ITEM 1. DESCRIPTION OF BUSINESS

Filing of Bankruptcy Petition.

As previously reported, on November 13, 2002 (the "Petition Date"), Synergy Technologies Corporation ("we," "us," "Synergy" or the "company") and its wholly-owned subsidiary, Carbon Resources Limited ("Carbon"), each filed a voluntary petition for relief under Chapter 11 of Title 11 of the United States Bankruptcy Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the Southern District of New York (the "Bankruptcy Court"). After November 13, 2002, we and Carbon operated our respective businesses as debtors-in-possession. On March 12, 2003, we sold substantially all of our assets to a third party for the sum of \$300,000 in cash plus the forgiveness of \$527,783 in secured debt and accrued interest incurred subsequent to the Petition Date. Thereafter, we and Carbon ceased operations. The asset sale was completed in accordance with the Bankruptcy Code and pursuant to an order of the Bankruptcy Court. Since the asset sale, we have conducted no operations other than in accordance with, and as required by, the Bankruptcy Code.

The company expects to file a plan of reorganization and disclosure statement with the Bankruptcy Court, which plan of reorganization is subject to both creditor and Bankruptcy Court approval. Such plan and disclosure statement will provide the framework for how the company will deal with its creditors and shareholders in bankruptcy and the manner in which the company will be restructured upon its emergence from bankruptcy. We cannot be certain that the plan of reorganization will be approved by the relevant parties and approved by the Bankruptcy Court.

Until a plan or reorganization is confirmed, we can not make any statements regarding our future operations, management, capital requirements or sources of capital.

The financial statements included in this Form 10-KSB have been prepared on the basis of our not operating as a going concern, and the assets and liabilities have been adjusted to reflect the consideration received from the March 12, 2003 sale.

Prior to filing for protection under the Bankruptcy Code, Synergy and its subsidiaries had engaged in the commercialization of two proprietary and patented processes for use in the oil and gas industry. We lacked sufficient capital resources to successfully commercialize these technologies and never generated any revenues from sales or licenses of them. We were unable to obtain additional funding to continue our development and commercialization efforts.

Employees

Edgar Filing: SYNERGY TECHNOLOGIES CORP - Form 10KSB

As of May 7, 2003, we had no full-time employees and 2 part-time employees.

Risk Factors

We currently have no business operations and no ability to generate revenues and our future operations are uncertain; therefore, an investment in our common stock is highly speculative and you may lose the entire amount of your investment.

Since we sold our assets in March 2003, we have not conducted any business operations and do not have any means of generating revenues. Our only asset is cash received from the sale of assets in March 2003, which likely will be distributed to creditors upon the confirmation of a plan of reorganization. We can not speculate what, if any, operations the company will engage in when it emerges from bankruptcy. Accordingly, an investment in our common stock is highly speculative.

2

Holder of the common stock should be prepared to lose the entire value of their investment in the company's stock.

There is a limited trading market for our common stock and holders of the stock may not be able to sell their shares when they desire.

Our common stock is admitted for quotation on the Over the Counter Electronic Bulletin Board. Since we filed for protection under the Bankruptcy Code, there has been limited trading volume in our stock. Since the company conducts no operations and is essentially inactive, this condition may continue for the foreseeable future. Because the common stock is thinly traded, holders may not be able to liquidate their stock when they desire.

Cautionary Statement Regarding Forward-Looking Statements

This Annual Report and the exhibits hereto may include "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Actual results may differ materially from these expectations due to the company's bankruptcy proceedings, among other factors not currently known to management.

ITEM 2. DESCRIPTION OF PROPERTY

On March 12, 2003, we sold all of our assets pursuant to Bankruptcy Court order in accordance with the authority of the Bankruptcy Court hearing our petition under Chapter 11 of the Bankruptcy Code. As of the date hereof, we neither own nor lease any tangible or intangible properties. We are utilizing the offices of one of our executive officers at no charge until further notice. This office is located at 333 West 53rd Street, # 7E, New York, New York 10022.

ITEM 3. LEGAL PROCEEDINGS

On October 17, 2002, Texas T Petroleum, Ltd. ("Texas T") filed a Statement of Claim in the Court of Queen's Bench of Alberta (Canada), Judicial District of Calgary seeking to cause Synergy to convey its heavy oil technology (the "Technology") to Texas T (the "Texas T Suit"). Texas T based its claim on an agreement executed in March 2002 pursuant to which Synergy purchased Texas T's 50% interest in Carbon, the company which owned the Technology.

Edgar Filing: SYNERGY TECHNOLOGIES CORP - Form 10KSB

Subsequent to the filing for relief under Chapter 11 of the Bankruptcy Code, Synergy and Carbon commenced an adversary proceeding against Texas T wherein they sought: (a) avoidance of the claims to the Technology made by Texas T in the Texas T Suit because they amounted to "preferences" under the Bankruptcy Code; (b) termination of certain of Texas T's claims on the grounds that Texas T had no security interest in any assets of Synergy or Carbon; and (c) a declaratory judgment that Texas T had no security interest in the Technology it was claiming or any other assets of Synergy or Carbon. Synergy and Carbon prevailed in a motion requesting that the court grant summary judgment with respect to its claims and the Bankruptcy Court ordered and determined that (i) Texas T had no security interest in the Technology or in any other asset of either Synergy or Carbon; (ii) the Technology is the property of Synergy's and Carbon's bankruptcy estates; (iii) the claims previously filed by Texas T were defective and invalid; and (iv) Synergy and Carbon were authorized to prepare and file the documents necessary to terminate Texas T's claims in the states in which they were filed.

In November 2002, we filed for protection under Chapter 11 of the Bankruptcy Code and sold substantially all of our assets in March 2003 under the auspices and with the approval of the Bankruptcy Court hearing our petition. We do not currently engage in any business operations and can not make any statements regarding our future operations, management, capital requirements or sources of capital.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Changes in Registrant's Certifying Accountant

By letter dated April 11, 2003, KPMG LLP notified us that it discontinued serving as our independent accountant, effective immediately, because we no longer conducted any operations in Canada.

On April 8, 2003, Geoffrey Albers, an individual seeking to acquire a controlling interest in our company in accordance with a confirmed plan of reorganization by the United States Bankruptcy Court hearing our petition under the Bankruptcy Code, engaged Demetrius & Company, L.L.C. ("Demetrius & Company") as the independent accountant to audit our financial statements for the period ended December 31, 2002 and to review the quarters ended March 31, 2003 and ending June 30, 2003.

The KPMG LLP reports on our financial statements for years ended December 31, 2001 and 2000, being the last two fiscal years during which it served as our independent accountant, contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles; however, KPMG LLP did modify its opinion due to going concern uncertainties.

Edgar Filing: SYNERGY TECHNOLOGIES CORP - Form 10KSB

During the two fiscal years ended December 31, 2001 and 2000, and the subsequent interim period through April 11, 2003, there were no disagreements with KPMG LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of KPMG LLP, would have caused KPMG LLP to make reference thereto in their report on the financial statements for such years.

During the two fiscal years ended December 31, 2001 and 2000 and the subsequent interim period through April 11, 2003, there were no reportable events [as defined in Regulation S-B Item 304(a)(1)(iv)].

During the two fiscal years ended December 31, 2001 and 2000 and the subsequent interim period through April 11, 2003, neither Mr. Albers, the company nor anyone acting on their behalf, have consulted with Demetrius & Company regarding (i) either the application of accounting principles to a specified transaction, either completed or proposed or the type of audit opinion that might be rendered on our financial statements, or (ii) any matter that was either the subject of a disagreement, as that term is

5

defined in Item 304(a)(1)(iv) of Regulation S-B and the related instructions to Item 304 of Regulation S-B, or a reportable event, as that term is defined in Item 304(a)(1)(iv) of Regulation S-B.

KPMG LLP subsequently furnished us with a letter addressed to the Securities and Exchange Commission that stated that it agreed with the above statements.

2002 Stock Option Plan.

On December 14, 2001, the Board of Directors adopted the 2002 Stock Option Plan ("Plan") to take effect on January 1, 2002, subject to the approval of the shareholders. Our shareholders approved the Plan at the Special Meeting of Shareholders held on February 18, 2002.

The following is a brief summary of the Plan, which was designed to enhance our long-term profitability and shareholder value by aligning the interests of selected directors, officers, employees and consultants with our performance targets.

The Plan authorizes the issuance of statutory and non-statutory options to purchase up to 10,000,000 shares of our common stock.

The Plan is administered by the Board of Directors, which may empower a committee to administer the Plan. The Board is generally empowered to interpret the Plan, prescribe rules and regulations relating thereto, determine the terms of the option agreements, amend them with the consent of the optionee, determine the individuals to whom options are to be granted, and determine the number of shares subject to each option and the exercise price thereof. The per share exercise price for options granted under the Plan is determined by the Board, provided that the exercise price of incentive stock options is not be less than 100% of the fair market value of a share of the common stock on the date the option is granted (110% of fair market value on the date of grant of an incentive stock option if the optionee owns more than 10% of our common stock). Upon exercise of an option, the optionee may pay the purchase price with previously acquired securities of the company.

Options will be exercisable for a term determined by the Board, which will not be greater than ten years from the date of grant and five years in the case of incentive stock options, unless such grant is for a period of ten years, as determined by the Board, except that an Incentive Stock Option granted to the beneficial owner of more than 10% of the outstanding shares of our common stock shall expire, to the extent that it has not theretofore been exercised, at the close of business five (5) years from the date of grant. Options may be

Edgar Filing: SYNERGY TECHNOLOGIES CORP - Form 10KSB

exercised only while the original grantee has a relationship with us which confers eligibility to be granted options or within three months after termination of such relationship with us, or up to one year after death or total and permanent disability. In the event of the termination of such relationship between the original grantee and us for cause, as defined in the Plan, all options granted to that original optionee terminate immediately. In the event of certain basic changes in the company, including a reorganization, merger or consolidation of the company, or the purchase of shares pursuant to a tender offer for shares of our common stock, in the discretion of the Board or administering committee, each option may become fully and immediately exercisable. Incentive stock options are not transferable other than by will or the laws of descent and distribution. Non-qualified stock options may be transferred to the optionee's spouse or lineal descendants, subject to certain restrictions. Options may be exercised during the holder's lifetime only by the holder, his or her guardian or legal representative.

Options granted pursuant to the Plan may be designated as incentive stock options ("ISO"), with the attendant tax benefits provided under Sections 421 and 422 of the Internal Revenue Code of 1986. Accordingly, the Plan provides that the aggregate fair market value determined at the time an ISO is granted of the common stock subject to incentive stock options exercisable for the first time by an employee during any calendar year under all our plans may not exceed \$100,000. The Board may modify, suspend or terminate the Plan; provided, however, that certain material modifications affecting the Plan must be approved by the shareholders, and any change in the Plan that may adversely affect an optionee's rights under an option previously granted under the Plan requires the consent of the optionee.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

On January 3, 2002, we entered into a settlement agreement with John Gradek, our former Chief Executive Officer, which extinguished a lawsuit filed by Mr. Gradek against us on February 27, 2001. In that suit, Mr. Gradek claimed that Synergy breached its employment agreement with him by terminating him without cause and asserted that Synergy owed him his monthly salary of \$10,000 for 32 months plus paid vacation days and attorney fees of up to \$80,000. Pursuant to the settlement agreement, we agreed to (i) pay to Mr. Gradek the sum of \$100,000 in two installments of \$50,000 each, the first on or before February 1, 2002, which sum was paid, and the second by May 1, 2002, which sum was paid on July 19, 2002, and (ii) issue to Mr. Gradek 150,000 shares of common stock. In addition, each party released the other from all actions or claims with respect to Mr. Gradek's employment with Synergy.

During the fiscal year ended December 31, 2001, we paid an aggregate of \$196,210 to Glidarc Technologies Inc. for process management services and technical personnel. Mr. Thomas Cooley is an officer of Glidarc Technologies and is also our Chief Technology Officer and a member of our Board of Directors. Mr. Cooley also serves on the Board of Directors of Syngen Technologies Limited and Carbon Resources Limited, wholly owned subsidiaries of the Company.

On October 19, 2000, we issued a three-year promissory note in the principal amount of \$1,000,000 in favor of Stone Canyon Resources, Inc., a former affiliate of Synergy by virtue of common officers, directors and shareholders, in settlement of the terms of a certain Share Exchange Agreement, previously filed with, and described in, past filings made by Synergy with the Securities and Exchange Commission. We issued the promissory note to Stone Canyon to settle what Stone Canyon alleged was a breach of the Share Exchange Agreement resulting from our inability to develop certain oil and gas producing properties. On February 9, 2001, Stone Canyon converted the promissory note into shares of common stock at the price of \$1.00 per share.

On July 1, 2001, Synergy entered into a Management and Consulting Agreement with Huntingtown Associates LLC, an entity wholly owned by Baumart, a member of our board of directors and the sole owner of Huntingtown. Under this agreement, Synergy engaged Huntingtown for a minimum of 40 days during 2001 and a minimum of 80 days up to a maximum of 120 days during 2002 to provide assistance with the development of product licensing, business and patent strategies, business plan development and certain other matters. Under the agreement, during 2001 we compensated Huntingtown at the rate of \$1,500 per day payable in stock options valued at 33% of the higher of \$1 or the average market price for our common stock during the month in which the services were rendered. During 2002, we agreed to compensate Huntingtown at the rate of \$1,500 per day payable \$350 in cash and the balance (\$1,150) in stock options valued at 33% of the higher of \$1 or the average market price for our common stock during the month in which the services were rendered and agreed to register the common stock issued to Huntingtown for public resale. During the fiscal year ended

Edgar Filing: SYNERGY TECHNOLOGIES CORP - Form 10KSB

December 31, 2002, Huntingtown billed us for consulting services and reimbursement of actual expenses in the amount of \$3,850. At December 31, 2002, we had an outstanding balance owing to Huntingtown of \$14,481, which includes unpaid amounts due from 2001.

It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Since the date of our evaluation to the filing date of this Annual Report, there have been no significant changes in our internal controls or in

Board of Directors and Stockholders
Synergy Technologies Corporation

We have audited the accompanying consolidated balance sheet of Synergy Technologies Corporation and Subsidiaries (a development stage enterprise) at December 31, 2002, and the related consolidated statements of operations, changes in stockholders' equity (deficit) and cash flows for the year then ended and the period from February 10, 1997 (inception) to December 31, 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The cumulative statements of operations, cash flows, and changes in stockholders' equity (deficit) for the period from February 10, 1997 (inception) to December 31, 2002 which were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the period from February 10, 1997 (inception) to December 31, 2001 is based solely on the reports of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly in all material respects the consolidated financial position of Synergy Technologies Corporation and Subsidiaries (a development stage enterprise) as of December 31, 2002, and the consolidated results of their operations and their cash flows for the year then ended and for the period from February 10, 1997 (inception) to December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company had experienced losses from operations and negative cash flows in recent years, and as a result on November 12, 2002, the Company filed a voluntary petition for relief under Chapter 11 of the Bankruptcy Code.

In addition, on March 12, 2003, the Company ceased operations and sold substantially all its assets. These matters raise substantial doubt about the Company's ability to continue as a going concern. Management's plan in regard to these matters is also described in Note 2. The accompanying consolidated financial statements do not include any adjustments relating as to the amounts and classification of recorded liabilities that might be necessary when the Company's plan of reorganization is confirmed.

SYNERGY TECHNOLOGIES CORPORATION AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)
NOTES TO AUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Financial Instruments - The amounts reported as cash, receivables, accounts payable, and accrued liabilities are considered to be reasonable approximations of their fair values. The fair value estimates presented herein were based on market information available to management at the time of preparation of the financial statements. For the purpose of the statement of cash flows, cash and cash equivalents are defined as demand deposits as well as other funds with original maturities of three months or less.

Foreign Currency Translation - Exchange gains and losses from holding foreign currencies and having liabilities paid in foreign currencies are included in the results of operations.

Property and Equipment - Property and equipment are reported at cost. Minor repairs, enhancements, and maintenance costs are expensed when incurred. Depreciation is computed using the straight-line and accelerated methods over the estimated useful lives of the assets. Major categories of property and equipment and estimated useful lives are as follows:

Edgar Filing: SYNERGY TECHNOLOGIES CORP - Form 10KSB

Estimated Useful Life

Furniture and fixtures	3-5 years
Computer equipment	2 years

Intangibles - Intangible assets will be amortized over the estimated useful life of the asset which will be determined at the time of commencement of their commercial application. Each respective technology has patents in effect for a 17-19 year period. No amortization expense has been recorded on these amounts for 2002 or prior periods.

Basic and Diluted Loss Per Share - Basic loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted loss per share is calculated to give effect to potentially issuable common shares except during loss periods when those potentially issuable common shares would decrease the loss per share.

NOTE 2 - BANKRUPTCY PROCEEDING, SALE OF ASSETS AND DISCONTINUATION OF OPERATIONS

The Company is in the development stage and has not realized any revenues, has incurred losses and had negative cash flows from operations for all of 2002 and each year since its inception. The Company's efforts have been focused on the development of its technologies and raising capital necessary to finance its development and administrative activities. To date, a substantial portion of its activities have been paid for by the issuance of common shares, options and warrants.

On November 13, 2002 (the "Petition Date"), the Company and its wholly-owned subsidiary, Carbon Resources Limited ("Carbon"), each voluntarily filed a petition for relief under Chapter 11 of the United

F-8

States Bankruptcy Code ("Chapter 11") in the United States Bankruptcy Court, Southern District of New York (the "Bankruptcy Court"). SynGen Technologies Limited, a wholly-owned subsidiary of the Company, and Lanisco Holdings Limited, a wholly-owned subsidiary of Carbon, were not included in the Chapter 11 filing.

After November 13, 2002, we and Carbon operated our respective businesses as debtors-in-possession. At March 12, 2003 substantially all the Company's assets were sold to a third party for \$300,000 in cash plus the forgiveness of \$527,783 in debt and accrued interest incurred subsequent to the Petition Date, and the Company ceased operations. The asset sale was completed following an auction conducted in accordance with the Bankruptcy Code and pursuant to an order of the Bankruptcy Court. The Company expects to file a plan of reorganization for itself and other filing subsidiaries to be submitted to the Bankruptcy Court for confirmation after submission to any vote and approval required by affected parties. As of May 9, 2003, the plan for reorganization has yet to be submitted.

Investment in CPJ Technology and associated assets (See Note 3(b) below)	454,968	1,432,500

(a) SynGen: During 2000, the Company completed the acquisition of the shares of the company holding the Syngen technology and associated assets for consideration including the issue and release from escrow of 14,943,510 common shares of Synergy to Laxarco Holdings Limited ("Laxarco"). The shares were ascribed a value of \$2.5448 per share on the basis of the five-day average closing price of the Company's shares. The aggregate value of the shares issued, \$38,028,244, was allocated to the Syngen technology rights and associated assets.

As at December 31, 2001 the Company determined that the cash flows expected to be received through the construction of a plant, licensing or other arrangements had not been achieved. Accordingly, the net book value of the Syngen technology and other associated assets had been written down to \$3,500,000 representing the value of the associated pilot plants, fuel cells, catalysts and associated patents.

As at December 31, 2002 the Company has revised the value of these assets based on the sale price for the Company's assets received during the first quarter of 2003. Accordingly, the net book value of the Syngen technology and other associated assets has been written down to its fair value of \$303,312.

(b) CPJ: During the fiscal year ended December 31, 2000, the Company and technology development partner Texas T Petroleum Ltd. renegotiated the royalty agreement with the Inventor of the CPJ technology, Dr. Pierre Jorgensen which resulted in the execution of an Amended and Restated Technology Transfer Agreement on September 25, 2000 by the Company, Carbon, Jorgensen and Capital Reserve Corporation, an affiliate of Texas T Petroleum Ltd. Under the terms of this amended and restated agreement Dr. Jorgensen agreed to reduce his royalty to five percent of the net proceeds realized from the licensing and/or sublicensing of the CPJ technology and was issued 500,000 shares of common stock of the

F-9

Company and 500,000 shares of common stock of Capital Reserve Corporation. The 500,000 shares of the Company issued to Dr. Jorgensen in respect of the royalty reduction were recorded on the balance sheet as an investment in the amount of \$1,062,500 which amount represents a fair market value for the issued shares of \$2.125 per share, which was the closing price on the Company's common shares traded on the Over the Counter Bulletin Board on the date of the agreement.

During the year ended December 31, 2001, the Company recorded a liability of \$370,000 to the inventor, Dr. Jorgensen, based on the amended royalty agreement signed in fiscal 2000, whereby, Dr. Jorgensen was to receive proceeds of not

Edgar Filing: SYNERGY TECHNOLOGIES CORP - Form 10KSB

less than \$250,000 from the sale of 100,000 shares of Synergy Technologies Corporation by February 28, 2001 and an additional \$250,000 from the sale of a further 100,000 shares by February 28, 2002. As of December 31, 2001, Dr. Jorgensen had not sold any of the shares and therefore, based on the closing stock price of \$0.65 per share, the difference in net proceeds is \$370,000. As of December 31, 2002, an amount of \$1,025,000 was recorded as a liability based on the above less a cash payment of \$75,000 made during the year.

As at December 31, 2002 the Company has revised the value of these assets based on the sale price for the Company's assets received during the first quarter of 2003. Accordingly, the net book value of the CPJ technology and other associated assets has been written down to its fair value of \$454,968.

(c) Joint Ventures: During 2002, Synergy entered into an agreement with Texas T Petroleum Ltd. ("Texas T"), Capital Reserve Corporation, Carbon Resources Limited ("Carbon") and Pierre Jorgensen to purchase from Texas T the 50% of Carbon not owned by Synergy. The details of this agreement are as follows:

- 1) Texas T transferred to Synergy all of it's right, title and interest in and to the Carbon stock.
- 2) Synergy issued to Texas T 400,000 shares common stock of Synergy.
- 3) Synergy also issued in the name of Texas T 1,900,000 common shares of Synergy and delivered the stock to an escrow agent to be held pursuant to an escrow agreement.

Under the terms of an agreement entered into in September 2000, the Company and Texas T had each issued shares to Mr. Jorgenson together with a commitment to make up the difference between the proceeds received on the sale of shares and \$1 million. As at December 31, 2001 the Company had accrued \$370,000 for its share of the shortfall between the value of the shares and \$500,000. In connection with the acquisition of the additional shares of Carbon in 2002 the Company assumed the remaining 50% of this obligation to Mr. Jorgenson, agreed to an increase in the minimum value to \$1,100,000, and issued an additional 1,491,334 shares to Mr. Jorgenson in respect of this obligation. The Company is required to issue sufficient shares to Mr. Jorgenson to achieve resale proceeds of \$1,100,000. Mr. Jorgenson is required to return to the Company any shares in excess of those required to achieve the committed resale proceeds of \$1,100,000. A value of \$1,073,760 was attributed to this transaction based on the five-day average share price of \$0.72 per share. An additional 500,000 shares were issued in order to replace the 500,000 Capital Reserve Corporation shares that were returned to Texas T pursuant to the purchase agreement. A value of \$360,000 was attributed to this transaction based on a five-day average share price of \$0.72 per share.

The acquisition of Texas T's 50% interest in Carbon closed on March 5, 2002. Up to that date the investment in Carbon was recorded using the equity method. From the closing date forward Carbon has been recorded using the consolidation method. The investment in private US Corporation at December 31, 2001 was eliminated upon the closing of this agreement.
