Dated February 9, 2004)

\$1,200,000,000

HALLIBURTON COMPANY

3-1/8% Convertible Senior Notes due July 15, 2023 and Common Stock Issuable Upon Conversion of the Notes

This document supplements the prospectus dated February 9, 2004, relating to \$1,200,000,000 aggregate principal amount of our 3-1/8% Convertible Senior Notes due July 15, 2023 and the shares of common stock issuable upon conversion of the notes. The information in this prospectus supplement replaces and supersedes the information set forth under the heading Selling Securityholders in the prospectus dated February 9, 2004 and in all prior prospectus supplements to that prospectus.

Our common stock is listed on the New York Stock Exchange under the symbol HAL. On March 14, 2005 the closing price for our common stock on the New York Stock Exchange was \$42.00 per share.

Investing in the notes and the common stock issuable upon their conversion involves risks. See Risk Factors beginning on page 12 of the prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined whether this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is March 15, 2005.

SELLING SECURITYHOLDERS

We originally issued the notes in a private placement. The notes were resold by the initial purchasers to qualified institutional buyers within the meaning of Rule 144A under the Securities Act in transactions exempt from registration under the Securities Act. The notes that may be offered under the prospectus will be offered by the selling securityholders, which includes their transferees, pledgees or donees or their successors. The following table sets forth certain information concerning the principal amount at maturity of notes beneficially owned by each selling securityholder that may be offered from time to time pursuant to the prospectus, as supplemented.

The table below has been prepared based solely upon the information furnished to us by the selling securityholders named therein. Information concerning the selling securityholders may change from time to time and, if necessary, we will supplement the prospectus accordingly.

The selling securityholders listed below may offer and sell, transfer or otherwise dispose, from time to time, some or all of their notes. No offer or sale, transfer or other disposition under this prospectus may be made by a holder of the notes unless that holder is listed in the table below or until that holder has notified us and a supplement to this prospectus has been filed or an amendment to the related registration statement has become effective. However, a selling securityholder may offer and sell, transfer or otherwise dispose of some or all of its notes in transactions exempt from the registration requirements of the Securities Act without notifying us. As a result, the same restricted notes may be included in the table below as being held by more than one holder, and the total amount of the notes listed in the column titled Principal Amount at Maturity of Notes Beneficially Owned That May be Sold may represent an amount of notes in excess of the \$1,200,000,000 we issued. However, the total principal amount at maturity of notes that may be sold hereunder will not exceed the \$1,200,000,000 we issued. Further, we cannot give an estimate as to the amount of the notes that will be held by the selling securityholders upon the termination of this offering because the selling securityholders may offer some or all of their notes pursuant to the offering contemplated by the prospectus or otherwise in transactions exempt from the registration requirements of the Securities Act. See Plan of Distribution.
