- (1) Not specified as to each class of securities to be registered pursuant to General Instruction II(D) to Form S-3.
- (2) This registration statement also covers an indeterminate amount of securities that may be issued in exchange for, or upon conversion, exercise or settlement of, as the case may be, any securities registered hereunder that provide for conversion, exercise or exchange. Any securities registered hereunder may be sold separately or as units with other securities registered hereunder.
- (3) Estimated solely for the purpose of calculating the registration fee pursuant to Rule 457(o).
- (4) The proposed maximum offering price per unit will be determined from time to time by the registrant in connection with, and at the time of, the issuance by the registrant of the securities registered hereunder.
- (5) Each share of Class B common stock registered hereunder includes an associated preferred share purchase right, which is not exercisable and is not separately tradable until certain events occur. No separate consideration will be received for the preferred share purchase rights.
- (6) The depositary shares registered hereunder will be evidenced by depositary receipts issued pursuant to a deposit agreement. If the registrant elects to offer to the public fractional interests in shares of preferred stock, then depositary receipts will be distributed to those persons purchasing the fractional interests and the shares will be

issued to the depositary under the deposit agreement.

- (7) Rights evidencing the right to purchase Class B common stock, preferred stock, depositary shares or warrants.
- (8) The aggregate principal amount of the debt securities may be increased if any debt securities are issued at an original issue discount by an amount such that the gross proceeds to be received by the registrant shall be equal to the above amount to be registered. Any offering of debt securities denominated other than in U.S. dollars will be treated as the equivalent of U.S. dollars based on the exchange rate applicable to the purchase of such debt securities at the time of initial offering. In no event will the aggregate initial offering price of all securities issued from time to time pursuant to this registration statement exceed \$1,000,000,000, or the equivalent thereof in foreign currencies or composite currencies. The aggregate amount of common stock is further limited in some circumstances to that which is permissible under Rule 415(a)(4).
- (9) The registration fee has been calculated in accordance with Rule 457(o) under the Securities Act of 1933 at the statutory rate of \$117.70 per \$1,000,000 of securities registered. Securities registered under Registration Statement No. 333-71906 having an aggregate offering price of \$125,602,500 remain unsold. In accordance with Rule 457(p) under the Securities Act of 1933, the registration fee of \$31,400 associated with such securities is offset against the total registration fee due in connection with this Registration Statement. Accordingly, a filing fee of \$86,300 is paid herewith.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, which we refer to as the SEC, utilizing a shelf registration process. Under this shelf registration process, we may offer and sell any combination of the securities described in this prospectus in one or more offerings up to a total dollar amount of \$1,000,000,000. This prospectus provides you with a general description of the securities we may offer. Each time we offer the securities, we will provide a prospectus supplement and attach it to this prospectus. The prospectus supplement will contain specific information about the terms of the offering and the securities being offered at that time. The prospectus supplement also may add, update or change information contained in this prospectus. In this prospectus, Continental, we, us, our and the company each refers to Continental Airlines, Inc., unless the context indicates otherwise.

To the extent information in this prospectus is inconsistent with information contained in a prospectus supplement, you should rely on the information in the prospectus supplement. You should read both this prospectus and any prospectus supplement, together with additional information described under the heading Where You Can Find More Information, and any additional information you may need to make your investment decision.

CONTINENTAL AIRLINES, INC.

We are the world's sixth largest airline (as measured by the number of scheduled miles flown by revenue passengers, known as revenue passenger miles, in 2004). Together with ExpressJet Airlines, Inc. (operating as Continental Express), a wholly-owned subsidiary of ExpressJet Holdings, Inc. from which we purchase seat capacity, and our wholly owned subsidiary, Continental Micronesia, Inc., each a Delaware corporation, we operate more than 2,500 daily departures throughout the Americas, Europe and Asia. As of July 31, 2005, we flew to 131 domestic and 123 international destinations and offered additional connecting service through alliances with domestic and foreign carriers. We directly served 23 European cities, eight South American cities, Tel Aviv, Hong Kong, Beijing and Tokyo as of July 31, 2005. In addition, we provide service to more destinations in Mexico and Central America than any other U.S. airline, serving 41 cities. Through our Guam hub, CMI provides extensive service in the western Pacific, including service to more Japanese cities than any other United States carrier.

We are a Delaware corporation, with executive offices located at 1600 Smith Street, Houston, Texas 77002. Our telephone number is (713) 324-2950.

USE OF PROCEEDS

Unless otherwise indicated in an accompanying prospectus supplement, we intend to use the proceeds from the sale of the securities for general corporate purposes, which may include repayment of indebtedness and the funding of a portion of our pension liabilities, and our working capital requirements.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The ratios of our earnings to our fixed charges for the six months ended June 30, 2005 and for each of the years 2000 through 2004 were:

Six Months Ended	Year Ended December 31,				
June 30,					
2005	2004	2003	2002	2001	2000
(1)	(2)	1.14	(3)	(4)	1.49

- (1) For the six months ended June 30, 2005, earnings were not sufficient to cover fixed charges. We would have had to generate additional pre-tax earnings of approximately \$97 million to achieve a ratio of earnings to fixed charges of 1.0.
- (2) For the year ended December 31, 2004, earnings were not sufficient to cover fixed charges. We would have had to generate additional pre-tax earnings of approximately \$490 million to achieve a ratio of earnings to fixed charges of 1.0.
- (3) For the year ended December 31, 2002, earnings were not sufficient to cover fixed charges. We would have had to generate additional pre-tax earnings of approximately \$658 million to achieve a ratio of earnings to fixed charges of 1.0.
- (4) For the year ended December 31, 2001, earnings were not sufficient to cover fixed charges. We would have had to generate additional pre-tax earnings of approximately \$161 million to achieve a ratio of earnings to fixed charges of 1.0.

The ratios of earnings to fixed charges are based on continuing operations. For purposes of the ratios, earnings means the sum of:

our pre-tax income (loss) adjusted for undistributed income of companies in which we have a minority equity interest; and

our fixed charges, net of interest capitalized.

Fixed charges represent:

the interest we pay on borrowed funds;

the amount we amortize for debt discount, premium and issuance expense and interest previously capitalized; and

that portion of rentals considered to be representative of the interest expense.

DESCRIPTION OF DEBT SECURITIES

The following description sets forth certain general terms and provisions of our debt securities, consisting of notes, debentures or other evidences of indebtedness, that we may offer by this prospectus. We will describe the particular terms of debt securities, and provisions that vary from those described below, in one or more prospectus supplements.

We may offer under this prospectus up to \$1.0 billion total principal amount of debt securities, or its equivalent if debt securities are issued at a discount or in a foreign currency or currency units. We may issue the debt securities in registered or bearer form. The debt securities we offer pursuant to this prospectus will be unsecured obligations unless otherwise specified in the applicable prospectus supplement. We may issue the debt securities as unsubordinated or senior debt securities, or as subordinated debt securities. The senior debt securities will rank equally in right of

payment with all our current and future unsubordinated indebtedness, and the subordinated debt securities will be subordinated in right of payment to all our senior indebtedness, as described below under Subordination of Subordinated Debt Securities.

Table of Contents

As required by U.S. law, debt securities are governed by a document called an indenture. The indenture is a contract between us and an entity named in this prospectus or a prospectus supplement which acts as trustee. The trustee has two main roles:

the trustee can enforce your rights, including rights you have against us if we default; and

the trustee performs administrative duties for us, such as sending you interest payments, transferring your debt securities to a new buyer if you sell and sending you notices.

Senior debt securities will be issued under a senior debt indenture entered into between us and J. P. Morgan Trust Company, National Association (as successor in interest to Bank One, N.A.), as trustee, dated as of July 15, 1997. Subordinated debt securities will be issued under a subordinated debt indenture between us and a trustee we name when the subordinated debt securities are issued. The senior debt indenture and the subordinated debt indenture are sometimes collectively referred to in this prospectus as the indentures. We have filed the senior indenture and a form of the subordinated indenture as exhibits to this registration statement of which this prospectus is a part.

The following description is a summary of selected provisions relating to the debt securities and the indentures. The summary is not complete. You should not rely on this summary, because the indentures define your rights as a holder of the debt securities.

General

The indentures do not limit the total principal amount of debt securities that may be issued and provide that debt securities may be issued from time to time in one or more series. We will set forth in a prospectus supplement a description of the series of debt securities being offered, including some or all of the following:

the title of such debt securities;

any limit upon the aggregate principal amount of such debt securities;

the date or dates on which principal will be payable or how to determine such dates;

the rate or rates of interest or the method of determination of interest rate; the date from which interest will accrue or the method by which such date may be determined; the dates on which interest will be payable (Interest Payment Dates); and any record dates for the interest payable on such Interest Payment Dates;

any obligation or option we may have to redeem, purchase or repay debt securities, or any option of the holder to require us to redeem or repurchase debt securities, and the terms and conditions upon which such debt securities will be redeemed, purchased or repaid;

any rights of the holders of the debt securities to convert the debt securities into other securities or property and the terms and conditions governing such conversion or exchange;

the denominations in which such debt securities will be issuable (if other than denominations of \$1,000 and any integral multiple thereof for registered securities or if other than denominations of \$5,000 for bearer securities);

whether such debt securities are to be issued in whole or in part in the form of one or more global debt securities and, if so, the identity of the depository for such global debt securities;

the currency and denominations of the debt securities;

the principal amount of the debt securities payable upon declaration of the acceleration of the maturity of the debt securities, if other than 100% of the principal amount;

the person to whom any interest on any debt security will be payable, if other than the person in whose name the debt security is registered on the applicable record date;

5

Table of Contents

any addition to, or modification or deletion of, any event of default or any covenant with respect to the debt securities;

the application, if any, of defeasance or covenant defeasance discussed below;

any provisions relating to the registration and exchange of the debt securities; and

any other terms of the series of debt securities.

The holders of our debt securities (whether senior or subordinated debt securities) will be effectively subordinated to the creditors of our subsidiaries because such creditors will have a direct claim against any assets of such subsidiaries upon their liquidation or reorganization. By contrast, as a holder of our debt securities (whether senior or subordinated debt securities), you will have only an indirect claim against the assets of our subsidiaries that derives through our ownership of the capital stock of our subsidiaries. Consequently, as a holder of debt securities, your right to participate in those assets will be effectively subordinated to the claims of that subsidiary's creditors (including trade creditors). In addition, the holders of our debt securities (whether senior or subordinated debt securities) will be effectively subordinated to the holders of our secured debt to the extent of the collateral securing such debt.

Except as may be set forth in a prospectus supplement, the indentures also do not limit the aggregate amount of unsecured indebtedness that we or our subsidiaries may incur.

Unless we indicate differently in a prospectus supplement, the debt securities will not be listed on any securities exchange and will be issued in fully registered form without coupons. If debt securities are issued in bearer form, we will set forth the special restrictions and considerations applicable to such debt securities in a prospectus supplement. Bearer debt securities will be transferable by delivery of the security by the transferring holder to the new holder, and the transfer will not be registered or recorded by the trustee or us.

We may sell the debt securities for an amount less than their stated principal amount, bearing no interest or bearing a below market rate of interest. We will provide you with information on the federal income tax consequences and other special considerations applicable to any of these debt securities in a prospectus supplement.

If the purchase price of any debt securities is payable in one or more foreign currencies or currency units or if any debt securities are denominated in one or more foreign currencies or currency units or if the principal of, premium and/or interest, if any, on any debt securities is payable in one or more foreign currencies or currency units, the restrictions, elections, federal income tax considerations, specific terms and other information with respect to the debt securities and such foreign currency or currency units will be set forth in a prospectus supplement.

Denominations, Payment, Registration, Transfer and Exchange

We will issue registered debt securities in denominations of \$1,000 and multiples of \$1,000, and we will issue bearer debt securities in \$5,000 denominations or, in each case, in such other denominations and currencies established by the terms of the debt securities of any particular series. Unless we provide otherwise in a prospectus supplement, we will make payments in respect of the debt securities, subject to any applicable laws and regulations, in the designated currency and at the office or agency as we may designate from time to time. At our option, however, we may make interest payments on debt securities in registered form:

by checks mailed by the trustee to the holders of the debt securities entitled to payment at their registered addresses; or

by wire transfer to an account maintained by the person entitled to payment as specified in the register of the debt securities maintained by the trustee.

Table of Contents

We will pay installments of interest on debt securities:

in registered form to the person in whose name the debt security is registered at the close of business on the regular record date for such interest, unless otherwise provided in a prospectus supplement; or

in bearer form at such paying agencies outside the United States as we may appoint from time to time, in the currency and in the manner designated in a prospectus supplement, subject to any applicable laws and regulations.

The paying agents outside the United States, if any, whom we initially appoint for a series of debt securities will be named in a prospectus supplement. We may at any time designate additional paying agents or rescind the designation of any paying agents, provided that, in the case of:

registered debt securities, we will be required to maintain at least one paying agent in each place of payment for any series; and

bearer debt securities, we will be required to maintain a paying agent in a place of payment outside the United States where debt securities of any series and any related coupons may be presented and surrendered for payment.

We will have the right to require a holder of any debt security, in connection with the payment of the principal of, premium and/or interest, if any, on any debt security, to certify certain information to us for tax purposes. In the absence of such certification, we will be entitled to rely on any legal presumption to enable us to determine our duties and liabilities, if any, to deduct or withhold taxes, assessments or governmental charges from such payment.

Unless we provide otherwise in a prospectus supplement, you may transfer debt securities in registered form at the agency we designate from time to time. You will not be required to pay a service charge to transfer or exchange the debt securities, but you may be required to pay for any tax or other governmental charge imposed in connection with the transfer or exchange.

If we redeem the debt securities of any series, we will not be required to:

issue, register the transfer of, or exchange debt securities of that series during a period beginning at the opening of business 15 days before any selection of debt securities of that series to be redeemed and ending at the close of business on (A) the day of mailing of the relevant notice of redemption, if debt securities of the series are issuable only as registered debt securities, and (B) the day of the first publication of the relevant notice of redemption, if debt securities of the series are issuable as bearer debt securities, or the mailing of the relevant notice of redemption, if debt securities of the series are also issuable as registered debt securities and there is no publication;

register the transfer of or exchange any registered debt securities called for redemption, except the unredeemed portion of any registered security being redeemed in part; or

exchange any bearer security called for redemption, except to exchange such bearer security for a registered security of that series and like tenor which is simultaneously surrendered for redemption.

Subordination of Subordinated Debt Securities

Unless otherwise indicated in the applicable prospectus supplement, the following provisions will apply to the subordinated debt securities.

The payment of the principal of, premium, and/or interest, if any, on, and the redemption or repurchase of, the subordinated debt securities and coupons will be subordinated and junior in right of payment, as set forth in the subordinated indenture, to the prior payment in full of all our senior indebtedness (as defined below). Generally, the subordinated debt securities will rank equally in right of payment with all of our existing and future subordinated indebtedness other than any future subordinated indebtedness or other subordinated obligations which we specify will rank junior to the subordinated debt

Table of Contents

securities. Notwithstanding the preceding, payment from the money or the proceeds of U.S. government obligations held in any defeasance trust described under Defeasance; Satisfaction and Discharge below is not subordinate to any senior indebtedness or subject to the restrictions described herein.

Senior indebtedness consists of the following types of obligations, in each case subject to the exceptions enumerated below:

the principal of, premium, if any, interest, if any, and other amounts in respect of (A) our indebtedness for money borrowed and (B) our indebtedness evidenced by securities, debentures, bonds or other similar instruments issued by us, in each case that is not, by its terms, subordinated to other indebtedness;

all of our capital lease obligations;

all of our obligations issued or assumed as the deferred purchase price of property;

all of our conditional sale obligations;

all of our obligations under any title retention agreement (excluding trade accounts payable arising in the ordinary course of business);

all of our obligations for the reimbursement on any letter of credit, bankers acceptance, security purchase facility or similar credit transaction;

all obligations (of the type referred to in the first six bullet points above) of other persons for which we are responsible or liable as obligor, guarantor or otherwise; and

all obligations (of the type referred to in the first six bullet points above) of other persons secured by any lien on any of our properties or assets (whether or not such obligation is assumed by us).

Except as set forth in the applicable prospectus supplement, senior indebtedness will not include the following: indebtedness that is subordinated to or pari passu with the subordinated debt securities;

indebtedness between or among us and our affiliates that ranks pari passu with, or junior to the subordinated debt securities;

our \$100 million of Floating Rate Secured Subordinated Notes due December 2007;

our guarantee of certain payments under the 6% Convertible Preferred Securities, Term Income Deferrable Equity Securities (TIDES) of Continental Airlines Finance Trust II; and

our 6% Convertible Junior Subordinated Debentures due 2030.

The senior indebtedness will continue to be entitled to the benefits of the subordination provisions irrespective of any amendment, modification or waiver of any term of the senior indebtedness. Except as set forth in the applicable prospectus supplement, the payment of the principal of, premium, if any, and interest, if any, on the subordinated debt securities and coupons will rank senior in right of payment to our guarantee of certain payments under the 6% Convertible Preferred Securities, Term Income Deferrable Equity Securities (TIDES) of Continental Airlines Finance Trust II and our 6% Convertible Junior Subordinated Debentures due 2030.

No payment on account of principal of, premium, if any, or interest on, or redemption or repurchase of, the subordinated debt securities or any coupon or any deposit pursuant to the provisions described under Defeasance; Satisfaction and Discharge below may be made by us if there is a default in the payment of principal, premium, if any, sinking funds or interest (including a default under any repurchase or redemption obligation) or other amounts with

respect to any senior indebtedness. Similarly, no payment may be made if any other event of default with respect to any senior indebtedness, permitting the holders of senior indebtedness to accelerate the maturity thereof, has occurred and has not been cured, waived or ceased to exist after written notice to us and the trustee by any holder of senior indebtedness. acceleration of the principal due on the subordinated debt securities or payment or distribution of our assets to creditors upon any dissolution, winding up, liquidation or reorganization, all principal, premium, if any, sinking funds and interest or other amounts due on all senior indebtedness must be paid in full before the holders of the subordinated debt securities are entitled to receive any payment. Because of such subordination, if we become insolvent, our creditors who are holders of senior indebtedness may recover more, ratably, than the holders of the subordinated debt securities. Furthermore, such subordination may result in a reduction or elimination of payments to the holders of the subordinated debt securities.

The subordinated indenture does not limit our ability to incur senior indebtedness or any other indebtedness.

Global Debt Securities

The debt securities of a series may be issued in whole or in part in global form that will be deposited with a depositary or with a nominee for the depositary identified in a prospectus supplement. In such case, one or more registered global securities will be issued in a denomination or aggregate denominations equal to the portion of the total principal amount of outstanding debt securities of the series to be represented by such registered global security or securities. Unless and until it is exchanged in whole or in part for debt securities in definitive form, a registered global security may not be registered for transfer or exchange except as a whole by the depositary, the depositary's nominee or their respective successors as described in the applicable prospectus supplement.

The specific terms of the depositary arrangement with respect to any portion of a series of debt securities to be represented by a registered global security will be described in a prospectus supplement. We expect that the following provisions will apply to depositary arrangements.

Upon the issuance of any registered global security, and the deposit of such security with or on behalf of the appropriate depositary, the depositary will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities represented by such registered global security to the accounts of institutions or participants that have accounts with the depositary or its nominee. The accounts to be credited will be designated by the underwriters or agents engaging in the distribution of the debt securities or by us, if we offer and sell such debt securities directly.

Ownership of beneficial interests in a registered global security will be limited to participants of the depositary (which are usually large investment banks, retail brokerage firms, banks and other large financial institutions) and persons that hold interests through participants. Ownership of beneficial interests by participants in a registered global security will be shown on, and the transfer of those ownership interests will be effected only through, records maintained by the depositary for that security or its nominee. Ownership of beneficial interests in a registered global security by persons who hold through participants will be shown on, and the transfer of those ownership interests within that participant will be effected only through, records maintained by that participant. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of securities in certificated form. The preceding limitations and such laws may impair the ability to transfer beneficial interests in registered global securities.

So long as the depositary for a registered global security, or its nominee, is the registered owner of a registered global security, that depositary or nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by that registered global security. Unless otherwise specified in a prospectus supplement and except as specified below, owners of beneficial interests in a registered global security will not:

be entitled to have the debt securities of the series represented by the registered global security registered in their names;

receive or be entitled to receive physical delivery of the debt securities of such series in certificated form; or

be considered the holders of the debt securities for any purposes under the indentures.

Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depositary and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indentures.

The depositary may grant proxies and otherwise authorize participants to give or take any request, demand, authorization, direction, notice, consent, waiver or other action which a holder is entitled to give or take under the indentures. Unless otherwise specified in a prospectus supplement, payments with respect to principal, premium and/or interest, if any, on debt securities represented by a registered global security registered in the name of a depositary or its nominee will be made to such depositary or its nominee, as the case may be, as the registered owner of such registered global security.

We expect that the depositary for any debt securities represented by a registered global security, upon receipt of any payment of principal, premium or interest, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the registered global security as shown on the records of such depositary. We also expect that payments by participants to owners of beneficial interests in a registered global security held through participants will be governed by standing instructions and customary practices in the securities industry, as is now the case with the securities held for the accounts of customers registered in street names, and will be the responsibility of such participants. Neither we nor the trustee or any agent of ours will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of a registered global security, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Unless otherwise specified in a prospectus supplement, if the depositary for any debt securities represented by a registered global security is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by us within 90 days, we will issue debt securities in certificated form in exchange for the registered global security. In addition, the indentures provide that we may at any time and in our sole discretion determine not to have any of the debt securities of a series represented by one or more registered global securities and, in such event, will issue debt securities of such series in certificated form in exchange for all of the registered global securities representing such debt securities. Further, if we so specify with respect to the debt securities of a series, an owner of a beneficial interest in a registered global security representing such series of debt securities may receive, on terms acceptable to us and the depositary for such registered global security, debt securities of such series in certificated form registered in the name of such beneficial owner or its designee.

Consolidation, Merger and Conveyance of Assets as an Entirety

Each indenture provides that we will not merge or consolidate with or into any other entity or sell, convey, transfer, lease or otherwise dispose of all or substantially all our assets unless:

in the case of a merger or consolidation, we are the surviving corporation or the entity formed by such consolidation or into which we are merged or consolidated or the entity which acquires or which leases all or substantially all our assets is a corporation organized and existing under the laws of the United States of America or any state thereof or the District of Columbia, and expressly assumes, by supplemental indenture, all our obligations under the debt securities, any related coupons and under the indenture;

immediately after giving effect to such transactions, no Default or Event of Default shall have occurred and be continuing; and

certain other conditions are met.

If a successor corporation assumes our obligations, the successor will succeed to and be substituted for us under the indentures, the debt securities and any related coupons. Consequently, all of our obligations will terminate, except in the case of a lease. If any such permitted consolidation, merger, sale, conveyance, disposition or other change of control transaction occurs, the holders of the debt securities will not have

the right to require redemption of their securities or similar rights unless otherwise provided in a prospectus supplement.

Events of Default

An Event of Default occurs with respect to debt securities of any series if any of the following occurs:

we fail to pay any interest on any debt securities of that series or any related coupon or any other amount applicable to such series as specified in the applicable prospectus supplement within 30 days of the due date;

we fail to pay principal or premium on any debt securities of that series on its due date;

we fail to deposit any sinking fund payment when and as due by the terms of the debt securities of that series;

we default for 60 days after notice to us by the trustee for such series, or by the holders of 25% in aggregate principal amount of the debt securities of such series then outstanding, in the performance of any other agreement applicable to the debt securities of that series; and

certain events in bankruptcy, insolvency or reorganization occur; or

any other Event of Default specified in the prospectus supplement applicable to such series occurs.

An Event of Default with respect to a particular series of debt securities will not necessarily be an Event of Default with respect to any other series of debt securities.

The indentures provide that, if an Event of Default occurs with respect to the debt securities of any series and is continuing, the trustee for the series or the holders of 25% in aggregate principal amount of all of the outstanding debt securities of that series, by written notice to us (and to the trustee for such series, if notice is given by the holders of debt securities), may declare the principal (or, if the debt securities of that series are original issue discount debt securities or indexed debt securities, such portion of the principal amount specified in the prospectus supplement) of all the debt securities of that series to be due and payable.

The indentures provide that the trustee for any series of debt securities will give to the holders of the debt securities of that series notice of all uncured Defaults (as defined below) within 90 days after the occurrence of a Default. However, such notice will not be given until 60 days after the occurrence of a Default with respect to the debt securities of that series involving a failure to perform a covenant other than the obligation to pay principal, premium, and/or interest, if any, or make a mandatory sinking fund payment. Further, except in the case of default in payment on the debt securities of that series, the trustee may withhold the notice if and so long as a committee comprised of certain officers of the trustee determines in good faith that withholding such notice is in the interests of the holders of the debt securities of that series. Default means any event which is, or, after notice or passage of time or both, would be, an Event of Default.

Under the indentures, the trustee is under no obligation to exercise any of its rights or powers at the request of any of the holders, unless such holders have offered to the trustee reasonable indemnity. Subject to such provision for indemnification, the indentures provide that the holders of not less than a majority in aggregate principal amount of the debt securities of each series affected with each series voting as a class, may direct the time, method and place of conducting any proceeding for any remedy available to the trustee for such series, or exercising any trust or power conferred on such trustee. We are required to file annually with the trustee a certificate as to our compliance with all conditions and covenants under indentures.

By notice to the trustee, the holders of not less than a majority in total principal amount of any series of debt securities may waive any past Default or Event of Default with respect to that series and its consequences, except a Default or an Event of Default based on the payment of the principal of, premium,

if any, or interest, if any, on any debt security of a series and certain other defaults. Further, such majority holders may rescind and annul a declaration of acceleration with respect to that series (unless a judgment or decree based on such acceleration has been obtained by the trustee), if all existing Defaults and Events of Default with respect to that series (other than the non-payment of the principal of that series that has become due solely by the declaration of acceleration) have been cured or waived.

Modification of Indenture

Without Holder Consent. Without the consent of any holders of debt securities, we and the trustee may enter into one or more supplemental indentures for any of the following purposes:

to evidence the succession of another entity to our company and the assumption of our covenants by the successor; or

to add one or more covenants for the benefit of the holders of all or any series of debt securities, or to surrender any right or power conferred upon us; or

to add any additional Events of Default for all or any series of debt securities; or

to add or change any provisions to such extent as necessary to facilitate the issuance of debt securities in bearer or in global form; or

to provide security for the debt securities of any series; or

to establish the form or terms of debt securities of any series; or

to evidence and provide for the acceptance of appointment of a separate or successor trustee; or

to add to, change or eliminate any provision affecting debt securities not yet issued; or

to cure any ambiguity, to correct any mistake or inconsistency or to facilitate the defeasance or discharge of any series of debt securities or make any other changes that do not adversely affect the interests of the holders of debt securities of any series in any material respect.

With Holder Consent. Except as provided above, the consent of the holders of a majority in aggregate principal amount of the debt securities of each series affected by such supplemental indenture is generally required for the purpose of adding to, or changing or eliminating any of the provisions of, the indentures or debt securities pursuant to a supplemental indenture. However, no amendment may, without the consent of the holder of each outstanding debt security directly affected thereby,

change the stated maturity of the principal or interest on any debt security, or reduce the principal amount, interest rate or premium payable with respect to any debt security or change the currency in which any debt security is payable, or impair the right to bring suit to enforce any such payment; or
