Edgar Filing: PROLOGIS TRUST - Form 10-Q

1. General:

Business

ProLogis Trust (collectively with its consolidated subsidiaries and partnerships "ProLogis") is a publicly held real estate investment trust ("REIT") that owns and operates a network of industrial distribution facilities in North America and Europe. The ProLogis Operating System(TM), comprised of the Market Services Group, the Global Services Group, the Global Development Group and the Integrated Solutions Group, utilizes ProLogis' international network of distribution facilities to meet its customers' distribution space needs globally. ProLogis has organized its business into three operating segments: property operations, corporate distribution facilities services business ("CDFS business") and temperature-controlled distribution operations. See Note 7.

Principles of Financial Presentation

The consolidated condensed financial statements of ProLogis as of March 31, 2001 and for the three months ended March 31, 2001 and 2000 are unaudited and, pursuant to the rules of the Securities and Exchange Commission, certain information and footnote disclosures normally included in financial statements have been omitted. While management of ProLogis believes that the disclosures presented are adequate, these interim consolidated condensed financial statements should be read in conjunction with ProLogis' December 31, 2000 audited consolidated financial statements contained in ProLogis' 2000 Annual Report on Form 10-K.

In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of ProLogis' consolidated financial position and results of operations for the interim periods. The consolidated results of operations for the three months ended March 31, 2001 and 2000 are not necessarily indicative of the results to be expected for the entire year. Certain of the 2000 amounts have been reclassified to conform to the 2001 financial statement presentation.

The preparation of consolidated condensed financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ProLogis' investment in Kingspark Holding S.A. ("Kingspark S.A."), an industrial distribution facility development company in the United Kingdom was previously accounted for under the equity method. ProLogis owned 100% of the non-voting preferred stock of Kingspark S.A. and recognized substantially all economic benefits of Kingspark S.A. and its subsidiaries through January 1, 2001. On January 5, 2001, ProLogis acquired an ownership interest in the voting common stock of Kingspark S.A. resulting in ProLogis having control of Kingspark S.A. Accordingly, as of January 5, 2001, the accounts of Kingspark S.A. and its subsidiaries are consolidated in ProLogis' condensed financial statements along with ProLogis' other majority-owned and controlled subsidiaries and partnerships.

ProLogis owns 100% of the preferred stock of ProLogis Development Services Incorporated ("ProLogis Development Services") and realizes substantially all economic benefits of this entity's activities. Because ProLogis advances mortgage loans to ProLogis Development Services to fund its acquisition, development and construction activities, ProLogis Development Services is consolidated in ProLogis' condensed financial statements along with ProLogis'

Edgar Filing: PROLOGIS TRUST - Form 10-Q

other majority-owned and controlled subsidiaries and partnerships. ProLogis Development Services is not a qualified REIT subsidiary of ProLogis under the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, provisions for federal and state income taxes are recognized, as appropriate.

Interest Expense

Interest expense was \$39.4 million and \$42.0 million for the three months in 2001 and 2000, respectively, which is net of capitalized interest of \$8.1 million and \$4.2 million, respectively. Amortization of deferred loan costs included in interest expense was \$1.2 million and \$1.0 million for the three months in 2001 and 2000, respectively. Total interest paid in cash on all outstanding debt was \$38.9 million and \$30.4 million during 2001 and 2000, respectively.

Financial Instruments

In the normal course of business, ProLogis uses certain derivative financial instruments for the purpose of foreign currency exchange rate and interest rate risk management. All derivative financial instruments are accounted for at fair value with changes in fair value recognized immediately in accumulated other comprehensive income or income.

ProLogis adopted Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and for Hedging Activities," as amended, on January 1, 2001. SFAS No. 133 provides comprehensive guidelines for the recognition and measurement of derivatives and hedging activities and, specifically, requires all derivatives to be recorded on the balance sheet at fair value as an asset or liability, with an offset to accumulated other comprehensive income or income. ProLogis' only derivative financial instruments in effect at March 31, 2001 are foreign currency put option contracts that have been previously marked to market through income, as they did not qualify for hedge accounting treatment. These contracts also do not qualify for hedge accounting treatment under SFAS No. 133, therefore, ProLogis has continued to mark these contracts to market through income during the three months ended March 31, 2001. ProLogis' unconsolidated entities also adopted SFAS No. 133 on January 1, 2001. The effect to ProLogis of their adoption of SFAS No. 133 was immaterial as these entities utilize derivative financial instruments on a limited basis.

In assessing the fair value of its financial instruments, both derivative and non-derivative, ProLogis uses a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date. Primarily, ProLogis uses quoted market prices or quotes from brokers or dealers for the same or similar instruments. These values represent a general approximation of possible value and may never actually be realized.

Foreign Currency Exchange Gains or Losses

ProLogis' consolidated subsidiaries whose functional currency is not the U.S. dollar translate their financial statements into U.S. dollars. Assets and liabilities are translated at the exchange rate in effect as of the financial statement date. Income statement accounts are translated using the average exchange rate for the period. Income statement accounts that represent

Edgar Filing: PROLOGIS TRUST - Form 10-Q

significant, nonrecurring transactions are translated at the rate in effect as of the date of the transaction. Gains and losses resulting from the translation are included in accumulated other comprehensive income as a separate component of shareholders' equity. ProLogis and its foreign subsidiaries have certain transactions denominated in currencies other than their functional currency. In these instances, nonmonetary assets and liabilities are reflected at the historical exchange rate, monetary assets and liabilities are remeasured at the exchange rate in effect at the end of the period, and income statement accounts are remeasured at the average exchange rate for the period. Gains and losses from remeasurement are included in ProLogis' results of operations. In addition, gains or losses are recorded in the income statement when a transaction with a third party, denominated in a currency other than the functional currency, is settled and the functional currency cash flows realized are more or less than expected based upon the exchange rate in effect when the transaction was initiated.

The net foreign currency exchange gains and losses recognized in ProLogis' results of operations were as follows for the periods indicated (in thousands of U.S. dollars):

	Three months ended March 31,	
	2001	2000
Losses from the remeasurement of third party debt and remeasurement and settlement of intercompany debt, net.....	\$ (4,016)	\$ (7,024)

Other gains (losses), net.....	70	(33)
	\$ (3,189)	\$ (6,520)
	=====	=====

 (1) Upon settlement, the mark to market adjustments are reversed and the total realized gain or loss is recognized.

 - (5) Includes \$12.2 million and \$0.3 million of net gains recognized by ProLogis related to the disposition of facilities to ProLogis European Properties Fund in 2001 and 2000, respectively. In addition, includes \$0.5 million of net gains recognized under the equity method related to the disposition of facilities to ProLogis European Properties Fund by Kingspark S.A. in 2000.

 - (9) In 2000, includes ProLogis' investment in Kingspark S. A. and its subsidiaries under the equity method.

8. Supplemental Cash Flow Information

Non-cash investing and financing activities for the three months ended March 31, 2001, and 2000 are as follows:

- o In 2001, ProLogis contributed its 49.9% of the common stock of ProLogis European Properties S.a.r.l. to ProLogis European Properties Fund for an additional equity interest in ProLogis European Properties Fund of \$83.0 million. In 2000, in connection with ProLogis' initial contribution of 50.1% of the common stock of ProLogis European Properties S.a.r.l. to ProLogis European Properties Fund, ProLogis received an equity interest in ProLogis European Properties Fund of approximately \$78.0 million. ProLogis European Properties S.a.r.l. had total assets of \$403.9 million and total liabilities of \$248.1 million. ProLogis recognized its investment in the remaining 49.9% of the common stock under the equity method from January 7, 2000 through January 6, 2001. See Note 3.
- o ProLogis received \$13.6 million, \$34.1 million and \$13.4 million of the proceeds from its disposition of facilities to ProLogis European Properties Fund, ProLogis North American Properties Fund I and ProLogis North American Properties Fund II, respectively, in the form of an equity interest in these entities during 2001. ProLogis received \$0.7 million of the proceeds from its disposition of facilities to ProLogis European Properties Fund in the form of an equity interest during 2000.
- o ProLogis received \$10.8 million of the proceeds from its disposition of a facility to a third party in the form of a note receivable in 2001.

- o Series B preferred shares aggregating \$151.8 million and \$1.0 million were converted into Common Shares in 2001 and 2000, respectively.
- o Net foreign currency translation adjustments of \$(42,684,000) and \$(22,574,000) were recognized in 2001 and 2000, respectively.

9. Commitments and Contingencies:

Environmental Matters

All of the facilities acquired by ProLogis have been subjected to environmental reviews by ProLogis or predecessor owners. While some of these assessments have led to further investigation and sampling, none of the environmental assessments has revealed, nor is ProLogis aware of any environmental liability (including asbestos related liability) that ProLogis believes would have a material adverse effect on ProLogis' business, financial condition or results of operations.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Trustees and
Shareholders of ProLogis Trust:

We have reviewed the accompanying consolidated condensed balance sheets of ProLogis Trust and subsidiaries as of March 31, 2001, and the related consolidated condensed statements of earnings and comprehensive income and the consolidated condensed statements of cash flows for the three months ended March 31, 2001 and 2000. These financial statements are the responsibility of the Trust's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with auditing standards generally accepted in the United States, the consolidated balance sheet of ProLogis Trust and subsidiaries as of December 31, 2000, and in our report dated March 15, 2001, we expressed an unqualified opinion on that statement. In our opinion, the information set forth in the accompanying consolidated condensed balance sheet as of December 31, 2000, is fairly stated in all material respects, in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with ProLogis' Consolidated Condensed Financial Statements and the notes thereto included in Item 1 of this report. See also ProLogis' 2000 Annual Report on Form 10-K.

The statements contained in this discussion that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on current expectations, estimates and projections about the industry and markets in which ProLogis operates, management's beliefs, and assumptions made by management. Words such as "expects", "anticipates", "intends", "plans", "believes", "seeks", "estimates", variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. Factors which may affect outcomes and results include: (i) changes in general economic conditions in ProLogis' markets that could adversely affect demand for ProLogis' facilities and the creditworthiness of ProLogis' customers, (ii) changes in financial markets, interest rates and foreign currency exchange rates that could adversely affect ProLogis' cost of capital and its ability to meet its financial needs and obligations, (iii) increased or unanticipated competition for distribution facilities in ProLogis' target market cities; and (iv) those factors discussed in ProLogis' 2000 Annual Report on Form 10-K.

Results of Operations

Three Months Ended March 31, 2001 and 2000

ProLogis' net earnings attributable to Common Shares were \$44.0 million for the three months ended March 31, 2001 as compared to \$44.9 million for the same period in 2000. For the three months ended March 31, 2001, basic and diluted per share net earnings attributable to Common Shares were \$0.26 and \$0.25 per share, respectively. Basic and diluted per share net earnings attributable to Common Shares were \$0.28 per share for the same period in 2000.

Edgar Filing: PROLOGIS TRUST - Form 10-Q

The CDFS business segment provides capital for ProLogis to redeploy into its development activities in addition to generating profits that contribute to ProLogis' total income. ProLogis' income from this segment increased by \$19.1 million in 2001 over 2000, primarily the result of the number of dispositions of facilities developed by ProLogis to entities in which ProLogis maintains an ownership interest, such as ProLogis North American Properties Fund II and ProLogis European Properties Fund, as well as to third parties. The 2001 increases in the CDFS business segment income were offset by an \$11.1 million decrease from 2000 in the property operations segment's income. This operating segment's net income includes rental income and net rental expenses from facilities directly owned by ProLogis and also its share of the income of its unconsolidated entities that engage in property operations segment activities. Income from ProLogis' temperature-controlled distribution operations decreased in 2001 from 2000 by \$10.7 million, primarily due to losses incurred in the European operations. See "-- Property Operations", "-- CDFS Business" and "-- Temperature-Controlled Distribution Operations".

ProLogis' investment in Kingspark Holding S. A. ("Kingspark S. A."), an industrial distribution facility development company in the United Kingdom was accounted for under the equity method in 2000. ProLogis included its share of the income from Kingspark S. A. and its subsidiaries in the CDFS business segment. ProLogis owned 100% of the non-voting preferred stock of Kingspark S. A. and recognized substantially all economic benefits of Kingspark S. A. and its subsidiaries through January 1, 2001. On January 5, 2001, ProLogis acquired an ownership interest in the voting common stock of Kingspark S. A. resulting in ProLogis having control of Kingspark S. A. Accordingly, as of January 5, 2001, the accounts of Kingspark S. A. and its subsidiaries are consolidated in ProLogis' condensed financial statements along with ProLogis' other majority-owned and controlled subsidiaries and partnerships.

- (1) Includes operating facilities owned by ProLogis and its consolidated entities. The decrease in 2001 from 2000 is primarily the result of the formation of ProLogis North American Properties Fund I in June 2000 and ProLogis North American Properties Fund II in 2001, whose entire portfolios consist of operating facilities that were previously directly owned by ProLogis. In 2001, includes 11 operating facilities aggregating 710,246 square feet owned by Kingspark S. A. and its subsidiaries that were previously accounted for under the equity method. In 2000, ProLogis' share of the income from the operating facilities of Kingspark S. A. and its subsidiaries was included in the CDFS business segment.
 - (2) ProLogis has had a 50.0% ownership interest in ProLogis California since its inception. See Note 3 to ProLogis' Consolidated Condensed Financial Statements in Item 1.
 - (3) ProLogis has a 41.3% ownership interest as of March 31, 2001 in ProLogis North American Fund I which was formed on June 30, 2000. All operating facilities owned by this entity were previously directly owned by ProLogis. See Note 3 to ProLogis' Consolidated Condensed Financial Statements in Item 1.
 - (4) ProLogis has a 20.0% ownership interest as of March 31, 2001 in ProLogis North American Fund II which was originally formed on June 30, 2000. All operating facilities owned by this entity were previously directly owned by ProLogis. See Note 3 to ProLogis' Consolidated Condensed Financial Statements in Item 1.
 - (5) As of March 31, 2001, ProLogis' ownership interest in ProLogis European Properties Fund is 41.8%. As of March 31, 2000, ProLogis had a 44.6% ownership interest in the ProLogis European Properties Fund. See Note 3 to ProLogis' Consolidated Condensed Financial Statements in Item 1.

ProLogis' property operations segment income consists of the: (i) net operating income from the operating facilities that are owned by ProLogis directly or through its consolidated entities and (ii) the income recognized by ProLogis under the equity method from its investments in unconsolidated entities engaged in property operations. See Note 7 to ProLogis' Consolidated Condensed Financial Statements in Item 1. The amounts recognized under the equity method are based on the net earnings of each unconsolidated entity and include: interest income and interest expense, depreciation and amortization expenses, general and administrative expenses, income taxes and foreign currency exchange gains and losses (with respect to ProLogis European Properties Fund and ProLogis European Properties S.a.r.l.). ProLogis' net operating income from the property operations segment was as follows (in thousands) (see Note 7 to ProLogis' Consolidated Condensed Financial Statements in Item 1):

- (1) The fluctuations in rental expenses between years is primarily the result of the changes in the composition of the directly owned facilities in each year in addition to increased rental expense recoveries (as a percentage of total rental expenses) in each year. Rental expenses, before recoveries from tenants were 26.4% of rental income for 2001 and 24.6% of rental income for 2000. Total rental expense recoveries were 78.6% and 78.0% of total rental expenses in 2001 and 2000, respectively. The increase in rental expense recoveries as a percentage of total rental expenses reflects ProLogis' emphasis on on-site property management teams and the effectiveness of the ProLogis Operating System(TM). Net operating income in 2001 includes \$0.5 million of net operating income from facilities owned by Kingspark S. A. and its subsidiaries. In 2000, the net operating income from the facilities owned by Kingspark S. A. and its subsidiaries was reported under the equity method and included in the CDFS business segment.

 - (2) ProLogis North American Properties Fund I and ProLogis North American Properties Fund II began operations on June 30, 2000.

 - (3) In 2001, ProLogis' share of the income of ProLogis European Properties Fund and ProLogis European Properties S.a.r.l. includes net foreign currency losses of \$0.8 million and \$0.2 million, respectively. In 2000, ProLogis' share of the income of ProLogis European Properties Fund and ProLogis European Properties S.a.r.l. includes net foreign currency gains of \$5.1 million and \$3.3 million, respectively. Excluding net foreign currency exchange gains and losses, ProLogis' share of the income of ProLogis European Properties Fund would have been \$1.3 million and \$2.2 million for 2001 and 2000, respectively. Excluding net foreign currency exchange gains and losses, ProLogis' share of the income of ProLogis European Properties S.a.r.l. would have been \$229,000 and \$1.6 million for 2001 and 2000, respectively. ProLogis European Properties Fund's income decreased in 2001 from 2000 primarily due to higher interest expense in 2001 due to higher debt levels. ProLogis recognized income under the equity method related to ProLogis European Properties S.a.r.l. in 2001 for only six days.

The facilities that ProLogis develops are not always pre-leased at the start of construction. In addition, ProLogis may acquire facilities that are underleased at the time of acquisition. While these situations will reduce

Edgar Filing: PROLOGIS TRUST - Form 10-Q

ProLogis' overall occupancy rate below its stabilized level in the short-term, they do provide opportunities to increase revenues. The term "stabilized" means that capital improvements, repositioning, new management and new marketing programs (or development and marketing, in the case of newly developed facilities) have been in effect for a sufficient period of time (generally 12 months) to achieve stabilized occupancy (typically 93%, but ranging from 90% to 95%, depending on the submarket and product type). ProLogis has been successful in increasing occupancies on acquired and developed facilities during their initial months of operation, resulting in an occupancy rate of 94.6% and a leased rate of 95.6% for stabilized facilities owned by ProLogis and its consolidated and unconsolidated entities as of March 31, 2001. The average increase in rental rates for both new and renewed leases on previously leased space (8.5 million square feet) for all facilities including those owned by ProLogis' consolidated and unconsolidated entities during 2001 was 20.2%. During 2001, the net operating income (rental income less net rental expenses) generated by ProLogis' "same store" portfolio of operating facilities (facilities owned by ProLogis and its consolidated and unconsolidated entities that were in operation throughout both 2001 and 2000) increased by 3.90% over 2000.

There has been minimal impact of the California energy situation and the attendant increase in utility costs on ProLogis' income from the property operations segment. ProLogis' customers are responsible for their direct utility bills and ProLogis' facilities have minimal common utility charges, which are generally included in amounts recovered from customers under the terms of the lease agreements. Given the typical use of ProLogis' distribution facilities (bulk distribution and light manufacturing and assembly uses), ProLogis believes that its customers' total utility expenses are a small portion of the total expenses related to the operations within ProLogis' facilities.

CDFS Business

Income from ProLogis' CDFS business segment consists primarily of: (i) the profits from the disposition of land parcels and facilities that were developed by ProLogis and disposed of to customers or to entities in which ProLogis has an ownership interest; (ii) development fees earned by ProLogis; and (iii) income recognized under the equity method from ProLogis' investment in the Kingspark S. A. and its subsidiaries in 2000 (Kingspark S. A. and its subsidiaries are consolidated in 2001). Kingspark S. A. and its subsidiaries engage in CDFS business activities in the United Kingdom similar to those activities performed directly by ProLogis. In 2000, ProLogis recognized 95% of the net earnings of Kingspark S. A. and its subsidiaries under the equity method that includes: interest income and interest expense (net of capitalized amounts), general and administrative expense (net of capitalized amounts), income taxes and foreign currency exchange gains and losses.

22

23

The CDFS business segment operations increased in volume for the three months in 2001 over the same period in 2000; consequently, ProLogis' income from this segment has increased in each year. The CDFS business segment income is comprised of the following (in thousands):

- o 2001: 76 acres; 5.6 million square feet; \$365.0 million of proceeds
- o 2000: 39 acres; 2.1 million square feet; \$92.9 million of proceeds

(2) Kingspark S. A. and its subsidiaries' income in 2000 includes:

- o Gains from the disposition of land parcels and facilities developed (9 acres; 0.2 million square feet; \$24.3 million of proceeds; net gains of \$2.6 million);
- o Development fees and other miscellaneous net income of \$2.6 million;
- o Deferred and current income tax expense of \$0.8 million; and
- o Foreign currency exchange gains of \$0.4 million

Temperature-Controlled Distribution Operations

ProLogis recognizes income from the temperature-controlled distribution operations segment of its business under the equity method. ProLogis' share of the net income or loss of ProLogis Logistics and Frigoscandia S.A. was as follows (in thousands) (see Notes 3 and 7 to ProLogis' Consolidated Condensed Financial Statements in Item 1):

	Three Months Ended March 31,	
	2001	2000
	-----	-----
Income (loss) from ProLogis Logistics.....	\$ (1,744)	\$ 2,871

	-----	-----
Total temperature-controlled distribution operations segment.....	\$ (9,472)	\$ 1,197
	=====	=====

Amounts recognized under the equity method of accounting from ProLogis Logistics and Frigoscandia S.A. includes interest income and interest expense, depreciation and amortization expense, general and administrative expense, income taxes and foreign currency exchange gains and losses (with respect to Frigoscandia). ProLogis recognizes in excess of 99% the net earnings of each entity in 2001, as compared to 95% in 2000.

Edgar Filing: PROLOGIS TRUST - Form 10-Q

CSI's operating capacity was comparable in both three-month periods. The decrease in ProLogis' share of ProLogis Logistics' net earnings from 2000 to 2001 of \$4.6 million is primarily attributable to higher interest expense as a result of increasing external debt by \$125.0 million. The proceeds from the borrowings of ProLogis Logistics were used to repay \$125.0 million of outstanding notes and accrued interest due to ProLogis. See "-- Liquidity and Capital Resources -- Credit Facilities".

Frigoscandia's operating capacity was comparable in both three-month periods. ProLogis' share of Frigoscandia S.A.'s net losses includes net foreign currency exchange losses of \$1.4 million and \$2.2 million in 2001 and 2000, respectively. Excluding these foreign currency exchange losses, ProLogis recognized \$6.8 million less income under the equity method in 2001 than it recognized in 2000 from its investment in Frigoscandia S.A. The increase in Frigoscandia S.A.'s net loss in 2001 from the loss recognized in 2000 is primarily due to lower occupancy levels, principally the result of the reduction in inventories of beef and pork products by the German and French governments.

23

24

ProLogis believes that the factors that contributed to the decline in operating performance of Frigoscandia are temporary and can be partially mitigated in the short-term by reductions in general and administrative costs and other operating costs. However, there is no assurance that these factors are temporary or that some or all of these factors will not continue past 2001. ProLogis and Frigoscandia are currently monitoring the recent outbreak of foot and mouth disease in Europe. At this time, the effect (positive or negative), if any, on the demand for temperature-controlled distribution services and the related transportation services offered by Frigoscandia cannot be determined.

Other Income and Expense Items

Interest Expense

Interest expense is a function of the level of borrowings outstanding offset by interest capitalization with respect to development activities. Interest expense was \$39.4 million in 2001 and \$42.0 million in 2000 (\$39.6 million assuming ProLogis had consolidated the financial statements of Kingspark S. A. and its subsidiaries in 2000). Total interest expense in 2000, assuming consolidation, is lower due to the effects of interest capitalization by Kingspark S. A. and its subsidiaries.

Capitalized interest was \$8.1 million in 2001 and \$4.2 million in 2000 (\$6.5 million assuming ProLogis had consolidated the financial statements of Kingspark S. A. and its subsidiaries in 2000). Capitalized interest levels are reflective of ProLogis' cost of funds and the level of development activity in each year.

Gain (Loss) on Disposition of Real Estate

Gain on disposition of real estate represents the net gains from the disposition of operating facilities that were acquired or developed within the property operations segment. Generally, ProLogis disposes of facilities in the property operations segment because such facilities are considered to be non-strategic facilities or to complement the portfolio of developed facilities that are acquired by entities in which ProLogis maintains an ownership interest. Non-strategic facilities are assets located in markets or submarkets that are no longer considered target markets as well as assets that were acquired as part of previous portfolio acquisitions that are not consistent with ProLogis' core

Edgar Filing: PROLOGIS TRUST - Form 10-Q

portfolio based on the asset's size or configuration.

Property operations segment dispositions were as follows:

- o 2001: 1.6 million square feet; \$62.9 million of proceeds; net loss of \$1.7 million (offset by a gain of \$0.5 million recognized upon the contribution of ProLogis' 49.9% investment in the common stock of ProLogis European Properties S.a.r.l. to ProLogis European Properties Fund), and
- o 2000: 0.7 million square feet; \$26.4 million of proceeds; net gains of \$5.1 million.

Foreign Currency Exchange Losses

ProLogis recognized net foreign currency exchange losses of \$3.2 million and \$6.5 million for 2001 and 2000, respectively. Had ProLogis consolidated the financial statements of Kingspark S. A. and its subsidiaries in 2000, foreign currency exchange losses for 2000 would have been \$6.1 million. Foreign currency exchange gains and losses are primarily the result of the remeasurement and settlement of intercompany debt and the remeasurement of third party debt of ProLogis' foreign subsidiaries. Fluctuations in the foreign currency exchange gains and losses recognized in each period are a product of movements in certain foreign currency exchange rates, primarily the euro and the pound sterling and the level of intercompany and third party debt outstanding that is denominated in currencies other than the U.S. dollar.

Income Taxes

ProLogis is taxed as a REIT for federal income tax purposes and is not required to pay federal income taxes if minimum distribution and income, asset and shareholder tests are met. ProLogis Development Services is not a qualified REIT subsidiary for tax purposes. Also, the foreign countries in which ProLogis operates do not recognize REITs under their respective tax laws. Accordingly, ProLogis recognizes income taxes as appropriate and in accordance with GAAP with respect to the taxable earnings of ProLogis Development Services and its foreign subsidiaries.

24

25

Current income tax expense recognized in 2001 and 2000 was \$3.4 million and \$117,000, respectively (a benefit of \$0.4 million assuming ProLogis had consolidated the financial statements of Kingspark S. A. and its subsidiaries in 2000). Current income tax expense is higher in 2001 primarily due to the increased level of income recognized by ProLogis' taxable subsidiaries in the CDFS business segment. Deferred income tax expense was \$3.4 million and zero in 2001 and 2000, respectively (\$1.4 million assuming ProLogis had consolidated the financial statements of Kingspark S. A. and its subsidiaries in 2000). ProLogis' deferred tax component of total income taxes is a function of each year's temporary differences (items that are treated differently for tax purposes than for book purposes) as well as the need for a deferred tax valuation allowance to adjust certain deferred tax assets (primarily deferred tax assets created by tax net operating losses) to their estimated realizable value.

Environmental Matters

ProLogis has not experienced any environmental condition on its facilities, which materially adversely affected its results of operations or financial position nor is ProLogis aware of any environmental liability that ProLogis

Edgar Filing: PROLOGIS TRUST - Form 10-Q

believes would have a material adverse effect on its business, financial condition or results of operations.

Liquidity and Capital Resources

Overview

ProLogis considers its liquidity and ability to generate cash from operations as well as its financing capabilities (including proceeds from the disposition of facilities) to be adequate and expects it to continue to be adequate to meet its anticipated development, acquisition, operating and debt service needs as well as its shareholder distribution requirements.

ProLogis' future investing activities are expected to consist of: (i) acquisitions of existing facilities in key distribution markets in the property operations segment; (ii) the acquisition of land for future development and the development of distribution facilities in the CDFS business segment for future disposition to entities in which ProLogis maintains an ownership interest or to third parties; and (iii) certain temperature-controlled distribution facility expansions and, to a limited extent, investments in additional temperature-controlled distribution facilities. Temperature-controlled investments will be made as deemed necessary to achieve strategic objectives with respect to targeted markets in the United States or to address specific customer needs in the United States and Europe. ProLogis' future investing activities are expected to be primarily funded with:

- o cash generated by operations;
- o the proceeds from the disposition of facilities developed to third parties;
- o the proceeds from the disposition of facilities to entities in which ProLogis maintains an ownership interest, such as ProLogis European Properties Fund or other entities that may be formed in the future; and
- o utilization of ProLogis' revolving credit facilities.

In the short-term, borrowings on and subsequent repayments of ProLogis' unsecured revolving credit facilities will provide ProLogis with adequate liquidity and financial flexibility to efficiently respond to market opportunities. As of May 10, 2001, on a combined basis, ProLogis had approximately \$389.8 million of short-term borrowing capacity available under its U.S. dollar denominated and multi-currency unsecured revolving credit facilities (see "-- Credit Facilities"). ProLogis will continue to evaluate the public debt markets with the objective of reducing its short-term borrowings and extending debt maturities on favorable terms.

Within ProLogis European Properties Fund, ProLogis has access to 396.9 million euros (the currency equivalent of approximately \$349.9 million as of March 31, 2001) of third party equity capital in Europe that has been committed primarily by institutional investors through 2002 to fund acquisitions of ProLogis' completed stabilized European developments and acquisitions of other facilities from third parties. ProLogis European Properties Fund has a multi-currency secured, revolving credit facility in the currency equivalent of 500.0 million euros that is utilized in conjunction with the committed equity to provide additional capital for its acquisitions. As of March 31, 2001, 95.4 million euros and 73.6 million pounds sterling (the currency equivalent of approximately \$189.2 million) was outstanding on the 500.0 million euro credit facility. As of March 31, 2001, ProLogis no longer guarantees this credit agreement. In April 2001, ProLogis European Properties Fund placed over 212.0 million euros (the currency equivalent of approximately \$186.9 million as of March 31, 2001) of permanent commercial mortgage-backed securities. The proceeds

Cash Operating Activities

Net cash provided by operating activities was \$135.1 million in 2001 and \$93.3 million in 2000. The increase is primarily the result of the increased number of operating facilities in 2001. See "-- Results of Operations -- Property Operations". Cash provided by operating activities exceeded the cash distributions paid on Common Shares in 2001 and 2000.

Cash Investing and Cash Financing Activities

In 2001, ProLogis' investing activities provided net cash of \$228.9 million and financing activities used net cash of \$382.5 million. In 2000, ProLogis used net cash of \$70.9 million in financing activities, which was primarily funded by borrowings on its line of credit.

Credit Facilities

ProLogis has an unsecured credit agreement that provides for a \$475.0 million unsecured revolving line of credit. ProLogis Logistics and ProLogis Development Services may also borrow under the credit agreement, with such borrowings guaranteed by ProLogis. Distribution and Dividend Requirements

ProLogis' current distribution policy is to pay quarterly distributions to shareholders based upon what it considers to be a reasonable percentage of cash flow and at the level that will allow ProLogis to continue to qualify as a REIT for tax purposes. Because depreciation is a non-cash expense, cash flow typically will be greater than earnings from operations and net earnings. Therefore, annual distributions are expected to be consistently higher than annual earnings.

On February 23, 2001, ProLogis paid a quarterly distribution of \$0.345 per Common Share to shareholders of record on February 9, 2001. The distribution level for 2001 was set by ProLogis' Board of Trustees in December 2000 at \$1.38 per Common Share.

The annual dividend rates on ProLogis' preferred shares are \$2.35 per cumulative redeemable Series A preferred share, \$4.27 per cumulative redeemable Series C preferred share, \$1.98 per cumulative redeemable Series D preferred share and \$2.1875 per cumulative redeemable Series E preferred share.

On January 31, 2001, ProLogis paid quarterly dividends of \$0.5469 per

cumulative redeemable Series E preferred share. On March 30, 2001, ProLogis paid quarterly dividends of \$0.5875 per cumulative redeemable Series A preferred share, \$1.0675 per cumulative redeemable Series C preferred share and \$0.495 per cumulative redeemable Series D preferred share.

Pursuant to the terms of its preferred shares, ProLogis is restricted from declaring or paying any distribution with respect to the Common Shares unless and until all cumulative dividends with respect to the Preferred Shares have been paid and sufficient funds have been set aside for dividends for the then current dividend period with respect to the preferred shares.

Funds from Operations

Funds from operations attributable to Common Shares increased \$12.9 million to \$100.7 million for 2001 from \$87.8 million for 2000.

Funds from operations does not represent net income or cash from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs, which is presented in the Consolidated Condensed Statement of Cash Flows in ProLogis' Consolidated Condensed Financial Statements in Item 1. Funds from operations should not be considered as an alternative to net income as an indicator of ProLogis' operating performance or as an alternative to cash flows from operating, investing or financing activities as a measure of liquidity. Additionally, the funds from operations measure presented by ProLogis will not necessarily be comparable to similarly titled measures of other REITs. ProLogis considers funds from operations to be a useful supplemental measure of comparative period operating performance and as a supplemental measure to provide management, financial analysts, potential investors and shareholders with an indication of ProLogis' ability to fund its capital expenditures and investment activities and to fund other cash needs.

Funds from operations is defined by the National Association of Real Estate Investment Trusts ("NAREIT") generally as net income (computed in accordance with GAAP), excluding real estate related depreciation and amortization, gains and losses from sales of properties, except those gains and losses from sales of properties upon completion or stabilization under pre-sale agreements and after adjustments for unconsolidated entities to reflect their funds from operations on the same basis. ProLogis includes gains and losses from the disposition of its CDFS business segment assets in funds from operations.

Funds from operations, as used by ProLogis, is modified from the NAREIT definition. ProLogis' funds from operations measure does not include: (i) deferred income tax benefits and deferred income tax expenses of ProLogis' taxable subsidiaries; (ii) foreign currency exchange gains and losses resulting from debt transactions between ProLogis and its consolidated and unconsolidated entities; (iii) foreign currency exchange gains and losses from the remeasurement (based on current foreign currency exchange rates) of third party debt of ProLogis' foreign consolidated and unconsolidated entities; and (iv) mark to market adjustments related to derivative financial instruments utilized to manage ProLogis' foreign currency risks. These adjustments to the NAREIT definition are made to reflect ProLogis' funds from operations on a comparable basis with the other REITs that do not engage in the types of transactions that give rise to these items.

Funds from operations is as follows (in thousands):
