Item 5. Other Events

On January 23, 2003, the Company issued the following press release:

**SECOND BANCORP REPORTS EARNINGS FOR
FOURTH QUARTER AND YEAR**

Warren, Ohio, January 23, 2003 **SECOND BANCORP INCORPORATED (Nasdaq SECD , SECDP)** announced that, as previously indicated by the Company, fourth quarter earnings for 2002 were adversely affected by costs associated with the Company's strategy to re-configure its retail branch system and, to a lesser extent, margin compression and credit quality issues. Net income for the fourth quarter was \$3,428,000 or \$.34 per diluted share compared to \$4,334,000 or \$.43 per share for the same period last year. Absent branch reconfiguration and merger costs recognized during the quarter, pro forma operating earnings would have been \$4,797,000 (\$.48 per diluted share), a 6% increase over pro forma operating results of a year ago. For the full year, net income was \$18,000,000 or \$1.79 per diluted share compared to \$17,080,000 or \$1.69 per share in 2001. Excluding the branch reconfiguration charges and merger costs, net income for the year would have been \$19,449,000 (\$1.94 per diluted share), 12% higher than was reported for 2001. A reconciliation of the Company's net income (computed in accordance with GAAP) to pro forma earnings is included in the financial detail of this release.

The Company's branch system reconfiguration strategy includes the 2003 sale of two of subsidiary Second National Bank's retail banking centers, the consolidation of four smaller banking centers into two new, fully-staffed regional locations and new offices in the high growth Medina (relocation of an existing office) and Wooster, Ohio markets. The \$2.1 million

reconfiguration expense recognized in the fourth quarter will be fully offset by a \$6 million gain on the referenced sale of branches expected to be completed during the first quarter of 2003.

Returns on average assets (ROA) for the quarter and the year were 0.75% and 1.03% respectively (compared to 1.03% and 1.07% a year ago) and returns on average equity (ROE) were 9.99% for the quarter and 13.42% for the full year (compared to 13.21% and 13.69% respectively in 2001). Excluding branch reconfiguration costs, ROA for the quarter and the full year were 1.05% and 1.11% respectively and ROE for the same periods were 13.98% and 14.49%. Historically low interest rates compressed the Company's interest margin for the quarter to 3.38% from 3.57% during the same period last year. For the year, net interest margin improved to 3.56% from 3.49% for 2001.

We are generally quite pleased with the Company's overall performance during a year characterized by a progressively difficult operating environment stated Second Bancorp President and Chief Executive Officer Rick L. Blossom. The branch reconfiguration strategy we began implementing in the third quarter and which reduced fourth quarter earnings is a key part of our effort to enhance profitability and growth opportunities in our branch banking system ... and it will be fully funded by proceeds from the pending sale of our Steubenville, Ohio branches. Looking ahead, rock-bottom interest rates will likely continue to produce thin margins and lagging mortgage servicing rights valuations during 2003. A simmering economy next year could also retard loan growth and increase financial pressures on our traditional small and mid-market commercial customers. Our job will be to aggressively manage through these challenges and position the Company to take advantage of opportunities which will present themselves when the economy returns to a more normalized pattern.

Credit quality continues to be a focal point for the Company. The level of non-performing loans and net charge-offs trended upward during 2002 and were 1.64% of year-end loans and .47% of average loans for the year respectively. The fourth quarter provision for loan losses was \$2.35 million compared to \$1.63 million a year ago. The allowance for loan losses finished the year at \$17.6 million or 1.51% of year-end loans.

The Company also reported that its Board of Directors declared an eighteen cent (\$.18) per share common dividend payable January 31, 2003 to shareholders of record on January 15. That dividend is unchanged from last quarter and is 5.9% higher than the dividend paid for the fourth quarter of 2001.

This announcement contains forward-looking statements that involve risk and uncertainties, including changes in general economic and financial market conditions and the Company's ability to execute its business plans. Although management believes the expectations reflected in such forward-looking statements are reasonable, actual results may differ materially.
