Report of Independent Auditors

Lincoln National Corporation Plan Administrator
Lincoln National Corporation

We have audited the accompanying statements of net assets available for plan benefits of The Lincoln National Life Insurance Company Agents Savings and Profit-Sharing Plan as of December 31, 2002 and 2001, and the related statements of changes in net assets available for plan benefits for each of the three years in the period ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of The Lincoln National Life Insurance Company Agents Savings and Profit-Sharing Plan at December 31, 2002 and 2001, and the changes in its net assets available for plan benefits for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2002, and reportable transactions for the year then ended, are presented for purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

1. Significant Accounting Policies

Investments

The investment in Lincoln National Corporation (LNC) common stock is valued at the last reported sales price per the national securities exchange on the last business day of the year.

The Wells Fargo Bank Short-Term Investment Fund is valued at cost, which approximates fair value.

The fair value of participation units in pooled separate accounts is based on quoted redemption value on the last business day of the year.

The investment contracts are valued at contract value as estimated by The Lincoln National Life Insurance Company (Lincoln Life or Employer). Contract value represents net contributions plus interest at the contract rate. The contracts are fully benefit responsive.

Participant loans are valued at their outstanding balances, which approximate fair value.

The cost of investments sold or distributed is determined using the specific identification method.

Use of Estimates

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Description of the Plan

The Lincoln National Life Insurance Company Agents Savings and Profit-Sharing Plan (Plan) is a contributory, defined contribution plan which covers eligible agents of Lincoln Life and other participating agents who are employed by Lincoln Life. Any person who is a full-time agent of Lincoln Life, currently employed by Lincoln Life, is eligible to enroll in the Plan. A participant may make pre-tax contributions at a rate of at least 1%, but not more than 15% of eligible earnings, up to a maximum annual amount as determined and adjusted annually by the Internal Revenue Service (IRS).

During 2001, Plan assets relating to the former employees of Sagemark were transferred into another affiliated Plan of Lincoln Life, in the amount of \$9,410,752.

Participants direct the Plan to invest their contributions and the guaranteed Employer contributions in any combination of the investment options as described in *Note 4*. Prior to April 1, 2002, discretionary Employer contributions were required to be invested in the LNC Common Stock Fund. Effective April 1, 2002, participants can immediately direct the investment of the discretionary Employer contributions to other funds.

Agents' Savings and Profit-Sharing Plan

Notes to Financial Statements (continued)

2. Description of the Plan (continued)

Employer contributions to the Plan are based on an amount equal to a participant's contributions, not to exceed 50% of the first 6% of eligible earnings. The Employer may also make a discretionary matching contribution which varies based on LNC's operating income. The Board of Directors of Lincoln Life approved a provision that provided an additional match up to 50% for the 2000 Plan year based on the Company's achieving a certain level of earnings over the three-year period from 1998 through 2000, to be paid in 2001. During 2000, the Employer contribution to the Plan matched 200% (150% maximum discretionary match plus additional 50% special match) of participant contributions up to 6% of eligible earnings.

Participants' contributions are fully vested. Employer contributions vest based upon years of service as defined in the Plan agreement as follows:

Years of Service	Percent Vested
1	0%
2	50%
3 or more	100%

The Employer has the right to discontinue contributions at any time and terminate the Plan. In the event of termination of the Plan, all amounts allocated to participants' accounts shall become vested.

The Plan allows loans to participants in amounts up to 50% of the vested account value to a maximum of \$50,000 but not more than the total value of the participant's accounts excluding Employer contributions that haven't been in the Plan for two full years, less the highest outstanding loan balance in the previous twelve month period.

Upon termination of service due to disability or retirement, a participant or beneficiary, in case of the participant's death, may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a five-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Vested account balances less than \$5,000 are immediately distributable under the terms of the Plan, without the Participant's consent, unless a timely election of rollover to an IRA or another qualified plan has been made.

Each participant's account is credited with the participant's contributions, matching contributions from the Employer and allocations of Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited non-vested amounts are used to reduce future Employer contributions. Forfeitures used to offset contributions were \$0, \$150,588 and \$24,871 in 2002, 2001 and 2000, respectively.

4. Investment Options (continued)

The information as to the number of participants selecting each investment option is not readily available. During 2000, the Plan began offering investment options 14 through 26. During 2002, the Plan also began offering investment options 27 and 28. Investment options 4 through 28 are invested in pooled separate accounts of Lincoln Life through a group annuity contract issued by Lincoln Life.

Interest charged on new loans to participants is established monthly based upon the prime rate plus 1%. Loans may be repaid over any period selected by the participant up to a maximum repayment period of 5 years except that the maximum repayment period may be 20 years for the purchase of a principal residence.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 9, 1995, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. However, subsequent to the issuance of the favorable determination letter, the Plan was amended. Once qualified, the Plan, as amended, is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. The Plan Sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.
