Blackbaud, Inc.
Condensed notes to consolidated financial statements
March 31, 2007
(Unaudited)

1. Organization

Blackbaud, Inc. (the Company) is the leading global provider of software and related services designed specifically for nonprofit organizations and provides products and services that enable nonprofit organizations to increase donations, reduce fundraising costs, improve communications with constituents, manage their finances and optimize internal operations. As of March 31, 2007, the Company had approximately 16,000 active customers distributed across multiple verticals within the nonprofit market including religion, education, foundations, health and human services, arts and cultural, public and societal benefits, environment and animal welfare and international foreign affairs.

2. Restatement of financial statements

During the preparation of the Company's Form 10-Q as of and for the quarter ended March, 31, 2007, the Company determined that SEC Staff Accounting Bulletin No. 108 (SAB 108) was misapplied in connection with reporting its consolidated financial position and results of operations as of and for the period ended December 31, 2006. The Company is restating its financial statements for the years ended December 31, 2006, 2005 and 2004 to reflect the impact of this error correction in accordance with Financial Accounting Standards Board's (FASB) 154, Accounting Changes and Error Corrections, in this Form 10-Q for the period ended March 31, 2007. There was no impact to total operating, investing or financing cash flows for the years ended December 31, 2006, 2005 and 2004 and for the three months ended March 31, 2006.

The Company has historically recognized maintenance and subscription revenue using a monthly convention rather than on an actual-days basis. The effect on the statements of operations of the difference between these two methods has been evaluated in the past and it was concluded that the impact was immaterial. However under SAB 108, the Company should have recorded a one-time adjustment to its retained earnings to correct for the cumulative impact of using the actual-days method.

Accordingly, the Company's financial statements for the years ended 2006, 2005 and 2004 and the three months ended March 31, 2006 have been restated as follows:

(in thousands)	As reported March 31, 2006	Adjustments	As restated March 31, 2006
Statement of operations data			
Maintenance revenue	\$ 19,199	\$ (160)	\$ 19,039

3. Summary of significant accounting policies**Unaudited interim financial statements**

The interim consolidated financial statements as of March 31, 2007 and for the three months ended March 31, 2007 and 2006, have been prepared by the Company pursuant to the rules and regulations of the SEC for interim financial reporting. These consolidated statements are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring adjustments and accruals) necessary to state fairly the consolidated balance sheets, consolidated statements of operations, consolidated statements of cash flows and consolidated statements of stockholders' equity and comprehensive income for the periods presented in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The consolidated balance sheet at December 31, 2006 has been derived from the audited consolidated financial statements at that date. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2007 or any other future period. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been omitted in accordance with the rules and regulations for interim reporting of the SEC. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 and other forms filed with the SEC from time to time.

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. Areas of the financial statements where estimates may have the most significant effect include revenue recognition, the allowance for sales returns and doubtful accounts, valuation of long-lived and intangible assets and goodwill, stock-based compensation and provision for income taxes and valuation of deferred tax assets. Changes in the facts or circumstances underlying these estimates could result in material changes and actual results could differ from these estimates.

Revenue recognition

The Company's revenue is generated primarily by selling perpetual licenses or charging for the use of its software products and providing support, training, consulting, technical and other professional services for those products. The Company makes available certain of its software products for use in hosted application arrangements without licensing perpetual rights to the software (hosted applications). Additionally, the Company provides hosting services to customers

Table of Contents

Blackbaud, Inc.
Condensed notes to consolidated financial statements (continued)
March 31, 2007
(Unaudited)

who have purchased perpetual rights to certain of its software products (hosting services). The Company recognizes revenue in accordance with:

The American Institute of Certified Public Accountants Statements of Position (SOP) 97-2, Software Revenue Recognition, as modified by SOPs 98-4 and 98-9, as well as Technical Practice Aids issued from time to time by the American Institute of Certified Public Accountants,

The SEC Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition in Financial Statements,

The Emerging Issues Task Force (EITF) Issue No. 00-03, Application of AICPA Statement of Position 97-2 to Arrangements that Include the Right to Use Software Stored on Another Entity's Hardware , and

The EITF Issue No. 00-21, Revenue Arrangements with Multiple Deliverables.

The Company recognizes revenue from the sale of perpetual software license rights when persuasive evidence of an arrangement exists, the product has been delivered, title and risk of loss have transferred to the customers, the fee is fixed or determinable and collection of the resulting receivable is probable. The Company deems acceptance of an agreement to be evidence of an arrangement. Delivery occurs when the product is delivered. The Company's typical license agreement does not include customer acceptance provisions; if acceptance provisions are provided, delivery is deemed to occur upon acceptance. The Company considers the fee to be fixed or determinable unless the fee is subject to refund or adjustment or is not payable within the Company's standard payment terms. The Company considers payment terms greater than 90 days to be beyond its customary payment terms. The Company deems collection probable if the Company expects that the customer will be able to pay amounts under the arrangement as they become due. If the Company determines that collection is not probable, the Company postpones recognition of the revenue until cash collection. The Company sells software licenses with maintenance and, often times, professional services. The Company allocates revenue to delivered components, normally the license component of the arrangement, using the residual value method based on objective evidence of the fair value of the undelivered elements, which is specific to the Company. Fair value for the maintenance services associated with the Company's software licenses is based upon renewal rates stated in the Company's agreements, which vary according to the level of the maintenance program. Fair value of professional services and other products and services is based on sales of these products and services to other customers when sold on a stand-alone basis.

The Company's consulting, installation and implementation services are generally billed based on hourly rates plus reimbursable travel-related expenses. For small service engagements, less than approximately \$10,000, the Company frequently contracts for and bills based on a fixed fee plus reimbursable travel-related expenses. The Company recognizes this revenue upon completion of the work performed. When the Company's services include software customization, these services are provided to support customer requests for assistance in creating special reports and other minor enhancements that will assist with efforts to improve operational efficiency and/or to support business process improvements. These services are not essential to the functionality of the Company's software and rarely exceed three months in duration. The Company recognizes revenue as these services are performed.

The Company recognizes analytic services revenue from donor prospect research engagements, the sale of lists of potential donors, benchmarking studies and data modeling service engagements upon delivery.

The Company sells training at a fixed rate for each specific class, at a per attendee price, or at a packaged price for several attendees, and revenue is recognized only upon the customer attending and completing training. Additionally, the Company sells a fixed-rate program, which permits customers to attend unlimited training over a specified contract period, typically one year, subject to certain restrictions. This revenue is recognized ratably over the contract period, which is typically one year.

The Company recognizes revenue from maintenance services ratably over the contract term, which is principally one year. Maintenance revenue also includes the right to unspecified product upgrades on an if-and-when available basis. Certain support services are sold in prepaid units of time and recognized as revenue upon their usage.

Subscription revenue includes revenue associated with hosted applications, hosting services, data enrichment services and online training programs. Subscription-based revenue and any related set-up fees are recognized ratably over the service period of the contract.

To the extent that the Company's customers are billed and/or pay for the above described services in advance of delivery, the amounts are recorded in deferred revenue.

(Unaudited)

Stock-based compensation

Effective January 1, 2006, the Company adopted the provisions of the FASB's Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment (SFAS No. 123(R)), using the modified prospective application method. SFAS No. 123(R) replaced SFAS No. 123, Accounting for Stock-Based Compensation (SFAS No. 123), and superseded Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25). Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the requisite service period, which is the vesting period. The provisions of SFAS No. 123(R) apply to grants made after the adoption date, awards modified, repurchased or cancelled after the adoption date and existing grants which were partially unvested at that date. Compensation expense for grants outstanding on the date of adoption is recognized over the remaining service period using the grant date fair values and amortization methods determined previously for the SFAS No. 123 pro forma disclosures.

No new stock options were issued in the three months ended March 31, 2007. During the three months ended March 31, 2007, 4,319 shares of restricted stock and 89,794 stock appreciation rights were granted. The aggregate grant date fair value of awards issued during the period was \$750,000, which will be recognized as expense over the requisite service period of the awards.

Stock-based compensation expense is allocated to expense categories on the statements of operations. The following table summarizes stock-based compensation for the three months ended March 31, 2007 and 2006.

(in thousands)	Three months ended March 31,	
	2007	2006
Included in cost of revenue:

Income taxes

Prior to October 13, 1999, the Company was organized as an S corporation under the Internal Revenue Code and, therefore, was not subject to federal income taxes. The Company historically made distributions to its stockholders to cover the stockholders' anticipated tax liability. In connection with its 1999 recapitalization, the Company converted its U.S. taxable status from an S corporation to a C corporation and, accordingly, since October 14, 1999 has been subject to federal and state income taxes. Upon this conversion and as a result of the recapitalization, the Company recorded a one-time benefit of \$107,000,000 to establish a deferred tax asset. This amount was recorded as a direct increase to equity in the statements of stockholders' equity. The Company has not recorded a valuation allowance against this item in its deferred tax asset as of March 31, 2007 or December 31, 2006, as the Company believes it will be able to utilize this benefit, which is dependent upon the Company's ability to generate taxable income.

The Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109, Accounting for Income Taxes, (FIN 48) on January 1, 2007. Under FIN 48 the tax benefit from an uncertain tax position must be recognized only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate resolution. Penalties and interest accrued related to unrecognized tax benefits are recognized in the provision for income taxes. The disclosure requirements and cumulative effect of adoption of FIN 48 are presented in Note 10.

Significant judgment is required in determining the provision for income taxes. The Company records its tax provision at the anticipated tax rates based on estimates of annual pretax income. To the extent that the final results differ from these estimated amounts that were initially recorded, such differences will impact the income tax provision in the period in which such determination is made and could have an impact on the deferred tax asset. The Company's deferred tax assets and liabilities are recorded at an amount based upon a U.S. federal income tax rate of 35.0%. This U.S. federal income tax rate is based on the Company's expectation that the Company's deductible and taxable

temporary differences will reverse over a period of years during which the Company will have annual taxable income exceeding \$10,000,000 per year. If the Company's results of operations fall below that threshold in the future, the Company will adjust its deferred tax assets and liabilities to an amount reflecting a reduced expected U.S. federal income tax rate, consistent with the corresponding expectation of lower taxable income. If such change is determined to be appropriate, it will affect the provision for income taxes during the period that the determination is made.

New accounting pronouncements

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Liabilities, including an amendment of FASB Statement No. 115 (SFAS No. 159). SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of SFAS No. 157 Fair Value Measurements (SFAS No. 157). The Company is still assessing the impact of the adoption of SFAS No. 159 on its consolidated financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, (SFAS No. 157) which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS No. 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. Earlier adoption is permitted, provided the company has not yet issued financial statements, including for interim periods, for that fiscal year. The Company does not expect the adoption of SFAS No. 157 to have a material impact on its consolidated financial position, results of operations or cash flows.

4. Business combination

On January 16, 2007, the Company acquired Target Software, Inc. and Target Analysis Group, Inc., or the Target Companies, privately-owned affiliated companies based in Cambridge, Massachusetts. The two acquired companies provide solutions that help organizations analyze, plan, forecast, execute, and manage high-volume fundraising campaigns while simultaneously helping them maintain long-term donor relationships. The acquisition of the Target Companies is expected to significantly advance the Company's strategic goal of providing a complete solution for meeting the fundraising and direct marketing needs of the nonprofit sector. The Target Companies were acquired for approximately \$58,705,000, including direct acquisition-related costs, in an all cash transaction that was financed by a combination of cash on hand and borrowings under the Company's credit facility. An additional amount of up to \$2,400,000 is contingently payable to the sellers under an earn-out arrangement based upon performance of the acquired businesses over the next year. The results of operations of the Target Companies are included in the consolidated financial statements of the Company from the date of acquisition.

As of March 31, 2007, the purchase accounting for this acquisition is still subject to final adjustment primarily for amounts allocated to other intangible assets based on preliminary valuation studies performed by a third-party valuation expert. The following table summarizes the preliminary allocation of the purchase price to the estimated fair values of the assets acquired and liabilities assumed in the acquisition of the Target Companies (in thousands):

Cash and cash equivalents	\$ 507
Accounts receivable	5,178
Other current assets	168
Property and equipment	2,291
Deferred tax assets	738
Intangible assets	22,323
Goodwill	37,193
Trade accounts payable	(611)
Accrued expenses and other current liabilities	(3,844)
Deferred revenue, current and noncurrent	(1,807)

Amounts due to stockholders, current	(1,921)
Capital lease obligations, current and noncurrent	(1,510)
Total purchase price	\$ 58,705

Table of Contents

Blackbaud, Inc.
Condensed notes to consolidated financial statements (continued)
March 31, 2007
(Unaudited)

The acquisition resulted in the identification of \$22,323,000 of intangible assets, all of which are subject to amortization. The following table presents the amounts assigned to each intangible asset class:

	Intangible assets acquired (in thousands)	Weighted average amortization period (in years)
Customer relationships	\$ 13,627	12.7
Software	3,655	10.0
Database	3,441	8.0
Marketing assets	800	5.0
Noncompetition agreements	800	5.0
Total	\$ 22,323	11.0

The following unaudited pro forma information presents the consolidated results of operations of the Company as if the acquisition of the Target Companies had taken place at the beginning of 2007 and 2006. The pro forma information includes the business combination effect of the amortization charges from acquired intangible assets, adjustments to interest income and related tax effects. The pro forma information does not necessarily reflect the actual results that would have occurred nor is it necessarily indicative of future results of operations.

	Three months ended March 31, 2007	2006 (Restated)

Net income	5,504	4,389
Earnings per share, basic	\$ 0.13	\$ 0.10
Earnings per share, diluted	0.12	0.10

5. Earnings per share

The Company computes earnings per common share in accordance with SFAS Statement No. 128, Earnings per Share (SFAS No. 128). Under the provisions of SFAS No. 128, basic earnings per share is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share is computed by dividing net income available to common stockholders by the weighted average number of common shares and dilutive potential common shares then outstanding. Diluted earnings per share reflect the assumed conversion of all dilutive securities, using the treasury stock method. Dilutive potential common shares consist of shares issuable upon the exercise of stock options and shares of non-vested restricted stock.

Diluted earnings per share for the three months ended March 31, 2007 and 2006 includes the effect of 1,170,524 and 1,716,306 potential common shares, respectively, as they are dilutive. There were no anti-dilutive potential common

shares outstanding for the three months ended March 31, 2007 and 2006.

7. Accrued expenses and other current liabilities

Accrued expenses and other current liabilities consisted of the following as of March 31, 2007 and December 31, 2006:

(in thousands)	March 31, 2007	December 31, 2006
Accrued bonuses	\$ 2,656	\$ 4,599
Accrued commissions and salaries	1,724	1,954
Customer credit balances	1,163	1,060
Taxes payable	6,404	4,703
Accrued accounting and legal fees	1,261	1,278
Accrued health care costs	497	489
Other	2,926	1,964
Total accrued expenses and other current liabilities	\$ 16,631	\$ 16,047

8. Revolving credit facility

On September 3, 2004, the Company entered into a \$30,000,000 million revolving credit facility. Amounts borrowed under the \$30,000,000 million revolving credit facility bear interest, at the Company's option, at a variable rate based on either the prime rate, federal funds rate or LIBOR plus a margin of between 0.5% and 2.0% based on the Company's consolidated leverage ratio as defined. Amounts outstanding under the facility are not secured by a lien on the Company's assets, but are guaranteed by the Company's operating subsidiaries and the facility is subject to covenants, including a maximum leverage ratio, minimum interest coverage ratio and minimum net worth.

In January 2007, the Company borrowed \$30,000,000 under the credit facility in connection with the acquisition of the Target Companies. As of March 31, 2007, there was \$20,000,000 in principal outstanding under the credit facility and the annual interest rate was 6.82%. The Company is currently in compliance with all covenants under the agreement. The termination date of the facility is September 30, 2007.

9. Commitments and contingencies

The Company currently leases various office space and equipment under operating leases. In addition to operating leases, the Company, through its acquisition of the Target Companies, has various non-cancellable capital leases for computer equipment and furniture. The future minimum lease commitments related to these lease agreements, as well as the lease agreements discussed below, net of related sublease commitments, are as follows:

Year ending December 31, (in thousands)	Operating leases	Capital leases
2007	\$ 5,370	\$ 465
2008	6,852	583
2009	7,199	387
2010	4,092	166
2011 and thereafter	217	39
Total minimum lease payments	\$ 23,730	\$ 1,640

Less: portion representing interest	222
Present value of net minimum lease payments	1,418
Less: current portion	488
Long-term portion	\$ 930

(Unaudited)

Lease agreement

On October 13, 1999, the Company entered into a lease agreement for office space with Duck Pond Creek, LLC, which is owned by certain current and former minority stockholders of the Company. The term of the lease is for ten years with two five-year renewal options by the Company. The current annual base rent of the lease is \$4,809,000 payable in equal monthly installments. The base rate escalates annually at a rate equal to the change in the consumer price index, as defined in the agreement.

The Company has subleased a portion of its headquarters facility under various agreements extending through 2008. Under these agreements, rent expense was reduced by \$108,000 and \$121,000 for the three months ended March 31, 2007 and 2006, respectively. The operating lease commitments will be reduced by minimum aggregate sublease commitments of \$350,000 and \$128,000 for the years 2007 and 2008, respectively. The Company has also received and expects to receive through 2015, quarterly South Carolina state incentive payments as a result of locating its headquarters facility in Berkeley County, South Carolina. These amounts are recorded as a reduction of rent expense and were \$364,000 and \$427,000 for the three months ended March 31, 2007 and 2006, respectively.

Other commitments

The Company has a commitment of \$200,000 payable annually through 2009 for certain naming rights on a stadium in Charleston, South Carolina. The Company incurred expense under this agreement of \$50,000 for each of the three-month periods ended March 31, 2007 and 2006.

The Company utilizes third-party relationships in conjunction with its products. The contractual arrangements vary in length from two to four years. In certain cases, these arrangements require a minimum annual purchase commitment. The aggregate minimum purchase commitment under these arrangements at March 31, 2007 is approximately \$864,000 through 2009. The Company incurred expense under these arrangements of \$195,000 and \$129,000 for the three months ended March 31, 2007 and 2006, respectively.

Legal contingencies

The Company is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Company does not believe the amount of potential liability with respect to these actions will have a material adverse effect upon the Company's financial position or results of operations.

10. Income taxes

Income taxes for the three-month period ended March 31, 2007 were calculated using the projected effective tax rate for fiscal 2007 in accordance with SFAS No. 109. The 2007 estimated annual effective tax rate of 39.2%, which excludes period-specific items, was applied as the effective rate for the quarter ended March 31, 2007. The Company's effective tax rates for the three-month periods ended March 31, 2007 and 2006 was 37.5% and 39.2%, respectively. As of March 31, 2007, the Company had state tax credits of \$10,142,000, \$6,592,000 net of federal tax effect, which will expire between 2009 and 2020, if unused. These tax credits had a valuation reserve of approximately \$4,917,000, \$3,191,000 net of federal tax effect, as of December 31, 2006. During the three months ended March 31, 2007, the valuation allowance was increased \$83,000 for state credits that are expected to expire unused.

Excess tax benefits on stock option exercises of approximately \$446,000 and \$2,924,000 were recorded in stockholders' equity in the three months ended March 31, 2007 and 2006, respectively.

The Company adopted the provisions of FIN 48 on January 1, 2007. As a result, the Company recognized a \$269,000 reduction, including interest and penalties and net of applicable taxes, to the January 1, 2007 balance of retained earnings. The amount of the Company's unrecognized tax benefits as of January 1, 2007 was \$642,000, of which \$417,000 would impact the effective rate of the Company if recognized. As of the date of adoption, the total amount of accrued interest and penalties was \$334,000. No significant change in the gross amount of unrecognized tax benefits is expected within the next 12 months. In the three months ended March 31, 2007, changes in accrued interest, penalties and unrecognized tax benefits as a result of tax positions taken in current and prior years were insignificant.

Table of Contents

Blackbaud, Inc.
Condensed notes to consolidated financial statements (continued)
March 31, 2007
(Unaudited)

The Company recognizes penalties and interest accrued related to unrecognized tax benefits in the provision for income taxes.

The Company files U.S. federal, state and certain foreign country tax returns. None of the Company's tax returns are currently under examination by tax authorities. The statute of limitations for examinations of our U.S. federal and most other returns is open for tax years 2003 through our most recent filings.

11. Stockholders' equity

Preferred stock

The Company has authorized 20,000,000 shares of preferred stock. No shares were issued and outstanding at March 31, 2007 and December 31, 2006. The Company's Board of Directors may fix the relative rights and preferences of each series of preferred stock in a resolution of the Board of Directors.

Dividends

On February 2, 2007, the Company's Board of Directors approved an increase to the Company's annual dividend from \$0.28 per share to \$0.34 per share and declared its first quarter dividend of \$0.085 per share, which was paid on March 15, 2007 to stockholders of record on February 28, 2007.

Stock repurchase program

On July 26, 2005, the Company's Board of Directors approved a stock repurchase program that authorized the Company to purchase up to \$35,000,000 of the Company's outstanding shares of common stock. The shares could be purchased in conjunction with a public offering of the Company's stock, from time to time on the open market or in privately negotiated transactions depending upon market conditions and other factors, all in accordance with the requirements of applicable law. In the three months ended March 31, 2007, the Company repurchased 620,878 shares under this program at an average price per share of \$22.64. The Company accounts for purchases of treasury stock under the cost method which resulted in an increase to the treasury stock balance of \$14,079,000 as of March 31, 2007. This plan was still in effect at March 31, 2007. The remaining amount available to purchase stock under this plan was \$6,181,000 as of March 31, 2007.

In addition to the Company's stock repurchase plan, 1,190 shares, totaling \$26,000, were purchased from restricted stock holders to satisfy their tax obligations due upon vesting of restricted stock during the three months ended March 31, 2007.

12. Segment information

The Company has adopted SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information" (SFAS No. 131). SFAS No. 131 establishes standards for the reporting by business enterprises of information about operating segments, products and services, geographic areas and major customers. The method of determining what information is reported is based on the way that management organizes the operating segments within the Company for making operational decisions and assessments of financial performance. The Company has determined that its reportable segments are those that are based upon internal financial reports that disaggregate operating information into various reportable segments. The Company's chief operating decision maker, as defined in SFAS No. 131, is its chief executive officer, or CEO.

Table of Contents

13. Subsequent events

On May 1, 2007, the Company's Board of Directors declared a second quarter dividend of \$0.085 per share payable on June 15, 2007 to stockholders of record on May 28, 2007.

17

Table of Contents

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q. This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements reflect our current view with respect to future events and financial performance and are subject to risks and uncertainties, including those set forth under "Cautionary statement" included in this "Management's discussion and analysis of financial condition and results of operations" and elsewhere in this report, that could cause actual results to differ materially from historical or anticipated results.

Overview

We are the leading global provider of software and related services designed specifically for nonprofit organizations. Our products and services enable nonprofit organizations to increase donations, reduce fundraising costs, improve communications with constituents, manage finances and optimize internal operations. We have focused solely on the nonprofit market since our incorporation in 1982 and have developed our suite of products and services based upon our extensive knowledge of the operating challenges facing nonprofit organizations. As of March 31, 2007, we had approximately 16,000 customers. Our customers operate in multiple verticals within the nonprofit market, including religion, education, foundations, health and human services, arts and cultural, public and societal benefits, environment and animal welfare and international foreign affairs.

We derive revenue from selling perpetual licenses or charging for the use of our software products and providing a broad offering of services, including consulting, training, installation, implementation, as well as ongoing customer support and maintenance. Consulting, training and implementation are generally not essential to the functionality of our software products and are sold separately. Furthermore, we derive revenue from providing hosting services, performing donor prospect research engagements, selling lists of potential donors, providing benchmarking studies and data modeling services.

Restatement of financial statements

During the preparation of the our Form 10-Q as of and for the quarter ended March, 31, 2007, we determined that SAB 108 was misapplied in connection with reporting our consolidated financial position and results of operations as of and for the period ended December 31, 2006. As a result, we are restating our financial statements to reflect the impact of this error correction, in accordance with Financial Accounting Standards Board's (FASB) 154, Accounting Changes and Error Corrections. The results of operations for the three months ended March 31, 2006 included in the following discussion and analysis have been restated to reflect the impact of this error correction.

Critical accounting policies and estimates

Our discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of revenue and expenses during the reporting period and related disclosures of contingent assets and liabilities. The most significant estimates and assumptions relate to our revenue recognition, our allowance for sales returns and doubtful accounts, valuation of long-lived and intangible assets and goodwill, stock-based compensation and provision for income taxes and valuation of deferred tax assets.

We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. On an ongoing basis, we reconsider and evaluate our estimates and assumptions. We are not aware of any circumstances in the past that have caused these estimates and assumptions to be materially wrong. Furthermore, we are not currently aware of any material changes in our business that might cause these assumptions or estimates to differ significantly. In our discussion below of deferred taxes, the most significant asset subject to such assumptions and estimates, we have described the sensitivity of these assumptions or estimates to potential deviations in actual results. Actual results could differ from any of our estimates

under different assumptions or conditions.

Table of Contents

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations (continued)

We believe the critical accounting policies listed below affect significant judgments and estimates used in the preparation of our consolidated financial statements.

Revenue recognition

Our revenue is generated primarily by selling perpetual licenses or charging for the use of our software products and providing support, training, consulting, technical and other professional services for those products. We make available certain software products for use in hosted application arrangements without licensing perpetual rights to the software (hosted applications). Additionally we provide hosting services to customers who have purchased perpetual rights to our software products (hosting services). We recognize revenue in accordance with:

The American Institute of Certified Public Accountants Statements of Position (SOP) 97-2, Software Revenue Recognition, as modified by SOPs 98-4 and 98-9, as well as Technical Practice Aids issued from time to time by the American Institute of Certified Public Accountants,

The SEC Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition in Financial Statements,

The Emerging Issues Task Force (EITF) Issue No. 00-03, Application of AICPA Statement of Position 97-2 to Arrangements that Include the Right to Use Software Stored on Another Entity's Hardware and

The EITF Issue No. 00-21, Revenue Arrangements with Multiple Deliverables.

We recognize revenue from the sale of perpetual license rights to software when persuasive evidence of an arrangement exists, the product has been delivered, title and risk of loss have transferred to the customers, the fee is fixed or determinable and collection of the resulting receivable is probable. We deem acceptance of an agreement to be evidence of an arrangement. Delivery occurs when the product is delivered. Our typical license agreement does not include customer acceptance provisions; if acceptance provisions are provided, delivery is deemed to occur upon acceptance. We consider the fee to be fixed or determinable unless the fee is subject to refund or adjustment or is not payable within the our standard payment terms. We consider payment terms greater than 90 days to be beyond its customary payment terms. We deem collection probable if we expect that the customer will be able to pay amounts under the arrangement as they become due. If we determine that collection is not probable, we postpone recognition of the revenue until cash collection. We sell software licenses with maintenance and, often times, professional services. We allocate revenue to delivered components, normally the license component of the arrangement, using the residual value method based on objective evidence of the fair value of the undelivered elements, which is specific to us. Fair value for the maintenance services associated with our software licenses is based upon renewal rates stated in our agreements, which vary according to the level of the maintenance program. Fair value of professional services and other products and services is based on sales of these products and services to other customers when sold on a stand-alone basis.

The application of SOP 97-2 requires judgment, including whether a software arrangement includes multiple elements, and if so, whether vendor-specific objective evidence (VSOE) of fair value exists for those elements. As we develop new products, we may experience difficulty in determining VSOE regarding the fair value of those new products. This would result in the deferral of revenue on those transactions until all elements of the arrangement have been delivered or until VSOE is established.

Our services, which include consulting, installation and implementation services, are generally billed based on hourly rates plus reimbursable travel-related expenses. For small service engagements, less than approximately \$10,000, we frequently contract for and bill based on a fixed fee plus reimbursable travel-related expenses. We recognize this revenue upon completion of the work performed. When our services include software customization, these services are provided to support customer requests for assistance in creating special reports and other minor enhancements that will assist with efforts to improve operational efficiency and/or to support business process improvements. These services are not essential to the functionality of our software and rarely exceed three months in duration. We recognize revenue as these services are performed.

We recognize analytic services revenue from donor prospect research engagements, sale of lists of potential donors, benchmarking studies and data modeling service engagements upon delivery.

We sell training at a fixed rate for each specific class, at a per attendee price, or at a packaged price for several attendees, and revenue is recognized only upon the customer attending and completing training. Additionally, we sell a fixed-rate program, which permits customers to attend unlimited training over a specified contract period, typically one year, subject to certain restrictions. This revenue is recognized ratably over the contract period, which is typically one year.

Table of Contents

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations (continued)

We recognize revenue from maintenance services ratably over the contract term, which is principally one year. Maintenance revenue also includes the right to unspecified product upgrades on an if-and-when available basis. Certain support services are sold in prepaid units of time and recognized as revenue upon their usage. Subscription revenue includes revenue associated with hosted applications, hosting services, data enrichment services and online training programs. Subscription-based revenue and any related set-up fees are recognized ratably over the service period of the contract.

To the extent that our customers are billed and/or pay for the above described services in advance of delivery, the amounts are recorded in deferred revenue.

Sales returns and allowance for doubtful accounts

We provide customers a 30-day right of return and maintain a reserve for returns. We estimate the amount of this reserve based on historical experience. Provisions for sales returns are charged against the related revenue items. We maintain an allowance for doubtful accounts at an amount we estimate to be sufficient to provide adequate protection against losses resulting from extending credit to our customers. In judging the adequacy of the allowance for doubtful accounts, we consider multiple factors including historical bad debt experience, the general economic environment, the need for specific customer reserves and the aging of our receivables. Any necessary provision is reflected in general and administrative expense. A considerable amount of judgment is required in assessing these factors and if any receivables were to deteriorate, an additional provision for doubtful accounts could be required.

Valuation of long-lived and intangible assets and goodwill

We review identifiable intangible and other long-lived assets for impairment when events change or circumstances indicate the carrying amount may not be recoverable. Events or changes in circumstances that indicate the carrying amount may not be recoverable include, but are not limited to, a significant decrease in the market value of the business or asset acquired, a significant adverse change in the extent or manner in which the business or asset acquired is used or significant adverse change in the business climate. If such events or changes in circumstances occur, we use the undiscounted cash flow method to determine whether the asset is impaired. Cash flows would include the estimated terminal value of the asset and exclude any interest charges. To the extent that the carrying value of the asset exceeds the undiscounted cash flows over the estimated remaining life of the asset, we measure the impairment using discounted cash flows. The discount rate utilized would be based on our best estimate of our risks and required investment returns at the time the impairment assessment is made.

In accordance with FASB's Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets (SFAS No. 142), we test goodwill for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test compares the fair value of the reporting unit with its carrying amount. If the carrying amount exceeds its fair value, impairment is indicated. The impairment is measured as the excess of the recorded goodwill over its fair value, which could materially adversely impact our financial position and results of operations. Goodwill is assigned to various reporting units.

Stock-based compensation

Effective January 1, 2006, we adopted the provisions of the FASB's Statement No. 123 (revised 2004), Share-Based Payment (SFAS No. 123(R)), using the modified prospective application method. SFAS No. 123(R) replaced SFAS No. 123, Accounting for Stock-Based Compensation (SFAS No. 123) and supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25). Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the requisite service period, which is the vesting period. Under the modified prospective application method, prior periods are not revised for comparative purposes. The provisions of SFAS No. 123(R) apply to grants made after the adoption date and existing grants which were partially unvested at that date. Compensation expense for grants outstanding on the date of adoption are recognized over the remaining service period using the grant date fair values and amortization methods determined previously for the SFAS No. 123 pro forma disclosures.

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations (continued)

Provision for income tax and valuation of deferred tax assets

We account for income taxes using the asset and liability approach as prescribed by SFAS Statement No. 109,

Accounting for Income Taxes. This approach requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the consolidated financial statements or income tax returns. Using the enacted tax rates in effect for the year in which we expect the differences to reverse, we determine deferred tax assets and liabilities based on the differences between the financial reporting and the tax basis of an asset or liability. We record a valuation allowance when it is more likely than not that the deferred tax asset will not be realized.

Significant judgment is required in determining our income taxes in each of the jurisdictions in which we operate. This process involves estimating our actual current tax exposure together with assessing temporary differences resulting from differing treatment of items, such as deferred revenue, for tax and accounting purposes. These differences result in a net deferred tax asset, which is included on our consolidated balance sheets. The final tax outcome of these matters might be different than that which is reflected in our historical income tax provisions, benefits and accruals. Any difference could have a material effect on our income tax provision and net income in the period in which such a determination is made.

Prior to October 13, 1999, we were organized as an S corporation under the Internal Revenue Code and, therefore, were not subject to federal income taxes. In addition, we were not subject to income tax in many of the states in which we operated as a result of our S corporation status. We historically made distributions to our stockholders to cover the stockholders' anticipated tax liability. In connection with our 1999 recapitalization (see Note 3 to the consolidated financial statements), we converted our U.S. taxable status from an S corporation to a C corporation. Accordingly, since October 14, 1999 we have been subject to federal and state income taxes. Upon the conversion and in connection with the recapitalization, we recorded a one-time benefit of \$107.0 million to establish a deferred tax asset as a result of the recapitalization agreement.

We must assess the likelihood that the net deferred tax asset will be recovered from future taxable income and to the extent we believe that recovery is not likely, we must establish a valuation allowance. To the extent we establish a valuation allowance; we must include an expense within the tax provision in the statement of operations. Except with respect to certain state income tax credits, we have not recorded a valuation allowance as of March 31, 2007 and December 31, 2006, because we expect to be able to utilize our entire net deferred tax asset. The ability to utilize our net deferred tax asset is solely dependent on our ability to generate future taxable income. Based on current estimates of revenue and expenses, we expect future taxable income will be more than sufficient to recover the annual amount of additional tax deductions permitted. Even if actual results are significantly below our current estimates, the recovery still remains likely and no valuation allowance would be necessary.

Significant judgment is required in determining the provision for income taxes. To the extent that the final results differ from these estimated amounts that were initially recorded, such differences will impact the income tax provision in the period in which such determination is made and could have an impact on the deferred tax asset. Our deferred tax assets and liabilities are recorded at an amount based upon a blended U.S. federal income tax rate of 35.0%. This U.S. federal income tax rate is based on our expectation that deductible and taxable temporary differences will reverse over a period of years during which we will have annual taxable income exceeding \$10.0 million per year. If our results of operations fall below that threshold in the future, we will adjust its deferred tax assets and liabilities to an amount reflecting a reduced expected U.S. federal income tax rate, consistent with the corresponding expectation of lower taxable income. If such change is determined to be appropriate, it will affect the provision for income taxes during the period that the determination is made.

We adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109, Accounting for Income Taxes, (FIN 48) on January 1, 2007. Under FIN 48 we must recognize the tax impact from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax impact recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50%

likelihood of being realized upon ultimate resolution. Penalties and interest related to uncertain tax positions are recorded as tax expense.

Contingencies

We are subject to the possibility of various loss contingencies in the normal course of business. We accrue for loss contingencies when a loss is estimable and probable.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)****Results of operations**

The following table sets forth our consolidated statements of operations data expressed as a percentage of total revenue for the periods indicated.

	Three months ended March	
	2007	31, 2006 (Restated)
Revenue		
License fees	14.6%	16.6%
Services	33.2	31.5
Maintenance	40.7	43.7
Subscriptions	8.7	5.2
Other revenue	2.8	3.0
Total revenue	100.0%	100.0%
Cost of revenue		
Cost of license fees	0.9	1.5
Cost of services	22.0	18.6
Cost of maintenance	7.3	7.4
Cost of subscriptions	3.4	1.3
Cost of other revenue	2.5	2.5
Total cost of revenue	36.1	31.3
Gross profit	63.9	68.7
Operating expenses		
Sales and marketing	23.4	21.4
Research and development	12.4	13.8
General and administrative	11.1	12.5
Amortization	0.2	0.3

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**
Comparison of the three months ended March 31, 2007 and 2006

We completed the acquisition of Target Software, Inc. and Target Analysis Group, Inc., together referred to as the Target Companies, on January 16, 2007. The results of operations from the Target Companies are included in our consolidated results of operations from the date of acquisition.

Revenue

The table below compares revenue from our statement of operations for the first three months of 2007 with the same period of 2006.

(in millions)	Three months ended March 31,		Change	% Change
	2007	2006		
		(Restated)		
License fees	\$ 8.1	\$ 7.2	\$ 0.9	13%
Services	18.3	13.7	4.6	34%
Maintenance	22.4	19.0	3.4	18%
Subscriptions	4.8	2.3	2.5	109%
Other	1.5	1.3	0.2	15%
Total revenue	\$ 55.1	\$ 43.5	\$ 11.6	27%

Total revenue increased \$11.6 million, or 27%, in the first quarter of 2007 compared to the first quarter of 2006. A total of \$4.2 million or 36% of this increase was attributable to the inclusion of the Target Companies in our consolidated results of operations. The remaining increase in revenue in the first quarter of 2007 is due to growth in services and license fees to new and existing customers as well as the introduction of new product offerings. Also contributing to the growth is revenue from new maintenance contracts associated with these new license agreements and existing client increases and revenue from our subscription offerings.

Segment results

We analyze our business according to our six operating segments as identified in Note 12, which are license fees, consulting and education services, analytic services, maintenance, subscriptions and other. The analysis provided below is presented before the inclusion of various allocable corporate costs such as depreciation, facilities and IT support costs, stock-based compensation and amortization because, in managing our operations, we believe such costs significantly affect our ability to better understand and manage other operating expenses and cash needs.

License fees

(in millions)	Three months ended March 31,		Change	% Change
	2007	2006		
License fee revenue	\$ 8.1	\$ 7.2	\$ 0.9	13%
Direct controllable cost of license fees	0.5	0.7	(0.2)	(29)%
Segment income	\$ 7.6	\$ 6.5	\$ 1.1	17%
Segment margin %	94%	90%		

Revenue from license fees is derived from the sale of our software products, under a perpetual license agreement. License fee revenue growth in the first quarter of 2007, which is primarily volume driven, is attributable to a \$0.7 million increase in sales to existing clients and \$0.1 million increase in product sales to new customers. Direct controllable cost of license fees includes third-party software royalties, variable reseller commissions and costs of shipping software products to our customers. The decrease in cost of license fees in the first quarter of 2007 was primarily due to the elimination of reseller commissions that have declined by \$0.1 million as a result of the discontinued use of that sales channel, together with reduced third-party royalty expense of \$0.1 million associated with Patron Edge, our ticketing software. License fee revenue growth together with the decrease in cost of license fees contributed to expansion of margin year over year.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)***Consulting and education services*

(in millions)	Three months ended March 31,		Change	% Change
	2007	2006		
Consulting and education services revenue	\$ 15.3	\$ 12.5	\$ 2.8	22%
Direct controllable cost of consulting and education services	8.9	6.3	2.6	41%
Segment income	\$ 6.4	\$ 6.2	\$ 0.2	3%
Segment margin %	42%	50%		

Consulting and education services revenue consists of consulting, installation, implementation and education services. Consulting, installation and implementation services involve converting data from a customer's existing system, assistance in file set up and system configuration, and/or process re-engineering. Education services involve customer training activities.

The rates charged for our service offerings have remained relatively constant year over year and, as such, the increase in revenue in the first quarter of 2007 is principally the result of increased volume of services provided. The increase in revenue is comprised of a \$2.4 million increase in consulting, installation and implementation services delivered, of which \$1.0 million is attributable to the Target Companies and a \$0.4 million increase in education services delivered. Cost of consulting and education services is principally comprised of human resource costs, third-party contractor expenses, classroom rentals and other costs incurred in providing consulting, installation and implementation services and customer training. During the first quarter of 2007, salary, benefit and bonus expense increased \$1.8 million compared to the first quarter of 2006 as we increased headcount to meet growing customer demand. A total of \$0.5 million, or 28%, of the increase in salary, benefits and bonus expense is due to additional headcount resulting from the Target Companies. Other increases include increased travel-related expenses, relocation and recruiting costs and services from contractors totaling \$0.7 million associated with increased service delivery.

The margin decrease in the first quarter of 2007 compared to the first quarter of 2006 is primarily due to increased human resource costs related to our successful hiring efforts in 2007 and lower utilization as a result of a greater percentage of headcount being trained during the quarter compared to the prior year. Additionally, average billing rates for our consultants have remained relatively constant while consultants' salaries and related human resource costs have increased year over year contributing to the margin decrease.

Analytic services

(in millions)	Three months ended March 31,		Change	% Change
	2007	2006		
Analytic services revenue	\$ 3.0	\$ 1.2	\$ 1.8	150%
Direct controllable cost of analytic services	1.5	0.8	0.7	88%
Segment income	\$ 1.5	\$ 0.4	\$ 1.1	275%
Segment margin %	50%	33%		

Analytic services, which are comprised of donor prospect research, benchmarking studies and data modeling services involve the assessment of current and prospective donor information of the customer. The end product enables the customer to more effectively target its fundraising activities. These assessments are performed using our proprietary analytical tools. Revenue from analytic services increased 150% in the first quarter of 2007 compared to the first quarter of 2006. The increase in analytic services is comprised of a \$1.8 million increase in donor prospect research, sales of lists of potential donors, benchmarking studies and data modeling services delivered, of which \$1.2 million is attributable to the Target Companies.

Cost of analytic services is primarily comprised of human resource costs and data expense incurred to perform analytic services. The increase in cost of analytic services in the first quarter of 2007 compared to the first quarter of 2006 is due to an increase in headcount in connection with the Target Companies. Salary, benefits and bonus expense increased \$0.7 million in the first quarter of 2007 compared to the first quarter of 2006, of which \$0.6 million is directly related to the Target Companies. Additionally, the costs of data used to perform analytics increased \$0.1 million.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**

The analytic services margin increase in the first quarter of 2007 compared to the first quarter of 2006 is primarily due to a decrease in the variable cost of data used to perform analytic services. Additionally, lower travel, relocation and recruiting costs contributed to the margin increase, offset partially by an increase in human resource related costs as a percentage of revenue.

Maintenance

(in millions)	Three months ended March 31,		Change	% Change
	2007	2006 (Restated)		
Maintenance revenue	\$ 22.4	\$ 19.0	\$ 3.4	18%
Direct controllable cost of maintenance	3.2	2.6	0.6	23%
Segment income	\$ 19.2	\$ 16.4	\$ 2.8	17%
Segment margin %	86%	86%		

Revenue from maintenance is comprised of annual fees derived from maintenance contracts associated with new software licenses and annual renewals of existing maintenance contracts. These contracts provide customers updates, enhancements, upgrades to our software products and online, telephone and email support. The maintenance revenue increase in the first quarter of 2007 compared to the first quarter of 2006 is comprised of \$3.0 million of new maintenance contracts associated with new license agreements, including new products, \$0.5 million from maintenance agreements associated with customers of the Target Companies and \$0.5 million from maintenance contract inflationary rate adjustments, offset by \$0.8 million of maintenance contracts that were not renewed. Direct controllable cost of maintenance is primarily comprised of human resource costs, third-party contractor expenses, third-party royalty costs and data expenses, and other costs incurred in providing support and services to our customers. During the first quarter of 2007 the cost of maintenance increase is principally the result of a \$0.5 million increase in salary, benefits and bonus expense, of which \$0.2 million is due to additional headcount from the Target Companies. The maintenance margin remained relatively unchanged in the first quarter of 2007 compared with the first quarter of 2006.

Subscriptions

(in millions)	Three months ended March 31,		Change	% Change
	2007	2006 (Restated)		
Subscriptions revenue	\$ 4.8	\$ 2.3	\$ 2.5	109%
Direct controllable cost of subscriptions	1.5	0.5	1.0	200%
Segment income	\$ 3.3	\$ 1.8	\$ 1.5	83%
Segment margin %	69%	78%		

Revenue from subscriptions is principally comprised of revenue from access to hosted applications, application hosting services, access to certain data services and our online subscription training offerings. The increase in

subscriptions revenue in the first quarter of 2007 compared to the first quarter of 2006 is principally due to a \$1.9 million increase in revenue from access to our hosted applications, of which \$1.4 million is attributable to the Target Companies. Additionally, revenue from our application hosting services increased \$0.3 million and revenue from our online analytics products increased \$0.3 million.

Direct controllable cost of subscriptions is primarily comprised of human resource costs, third-party royalty and data expenses, hosting expenses, and other costs incurred in providing support and services to our customers. The increase in the cost of subscriptions in the first quarter of 2007 compared to the first quarter of 2006 is primarily due to an increase in salary, benefits and bonus expenses, which increased \$0.9 million, of which \$0.8 million is due to additional headcount from the Target Companies. Additionally, there was a \$0.1 million increase in third-party royalty and data expenses.

The decrease in subscriptions margin in the first quarter of 2007 compared to the first quarter of 2006 is predominantly due to higher salaries, benefits and bonus expense as we increased the size of our workforce from the Target Companies.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)*****Other revenue***

(in millions)	Three months ended March 31,			%
	2007	2006	Change	Change
Other revenue	\$ 1.5	\$ 1.3	\$ 0.2	15%
Direct controllable cost of other revenue	1.3	1.1	0.2	18%
Segment income	\$ 0.2	\$ 0.2	\$	0%
Segment margin %	13%	15%		

Other revenue includes the sale of business forms that are used in conjunction with our software products; reimbursement of travel and related expenses, primarily incurred during the performance of services at customer locations; fees from user conferences; and sale of hardware in conjunction with The Patron Edge. Other revenue increased in the first quarter of 2007 primarily due to a \$0.2 million increase in reimbursable travel costs from our services businesses compared to the first quarter of 2006.

Direct controllable cost of other revenue includes human resource costs, costs of business forms and reimbursable expense relating to the performance of services at customer locations. The increase in the first quarter of 2007 compared to the first quarter of 2006 is due to a \$0.2 million increase in reimbursable expenses related to providing services at clients' sites. The margin decrease is due primarily to increases in conference costs and other expenses as a percentage of other revenue.

Operating expenses

The operating expenses analyzed below exclude stock-based compensation expense. Stock-based compensation expense is analyzed, in total, in the section following the operating expense analysis.

Sales and marketing

(in millions)	Three months ended March 31,			%
	2007	2006	Change	Change
Sales and marketing expense	\$ 12.7	\$ 9.1	\$ 3.6	40%
Percentage of revenue	23%	21%		

Sales and marketing expenses include salaries and related human resource costs, travel related expenses, sales commissions, advertising and marketing materials, public relations and an allocation of depreciation, facilities and IT support costs. The increase in sales and marketing expenses in the first quarter of 2007 compared to the first quarter of 2006 in absolute dollars and as a percentage of revenue is principally due to increases in the size and skill set of our sales force. During the first quarter of 2007, salaries, benefits and bonus expense increased \$1.9 million, of which \$0.7 million is due to additional headcount from the Target Companies. Additionally, commissions increased \$0.8 million due to higher commissionable sales. Other increases include higher sales and marketing expenses and travel related expenses totaling \$0.6 million and higher allocated costs of \$0.3 million of which \$0.1 million is attributed to the Target Companies.

Research and development

**Three months
ended March 31,**

(in millions)	2007	2006	Change	% Change
Research and development expense	\$ 6.6	\$ 5.8	\$ 0.8	14%
Percentage of revenue	12%	13%		

Research and development expenses include salaries and related human resource costs, third-party contractor expenses, software development tools and other expenses related to developing new products, upgrading and enhancing existing products and an allocation of depreciation, facilities and IT support costs. During the first quarter of 2007, the increase in research and development costs is primarily due to a \$0.6 million increase in salaries, benefits and bonus expense associated with increased headcount as development projects with offshore contractors ended during the fourth quarter of 2006 and additional staffing was needed to develop new product offerings internally. New headcount from the Target Companies contributed an additional \$0.3 million increase in salaries, benefits and bonus expense. A further increase of

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**

\$0.2 million is attributable to higher allocated costs. These increases were offset by a \$0.4 million decrease in outside contractor expenses as a result of the discontinued use of offshore contractors.

General and administrative

(in millions)	Three months ended March 31,			% Change
	2007	2006	Change	
General and administrative expense	\$ 5.2	\$ 4.1	\$ 1.1	27%
Percentage of revenue	9%	9%		

General and administrative expenses consist primarily of human resource costs for general corporate functions, including finance, accounting, legal, human resources, corporate development, third-party professional fees, insurance, an allocation of depreciation, facilities and IT support, and other administrative expenses. During the first quarter of 2007, general and administrative expenses increased \$1.1 million compared to the first quarter of 2006. This increase was primarily driven by a \$0.5 million increase in salaries, benefits and bonus expense associated with additional headcount. Other increases include higher professional fees, other administrative costs, and recruiting and relocation costs, totaling \$0.5 million. General and administrative expenses remained constant as a percentage of revenue in the first quarter of 2007 compared to the first quarter of 2006.

Stock-based compensation

Beginning on January 1, 2006, we adopted SFAS No. 123(R), using the modified prospective transition method. The adoption of SFAS No. 123(R) had a significant impact on our results of operations. SFAS No. 123(R) requires us to recognize compensation expense related to stock-based awards to employees.

Our consolidated statements of operations for the three months ended March 31, 2007 and 2006 includes \$1.7 million and \$2.0 million of stock-based compensation expense, respectively, illustrated below:

(in thousands)	Three months ended March 31,			% Change
	2007	2006	Change	
Included in cost of revenue:				
Cost of services	\$ 157	\$ 140	\$ 17	12%
Cost of maintenance	47	29	18	62
Cost of subscriptions	10	4	6	150
Total included in cost of revenue	214	173	41	24
Included in operating expenses:				
Sales and marketing	260	220	40	18
Research and development	269	191	78	41
General and administrative	969	1,390	(421)	(30)
Total included in operating expenses	1,498	1,801	(303)	(17)
Total	\$ 1,712	\$ 1,974	\$ (262)	(13)%

The decrease in total stock-based compensation in the first quarter of 2007 compared to the first quarter of 2006 is the result of using the accelerated method for recognizing stock-based compensation expense associated with stock options. This method results in the recognition of more expense in the earlier periods of vesting when compared with the straight-line method of amortization, which results in equal amounts of expense in all vesting periods. The decrease in stock option expense is offset by an increase in compensation expense from restricted stock awards due to an increase in number of awards granted and the higher fair value of those awards. Additionally, grants of stock appreciation rights, which began in the fourth quarter of 2006, contributed to an increase in stock-based compensation expense.

Amortization

Amortization expense was \$0.6 million and \$0.1 million for the three months ended March 31, 2007 and 2006, respectively. The increase is directly attributable to the Target Companies which resulted in the recognition of approximately \$22.3 million in identifiable intangible assets with lives ranging from 3 to 15 years.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**

Amortization expense is allocated according to the nature of the respective identifiable intangible asset and, to the extent associated directly with revenue, we allocate amortization expense to the respective cost of revenue.

Amortization expense included in our consolidated statements of operations, is illustrated below:

(in thousands)	Three months ended March 31,			%
	2007	2006	Change	Change
Included in cost of revenue:				
Cost of license fees	\$ 24	\$	\$ 24	100%
Cost of services	221		221	100
Cost of maintenance	78		78	100
Cost of subscriptions	189		189	100
Cost of other revenue	16		16	100
Total included in cost of revenue	528		528	100
Included in operating expenses:	84	129	(45)	(35)
Total	\$ 612	\$ 129	\$ 483	374%

Interest expense

Interest expense was \$0.4 million in the first quarter of 2007 compared with less than \$0.1 million in the first quarter of 2006. The increase in interest expense is directly related to our borrowing under our credit facility in connection with the acquisition of the Target Companies.

Income tax provision

We record income tax expense in our consolidated financial statements based on an estimated annual effective income tax rate, prior to any quarter-specific items. The 2007 estimated annual effective tax rate of 39.2%, which excludes period-specific items, was applied as the effective rate for the quarter ended March 31, 2007. Our actual effective tax rates for the three-month periods ended March 31, 2007 and 2006 was 37.5% and 39.2%, respectively.

Our deferred tax assets and liabilities are recorded at an amount based upon a U.S. federal income tax rate of 35.0%. This U.S. federal income tax rate is based on our expectation that our deductible and taxable temporary differences will reverse over a period of years during which we will have annual taxable income exceeding \$10.0 million per year. If our results of operations fall below that threshold in the future, we will adjust our deferred tax assets and liabilities to an amount reflecting a reduced expected U.S. federal income tax rate, consistent with the corresponding expectation of lower taxable income. If such change is determined to be appropriate, it will affect the provision for income taxes during the period that the determination is made.

We adopted the provisions of FIN 48 on January 1, 2007. As a result of the implementation of FIN 48, we recognized a \$0.3 million reduction to the January 1, 2007 balance of retained earnings. The total amount of unrecognized tax benefits as of January 1, 2007, the date of adoption, was \$0.6 million, of which \$0.4 million would impact our effective rate if recognized. As of the date of adoption, the total amount of accrued interest and penalties was \$0.3 million. No significant change in the gross amount of unrecognized tax benefits is expected within the next 12 months. In the three months ended March 31, 2007, changes in accrued interest, penalties and unrecognized tax benefits as a result of tax positions taken in current and prior years were insignificant.

Liquidity and capital resources

At March 31, 2007, cash and cash equivalents totaled \$16.0 million, compared to \$67.8 million at December 31, 2006. The \$51.8 million decrease in cash and cash equivalents during the first three months of 2007 is the result of

generating \$7.5 million of cash from operations, receiving \$30.0 million in proceeds from the use of our credit facility which we used to purchase the Target Companies and \$0.9 million from the proceeds and excess tax benefits of stock option exercises, offset by \$58.2 million, net of cash acquired, used to purchase the Target Companies, \$1.0 million paid to former owners of Campagne Associates, Ltd. under an earnout agreement, \$14.1 million used to purchase our stock, \$10.0 million used to repay borrowings made in connection with the acquisition of the Target Companies, \$3.8 million in dividends paid to

Table of Contents

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations (continued)

stockholders, \$1.9 million to repay debt acquired in connection with the Target Companies and \$1.1 million used to purchase fixed assets.

Our principal source of liquidity is our operating cash flow, which depends on continued customer renewal of our maintenance and support agreements and market acceptance of our products and services. Based on current estimates of revenue and expenses, we believe that the currently available sources of funds and anticipated cash flows from operations will be adequate to finance our operations and anticipated capital expenditures for the foreseeable future.

Dividend payments are not guaranteed and our Board of Directors may decide, in its absolute discretion, at any time and for any reason, not to declare or pay further dividends and/or repurchase our common stock.

We have drawn on our existing credit facility from time to time to help us meet substantial other short-term financial needs. The credit facility expires September 30, 2007.

Operating cash flow

Net cash provided by operating activities increased \$4.2 million to \$7.5 million in the three-month period ended March 31, 2007 compared to \$3.3 million as reported for the three months ended March 31, 2006. Throughout both periods, our cash flows from operations were derived principally from: (i) our earnings from on-going operations prior to non-cash expenses such as depreciation and amortization; (ii) the tax benefit associated with our deferred tax asset, which reduces our cash outlay for income tax expense; (iii) adjustments to our provision for sales returns and allowances; and (iv) changes in our working capital, which are primarily composed of net collections of accounts receivable and increases in deferred revenue (collectively representing a decrease in working capital of \$1.3 million and \$1.2 million in the three-month periods ended March 31, 2007 and 2006, respectively), together with changes in our balances of accounts payable, accrued expenses, accrued liabilities and other current assets (collectively representing a decrease in working capital of \$2.7 million and \$5.4 million in the three-month periods ended March 31, 2007 and 2006, respectively) due to timing of payments.

Investing cash flow

Net cash used in the three-month period ended March 31, 2007 for investing activities was \$60.3 million compared to \$6.3 million of net cash used in investing activities during the three-month period ended March 31, 2006. The increase is principally due to the acquisition of the Target Companies on January 16, 2007.

Financing cash flow

Net cash provided by financing activities for the three-month period ended March 31, 2007 was \$1.0 million, comprised of \$30.0 million provided by the issuance of debt in connection with the acquisition of the Target Companies and \$0.9 million from the proceeds and excess tax benefits of stock option exercises, offset by \$14.1 million used for repurchases of our stock, \$10.0 million used to repay debt incurred in connection with the acquisition of the Target Companies, dividend payments of \$3.8 million to stockholders and \$1.9 million used to repay debt acquired in connection with the Target Companies. Comparatively, net cash used in financing activities for the three-month period ended March 31, 2006 was \$3.1 million, comprised of \$6.3 million for purchases of our stock and dividend payments of \$3.0 million to stockholders, offset by proceeds from stock option exercises of \$3.3 million and \$2.9 million of excess tax benefits from stock option exercises.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)***Commitments and contingencies*

As of March 31, 2007, we had \$20.0 million of outstanding debt and future minimum lease commitments of \$25.7 million as follows (amounts in thousands):

		Payments Due by Period			
					More than 5
	Total	Less than 1 year	1-3 years	3-5 years	years
Operating leases	\$ 24,099	\$ 5,611	\$ 14,179	\$ 4,309	\$
Capital leases	1,640	488	970	182	
Short-term debt and interest expense	20,682	20,682			
Total	\$ 46,421	\$ 26,781	\$ 15,149	\$ 4,491	\$

Our commitments related to operating leases have not been reduced by the future minimum lease commitments under various sublease agreements extended through 2008.

We have \$20.0 million of outstanding debt under our credit facility as of March 31, 2007. Interest is payable monthly. Our commitment for interest related to this short-term debt, totaling \$682,000, assumes that \$20.0 million will be outstanding until the credit facility expires on September 30, 2007. The actual interest expense recognized in our statement of operations will depend on the amount of debt and length of time the debt is outstanding, which might be different from our assumptions used in the table above.

In connection with the acquisition of the Target Companies on January 16, 2007, discussed in Note 4 of the consolidated financial statements as of and for the three months ended March 31, 2007, we could pay up to \$2.4 million of contingent consideration based on the performance of the Target Companies during the 2007 fiscal year. The payments, if any, will be made in March 2008.

In connection with the January 2006 purchase of Campagne Associates, Ltd., we could pay up to \$2.5 million of contingent consideration as part of the acquisition. Of the \$2.5 million of contingent consideration, \$1.0 million was paid in March 2007. The remaining contingent consideration, if any, will be payable in 2008 based on performance during the second year following the acquisition.

As of March 31, 2007, we have accrued \$0.6 million of state taxes and \$0.3 million of interest and penalties related to uncertain tax positions taken in current and prior years. Please refer to Note 10 in our condensed notes to the consolidated financial statements for further information.

We utilize third-party relationships in conjunction with our products. The contractual arrangements vary in length from two to four years. In certain cases, these arrangements require a minimum annual purchase commitment. The total minimum purchase commitment under these arrangements at March 31, 2007 is approximately \$0.9 million through 2009. We incurred expense under these arrangements of \$0.2 million and \$0.1 million for the three months ended March 31, 2007 and 2006, respectively.

Our Board of Directors approved an increase in our annual dividend from \$0.28 to \$0.34 per share in 2007 and declared a second quarter dividend of \$0.085 per share payable on June 15, 2007 to stockholders of record on May 28, 2007. Dividends at this rate would total approximately \$15.1 million in the aggregate on the common stock in 2007 (assuming 44,461,627 shares of common stock are outstanding). Our ability to pay dividends may be restricted by, among other things, the terms of our credit facility.

Foreign currency exchange rates

Approximately 16% of our total net revenue for the three-month period ended March 31, 2007 was derived from operations outside the United States. We do not have significant operations in countries in which the economy is considered to be highly inflationary. Our consolidated financial statements are denominated in U.S. dollars and,

accordingly, changes in the exchange rate between foreign currencies and the U.S. dollar will affect the translation of our subsidiaries' financial results into U.S. dollars for purposes of reporting our consolidated financial results. The

Table of Contents

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations (continued)

accumulated currency translation adjustment, recorded as a separate component of stockholders' equity, was \$0.2 million at March 31, 2007 and December 31, 2006.

The vast majority of our contracts are entered into by our U.S., Canadian or U.K. entities. The contracts entered into by the U.S. entity are almost always denominated in U.S. dollars, contracts entered into by our Canadian subsidiary are generally denominated in Canadian dollars, and contracts entered into by our U.K. subsidiary are generally denominated in pounds sterling. In recent years, the U.S. dollar has weakened against many non-U.S. currencies, including the British pound and Canadian dollar. During this period, our revenues generated in the United Kingdom have increased. Though we do not believe our increased exposure to currency exchange rates have had a material impact on our results of operations or financial position, we intend to continue to monitor such exposure and take action as appropriate.

Cautionary statement

We operate in a highly competitive environment that involves a number of risks, some of which are beyond our control. The following statement highlights some of these risks.

Statements contained in this Form 10-Q, which are not historical facts, are or might constitute forward-looking statements under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Although we believe the expectations reflected in such forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be attained. Forward-looking statements involve known and unknown risks that could cause actual results to differ materially from expected results. Factors that could cause actual results to differ materially from our expectations expressed in the report include management of integration of the Target Companies and other risks associated with acquisitions; risk associated with successful implementation of multiple integrated software products; lengthy sales and implementation cycles, particularly in larger organizations; uncertainty regarding increased business and renewals from existing customers; continued success in sales growth; the ability to attract and retain key personnel; risks related to our dividend policy and share repurchase program, including potential limitations on our ability to grow and the possibility that we might discontinue payment of dividends; risks relating to restrictions imposed by the credit facility; risks associated with management of growth; technological changes that make our products and services less competitive; and the other risk factors set forth from time to time in our SEC filings.

New accounting pronouncements

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Liabilities, including an amendment of FASB Statement No. 115" (SFAS No. 159). SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of SFAS No. 157 "Fair Value Measurements" (SFAS No. 157). We are still assessing the impact of the adoption of SFAS No. 159 on our consolidated financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," (SFAS No. 157) which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS No. 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. Earlier adoption is permitted, provided the Company has not yet issued financial statements, including for interim periods, for that fiscal year. We do not expect the adoption of SFAS No. 157 to have a material impact on our consolidated financial position, results of operations or cash flows.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Due to the nature of our short-term investments, our lack of material long-term debt and our ability to use currently available sources of funds and anticipated cash flows from operations to finance our operations and anticipated capital

expenditures, we have concluded that we currently face no material interest risk exposure. Therefore, no quantitative

31

Table of Contents

Blackbaud, Inc.

Item 3. Quantitative and Qualitative Disclosures about Market Risk (continued)

tabular disclosures are required. For further discussion, see the Foreign currency exchange rates section beginning on page 30.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) are designed only to provide reasonable assurance that they will meet their objectives. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e)) pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to provide the reasonable assurance discussed above.

In coming to the conclusion our disclosure controls and procedures and our internal control over financial reporting were effective as of the end of the period covered by this Quarterly Report on Form 10-Q, we considered, among other things, the estimated impact of the restatement to the financial statements discussed below and the effectiveness of the internal controls in this area as of the fiscal years ended 2006, 2005 and 2004. We have concluded that the accounting misapplication discussed below did not constitute a material weakness in disclosure controls and procedures, or internal controls and procedures over financial reporting, as of March 31, 2007.

During the preparation of this Quarterly Report on Form 10-Q, we determined that SEC Staff Accounting Bulletin 108 (SAB 108) was misapplied in connection with reporting our consolidated financial position and results of operations as of and for the period ended December 31, 2006. We have historically recognized maintenance and subscription revenue using a monthly convention rather than on an actual days basis. The effect on the statements of operations of the difference between these two methods has been evaluated in the past and it was concluded that the impact was immaterial. However under SAB 108, we should have recorded a one-time adjustment to our retained earnings to correct for the cumulative impact of using the actual days method.

As the misapplication was determined prior to filing this report on Form 10-Q for the quarter ended March 31, 2007, no restatement was required for that period. We will restate our consolidated financial statements for the three-year period ended December 31, 2006. We will amend our 2006 Form 10-K as soon as practicable.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**Blackbaud, Inc.****PART II. OTHER INFORMATION****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

Information about shares of common stock repurchased during the three months ended March 31, 2007 under our stock repurchase program announced on July 26, 2005 appears in the table below.

Period	Total number of shares purchased (1)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plan or programs (2)
Beginning balance, January 1, 2007				\$ 20,238,160
January 1, 2007 through January 31, 2007	158,099	\$ 22.46	156,909	\$ 16,713,480
February 1, 2007 through February 28, 2007	4,998	\$ 22.99	4,998	\$ 16,598,574
March 1, 2007 through March 31, 2007	458,971	\$ 22.70	458,971	\$ 6,180,795
Total	622,068	\$ 22.64	620,878	\$ 6,180,795

(1) Includes 1,190 shares withheld by us to satisfy the tax obligations of employees due upon vesting of restricted stock during the period.

(2) On July 26, 2005, our Board of Directors approved a stock repurchase program that authorizes us to repurchase up to \$35.0 million of our outstanding shares of common stock. The shares may

be purchased in conjunction with a public offering of our common stock, from time to time on the open market or in privately negotiated transactions depending upon market condition and other factors, all in accordance with the requirements of applicable law. There is no set termination date for this repurchase program.

Item 6. Exhibits

Exhibits:

- 31.1 Certification by the Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification by the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification by the Chief Executive Officer pursuant to 18 U.S.C. 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification by the Chief Financial Officer pursuant to 18 U.S.C. 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
