**Table of Contents**

ENCORE WIRE CORPORATION  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 September 30, 2008

**NOTE 1 BASIS OF PRESENTATION**

The unaudited consolidated financial statements of Encore Wire Corporation (the Company) have been prepared in accordance with U.S. generally accepted accounting principles for interim information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments considered necessary for a fair presentation, have been included. Results of operations for interim periods presented do not necessarily indicate the results that may be expected for the entire year. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

**NOTE 2 INVENTORIES**

Inventories are stated at the lower of cost, determined by the last-in, first-out (LIFO) method, or market. Inventories consisted of the following (\$ in thousands):

	September 30, 2008	December 31, 2007
Raw materials	\$ 27,906	\$ 28,190
Work-in-process	14,204	14,919
Finished goods	105,289	113,756
	147,399	156,865
Adjust to LIFO cost	(82,202)	(74,852)
	65,197	82,013
Lower of Cost or Market Adjustment		
	\$ 65,197	\$ 82,013

LIFO pools are established and frozen at the end of each fiscal year. During the first three quarters of every year, LIFO calculations are based on the inventory levels and

**Table of Contents**

costs at that time. Accordingly, interim LIFO balances will fluctuate up and down in tandem with inventory levels and costs.

During 2008, the Company liquidated a portion of the LIFO inventory layer established in prior years. As a result, under the LIFO method, this inventory layer was liquidated at historical costs, that were less than current costs, which favorably impacted net income by \$935,000 through the first nine months of 2008, while negatively impacting the third quarter net income by \$422,000.

**NOTE 3 ACCRUED LIABILITIES**

Accrued liabilities consist of the following:

In Thousands of Dollars	September 30, 2008	December 31, 2007
Sales volume discounts payable	\$ 17,304	\$ 15,590
Property taxes payable	1,467	1,940
Commissions payable	2,214	2,317
Accrued salaries	2,025	2,377
Other accrued liabilities	319	938
	\$ 23,329	\$ 23,162

**NOTE 4 NET EARNINGS PER SHARE**

Net earnings per common and common equivalent share are computed using the weighted average number of shares of common stock and common stock equivalents outstanding during each period. If dilutive, the effect of stock options, treated as common stock equivalents, is calculated using the treasury stock method.

The following table sets forth the computation of basic and diluted net earnings per share (in thousands):

	Quarter Ended 9/30/08	Quarter Ended 9/30/07
Numerator:		
Net income	\$ 8,077	\$ 5,755
Denominator:		
Denominator for basic earnings per share weighted average shares	23,125	23,362
Effect of dilutive securities:		
Employee stock options	290	346
Denominator for diluted earnings per share weighted average shares	23,415	23,708
Weighted average employee stock options excluded from the determination of diluted		

**Table of Contents**

earnings per share for the third quarters were 208,750 in 2008 and 50,000 in 2007. Such options were anti-dilutive for the respective periods.

The following table sets forth the computation of basic and diluted net earnings per share (in thousands):

	Nine Months Ended 9/30/08	Nine Months Ended 9/30/07
Numerator:		
Net income	\$ 23,027	\$ 31,904
Denominator:		
Denominator for basic earnings per share    weighted average shares	23,142	23,344
Effect of dilutive securities:		
Employee stock options	290	362
Denominator for diluted earnings per share    weighted average shares	23,432	23,706

Weighted average employee stock options excluded from the determination of diluted earnings per share for the nine months ended were 180,843 in 2008 and 50,000 in 2007. Such options were anti-dilutive for the respective periods.

**NOTE 5    LONG TERM NOTES PAYABLE**

The Company is party to a Financing Agreement with two banks, Bank of America, N.A., as Agent, and Wells Fargo Bank, National Association (as amended, the Financing Agreement ). The Financing Agreement has been amended four times. In 2006, the Financing Agreement was amended twice. The Financing Agreement was first amended May 16, 2006, to expand the Company s line of credit from \$85,000,000 to \$150,000,000, as disclosed in previous filings with the SEC. The Financing Agreement was amended a second time on August 31, 2006, to expand the Company s line of credit from \$150,000,000 to \$200,000,000, as disclosed in previous filings with the SEC. In 2007, the Financing Agreement was amended to reflect the Company as the primary obligor of the indebtedness as a result of the reorganization transaction described below that became effective June 30, 2007. The Financing Agreement was amended a fourth time on August 6, 2008, to decrease the Company s line of credit from \$200,000,000 to \$150,000,000. The Financing Agreement, as amended, extends through August 6, 2013, and provides for maximum borrowings of the lesser of \$150,000,000 or the amount of eligible accounts receivable plus the amount of eligible finished goods and raw materials, less any reserves established by the banks. The calculated maximum borrowing amount available at September 30, 2008, as computed under the Financing Agreement, as amended, was \$150,000,000. Borrowings under the line of credit bear interest, at the Company s option, at either (1) LIBOR plus a margin that varies from 1.0% to 1.75% depending upon the ratio of debt outstanding to adjusted earnings or (2) the base rate (which is the higher of the federal funds rate plus 0.5% or the prime rate)

**Table of Contents**

plus 0% to 0.25% (depending upon the ratio of debt outstanding to adjusted earnings). A commitment fee ranging from 0.20% to 0.375% (depending upon the ratio of debt outstanding to adjusted earnings) is payable on the unused line of credit. On September 30, 2008, the balance borrowed and outstanding under the Financing Agreement was zero.

The Company, through its agent bank, is also a party to a Note Purchase Agreement (the 2004 Note Purchase Agreement) with Hartford Life Insurance Company, Great-West Life & Annuity Insurance Company, London Life Insurance Company and London Life and Casualty Reinsurance Corporation (collectively, the 2004 Purchasers), whereby the Company issued and sold \$45,000,000 of 5.27% Senior Notes, Series 2004-A, due August 27, 2011 (the Fixed Rate Senior Notes) to the 2004 Purchasers, the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its previous financing agreement. Through its agent bank, the Company was also a party to an interest rate swap agreement to convert the fixed rate on the Fixed Rate Senior Notes to a variable rate based on LIBOR plus a fixed adder for the seven-year duration of these notes. Commensurate with declining interest rates, the Company elected to terminate, prior to its maturity, this swap agreement on November 29, 2007. As a result of this swap termination, the Company received cash proceeds and realized a net settlement gain of \$929,231 that was recorded as an adjustment to the carrying amount of the related debt in the consolidated balance sheet. This settlement gain is being amortized into earnings over the remaining term of the associated long term notes payable. During the quarter and nine months ended September 30, 2008, \$59,000 and \$175,000, respectively, were recognized as reductions in interest expense in the accompanying consolidated statements of income.

On September 28, 2006, the Company, through its agent bank, entered into a second Note Purchase Agreement (the 2006 Note Purchase Agreement) with Metropolitan Life Insurance Company, Metlife Insurance Company of Connecticut and Great-West Life & Annuity Insurance Company, whereby the Company issued and sold \$55,000,000 of Floating Rate Senior Notes, Series 2006-A, due September 30, 2011 (the Floating Rate Senior Notes), the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its Financing Agreement. Obligations under the Financing Agreement, the Fixed Rate Senior Notes and the Floating Rate Senior Notes are unsecured and contain customary covenants and events of default. The Company was in compliance with these covenants, as amended, as of September 30, 2008. Under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement, the Company is allowed to pay cash dividends. At September 30, 2008, the total balance outstanding under the Financing Agreement, the Fixed Rate Senior Notes and the Floating Rate Senior Notes was \$100,000,000. Amounts outstanding under the Financing Agreement are payable on August 27, 2009, with interest payments due quarterly. Interest payments on the Fixed Rate Senior Notes are due semi-annually, while interest payments on the Floating Rate Senior Notes are due quarterly. Obligations under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement are the only contractual borrowing obligations or commercial borrowing commitments of the Company.

Effective June 30, 2007, the Company consummated a reorganization in order to simplify its corporate structure and become an operating company. As a part of the

**Table of Contents**

reorganization, the Company became the primary obligor of the indebtedness under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement. The Company entered into amendments to each of such agreements and issued new notes to the banks, the 2004 Purchasers and the 2006 Purchasers.

**NOTE 6 STOCK REPURCHASE AUTHORIZATION**

On November 10, 2006, the Board of Directors of the Company approved a stock repurchase program covering the purchase of up to 1,000,000 additional shares of its common stock dependent upon market conditions. Common stock purchases under this program were authorized through December 31, 2007 on the open market or through privately negotiated transactions at prices determined by the President of the Company. There were no repurchases of stock in 2006. This stock repurchase plan replaced the prior stock repurchase plan. On November 28, 2007, the Board of Directors authorized an extension of the stock repurchase plan through December 31, 2008 for the then remaining 990,000 shares. The Company repurchased zero shares of its stock in the first nine months of 2007, 132,900 shares of its stock in the first quarter of 2008, and zero shares in the second and third quarters of 2008.

**NOTE 7 CONTINGENCIES**

There are no material pending proceedings to which the Company is a party or of which any of its property is the subject. However, the Company is a party to litigation and claims arising out of the ordinary business of the Company.

**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**General**

The Company is a low-cost manufacturer of copper electrical building wire and cable. The Company is a significant supplier of residential wire for interior wiring in homes, apartments and manufactured housing and commercial wire for commercial and industrial buildings.

The Company's operating results in any given time period are driven by several key factors, including: the volume of product produced and shipped, the cost of copper and other raw materials, the competitive pricing environment in the wire industry and the resulting influence on gross margins and the efficiency with which the Company's plant operates during the period, among others. Price competition for electrical wire and cable is intense, and the Company sells its products in accordance with prevailing market prices. Copper is the principal raw material used by the Company in manufacturing its products. Copper accounted for approximately 86.5% and 82.3% of the Company's cost of goods sold during fiscal 2007 and 2006, respectively. The price of copper fluctuates, depending on general economic conditions and in relation to supply and demand and other factors, which has caused monthly variations in the cost of copper purchased by the Company. The Company cannot predict future copper prices or the effect of fluctuations in the cost of copper on the Company's future operating results.

The following discussion and analysis relates to factors that have affected the operating results of the Company for the quarterly and nine-month periods ended September 30,

**Table of Contents**

2008 and 2007. Reference should also be made to the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

**Results of Operations**

**Quarter Ended September 30, 2008 Compared to Quarter Ended September 30, 2007**

Net sales for the third quarter of 2008 amounted to \$296.3 million compared with net sales of \$308.5 million for the third quarter of 2007. This dollar decrease was primarily the result of a 9.3% decrease in unit volume of wire shipped measured in pounds of copper contained in the wire sold, offset by a 5.8% increase in the average price of wire sold. The average cost per pound of raw copper purchased increased 1.3% in the third quarter of 2008 compared to the third quarter of 2007. The 1.3% increase in copper costs versus the 5.8% increase in wire prices increased the spread, resulting in increased gross margins in the third quarter of 2008 versus the third quarter of 2007. Fluctuations in sales prices are primarily a result of changing copper raw material prices and product price competition.

Cost of goods sold decreased to \$268.0 million, or 90.4% of net sales, in the third quarter of 2008, compared to \$283.0 million, or 91.7% of net sales, in the third quarter of 2007. Gross profit increased to \$28.3 million, or 9.6% of net sales, in the third quarter of 2008 versus \$25.5 million, or 8.3% of net sales, in the third quarter of 2007. The increased gross profit and gross margin percentages were primarily the result of industry wide pricing trends that increased the spread between the selling price of copper wire and the purchase cost of raw copper and other materials. The spread between the average selling price of wire (measured in units of wire containing a pound of copper) minus the cost of all raw materials (including the LIFO adjustment) increased by over \$0.08 per pound in the third quarter of 2008 versus the third quarter of 2007. Management believes that industry margins increased largely due to the fact that margins were very low in the second quarter of 2008 and as copper prices fell significantly during the third quarter of 2008, the industry was able to drop wire prices more slowly. Copper prices were volatile during the third quarter of 2008, starting at a COMEX close price of \$3.92 per pound on July 1 and finishing at \$2.89 per pound on September 30. Pricing and margins in the industry, and therefore for the Company, have historically been volatile from quarter to quarter, and management is unable to predict how margins will trend in the future.

Inventories are stated at the lower of cost, using the last-in, first-out (LIFO) method, or market. The Company maintains only one inventory pool for LIFO purposes as all inventories held by the Company generally relate to the Company's only business segment, the manufacture and sale of copper building wire products. As permitted by U.S. generally accepted accounting principles, the Company maintains its inventory costs and cost of goods sold on a first-in, first-out (FIFO) basis and makes a quarterly adjustment to adjust total inventory and cost of goods sold from FIFO to LIFO. The Company applies the lower of cost or market (LCM) test by comparing the LIFO cost of its raw materials, work-in-process and finished goods inventories to estimated market values, which are based primarily upon the most recent quoted market price of copper, in pound quantities, as of the end of each reporting period. Additionally, future reductions in the quantity of inventory on hand could cause copper that is carried in

**Table of Contents**

inventory at costs different from the cost of copper in the period in which the reduction occurs to be included in costs of goods sold for that period.

As a result of decreasing copper costs and a small decrease in the amount of inventory on hand during the third quarter of 2008, as discussed further below under Liquidity and Capital Resources, a LIFO adjustment was recorded, decreasing cost of sales by \$14.6 million during the quarter. Based on copper prices at the end of the quarter, no LCM adjustment was necessary. Future reductions in the price of copper could require the Company to record an LCM adjustment against the related inventory balance, which would result in a negative impact on net income.

Selling expenses for the third quarter of 2008 were \$12.9 million, or 4.3% of net sales, compared to \$13.0 million, or 4.2% of net sales, for the third quarter of 2007. The slight percentage increase was due to the increase in freight costs as a percentage of net sales. Freight costs increased on a per pound basis, primarily due to higher fuel costs in the trucking industry. General and administrative expenses increased to \$2.8 million and 0.9% of net sales, in the third quarter of 2008 compared to \$2.4 million, or 0.8% of net sales, in the third quarter of 2007. The general and administrative costs are semi-fixed by nature and therefore do not fluctuate proportionately with sales. Included in general and administrative expenses, the provision for bad debts was \$75,000 and \$45,000 in the third quarter of 2008 and 2007, respectively.

Net interest and other income and expenses were \$485,000 in the third quarter of 2008 compared to \$921,000 in the third quarter of 2007. The decrease was due primarily to lower average interest rates during the second quarter of 2008 than during the comparable period in 2007. Taxes were accrued at an effective rate of 33.7% in the third quarter of 2008 consistent with the Company's estimated liabilities. This rate decreased from 37.9% in the third quarter of 2007 primarily due to benefits derived from the Jobs Creation Act and tax LIFO calculations and to a lesser degree, small state tax rate adjustments.

As a result of the foregoing factors, the Company's net income increased to \$8.1 million in the third quarter of 2008 from \$5.8 million in the third quarter of 2007.

**Nine Months Ended September 30, 2008 compared to Nine Months Ended September 30, 2007**

Net sales for the first nine months of 2008 amounted to \$900.9 million compared with net sales of \$902.8 million for the first nine months of 2007. This slight dollar decrease was primarily the result of a 9.6% decrease in the unit volume of wire sold, measured in pounds of copper contained in the wire, offset largely by a 10.3% increase in the average price of wire sold. The average cost per pound of raw copper purchased, however, increased 12.3% in the first nine months of 2008 compared to the first nine months of 2007. The 12.3% increase in copper costs versus the 10.3% increase in wire prices compressed the spread between copper costs and wire prices, driving gross margins down. These margins have been somewhat volatile during 2008, starting the year strong in the first quarter, and then dropping significantly in the second quarter, only to rebound back in the third quarter, as explained above. Fluctuations in sales prices are primarily a result of changing copper raw material prices and product price competition.

**Table of Contents**

Cost of goods sold increased to \$817.6 million in the first nine months of 2008, compared to \$805.0 million in the first nine months of 2007. Gross profit decreased to \$83.3 million, or 9.3% of net sales, in the first nine months of 2008 versus \$97.8 million, or 10.8% of net sales, in the first nine months of 2007. The decreased gross profit and gross margin percentages were primarily the result of the margin erosion in 2008 versus 2007 as discussed above.

Inventories are stated at the lower of cost, using the last-in, first-out (LIFO) method, or market. The Company maintains only one inventory pool for LIFO purposes as all inventories held by the Company generally relate to the Company's only business segment, the manufacture and sale of copper building wire products. As permitted by U.S. generally accepted accounting principles, the Company maintains its inventory costs and cost of goods sold on a first-in, first-out (FIFO) basis and makes a quarterly entry to adjust total inventory and cost of goods sold from FIFO to LIFO. The Company applies the lower of cost or market (LCM) test by comparing the LIFO cost of its raw materials, work-in-process and finished goods inventories to estimated market values, which are based primarily upon the most recent quoted market price of copper, in pound quantities, as of the end of each reporting period.

Additionally, future reductions in the quantity of inventory on hand could cause copper that is carried in inventory at costs different from the cost of copper in the period in which the reduction occurs to be included in costs of goods sold for that period.

As a result of increasing copper costs offset somewhat by a decreased amount of inventory on hand during the first nine months of 2008, a LIFO adjustment was recorded increasing cost of sales by \$7.4 million during the period. Based on the current copper prices, there is no LCM adjustment necessary. Future reductions in the price of copper could require the Company to record an LCM adjustment against the related inventory balance, which would result in a negative impact on net income.

Selling expenses for the first nine months of 2008 increased slightly to \$38.9 million, or 4.3% of net sales, compared to \$38.4 million, or 4.3% of net sales, in the same period of 2007. General and administrative expenses increased to \$8.2 million, or 0.9% of net sales, in the first nine months of 2008 compared to \$7.3 million, or 0.8% of net sales, in the same period of 2007. The general and administrative costs are semi-fixed by nature and therefore do not fluctuate proportionately with sales. Included in general and administrative expense, the provision for bad debts was \$225,000 and \$105,000 in the first nine months of 2008 and 2007, respectively. The Company is increasing its bad debt provision this year due to the generally poor economic climate in the construction industry, but has not experienced any significant write-offs in the first nine months of 2008.

Net interest expense was \$1.8 million in the first nine months of 2008 compared to \$3.2 million in the first nine months of 2007. The decrease was due primarily to lower average interest rates during the first half of 2008 than during the comparable period in 2007.

As a result of the foregoing factors, the Company's net income decreased to \$23.0 million in the first nine months of 2008 from \$31.9 million in the first nine months of 2007.

**Table of Contents****Liquidity and Capital Resources**

The Company maintains a substantial inventory of finished products to satisfy the prompt delivery requirements of its customers. As is customary in the industry, the Company provides payment terms to most of its customers that exceed terms that it receives from its suppliers. Therefore, the Company's liquidity needs have generally consisted of operating capital necessary to finance these receivables and inventory. Capital expenditures have historically been necessary to expand the production capacity of the Company's manufacturing operations. The Company has historically satisfied its liquidity and capital expenditure needs with cash generated from operations, borrowings under its various debt arrangements and sales of its common stock. The Company uses its revolving credit facility to manage day to day operating cash needs as required by daily fluctuations in working capital. The total debt balance fluctuates daily as cash inflows differ from cash outflows.

The Company is party to a Financing Agreement with two banks, Bank of America, N.A., as Agent, and Wells Fargo Bank, National Association (the Financing Agreement). The Financing agreement has been amended four times. In 2006, the Financing Agreement was amended twice. The Financing Agreement was first amended May 16, 2006, to expand the Company's line of credit from \$85,000,000 to \$150,000,000, as disclosed in previous filings with the SEC. The Financing Agreement was amended a second time on August 31, 2006, to expand the Company's line of credit from \$150,000,000 to \$200,000,000, as disclosed in previous filings with the SEC. In 2007, the Financing Agreement was amended to reflect the Company as the primary obligor of the indebtedness as a result of the reorganization transaction effective June 30, 2007. The Financing Agreement was amended a fourth time on August 6, 2008, to decrease the Company's line of credit from \$200,000,000 to \$150,000,000. The Financing Agreement, as amended, extends through August 6, 2013 and provides for maximum borrowings of the lesser of \$150,000,000 or the amount of eligible accounts receivable plus the amount of eligible finished goods and raw materials, less any reserves established by the banks. The calculated maximum borrowing amount available at September 30, 2008, as computed under the Financing Agreement, as amended, was \$150,000,000.

The Company, through its agent bank, is also a party to a Note Purchase Agreement (the 2004 Note Purchase Agreement) with Hartford Life Insurance Company, Great-West Life & Annuity Insurance Company, London Life Insurance Company and London Life and Casualty Reinsurance Corporation (collectively, the 2004 Purchasers), whereby the Company issued and sold \$45,000,000 of 5.27% Senior Notes, Series 2004-A, due August 27, 2011 (the Fixed Rate Senior Notes) to the 2004 Purchasers, the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its previous financing agreement. Through its agent bank, the Company was also a party to an interest rate swap agreement to convert the fixed rate on the Fixed Rate Senior Notes to a variable rate based on LIBOR plus a fixed adder for the seven-year duration of these notes. Commensurate with declining interest rates, the Company elected to terminate, prior to its maturity, this swap agreement on November 29, 2007. As a result of this swap termination, the Company received cash proceeds and realized a net settlement gain of \$929,231 that was recorded as an adjustment to the carrying amount of the related debt in the consolidated balance sheet. This settlement gain is being amortized into earnings over the remaining term of the associated long term notes payable. During the quarter and nine months ended

**Table of Contents**

September 30, 2008, \$59,000 and \$175,000, respectively, were recognized as reductions in interest expense in the accompanying consolidated statements of income.

On September 28, 2006, the Company, through its agent bank, entered into a second Note Purchase Agreement (the 2006 Note Purchase Agreement ) with Metropolitan Life Insurance Company, Metlife Insurance Company of Connecticut and Great-West Life & Annuity Insurance Company, whereby the Company issued and sold \$55,000,000 of Floating Rate Senior Notes, Series 2006-A, due September 30, 2011 (the Floating Rate Senior Notes ), the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its Financing Agreement. Obligations under the Financing Agreement, the Fixed Rate Senior Notes and the Floating Rate Senior Notes are unsecured and contain customary covenants and events of default. The Company was in compliance with these covenants, as amended, as of September 30, 2008. Under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement, the Company is allowed to pay cash dividends. At September 30, 2008, the total balance outstanding under the Financing Agreement, the Fixed Rate Senior Notes and the Floating Rate Senior Notes was \$100,000,000. Amounts outstanding under the Financing Agreement are payable on August 27, 2009, with interest payments due quarterly. Interest payments on the Fixed Rate Senior Notes are due semi-annually, while interest payments on the Floating Rate Senior Notes are due quarterly. Obligations under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement are the only contractual borrowing obligations or commercial borrowing commitments of the Company.

Cash provided by operations was \$45.6 million in the first nine months of 2008 compared to \$56.7 million of cash provided by operations in the first nine months of 2007. The following items were the major contributors to this decrease. Net income decreased \$8.9 million in the first nine months of 2008 versus the first nine months of 2007, reducing cash flow. While all other items basically cancelled each other out, there were several notable changes from year to year. Cash flow was reduced in the first nine months of 2008 versus the first nine months of 2007 by a \$7.5 million swing in deferred income taxes payable, due primarily to increased accelerated depreciation deducted in 2008, and \$14.2 million swing in accounts payable, due to timing of raw material deliveries. These reductions in cash flow were offset by a \$14.7 million positive swing in accounts receivable, which increased less than in the first nine months of 2007 along with minor increases in cash flow stemming from small decreases in the inventory and prepaid expense categories. Net income decreased due to the reasons highlighted in Results of Operations , above.

Cash used in investing activities decreased to \$12.6 million in the first nine months of 2008 from \$21.4 million in the first nine months of 2007. In the first nine months of 2007, the funds were primarily used to construct a new office building. In the first nine months of 2008, the funds were primarily used to purchase various manufacturing equipment. The \$3.4 million used in financing activities in the first nine months of 2008, were primarily the result of the Company's \$2.1 million expenditure to repurchase its common stock and \$1.4 million paid in dividends. In 2007, the Company did not repurchase any stock and paid \$1.4 million in dividends.

**Table of Contents**

During the remainder of 2008, the Company expects its capital expenditures will consist primarily of additional plant and equipment for its building wire operations. The total capital expenditures for all of 2008 associated with these projects are currently estimated to be in the \$16.0 to \$20.0 million range. The Company will continue to manage its working capital requirements. These requirements may increase as a result of expected continued sales increases and may be impacted by the price of copper. The Company believes that the cash flow from operations and the financing available under the Financing Agreement will satisfy working capital and capital expenditure requirements during 2008.

**Information Regarding Forward Looking Statements**

This report on Form 10-Q contains various forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) and information that are based on management's belief as well as assumptions made by and information currently available to management. The words believes, anticipates, plans, seeks, expects, intends and similar expressions identify the forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Such statements are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those expected. Among the key factors that may have a direct bearing on the Company's operating results are fluctuations in the economy and in the level of activity in the building and construction industry, demand for the Company's products, the impact of price competition and fluctuations in the price of copper. For more information regarding forward looking statements see Information Regarding Forward Looking Statements in Part II, Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2007, which is hereby incorporated by reference.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes from the information provided in Item 7A of the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

**Item 4. Controls and Procedures**

The Company maintains controls and procedures designed to ensure that information required to be disclosed by it in the reports it files with or submits to the SEC is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive and Chief Financial Officers, as appropriate to allow timely decisions regarding required disclosure. Based on an evaluation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report conducted by the Company's management, with the participation of the Chief Executive and Chief Financial Officers, the Chief Executive and Chief Financial Officers conclude that these controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports it files

**Table of Contents**

with or submits to the SEC is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive and Chief Financial Officers, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in the Company's internal controls over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, internal controls over financial reporting during the period covered by this report.

**PART II OTHER INFORMATION**

**Item 1A. Risk Factors.**

There have been no material changes to the Company's risk factors as disclosed in Item 1A, Risk Factors, in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

**Issuer Purchases of Equity Securities**

On November 10, 2006, the Board of Directors approved a stock repurchase program authorizing the Company to repurchase up to 1,000,000 shares of its common stock through December 31, 2007, at the discretion of the President. The Company's Board of Directors authorized an extension of this share repurchase program through December 31, 2008 and authorized the Company to repurchase up to the remaining 990,000 shares of its common stock. The Company repurchased 124,400 and 132,900 shares of its stock in 2007 and the first quarter of 2008, respectively. There were no repurchases of stock in the second or third quarters of 2008. All shares purchased under the program were purchased on the open market by the Company's broker pursuant to a Rule 10b5-1 plan announced on November 28, 2007.

**Item 6. Exhibits.**

The information required by this Item 6 is set forth in the Index to Exhibits accompanying this Form 10-Q.

INDEX TO EXHIBITS

Exhibit Number	Description
3.1	Certificate of Incorporation of Encore Wire Corporation, as amended through July 20, 2004 (filed on Exhibit 3.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2004, and incorporated herein by reference).
3.2	Second Amended and Restated Bylaws of Encore Wire Corporation, as amended through December 13, 2007 (filed as Exhibit 3.2 to the Company's Annual Report on Form 10-K for the year ended December 31, 2007, and incorporated herein by reference).
10.1*	1999 Stock Option Plan, as amended and restated, effective as of February 20, 2006 (filed as Exhibit 4.1 to the Company's Registration Statement on Form S-8 (No. 333-138165), and incorporated herein by reference).
10.3	Credit Agreement by and among Encore Wire Limited, as Borrower, Bank of America, N.A., as Agent, and Bank of America, N.A. and Wells Fargo Bank, National Association, as Lenders, dated August 27, 2004 (filed as Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2004 and incorporated herein by reference).
10.4	First Amendment to Credit Agreement of August 27, 2004, dated May 16, 2006, by and among Encore Wire Limited, as Borrower, Bank of America, N.A., as Agent, and Bank of America, N.A. and Wells Fargo Bank, National Association, as Lenders (filed as Exhibit 10.3 to the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2006 and incorporated herein by reference).
10.5	Second Amendment to Credit Agreement of August 27, 2004, dated August 31, 2006, by and among Encore Wire Limited, as Borrower, Bank of America, N.A., as Agent, and Bank of America, N.A. and Wells Fargo Bank, National Association, as Lenders (filed as Exhibit 10.3 to the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2006 and incorporated herein by reference).
10.6	Third Amendment to Credit Agreement of August 27, 2004, dated June 29, 2007, by and among Encore Wire Corporation, as Borrower, Bank of America, N.A., as Agent, and Bank of America, N.A. and Wells Fargo Bank, National Association, as Lenders (filed as Exhibit 10.6 to the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2007, and incorporated herein by reference).
10.7	Fourth Amendment to Credit Agreement of August 27, 2004, dated August 6, 2008, by and among Encore Wire Corporation, as Borrower, Bank of America, N.A., as Agent, and Bank of America, N.A. and Wells Fargo Bank, National Association, as Lenders (filed as Exhibit 10.7 to the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2008, and incorporated herein by reference).
