VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1. Description of Business and Company Background

Visteon Corporation (the Company or Visteon) is a leading global supplier of climate, interiors and electronics systems, modules and components to global automotive original equipment manufacturers (OEMs). Headquartered in Van Buren Township, Michigan, Visteon has a workforce of approximately 31,000 employees and a network of manufacturing operations, technical centers, sales offices and joint ventures in every major geographic region of the world. The Company was incorporated in Delaware in January 2000 as a wholly-owned subsidiary of Ford Motor Company (Ford or Ford Motor Company). Subsequently, Ford transferred the assets and liabilities comprising its automotive components and systems business to Visteon. The Company separated from Ford on June 28, 2000 when all of the Company's common stock was distributed by Ford to its shareholders. On October 1, 2005, the Company sold Automotive Components Holdings, LLC, an indirect, wholly-owned subsidiary of the Company to Ford (ACH Transactions). The Company continues to transact a significant amount of commercial activity with Ford. The financial statement impact of these commercial activities is summarized in the table below.

Visteon UK Limited Administration

On March 31, 2009, in accordance with the provisions of the United Kingdom Insolvency Act of 1986 and pursuant to a resolution of the board of directors of Visteon UK Limited, a company organized under the laws of England and Wales (the UK Debtor) and an indirect, wholly-owned subsidiary of the Company, representatives from KPMG (the Administrators) were appointed as administrators in respect of the UK Debtor (the UK Administration). The UK Administration was initiated in response to continuing operating losses of the UK Debtor and mounting labor costs and their related demand on the Company's cash flows, and does not include the Company or any of the Company's other subsidiaries. Under the UK Administration, the UK Debtor, which has operations in Enfield, UK, Basildon, UK and Belfast, UK, is expected to be wound down. The effect of the UK Debtor's entry into administration was to place the management, affairs, business and property of the UK Debtor under the direct control of the Administrators.

The UK Debtor recorded sales, negative gross margin and net loss of \$32 million, \$7 million and \$10 million, respectively for the three months ended March 31, 2009. As of March 31, 2009 total assets of \$64 million, total

liabilities of \$132 million and related amounts deferred as Accumulated other comprehensive income of \$84 million, were deconsolidated from the Company's balance sheet in accordance with the requirements of Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements (SFAS 160) resulting in a deconsolidation gain of \$152 million. The Company also recorded \$57 million for contingent liabilities related to the UK Administration, including \$45 million of costs associated with former employees of the UK Debtor, for which the Company will be reimbursed from the escrow account, on a 100% basis.

Table of Contents

**VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

NOTE 1. Description of Business and Company Background (Continued)

Additional amounts related to these items or other contingent liabilities for potential claims under the UK Administration, which may result from (i) negotiations; (ii) actions of the Administrators; (iii) resolution of contractual arrangements, including unexpired leases; (iv) material adverse developments or other events, may be recorded in future periods. No assurance can be provided that the Company will not be subject to future litigation and/or liabilities related to the UK Administration. Additional liabilities, if any, will be recorded when they become probable and estimable and could materially affect the Company's results of operations and financial condition in future periods.

Going Concern Considerations

The global credit crisis and the erosion of consumer confidence continue to negatively impact the automotive sector on a global basis. In consideration of current and projected market conditions, overall automotive sector instability and Visteon's recent history of operating losses and cash usage, projections indicate that the Company's liquidity will be at or near minimum cash levels required to operate the business during 2009. The Company continues to develop and execute, as appropriate, additional actions designed to generate liquidity. The success of the Company's liquidity plans depends on global economic conditions, levels of automotive sales and production, trade creditor business conduct and occurrence of no other material adverse developments. Additionally, various macro-level factors outside of the Company's control may further negatively impact the Company's ability to meet its obligations as they come due. Such factors include, but are not limited to, the following:

Sustained weakness and/or continued deterioration of global economic conditions.

Continued automotive sales and production at levels consistent with or lower than first quarter 2009.

Bankruptcy of any significant customer resulting in delayed payment or non-payment of amounts receivable.

Bankruptcy of any significant supplier resulting in delayed shipments of materials necessary for production.

Actions of trade creditors to accelerate payments for goods and services provided.

Other events of non-compliance with the terms and conditions of short or long-term debt obligations.

On April 30, 2009, Chrysler LLC and twenty-four of its affiliates filed petitions in the United States Bankruptcy Court for the Southern District of New York seeking relief under Chapter 11 of the U.S. Bankruptcy Code. In accordance with documents filed by Chrysler with the Bankruptcy Court for the Southern District of New York, the Company was owed approximately \$26 million as of April 30, 2009. While the Company continues to evaluate the impact of this bankruptcy, no additional valuation reserves have been recorded as of March 31, 2009 based on currently available information and related expectations for recovery. Additionally, Chrysler LLC announced that it has halted production at many of its U.S. manufacturing facilities until certain transactions are completed with Fiat SpA. General Motors Corporation has also announced that it will extend its usual mid-year down time at many of its North America manufacturing facilities during the spring and summer of 2009. The Company is in the process of evaluating the impact of such closures. However, the magnitude of such impact cannot be fully determined at this time.

Table of Contents

**VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

NOTE 1. Description of Business and Company Background (Continued)

Despite the actions management has taken or plans to take, there can be no assurance that factors outside of the Company's control, including but not limited to, the financial condition of OEMs or other automotive suppliers, will not cause further significant financial distress for Visteon. Additionally, while the Company has already taken significant restructuring and cost reduction measures and plans to implement further actions designed to provide additional liquidity, there can be no assurance that such actions will provide a sufficient amount of funds or that such actions will supply funds in a timely manner necessary to meet the Company's ongoing liquidity requirements. Accordingly, there exists substantial doubt as to the Company's ability to operate as a going concern and meet its obligations as they come due.

Pursuant to affirmative covenants contained in the agreements associated with the Company's senior secured facilities and European Securitization (the Facilities), the Company is required to provide audited annual financial statements within a prescribed period of time after the end of each fiscal year without a going concern audit report or like qualification or exception. On March 31, 2009, the Company's independent registered public accounting firm included an explanatory paragraph in its audit report on the Company's 2008 consolidated financial statements indicating substantial doubt about the Company's ability to continue as a going concern. The receipt of such an explanatory statement constitutes a default under the Facilities. On March 31, 2009, the Company entered into amendments and waivers (the Waivers) with the lenders under the Facilities, which provide for waivers of such defaults for limited periods of time, as more fully described in Note 10 Debt.

The Company is exploring various strategic and financing alternatives and has retained legal and financial advisors to assist in this regard. The Company has commenced discussions with lenders under the Facilities, including an ad hoc committee of lenders under its senior secured term loan (the Ad Hoc Committee), regarding the restructuring of the Company's capital structure. Additionally, the Company has commenced discussions with certain of its major customers to address its liquidity and capital requirements. Any such restructuring may affect the terms of the Facilities, other debt and common stock and may be affected through negotiated modifications to the related agreements or through other forms of restructurings, including under court supervision pursuant to a voluntary bankruptcy filing under Chapter 11 of the U.S. Bankruptcy Code. There can be no assurance that an agreement regarding any such restructuring will be obtained on acceptable terms with the necessary parties or at all. If an acceptable agreement is not obtained, an event of default under the Facilities would occur as of the expiration of the Waivers, excluding any extensions thereof, and the lenders would have the right to accelerate the obligations thereunder. Acceleration of the Company's obligations under the Facilities would constitute an event of default under the senior unsecured notes and would likely result in the acceleration of these obligations as well. In any such event, the Company may be required to seek protection under Chapter 11 of the U.S. Bankruptcy Code. Visteon's ability to continue operating as a going concern is, among other things, dependent on the success of discussions with the lenders under the Facilities, including the Ad Hoc Committee.

The aforementioned resulted in the classification of substantially all of the Company's long-term debt as current liabilities in the Company's consolidated balance sheets as of March 31, 2009 and December 31, 2008.

NOTE 2. Basis of Presentation

The unaudited consolidated financial statements of the Company have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (SEC). Certain information and footnote disclosures

normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted pursuant to such rules and regulations.

Table of Contents

**VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

NOTE 2. Basis of Presentation (Continued)

These interim consolidated financial statements include all adjustments (consisting of normal recurring adjustments, except as otherwise disclosed) that management believes are necessary for a fair presentation of the results of operations, financial position and cash flows of the Company for the interim periods presented. During the quarter ended March 31, 2009, the Company recorded a benefit of approximately \$7 million related to amounts recorded in prior periods. The Company determined that the impact of these adjustments is not material to any period affected. The Company's management believes that the disclosures are adequate to make the information presented not misleading when read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008, as filed with the SEC. Interim results are not necessarily indicative of full year results.

These financial statements have also been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company's financial statements do not include any adjustments related to assets or liabilities that may be necessary should the Company not be able to continue as a going concern.

Reclassifications: Certain prior period amounts have been reclassified to conform to current period presentation.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect amounts reported herein. Management believes that such estimates, judgments and assumptions are reasonable and appropriate. However, due to the inherent uncertainty involved, actual results may differ from those provided in the Company's consolidated financial statements.

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and all subsidiaries that are more than 50% owned and over which the Company exercises control. Investments in affiliates of greater than 20% and for which the Company does not exercise control are accounted for using the equity method. The consolidated financial statements also include the accounts of certain entities in which the Company holds a controlling interest based on exposure to economic risks and potential rewards (variable interests) for which it is the primary beneficiary.

Revenue Recognition: The Company records revenue when persuasive evidence of an arrangement exists, delivery occurs or services are rendered, the sales price or fee is fixed or determinable and collectibility is reasonably assured. The Company delivers product and records revenue pursuant to commercial agreements with its customers generally in the form of an approved purchase order, including the effects of contractual customer price productivity. The Company does negotiate discrete price changes with its customers, which are generally the result of unique commercial issues between the Company and its customers and are generally the subject of specific negotiations between the Company and its customers. The Company records amounts associated with discrete price changes as a reduction to revenue when specific facts and circumstances indicate that a price reduction is probable and the amounts are reasonably estimable. The Company records amounts associated with discrete price changes as an increase to revenue upon execution of a legally enforceable contractual agreement and when collectibility is reasonably assured.

Services revenues are recognized as services are rendered and associated costs of providing such services are recorded as incurred. Services revenues and related costs for the first quarter 2009 included \$5 million of contractual reimbursement from Ford under the Amended Reimbursement Agreement for costs associated with the separation of

ACH leased employees no longer required to provide such services.

**VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

NOTE 3. New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-4 (FSP FAS 157-4), Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly. FSP FAS 157-4 provides guidance on estimating the fair value when the volume and level of activity have significantly decreased and on identifying circumstances that indicate a transaction is not orderly. FSP FAS 157-4 is effective for interim and annual periods ending after June 15, 2009. The Company is currently evaluating the impact of FSP FAS 157-4 on its consolidated financial statements.

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1 (FSP FAS 107-1), Interim Disclosures about Fair Value of Financial Instruments. This FSP requires disclosures around the fair value of financial instruments for interim reporting periods, including (a) the fair value at the period end and (b) the methods and assumptions used to calculate the fair value. FSP FAS 107-1 is effective for interim reporting periods after June 15, 2009. The Company is currently evaluating the impact of FSP FAS 107-1 on its consolidated financial statements.

In December 2008, the FASB issued FSP No. FAS 132(R)-1 (FSP FAS 132(R)-1), Employers Disclosures about Postretirement Benefit Plan Assets. This FSP requires disclosure of (a) how pension plan asset investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies, (b) the major categories of plan assets, (c) the inputs and valuation techniques used to measure the fair value of plan assets, (d) the effect of fair value measurements using significant unobservable inputs (Level 3) on changes in plan assets for the period and (e) significant concentrations of risk within plan assets. FSP FAS 132(R)-1 is effective for fiscal years ending after December 15, 2009 and will be adopted by the Company for its annual consolidated financial statements for the fiscal year ending December 31, 2009.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133. This statement requires disclosure of (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement of Financial Accounting Standards No. 133 and its related interpretations and (c) how derivative instruments and related hedged items affect an entity's financial position, results of operations and cash flows. This statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 and was adopted by the Company on a prospective basis on January 1, 2009, as more fully described in Note 16 Financial Instruments to the consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), Business Combinations and Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements, an amendment to ARB No. 51. These statements change the accounting and reporting for business combination transactions and minority interests in consolidated financial statements. The Company adopted these standards effective January 1, 2009 as more fully described in Note 13 Shareholders Deficit and Noncontrolling Interests to the consolidated financial statements.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 3. New Accounting Pronouncements (Continued)

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS 157), Fair Value Measurements. This statement, which became effective January 1, 2008, defines fair value, establishes a framework for measuring fair value and expands disclosure requirements regarding fair value measurements. The Company adopted the requirements of SFAS 157 as of January 1, 2008 without a material impact on its consolidated financial statements. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2 (FSP FAS 157-2), Effective Date of FASB Statement No. 157, which delayed the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed in the financial statements on a nonrecurring basis to fiscal years beginning after November 15, 2008. The application of SFAS 157 to the Company's nonfinancial assets and liabilities did not impact the Company's consolidated financial statements.

NOTE 4. Restructuring and Exit Activities

The Company has undertaken various restructuring and exit activities to achieve its strategic and financial objectives. Restructuring activities include, but are not limited to, plant closures, divestitures, production relocation, administrative cost structure realignment and consolidation of available capacity and resources. The Company expects to finance restructuring programs through cash reimbursement from an escrow account established pursuant to the ACH Transactions, from cash on hand, from cash generated from its ongoing operations, or through cash available under its existing debt agreements, subject to the terms of applicable covenants.

Amended Escrow Agreement

Pursuant to the Escrow Agreement, dated as of October 1, 2005, among the Company, Ford and Deutsche Bank Trust Company Americas, Ford paid \$400 million into an escrow account for use by the Company to restructure its businesses. The Escrow Agreement provides that the Company will be reimbursed from the escrow account for the first \$250 million of reimbursable restructuring costs, as defined in the Escrow Agreement, and up to one half of the next \$300 million of such costs. In August 2008 and pursuant to the Amended Escrow Agreement, Ford contributed an additional \$50 million into the escrow account. The Amended Escrow Agreement provides that such additional funds are available to fund restructuring and other qualified costs on a 100% basis. The remaining funds available in the escrow account will be used to fund costs associated with former employees of the UK Debtor, on a 100% basis.

Cash in the escrow account is invested, at the direction of the Company, in high quality, short-term investments and related investment earnings are credited to the account as earned. Investment earnings of \$28 million became available to reimburse the Company's restructuring costs following the use of the first \$250 million of available funds. Investment earnings on the remaining \$200 million will be available for reimbursement after full utilization of those funds.

The following table provides a reconciliation of amounts available in the escrow account.

NOTE 4. Restructuring and Exit Activities (Continued)

Approximately \$53 million and \$7 million of amounts receivable from the escrow account were classified in Other current assets in the Company's consolidated balance sheets as of March 31, 2009 and December 31, 2008, respectively.

2009 Restructuring Actions

During the first quarter of 2009, the Company recorded approximately \$20 million in employee severance and termination benefit costs related to approximately 128 employees in the United States and 223 in other countries. These reductions were initiated in response to the continuation of recessionary economic conditions and related negative impact on the automotive sector and the Company's results of operations and cash flows during the first quarter of 2009. The Company also recorded employee severance and termination benefit charges of \$7 million under the previously announced multi-year improvement plan.

The following is a summary of the Company's consolidated restructuring reserves and related activity as of and for the three months ended March 31, 2009.

	Interiors	Climate	Electronics	Other	Total
	(Dollars in Millions)				
December 31, 2008	\$ 49	\$ 3	\$ 4	\$ 8	\$ 64
Expenses	7	5	1	14	27
Currency exchange	(3)				(3)
Utilization	(19)	(7)	(1)	(19)	(46)
March 31, 2009	\$ 34	\$ 1	\$ 4	\$ 3	\$ 42

Asset Impairments and Loss on Divestiture

During the first quarter of 2008, the Company completed the sale of its North American-based aftermarket underhood and remanufacturing operations and recorded total losses of \$40 million in connection with the transaction.

NOTE 5. Inventories

Inventories are stated at the lower of cost, determined on a first-in, first-out basis, or market. A summary of inventories is provided below:

March 31	December 31
2009	2008
(Dollars in Millions)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 6. Other Assets

Other current assets are summarized as follows:

	March 31 2009	December 31 2008
	(Dollars in Millions)	
Recoverable taxes	\$ 97	\$ 119
Escrow receivable	53	7
Current deferred tax assets	31	29
Deposits	21	24
Prepaid assets	20	18
Unamortized debt costs	19	20
Other	24	32
	\$ 265	\$ 249

Other non-current assets are summarized as follows:

	March 31 2009	December 31 2008
	(Dollars in Millions)	
Non-current deferred tax assets	\$ 33	\$ 34
Notes and other receivables	11	4
Other intangible assets	6	7
Other	30	49
	\$ 80	\$ 94

NOTE 7. Property and Equipment

Property and equipment is stated at cost and is depreciated over the estimated useful lives of the assets, principally using the straight-line method. A summary of Property and equipment, net is provided below:

March 31 2009	December 31 2008
(Dollars in Millions)	

Edgar Filing: VISTEON CORP - Form 10-Q

Land	\$ 67	\$ 73
Buildings and improvements	837	809
Machinery, equipment and other	2,707	2,985
Construction in progress	97	112
Total property and equipment	\$ 3,708	\$ 3,979
Accumulated depreciation	(1,782)	(1,907)
	\$ 1,926	\$ 2,072
Product tooling, net of amortization	82	90
Property and equipment, net	\$ 2,008	\$ 2,162

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 7. Property and Equipment (Continued)

Depreciation and amortization expenses are summarized as follows:

	Three Months Ended March 31	
	2009	2008
	(Dollars in Millions)	
Depreciation	\$ 72	\$ 104
Amortization	6	11
	\$ 78	\$ 115

The Company recorded approximately \$3 million and \$15 million of accelerated depreciation expense during the three-month periods ended March 31, 2009 and 2008, respectively, representing the shortening of estimated useful lives of certain assets (primarily machinery and equipment) in connection with the Company's restructuring activities.

NOTE 8. Non-Consolidated Affiliates

The Company had \$226 million and \$220 million of equity in the net assets of non-consolidated affiliates at March 31, 2009 and December 31, 2008, respectively. The Company recorded equity in net income of non-consolidated affiliates of \$7 million and \$15 million for the three months ended March 31, 2009 and 2008, respectively. The following table presents summarized financial data for the Company's non-consolidated affiliates. Yanfeng Visteon Automotive Trim Systems Co., Ltd (Yanfeng), of which the Company owns a 50% interest, is considered a significant non-consolidated affiliate. Summarized financial information reflecting 100% of the operating results of the Company's equity investees are provided below for the three-month periods ended March 31.

	Net Sales		Gross Margin		Net Income	
	2009	2008	2009	2008	2009	2008
	(Dollars in Millions)					
Yanfeng	\$ 270	\$ 296	\$ 33	\$ 53	\$ 17	\$ 20
All other	122	210	6	24	(4)	10
	\$ 392	\$ 506	\$ 39	\$ 77	\$ 13	\$ 30

The Company's share of net assets and net income is reported in the consolidated financial statements as Equity in net assets of non-consolidated affiliates on the consolidated balance sheets and Equity in net income of non-consolidated affiliates on the consolidated statements of operations. Included in the Company's accumulated deficit is undistributed income of non-consolidated affiliates accounted for under the equity method of approximately \$101 million and

\$104 million at March 31, 2009 and December 31, 2008, respectively.

Deferred income	38	46
Restructuring reserves		19
Other accrued liabilities	30	38
	\$ 318	\$ 365

NOTE 10. Debt

On March 31, 2009, the Company's independent registered public accounting firm included an explanatory paragraph in its audit report on the Company's 2008 consolidated financial statements indicating substantial doubt about the Company's ability to continue as a going concern. The receipt of such an explanatory statement constitutes a default under the Facilities. On March 31, 2009, the Company entered into Waivers with the lenders under the Facilities, which provide for waivers of such defaults for limited periods of time, as more fully described below.

Edgar Filing: VISTEON CORP - Form 10-Q

The Amended and Restated Credit Agreement, dated as of April 10, 2007 (as amended, supplemented or otherwise modified, the Term Credit Agreement), among the Company, certain of its subsidiaries, the lenders party thereto, Credit Suisse Securities (USA) LLC and Sumitomo Mitsui Banking Corporation, as co-documentation agents, Citicorp USA, Inc., as syndication agent, JPMorgan Chase Bank, N.A., as administrative agent, and J.P. Morgan Securities Inc. and Citigroup Global Markets Inc. as joint lead arrangers and joint bookrunners;

The Credit Agreement, dated as of August 14, 2006 (as amended, supplemented or otherwise modified, the ABL Credit Agreement), among the Company, certain of its subsidiaries, the lenders party thereto, and JPMorgan Chase Bank, N.A., as Administrative Agent; and

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

NOTE 10. Debt (Continued)

The Master Receivables Purchase & Servicing Agreement, dated as of August 14, 2006 and as amended and restated as of October 29, 2008 (the Securitization Agreement), by and among Visteon UK Limited, Visteon Deutschland GmbH, Visteon Sistemas Interiores Espana S.L.U., Cadiz Electronica S.A.U., Visteon Portuguesa Limited, VC Receivables Financing Corporation Limited, Visteon Electronics Corporation, Visteon Financial Centre P.L.C., The Law Debenture Trust Corporation P.L.C., Citibank, N.A., Citibank International Plc, Citicorp USA, Inc., and the Company and the related securitization agreements.

Pursuant to the Limited Waiver (Term Waiver) to the Term Credit Agreement, the potential default relating to the inclusion of an explanatory paragraph in the report of the Company s independent registered public accounting firm indicating substantial doubt about the Company s ability to continue as a going concern (the Going-Concern Default) is waived until May 30, 2009, and the Company is required to complete certain collateral disclosure and perfection matters within certain periods following effectiveness or the Term Waiver may be terminated prior to May 30, 2009 and certain other Events of Default may occur.

The Company also entered into a letter agreement, effective as of March 31, 2009 (the Ad Hoc Committee Letter Agreement), with the Ad Hoc Committee, which requires, among other things, that the Company and its subsidiaries provide access to management, as well as certain analysis and reports to the Ad Hoc Committee. The agreement also requires the Company and its subsidiaries in North America and Europe to maintain a balance of cash and cash equivalents of at least \$335.1 million on a consolidated basis, and requires the Company and its subsidiaries in North America to maintain a balance of cash and cash equivalents of at least \$193.5 million on a consolidated basis. The Ad Hoc Committee Letter Agreement provides that the failure to comply with any of its terms will cause termination of the Term Waiver prior to May 30, 2009 and certain other Defaults or Events of Default may occur.

Pursuant to the Fourth Amendment and Limited Waiver to the Credit Agreement and Amendment to Security Agreement (the ABL Waiver), the Going-Concern Default is waived until May 30, 2009, and the Company is required to complete certain collateral disclosure and perfection matters within certain periods following effectiveness or the ABL Waiver may be terminated at the discretion of the Administrative Agent. The ABL Waiver also makes several amendments to the ABL Credit Agreement, including:

Increasing the interest rate applicable to borrowing and commitment fees payable thereunder;

Eliminating the availability of swingline loans and overadvances;

Restricting future borrowings or the issuance of any new letters of credit if such borrowing or letter of credit would cause the amount of the Company s cash and cash equivalents in the U.S. to exceed \$100 million, excluding amounts held in certain designated collateral accounts;

Requiring the Company to maintain cash and cash equivalents in a certain designated deposit or securities account in amount that at least equals the amount borrowed plus letters of credit issued under the ABL Credit Agreement, which was \$163 million as of March 31, 2009; and

Ensuring that only a certain amount of cash and cash equivalents are held in accounts that are not subject to control agreements securing outstanding amounts under the ABL Credit Agreement.

Pursuant to the Conditional Waiver (the Securitization Waiver) to the Securitization Agreement, the Going-Concern Default is waived until June 29, 2009. The Securitization Waiver also makes several amendments to the Securitization Agreement, including:

Decreasing the variable funding facility limit to \$200 million;

Increasing the borrowing rates and commitment fees payable thereunder;

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 10. Debt (Continued)

Increasing certain reserves;

Requiring notification to customers by Visteon of the sales of receivables and re-direction of customer payments to special purpose segregated accounts;

Increasing the frequency of borrowing base and other reporting and settlement periods;

Giving the agent discretion to access receivables collections; and

Requiring further amendments from May 31, 2009 that would require customers whose receivable have been sold under the program to make payment thereon directly to the lenders.

The Company is exploring various strategic and financing alternatives and has retained legal and financial advisors to assist in this regard. The Company has commenced discussions with lenders under the Facilities, including an ad hoc committee of lenders under its senior secured term loan, regarding the restructuring of the Company's capital structure. Additionally, the Company has commenced discussions with certain of its major customers to address its liquidity and capital requirements. Any such restructuring may affect the terms of the Facilities, other debt and common stock and may be affected through negotiated modifications to the related agreements or through other forms of restructurings, including under court supervision pursuant to a voluntary bankruptcy filing under Chapter 11 of the U.S. Bankruptcy Code. There can be no assurance that an agreement regarding any such restructuring will be obtained on acceptable terms with the necessary parties, or at all. If an acceptable agreement is not obtained, an event of default under the Facilities would occur as of the expiration of the Waivers, excluding any extensions thereof, and the lenders would have the right to accelerate the obligations thereunder. Acceleration of the Company's obligations under the Facilities would constitute an event of default under the senior unsecured notes and would likely result in the acceleration of these obligations as well. In any such event, the Company may be required to seek protection under Chapter 11 of the U.S. Bankruptcy Code.

The aforementioned has resulted in the classification of substantially all of the Company's long-term debt as a current liability in accordance with the requirements of Statement of Financial Accounting Standards No. 78, Classification of Obligations that are Callable by the Creditor and FASB Emerging Issues Task Force Issue No. 86-30, Classification of Obligations When a Violation Is Waived by the Creditor. The Company's short and long-term debt balances, including the fair value of related interest rate swaps are as follows:

	March 31 2009	December 31 2008
	(Dollars in Millions)	
Short-term debt		
Debt in default	\$ 2,529	\$ 2,554
Current portion of long-term debt	62	72
Other short-term	64	71

Total short-term debt	\$ 2,655	\$	2,697
Long-term debt			
Other	60		65
Total debt	\$ 2,715	\$	2,762

Fair value of total debt was \$554 million and \$826 million as of March 31, 2009 and December 31, 2008, respectively.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 10. Debt (Continued)*Interest Rate Swaps*

On March 30, 2009 the Company entered into an agreement to terminate interest rate swaps with a notional amount of \$225 million related to a portion of the 7.00% notes due March 10, 2014. These interest rate swaps had been designated as fair value hedges and were settled on April 1, 2009 for a gain of \$16 million, which has been recorded as a valuation adjustment of the underlying debt and will be amortized to interest expense over the remaining life of the debt. The Company also agreed to terminate interest rate swaps with a notional amount of \$100 million related to a portion of the \$1 billion seven-year term loan due 2013. These interest rate swaps had been designated as cash flow hedges and were settled on April 1, 2009 for a loss of \$9 million, which has been recorded as an adjustment to Accumulated other comprehensive income and will be amortized to interest expense over the remaining life of the debt.

NOTE 11. Employee Retirement Benefits

The components of the Company's net periodic benefit costs for the three months ended March 31, 2009 and 2008 are as follows:

	Retirement Plans				Health Care and Life Insurance Benefits	
	U.S. Plans		Non-U.S. Plans		2009	2008
	2009	2008	2009	2008	2009	2008

Table of Contents

**VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

NOTE 11. Employee Retirement Benefits (Continued)

Curtailments and Settlements

Curtailment and settlement gains and losses are recorded in accordance with Statement of Financial Accounting Standards Nos. 88, Employers Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits, and 106, Employers Accounting for Postretirement Benefits Other Than Pensions and are classified in the Company's consolidated statements of operations as Cost of sales or Selling, general and administrative expenses. Qualifying curtailment and settlement losses related to the Company's restructuring activities are reimbursable under the terms of the Amended Escrow Agreement. The following curtailments and settlements were recorded during the three-month periods ended March 31, 2009 and 2008:

The Company recorded curtailment gains of \$10 million for the three months ended March 31, 2009 associated with the U.S. salaried pension and other postretirement benefit (OPEB) plans in connection with employee headcount reductions under previously announced restructuring actions.

The Company recorded pension curtailment losses of \$6 million for the three months ended March 31, 2009 related to the reduction of future service in the UK pension plan in connection with employee headcount reductions in the UK.

During the first quarter of 2008 the Company recorded curtailment gains of \$4 million related to elimination of employee benefits associated with a U.S. OPEB plan in connection with employee headcount reductions under previously announced restructuring actions.

Retirement Benefit Related Restructuring Expenses

In addition to retirement benefit expenses, the Company recorded \$11 million and \$4 million for the three months ended March 31, 2009 and 2008, respectively for retirement benefit related restructuring charges. Such charges generally relate to special termination benefits and voluntary termination incentives, resulting from various restructuring actions as described in Note 4 Restructuring and Exit Activities. Retirement benefit related restructuring charges are initially classified as restructuring expenses and are subsequently reclassified to retirement benefit expenses.

Contributions

During January 2009, the Company reached an agreement with the Pension Benefit Guaranty Corporation (PBGC) pursuant to U.S. federal pension law provisions that permit the PBGC to seek protection when a plant closing results in termination of employment for more than 20 percent of employees covered by a pension plan (the PBGC Agreement). In connection with the multi-year improvement plan the Company closed its Connersville, Indiana and Bedford, Indiana facilities, which resulted in the separation of all active participants in the respective pension plan. Under the PBGC Agreement, the Company agreed to accelerate payment of a \$10.5 million cash contribution, provide a \$15 million letter of credit and provide for a guarantee by certain affiliates of certain contingent pension obligations of up to \$30 million.

During the three-month period ended March 31, 2009, contributions to the Company's U.S. retirement plans and postretirement health care and life insurance plans were \$14 million and \$5 million, respectively, and contributions to non-U.S. retirement plans were \$15 million. The Company anticipates additional contributions to its U.S. retirement plans and postretirement health care and life insurance plans of \$24 million and \$25 million, respectively, in 2009. The Company also anticipates additional 2009 contributions to non-U.S. retirement plans of \$14 million.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 12. Income Taxes

The Company's provision for income taxes in interim periods is computed by applying an estimated annual effective tax rate against income (loss) before income taxes, excluding equity in net income of non-consolidated affiliates and the gain related to the deconsolidation of the UK Debtor for the period. Effective tax rates vary from period to period as separate calculations are performed for those countries where the Company's operations are profitable and whose results continue to be tax-effected and for those countries where full deferred tax valuation allowances exist and are maintained. The Company is also required to record the tax impact of certain other non-recurring tax items, including changes in judgment about valuation allowances and effects of changes in tax laws or rates, in the interim period in which they occur. The Company's provision for income tax of \$14 million for the three-month period ended March 31, 2009 reflects income tax expense related to those countries where the Company is profitable, accrued withholding taxes, ongoing assessments related to the recognition and measurement of uncertain tax benefits, the inability to record a tax benefit for pre-tax losses in the U.S. and certain other jurisdictions to the extent not offset by other categories of income, and certain other non-recurring tax items. Included in the deconsolidation gain related to the UK Administration is \$18 million of tax expense representing the elimination of disproportionate tax effects in other comprehensive income as all items of other comprehensive income related to Visteon UK Limited have been derecognized in accordance with the requirements of SFAS 160.

The need to maintain valuation allowances against deferred tax assets in the U.S. and other affected countries will continue to cause variability in the Company's quarterly and annual effective tax rates. Full valuation allowances against deferred tax assets in the U.S. and applicable foreign countries, will be maintained until sufficient positive evidence exists to reduce or eliminate them.

Unrecognized Tax Benefits

The Company and its subsidiaries have operations in every major geographic region of the world and are subject to income taxes in the U.S. and numerous foreign jurisdictions. Accordingly, the Company files tax returns and is subject to examination by taxing authorities throughout the world, including such significant jurisdictions as Korea, India, Portugal, Spain, Czech Republic, Hungary, Mexico, Canada, China, Brazil, Germany and the United States. With few exceptions, the Company is no longer subject to U.S. federal tax examinations for years before 2004 or state and local, or non-U.S. income tax examinations for years before 2000.

The amount of the Company's gross unrecognized tax benefits and the amount that, if recognized, would impact the effective tax rate at December 31, 2008 decreased by \$2 million and \$6 million, respectively, during the first quarter of 2009 primarily due to favorable foreign exchange impacts. The Company's gross unrecognized tax benefits at March 31, 2009 were approximately \$236 million and the amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate were approximately \$113 million. The gross unrecognized tax benefits differ from that which would impact the effective tax rate due to uncertain tax positions embedded in other deferred tax attributes carrying a full valuation allowance. Since the uncertainty is expected to be resolved while a full valuation allowance is maintained, these uncertain tax positions will not impact the effective tax rate in current or future periods.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 12. Income Taxes (Continued)

It is reasonably possible that the amount of the Company's unrecognized tax benefits may change within the next twelve months as a result of settlement of ongoing audits, for changes in judgment as new information becomes available related to positions both already taken and those expected to be taken in tax returns, primarily related to transfer pricing-related initiatives, or from the closure of tax statutes. Given the number of years, jurisdictions and positions subject to examination, the Company is unable to estimate the full range of possible adjustments to the balance of unrecognized tax benefits. However, the Company believes it is reasonably possible it will reduce the amount of its existing unrecognized tax benefits impacting the effective tax rate by \$5 million to \$10 million due to the lapse of statute of limitations. Further, substantially all of the Company's unrecognized tax benefits relate to uncertain tax positions that are not currently under review by taxing authorities and therefore, the Company is unable to specify the future periods in which it may be obligated to settle such amounts.

The Company records interest and penalties related to uncertain tax positions as a component of income tax expense. Estimated interest and penalties related to the potential underpayment of income taxes totaled \$3 million for the three months ended March 31, 2009. As of March 31, 2009, the Company had approximately \$39 million of accrued interest and penalties related to uncertain tax positions.

NOTE 13. Shareholders' Deficit and Noncontrolling Interests

In accordance with the disclosure requirements of SFAS 160 the Company has provided, in the table below, a reconciliation of the carrying amount of total shareholders' deficit, including shareholders' deficit attributable to Visteon and equity attributable to noncontrolling interests (NCI).

	Three Months Ended March 31					
	Visteon	2009 NCI	Total	Visteon	2008 NCI	Total
	(Dollars in Millions)					
Shareholders' (deficit) equity beginning balance	\$ (887)	\$ 264	\$ (623)	\$ (90)	\$ 293	\$ 203
Net income (loss)	2	7	9	(105)	12	(93)
Other comprehensive loss:						
Foreign currency translation adjustment	(248)	(14)	(262)	69	(6)	63
Pension and other post-retirement benefits	146		146	(8)		(8)
Other	(8)	(5)	(13)	(3)	(2)	(5)
Total other comprehensive (loss) income	(110)	(19)	(129)	58	(8)	50
Dividends to noncontrolling interests		(7)	(7)		(11)	(11)
Shareholders' (deficit) equity ending balance	\$ (995)	\$ 245	\$ (750)	\$ (137)	\$ 286	\$ 149

Components of the Accumulated other comprehensive income (AOCI) category of Shareholders' deficit are as follows:

	March 31 2009	December 31 2008
	(Dollars in Millions)	
Foreign currency translation adjustments	\$ (40)	\$ 208
Pension and other postretirement benefit adjustments, net of tax	107	(39)
Realized and unrealized losses on derivatives	(20)	(12)
Total Visteon Accumulated other comprehensive income	\$ 47	\$ 157

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 14. Earnings Per Share

Basic earnings (loss) per share of common stock is calculated by dividing reported net income (loss) by the average number of shares of common stock outstanding during the applicable period, adjusted for restricted stock. In addition to restricted stock, the calculation of diluted earnings (loss) per share takes into account the effect of dilutive potential common stock, such as stock warrants and stock options.

	Three Months Ended	
	March 31	
	2009	2008
	(In millions, Except Per Share Data)	
<u>Numerator:</u>		
Net income (loss) attributable to Visteon common shareholders	\$ 2	\$ (105)
<u>Denominator:</u>		
Average common stock outstanding	130.5	129.9
Less: Average restricted stock outstanding	(1.1)	(0.4)
Basic shares	129.4	129.5
Net dilutive effect		
Diluted shares	129.4	129.5
<u>Earnings (loss) per share:</u>		
Basic and diluted income (loss) per share	\$ 0.02	\$ (0.81)

Stock options and stock warrants with exercise prices that exceed the average market price of the Company's common stock have an anti-dilutive effect and therefore were excluded from the computation of diluted earnings (loss) per share. The number of stock options excluded from the computation of diluted earnings (loss) per share was 12 million for the three months ended March 31, 2009 and 13 million for the three-month period ended March 31, 2008. The number of stock warrants excluded from the computation of diluted earnings (loss) per share was 25 million for the three months ended March 31, 2009 and 2008.

NOTE 15. Fair Value Measurements

In September 2006, the FASB issued SFAS 157, which established a framework for measuring fair value, including a hierarchy based on the quality of inputs used to measure fair value and provides specific disclosure requirements based on the hierarchy.

Fair Value Hierarchy

SFAS 157 requires the categorization of financial assets and liabilities, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. The various levels of the SFAS 157 fair value hierarchy are described as follows:

- Level 1 Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.
- Level 2 Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.
- Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 15. Fair Value Measurements (Continued)

SFAS 157 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

Recurring Fair Value Measurements

The following table presents the Company's fair value hierarchy, all of which are Level 2, Other Observable Inputs, for those assets and liabilities measured at fair value on a recurring basis as of March 31, 2009 and December 31, 2008:

	March 31 2009	December 31 2008
	(Dollars in Millions)	
<u>Assets</u>		
Interest rate swaps	\$ 8	\$ 17
Foreign currency instruments	1	15
Total	\$ 9	\$ 32
<u>Liabilities</u>		
Foreign currency instruments	\$ 7	\$ 11

NOTE 16. Financial Instruments

The Company is exposed to various market risks including, but not limited to, changes in foreign currency exchange rates and market interest rates. In part, the Company manages these risks through the use of derivative financial instruments. The Company's use of derivative financial instruments is limited to hedging activities and such instruments are not used for speculative or trading purposes. The use of derivative financial instruments creates exposure to credit loss in the event of nonperformance by the counterparty to the derivative financial instruments. The Company limits this exposure by entering into agreements directly with a variety of major financial institutions with high credit standards that are expected to fully satisfy their obligations under the contracts. Additionally, the Company's ability to utilize derivatives to manage risks is dependent on credit and market conditions.

Foreign Currency Exchange Rate Risk

The Company's net cash inflows and outflows exposed to the risk of changes in foreign currency exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends and investments in subsidiaries. Where possible, the Company utilizes derivative financial instruments, including forward and option contracts, to protect the Company's cash flow from adverse movements in exchange rates. Foreign currency exposures are reviewed monthly and any

natural offsets are considered prior to entering into a derivative financial instrument. The Company's primary foreign exchange operating exposures include the Euro, Korean Won, Czech Koruna and Mexican Peso. For transactions in these currencies, the Company utilizes a strategy of partial coverage.

As of March 31, 2009 and December 31, 2008, the Company had forward contracts designated as hedges related to changes in foreign currency exchange rates. The Company estimates the fair value of foreign currency forward contracts in accordance with the requirements of SFAS 157. The notional amounts of foreign currency hedging instruments in equivalent U.S. dollars were approximately \$200 million and \$350 million at March 31, 2009 and December 31, 2008.

NOTE 16. Financial Instruments (Continued)

Interest Rate Risk

The Company is subject to interest rate risk principally in relation to its fixed-rate and variable-rate debt arrangements. Where possible, the Company utilizes derivative financial instruments, including fixed-for-variable and variable-for-fixed interest rate swap agreements, to manage exposure to fluctuations in market interest rates. The maximum length of time over which the Company hedges forecasted transactions related to the payment of variable interest on existing debt is the term of the underlying debt.

As of March 31, 2009 and December 31, 2008, the Company had interest rate swaps designated as hedges of forecasted cash flows related to future interest payments for a portion of the \$1 billion seven-year term loan due June 13, 2013 (\$200 million). These interest rate swaps effectively convert the designated portion of the seven-year term loan from a variable rate instrument to a fixed rate instrument in connection with the Company's risk management policies. The Company estimates the fair value of these interest rate swaps in accordance with the requirements of SFAS 157. The notional amount of these interest rate swaps was \$200 million at March 31, 2009 and December 31, 2008.

As of March 31, 2009 and December 31, 2008, the Company had interest rate swaps designated as hedges of the fair value of a portion of the 8.25% notes due August 1, 2010 (\$125 million) and a portion of the 7.00% notes due March 10, 2014 (\$225 million). These interest rate swaps effectively convert the designated portions of these notes from fixed interest rate to variable interest rate instruments in connection with the Company's risk management policies. The Company estimates the fair value of these interest rate swaps in accordance with the requirements of SFAS 157. The notional amount of these interest rate swaps were approximately \$350 million at March 31, 2009 and December 31, 2008.

Accounting for Derivative Financial Instruments

The Company accounts for its derivative financial instruments in accordance with Statement of Financial Accounting Standards No. 133 (SFAS 133), Accounting for Derivative Instruments and Hedging Activities. Under SFAS 133, the criteria used to determine whether hedge accounting treatment is appropriate are the designation of the hedge to an underlying exposure, reduction of overall risk, and a highly effective relationship between the hedging instrument and the hedged item or transaction.

At inception, the Company formally designates and documents the financial instrument as a hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transactions. The Company formally assesses, both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in either the fair value or cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the fair values or cash flows of the underlying exposures being hedged. Any ineffective portion of a financial instrument's change in fair value is immediately recognized in earnings. Derivatives not designated as a hedge are adjusted to fair value through operating results.

The Company recognizes all derivative instruments as either assets or liabilities in the consolidated balance sheets at fair value. The fair values of derivatives used to hedge the Company's risks fluctuate over time, generally in relation to the fair values or cash flows of the underlying hedged transactions or exposures. The accounting for changes in fair value of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and, further, on the type of hedging relationship. At the inception of the hedging relationship, the Company must designate the instrument as a fair value hedge, a cash flow hedge, or a hedge of a net investment in a foreign operation. This designation is based upon the exposure being hedged.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 16. Financial Instruments (Continued)

Derivative instruments that are designated and qualify as cash flow hedges of forecasted transactions are reflected as other assets or liabilities in the Company's consolidated balance sheets. Changes in the fair value of cash flow hedges are initially recorded as a component of Accumulated other comprehensive income and reclassified to the consolidated statement of operations when the hedged transactions affect results of operations. At this time, a gain or loss on the cash flow hedge is recognized representing the excess of the cumulative change in the present value of future cash flows of the hedged item. Any ineffective portion of a cash flow hedge is immediately recognized in earnings.

Interest rate swaps that are designated and qualify as fair value hedges are reflected as other non-current assets or liabilities in the Company's consolidated balance sheets. Changes in the fair value of these interest rate swaps are recorded as a direct adjustment to the underlying debt. The adjustment does not affect the results of operations unless the contract is terminated, in which case the resulting cash flow is offset by a valuation adjustment of the underlying debt and is amortized to interest expense over the remaining life of the debt.

Derivative financial instruments designated as hedging instruments under SFAS 133 are included in the Company's consolidated balance sheets at March 31, 2009 and December 31, 2008 as follows:

Risk Hedged	Assets		Liabilities			
	Classification	2009	2008	Classification	2009	2008
		(Dollars in Millions)				
Foreign currency	Other current assets	\$ 3	\$ 16	Other current assets	\$ 2	\$ 1
Foreign currency				Other current liabilities	7	11
Interest rates	Other current assets	16		Other current assets	9	
Interest rates	Other non-current assets	2	25	Other non-current assets	1	8
Total		\$ 21	\$ 41		\$ 19	\$ 20

The Company presents its derivative positions and any related material collateral under master netting agreements on a net basis, consistent with the guidance contained within FASB Interpretation No. 39 (FIN 39), Offsetting of Amounts Related to Certain Contracts and FASB Staff Position No. 39-1 (FSP FIN 39-1), Amendment of FASB Interpretation No. 39.

The impact of derivative financial instruments on the Company's financial statements, as recorded in Cost of sales, for the three months ended March 31, 2009 and March 31, 2008 is as follows:

Recorded	Amount of Gain (Loss) Reclassified from
----------	---

	in AOCI		AOCI into Income		Recorded in Income	
	2009	2008	2009	2008	2009	2008
(Dollars in Millions)						
<u>Foreign currency risk</u>						
Cash flow hedges	\$ (7)	\$ (3)	\$ (8)	\$	\$	\$
Non-designated cash flow hedges					3	6
Total	\$ (7)	\$ (3)	\$ (8)	\$	\$ 3	\$ 6
<u>Interest rate risk</u>						
Fair value hedges	\$	\$	\$	\$	\$ 2	\$
Cash flow hedges	(3)	(3)	(2)			
Total	\$ (3)	\$ (3)	\$ (2)	\$	\$ 2	\$

The ineffective portion of the Company's hedging instruments for the three months ended March 31, 2009 and March 31, 2008 was not material.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 16. Financial Instruments (Continued)*Concentrations of Credit Risk*

Financial instruments, including cash equivalents, marketable securities, derivative contracts and accounts receivable, expose the Company to counterparty credit risk for non-performance. The Company's counterparties for cash equivalents, marketable securities and derivative contracts are banks and financial institutions that meet the Company's requirement of high credit standing. The Company's counterparties for derivative contracts are substantial investment and commercial banks with significant experience using such derivatives. The Company manages its credit risk through policies requiring minimum credit standing and limiting credit exposure to any one counterparty, and through monitoring counterparty credit risks. The Company's concentration of credit risk related to derivative contracts at March 31, 2009 was not significant.

With the exception of the customers below, the Company's credit risk with any individual customer does not exceed ten percent of total accounts receivable at March 31, 2009 and December 31, 2008 respectively.

	March 31 2009	December 31 2008
Ford and affiliates	23%	18%
Hyundai Motor Company	14%	13%
PSA Peugeot Citroën	9%	16%
Hyundai Mobis Company	9%	10%

Management periodically performs credit evaluations of its customers and generally does not require collateral.

NOTE 17. Commitments and Contingencies*Guarantees*

The Company has guaranteed approximately \$75 million for lease payments and \$7 million of debt capacity related to its subsidiaries. In connection with the January 2009 PBGC Agreement, the Company agreed to provide a guarantee by certain affiliates of certain contingent pension obligations of up to \$30 million. In the first quarter of 2009, in connection with the UK Administration the Company recorded a liability of approximately \$5 million related to the guarantee of the UK Debtor's lease payments.

Litigation and Claims

On March 31, 2009, Visteon UK Limited, a company organized under the laws of England and Wales and an indirect, wholly-owned subsidiary of the Company, filed for administration under the United Kingdom Insolvency Act of 1986 with the High Court of Justice, Chancery division in London, England. The UK Administration does not include the Company or any of the Company's other subsidiaries. The UK Administration is discussed in Note 1, Description of the Business and Company Background.

Table of Contents

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 17. Commitments and Contingencies (Continued)*Product Warranty and Recall*

Amounts accrued for product warranty and recall claims are based on management's best estimates of the amounts that will ultimately be required to settle such items. The Company's estimates for product warranty and recall obligations are developed with support from its sales, engineering, quality and legal functions and include due consideration of contractual arrangements, past experience, current claims and related information, production changes, industry and regulatory developments and various other considerations. The Company can provide no assurances that it will not experience material claims in the future or that it will not incur significant costs to defend or settle such claims beyond the amounts accrued or beyond what the Company may recover from its suppliers. The following table provides a reconciliation of changes in product warranty and recall liability for the three months ended March 31, 2009 and 2008:

	Product Warranty and Recall	
	2009	2008
	(Dollars in Millions)	
Beginning balance	\$ 100	\$ 108
Accruals for products shipped	5	12
Changes in estimates	(8)	(1)
Settlements	(10)	(9)
Ending balance	\$ 87	\$ 110

Environmental Matters

The Company is subject to the requirements of federal, state, local and foreign environmental and occupational safety and health laws and regulations. These include laws regulating air emissions, water discharge and waste management. The Company is also subject to environmental laws requiring the investigation and cleanup of environmental contamination at properties it presently owns or operates and at third-party disposal or treatment facilities to which these sites send or arranged to send hazardous waste.

The Company is aware of contamination at some of its properties and relating to various third-party superfund sites at which the Company or its predecessor has been named as a potentially responsible party. The Company is in various stages of investigation and cleanup at these sites and at March 31, 2009, had recorded an accrual of approximately \$5 million for this environmental investigation and cleanup. However, estimating liabilities for environmental investigation and cleanup is complex and dependent upon a number of factors beyond the Company's control and which may change dramatically. Although the Company believes its accrual is adequate based on current information, the Company cannot provide assurance that the eventual environmental investigation, cleanup costs and related liabilities will not exceed the amount of its current accrual.

Table of Contents

**VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

NOTE 17. Commitments and Contingencies (Continued)

Other Contingent Matters

In addition to the matters discussed above, various other legal actions, governmental investigations and proceedings and claims are pending or may be instituted or asserted in the future against the Company, including those arising out of alleged defects in the Company's products; governmental regulations relating to safety; employment-related matters; customer, supplier and other contractual relationships; and intellectual property rights. Some of the foregoing matters may involve compensatory, punitive or antitrust or other treble damage claims in very large amounts, or demands for equitable relief, sanctions, or other relief.

Contingencies are subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Accruals have been established by the Company for matters where losses are deemed probable and reasonably estimable. It is possible, however, that some of the matters could be decided unfavorably to the Company and could require the Company to pay damages or make other expenditures in amounts, or a range of amounts, that cannot be estimated at March 31, 2009 or that are in excess of established accruals. The Company does not reasonably expect, except as otherwise described herein, based on its analysis, that any adverse outcome from such matters would have a material effect on the Company's financial condition, results of operations or cash flows, although such an outcome is possible.

The Company enters into agreements that contain indemnification provisions in the normal course of business for which the risks are considered nominal and impracticable to estimate.

NOTE 18. Segment Information

Statement of Financial Accounting Standards No. 131, Disclosures about Segments of an Enterprise and Related Information, requires the Company to disclose certain financial and descriptive information about segments of its business. Segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision-maker, or a decision-making group, in deciding the allocation of resources and in assessing performance.

The Company's operating structure is comprised of the following: Climate, Electronics and Interiors. These global product groups have financial and operating responsibility over the design, development and manufacture of the Company's product portfolio. Within each of the global product groups, certain facilities manufacture a broader range of the Company's total product line offering and are not limited to the primary product line. Regional customer groups are responsible for the marketing, sales and service of the Company's product portfolio to its customer base. Certain functions such as procurement, information technology and other administrative activities are managed on a global basis with regional deployment. In addition to these global product groups, the Company also operates Visteon Services, a centralized administrative function to monitor and facilitate transactions primarily with ACH for the costs of leased employees and other services provided by the Company.

The Company's chief operating decision making group, comprised of the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), evaluates the performance of the Company's segments primarily based on net sales, before elimination of inter-company shipments, gross margin and operating assets. Gross margin is defined as total sales less costs to manufacture and product development and engineering expenses. Operating assets include inventories and

property and equipment utilized in the manufacture of the segments products.

Table of Contents

NOTE 18. Segment Information (Continued)*Overview of Segments*

Climate: The Climate product group includes facilities that primarily manufacture climate air handling modules, powertrain cooling modules, heat exchangers, compressors, fluid transport and engine induction systems.

Electronics: The Electronics product group includes facilities that primarily manufacture audio systems, infotainment systems, driver information systems, powertrain and feature control modules, climate controls, electronic control modules and lighting.

Interiors: The Company's Interior product group includes facilities that primarily manufacture instrument panels, cockpit modules, door trim and floor consoles.

Services: The Company's Services operations supply leased personnel and transition services pursuant to the ACH Transactions and other divestitures.

Reconciling Item and Reclassification

Certain adjustments are necessary to reconcile segment information to the Company's consolidated amounts. Corporate reconciling items are related to the Company's technical centers, corporate headquarters and other administrative and support functions.

Segment information for the quarterly period ended March 31, 2008 and as of December 31, 2008 has been recast to reflect the remaining Other product group operations in the Company's Climate, Electronics and Interiors product groups. These operations have been reclassified consistent with the Company's current management reporting structure. All other facilities associated with the Company's Other product group have been either divested or closed.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis (MD&A) is intended to help the reader understand the results of operations, financial condition and cash flows of Visteon Corporation (Visteon or the Company). MD&A is provided as a supplement to, and should be read in conjunction with, the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008, as filed with the Securities and Exchange Commission on March 31, 2009 and the financial statements and accompanying notes to the financial statements included elsewhere herein. The financial data presented herein are unaudited, but in the opinion of management reflect all adjustments, including normal recurring adjustments (except as otherwise disclosed), necessary for a fair presentation of such information.

Executive Summary

Visteon Corporation is a leading global supplier of climate, interiors and electronics systems, modules and components to global automotive original equipment manufacturers (OEMs) including BMW, Chrysler LLC, Daimler AG, Fiat, Ford, General Motors, Honda, Hyundai / Kia, Nissan, PSA Peugeot Citroën, Renault, Toyota and Volkswagen. The Company has a broad network of manufacturing, technical engineering and joint venture operations in every major geographic region of the world, supported by approximately 31,000 employees dedicated to the design, development, manufacture and support of its product offering and its global customers. The Company conducts its business across four segments: Climate, Interiors, Electronics and Services.

Liquidity Matters

The Company's cash and liquidity needs are impacted by the level, variability and timing of its customers' worldwide vehicle production levels, which vary based on economic conditions and market shares. The global credit crisis and the erosion of consumer confidence continued to negatively impact the automotive sector on a global basis through the first quarter of 2009. In consideration of current and projected market conditions, overall automotive sector instability and Visteon's recent history of operating losses and cash usage, projections indicate that the Company's liquidity will be at or near minimum cash levels required to operate the business during 2009.

Current sources of liquidity for the Company include the following as of March 31, 2009:

Cash and equivalents of \$604 million, of which approximately 31% or \$186 million was located in the U.S.

The European Securitization had \$26 million available for borrowing after \$43 million in outstanding borrowings.

The U.S. ABL Facility had availability of \$18 million per the terms of the Fourth Amendment and Waiver to the credit agreement after \$105 million in outstanding borrowings and \$58 million in letters of credit.

Various other credit facilities held by Company affiliates of approximately \$227 million, certain of which are related to the Company's non-U.S. operations.

The Company's ability to access other sources of external financial support is limited by the constrained credit markets, current credit ratings, recent significant operating losses and negative cash flows as well as projected industry conditions. Additionally, any such access would likely be at an increased cost and under more restrictive terms and conditions. Access to, and the costs of borrowing in, the capital markets depend in part on the Company's credit ratings, which are currently below investment grade. Moody's current corporate rating of the Company is Ca with a negative outlook, and the SGL rating is 4. The rating on the 2010 and 2014 senior unsecured debt is C, the rating on the 2016 senior guaranteed unsecured debt is Ca and the rating on the senior secured term loan is Caa2. The

current corporate rating of the Company by S&P is CCC with a negative outlook. S&P's rating on the senior unsecured debt is CCC- and the rating on the senior secured term loan is B-. Fitch's current rating on the Company's senior secured debt is B-.

Table of Contents

The Company continues to develop and execute, as appropriate, additional actions designed to generate liquidity. The success of the Company's liquidity plans depends on global economic conditions, levels of automotive sales and production, trade creditor business conduct and occurrence of no other material adverse developments. Additionally, various macro-level factors outside of the Company's control may further negatively impact the Company's ability to meet its obligations as they come due. Such factors include, but are not limited to, the following:

Sustained weakness and/or continued deterioration of global economic conditions.

Continued automotive sales and production at levels consistent with or lower than first quarter 2009.

Bankruptcy of any significant customer resulting in delayed payment and/or non-payment of receivables.

Bankruptcy of any significant supplier resulting in delayed shipments of materials necessary for production.

Actions of trade creditors to accelerate payments for goods and services provided.

Other events of non-compliance with the terms and conditions of short or long-term debt obligations.

On April 30, 2009, Chrysler LLC and twenty-four of its affiliates filed petitions in the United States Bankruptcy Court for the Southern District of New York seeking relief under Chapter 11 of the U.S. Bankruptcy Code. Additionally, Chrysler LLC announced that it has halted production at many of its U.S. manufacturing facilities until certain transactions are completed with Fiat SpA. General Motors Corporation has also announced that it will extend its usual mid-year down time at many of its North America manufacturing facilities during the spring and summer of 2009. These events are expected to have an adverse impact on the Company's financial position, results of operations and cash flows. However, the magnitude of such impact cannot be fully determined at this time.

Despite the actions management has taken or plans to take, there can be no assurance that factors outside of the Company's control, including but not limited to, the financial condition of OEMs or other automotive suppliers, will not cause further significant financial distress for Visteon. Additionally, while the Company has already taken significant restructuring and cost reduction measures and plans to implement further actions designed to provide additional liquidity, there can be no assurance that such actions will provide a sufficient amount of funds or that such actions will supply funds in a timely manner necessary to meet the Company's ongoing liquidity requirements. Accordingly, there exists substantial doubt as to the Company's ability to operate as a going concern and meet its obligations as they come due.

Pursuant to affirmative covenants contained in the agreements associated with the Company's senior secured facilities and European Securitization (the "Facilities"), the Company is required to provide audited annual financial statements within a prescribed period of time after the end of each fiscal year without a "going concern" audit report or like qualification or exception. On March 31, 2009, the Company's independent registered public accounting firm included an explanatory paragraph in its audit report on the Company's 2008 consolidated financial statements indicating substantial doubt about the Company's ability to continue as a going concern. The receipt of such an explanatory statement constitutes a default under the Facilities. On March 31, 2009, the Company entered into amendments and waivers (the "Waivers") with the lenders under the Facilities, which provide for waivers of such defaults for limited periods of time, as more fully described in Note 10 "Debt," to the consolidated financial statements.

Table of Contents

The Company is exploring various strategic and financing alternatives and has retained legal and financial advisors to assist in this regard. The Company has commenced discussions with lenders under the Facilities, including an ad hoc committee of lenders under its senior secured term loan (the Ad Hoc Committee), regarding the restructuring of the Company's capital structure. Additionally, the Company has commenced discussions with certain of its major customers to address its liquidity and capital requirements. Any such restructuring may affect the terms of the Facilities, other debt and common stock and may be affected through negotiated modifications to the related agreements or through other forms of restructurings, including under court supervision pursuant to a voluntary bankruptcy filing under Chapter 11 of the U.S. Bankruptcy Code. There can be no assurance that an agreement regarding any such restructuring will be obtained on acceptable terms with the necessary parties or at all. If an acceptable agreement is not obtained, an event of default under the Facilities would occur as of the expiration of the Waivers, excluding any extensions thereof, and the lenders would have the right to accelerate the obligations thereunder. Acceleration of the Company's obligations under the Facilities would constitute an event of default under the senior unsecured notes and would likely result in the acceleration of these obligations as well. In any such event, the Company may be required to seek protection under Chapter 11 of the U.S. Bankruptcy Code. Visteon's ability to continue operating as a going concern is, among other things, dependent on the success of discussions with the lenders under the Facilities, including the Ad Hoc Committee.

The aforementioned resulted in the classification of substantially all of the Company's long-term debt as current liabilities in the Company's consolidated balance sheets as of March 31, 2009 and December 31, 2008.

Visteon UK Limited Administration

On March 31, 2009, in accordance with the provisions of the United Kingdom Insolvency Act of 1986 and pursuant to a resolution of the board of directors of Visteon UK Limited, a company organized under the laws of England and Wales (the UK Debtor) and an indirect, wholly-owned subsidiary of the Company, representatives from KPMG (the Administrators) were appointed as administrators in respect of the UK Debtor (the UK Administration). The UK Administration was initiated in response to continuing operating losses of the UK Debtor and mounting labor costs and their related demand on the Company's cash flows, and does not include the Company or any of the Company's other subsidiaries. Under the UK Administration, the UK Debtor, which has operations in Enfield, UK, Basildon, UK and Belfast, UK, is expected to be wound down. The effect of the UK Debtor's entry into administration was to place the management, affairs, business and property of the UK Debtor under the direct control of the Administrators.

The UK Debtor recorded sales, negative gross margin and net loss of \$32 million, \$7 million and \$10 million, respectively for the three months ended March 31, 2009. As of March 31, 2009 total assets of \$64 million, total liabilities of \$132 million and related amounts deferred as Accumulated other comprehensive income of \$84 million, were deconsolidated from the Company's balance sheet in accordance with the requirements of Statement of Financial Accounting Standard No. 160, Noncontrolling Interests in Consolidated Financial Statements, resulting in a deconsolidation gain of \$152 million. The Company also recorded \$57 million for contingent liabilities related to the UK Administration, including \$45 million of costs associated with former employees of the UK Debtor, for which the Company will be reimbursed from the escrow account, on a 100% basis.

Additional amounts related to these items or other contingent liabilities for potential claims under the UK Administration, which may result from (i) negotiations; (ii) actions of the Administrators; (iii) resolution of contractual arrangements, including unexpired leases; (iv) material adverse developments or other events, may be recorded in future periods. No assurance can be provided that the Company will not be subject to future litigation and/or liabilities related to the UK Administration. Additional liabilities, if any, will be recorded when they become probable and estimable and could materially affect the Company's results of operations and financial condition in future periods.

Table of Contents

Summary Financial Results for the Quarterly Period Ended March 31, 2009

Financial results for the three-month period ended March 31, 2009 are summarized as follows:

Net sales of \$1.35 billion for first quarter 2009, compared to \$2.86 billion for the same period of 2008.

Gross margin of \$45 million for first quarter 2009, down from \$195 million in first quarter 2008.

Selling, general and administrative expenses of \$108 million, lower by 27% when compared to \$148 million for first quarter 2008.

Net income of \$9 million for first quarter 2009 compared to a net loss of \$93 million for first quarter 2008.

Operating activities cash use of \$275 million compared to a use of \$126 million for the same period of 2008.

Financing activities cash use of \$240 million includes \$163 million of cash restricted in accordance with terms and conditions of the Waivers.

Recessionary economic conditions continued to suppress global consumer demand for automobiles, which resulted in lower customer production volumes throughout first quarter 2009. The Company recorded total sales of \$1.35 billion, including product sales of \$1.30 billion. Product sales decreased by \$1.44 billion, year-over-year, including \$1.1 billion due to production volumes and customer sourcing actions, partially offset by new business; \$212 million related to divestitures and closures; and \$169 million related to foreign currency. During the first quarter of 2009 the company continued to experience lower sales in each of the major regions in which it operates, reflecting decreased production volumes by all customers as vehicle sales declined in response to weakened global economic conditions. Regionally, North America comprised 24% of the Company's total product sales for first quarter 2009, while Europe, Asia and South America accounted for 38%, 32% and 6%, respectively.

North America product sales were \$323 million for first quarter 2009 compared to \$750 million during the same period of 2008. The decrease included \$327 million related to lower customer production volumes and \$84 million related to facility closures and customer sourcing actions. Product sales in Europe were \$514 million for first quarter 2009 compared to \$1.17 billion for first quarter 2008. The decrease included \$455 million related to lower customer production volumes, \$128 million related to facility closures and divestitures and unfavorable currency of \$65 million. In Asia, product sales decreased by \$411 million compared to the same period of 2008, including \$268 million related to lower customer production volumes and \$90 million of unfavorable currency.

The significant decline in sales for first quarter 2009 fueled a decrease of \$150 million in gross margin, primarily reflecting the impact of lower production levels on the Company's fixed cost structure. Lower customer production volumes, divestitures and closures resulted in a \$343 million decrease in gross margin, which was partially offset by \$164 million of cost reductions, including restructuring savings and \$29 million of currency and commercial agreements.

The Company's cash and equivalents balance was \$604 million as of March 31, 2009. Cash and equivalents decreased by \$576 million during first quarter 2009 due to operating cash use of \$275 million related to higher losses, as adjusted for non-cash items, and higher trade working capital outflow; \$34 million investing cash use primarily attributable to capital expenditures and cash attributable to the deconsolidation of the UK Debtor; \$240 million financing cash use resulting from the restriction of \$163 million of cash balances pursuant to the Waivers and \$77 million net debt payments and other; and \$27 million of unfavorable currency.

Interiors	390	856	(466)	7	14	(7)
Other		127	(127)		1	(1)
Eliminations	(31)	(118)	87			
Total product	\$ 1,295	\$ 2,739	\$ (1,444)	\$ 44	\$ 194	\$ (150)
Services	57	123	(66)	1	1	
Total	\$ 1,352	\$ 2,862	\$ (1,510)	\$ 45	\$ 195	\$ (150)

Net Sales

The Company's consolidated net sales during the three months ended March 31, 2009 decreased \$1.51 billion or 53% when compared to the same period of 2008. Significant production volume declines across all key customers globally resulted in a sales volume decline of \$1.1 billion. Additionally, plant divestitures and closures decreased sales by \$212 million and unfavorable currency of \$169 million further reduced sales.

Net sales for Climate were \$491 million in the first quarter of 2009, compared with \$898 million for the first quarter of 2008, representing a decrease of \$407 million or 45%. Sales in Asia declined \$252 million including \$165 million of customer production declines, unfavorable currency of \$66 million and net customer price reductions. Sales in North America and Europe declined \$205 million including \$175 million related to customer production declines, \$16 million of unfavorable currency, \$7 million related to the closure of the Company's Connersville, Indiana facility and net customer price reductions.

Net sales for Electronics were \$445 million in the first quarter of 2009, compared with \$976 million for the first quarter of 2008, representing a decrease of \$531 million or 54%. Sales in Europe declined \$281 million including \$250 million related to customer production declines, \$29 million of unfavorable currency and net customer price reductions. Sales in North America declined \$191 million including \$183 million related to customer production volumes and mix, past customer sourcing decisions and net customer price reductions. The remainder of the deterioration related to Asia and South America production volume declines and unfavorable currency.

Net sales for Interiors were \$390 million in the first quarter of 2009, compared with \$856 million for the first quarter of 2008, representing a decrease of \$466 million or 54%. Sales in Europe declined \$272 million including \$167 million related to customer production declines, \$86 million related to divestitures in the UK and Spain, unfavorable currency of \$22 million and net customer price reductions. Sales in North America and Asia declined \$232 million including \$230 million related to customer production declines, unfavorable currency of \$26 million and net customer price reductions, partially offset by \$27 million of customer settlements.

All remaining manufacturing facilities in the Other segment have either been divested, closed or reclassified consistent with the Company's current management reporting structure. Sales in the first quarter of 2008 related to these facilities were \$127 million including \$83 million associated with North America manufacturing facilities and \$44 million associated with Europe manufacturing facilities.

Table of Contents

Services revenues primarily relate to information technology, engineering, administrative and other business support services provided by the Company to ACH, under the terms of various agreements with ACH. Such services are generally provided at an amount that approximates cost. Total services revenues were \$57 million in the first quarter of 2009, compared with \$123 million in 2008. Services revenues and related costs included \$5 million of contractual reimbursement from Ford under the Amended Reimbursement Agreement for costs associated with the separation of ACH leased employees no longer required to provide such services. The decrease in services revenue represents lower ACH utilization of the Company's services in connection with the terms of various agreements.

Gross Margin

The Company's gross margin was \$45 million in the first quarter of 2009, compared with \$195 million in the first quarter of 2008, representing a decrease of \$150 million. This decrease reflects the impact of lower production levels on the Company's fixed cost structure. Lower customer production volumes, divestitures and closures resulted in a \$343 million decrease in gross margin, which was partially offset by \$164 million of cost reductions, including restructuring savings and \$29 million of currency and commercial agreements.

Gross margin for Climate was \$29 million in the first quarter of 2009, compared with \$84 million in the first quarter of 2008, representing a decrease of \$55 million or 65%. Significant customer production declines in all regions and the closure of the Connersville, Indiana manufacturing facility resulted in a decrease in gross margin of \$87 million. The non-recurrence of a \$13 million gain on sale of a UK manufacturing facility further reduced gross margin in the first quarter of 2009. These decreases were partially offset by \$46 million related to net cost efficiencies achieved through manufacturing performance, purchasing improvement efforts and restructuring activities.

Gross margin for Electronics was \$8 million in the first quarter of 2009, compared with \$95 million in the first quarter of 2008, representing a decrease of \$87 million. Significant customer production declines in all regions and customer desourcing actions resulted in a decrease in gross margin of \$157 million. This reduction was partially offset by \$52 million related to net cost efficiencies achieved through manufacturing performance, purchasing improvement efforts and restructuring activities; \$11 million related to the non-recurrence of 2008 accelerated depreciation; and \$3 million for a curtailment gain related to employee reductions at a manufacturing facility in Pennsylvania.

Gross margin for Interiors was \$7 million in the first quarter of 2009, compared with \$14 million in the first quarter of 2008, representing a decrease of \$7 million. Significant customer production declines in all regions and divestitures in the UK and Spain resulted in a decrease of \$60 million. This decrease was partially offset by \$27 million related to net cost efficiencies achieved through manufacturing performance, purchasing improvement efforts, and restructuring activities and \$27 million of customer settlements.

During 2008 all facilities associated with the Company's Other segment were divested, closed or reclassified consistent with the Company's current management reporting structure.

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$108 million in the first quarter of 2009, compared with \$148 million in the first quarter of 2008, representing a decrease of \$40 million or 27%. The decrease includes \$52 million related to cost efficiencies resulting from the Company's ongoing restructuring activities net of economics and the implementation costs associated with those restructuring activities and \$9 million of favorable currency. These efficiencies were partially offset by \$10 million related to professional fees and \$10 million of bad debt expenses.

Deconsolidation Gain

In connection with the UK Administration, the UK Debtor was deconsolidated from the Company's balance sheet resulting in a gain of \$152 million in accordance with SFAS 160. The Company also recorded \$57 million for contingent liabilities related to the UK Administration.

Table of Contents*Restructuring Expenses and Reimbursement from Escrow Account*

The following is a summary of the Company's consolidated restructuring reserves and related activity for the three months ended March 31, 2009. The Company's restructuring expenses are primarily related to employee severance and termination benefit costs.

	Interiors	Climate	Electronics	Other	Total
	(Dollars in Millions)				
December 31, 2008	\$ 49	\$ 3	\$ 4	\$ 8	\$ 64
Expenses	7	5	1	14	27
Currency exchange	(3)				(3)
Utilization	(19)	(7)	(1)	(19)	(46)
March 31, 2009	\$ 34	\$ 1	\$ 4	\$ 3	\$ 42

During the first quarter of 2009, the Company recorded approximately \$20 million in employee severance and termination benefit costs related to approximately 350 employees. These reductions were initiated in response to continued recessionary economic conditions and related negative impact on the automotive sector and the Company's results of operations and cash flows during the first quarter of 2009. The Company also recorded employee severance and termination benefit charges of \$7 million under the previously announced multi-year improvement plan.

Utilization for the three months ended March 31, 2009 includes \$35 million of payments for severance and other employee termination benefits and \$11 million of special termination benefits reclassified to pension and other postretirement employee benefits, where such payments are made from the Company's benefit plans.

Asset Impairments and Loss on Divestiture

During the first quarter of 2008, the Company completed the sale of its North American-based aftermarket underhood and remanufacturing operations and recorded total losses of \$40 million in connection with the transaction.

Interest

Interest expense was \$55 million for the quarterly period ended March 31, 2009 compared to \$57 million for the same period of 2008. The decrease of \$2 million resulted from lower borrowing rates and lower debt levels, partially offset by \$11 million for debt waiver fees. Interest income was \$4 million for the first quarter of 2009, compared to \$15 million for the first quarter of 2008. The decrease of \$11 million resulted from lower global cash balances and lower investment rates.

Income Taxes

The provision for income taxes of \$14 million for the first quarter of 2009, represents a decrease of \$37 million when compared with \$51 million in the same period of 2008. The decrease in tax expense is primarily attributable to lower earnings in those countries where the Company is profitable and a net reduction in unrecognized tax benefits year-over-year.

Cash Flows

Operating Activities

Cash used by operating activities during the first quarter of 2009 totaled \$275 million, compared with \$126 million for the same period in 2008. The increase in usage is primarily due to higher losses, as adjusted for non-cash items, higher trade working capital outflow and an increase in the escrow receivable, partially offset by lower annual incentive compensation payments, a decrease in recoverable tax assets and lower restructuring cash payments.

Table of Contents

Investing Activities

Cash used by investing activities was \$34 million during the first quarter of 2009, compared with \$22 million for the same period in 2008. The increase in cash usage resulted from a decrease in proceeds from divestitures and asset sales and \$11 million of cash associated with the deconsolidation of the UK Debtor, partially offset by a decrease in capital expenditures. The proceeds from divestitures and asset sales for the first quarter of 2009, totaled \$2 million compared to \$52 million for the first quarter of 2008, which included proceeds from the NA Aftermarket divestiture. Capital expenditures, excluding capital leases, decreased to \$25 million in the first quarter of 2009 compared with \$74 million in the same period of 2008.

Financing Activities

Cash used by financing activities totaled \$240 million in the first quarter of 2009, compared with \$12 million in the same period in 2008. Cash used by financing activities in the first quarter of 2009 primarily resulted from the requirement for \$163 million to be classified as restricted cash to satisfy conditions of the Company's debt waivers, a reduction in the European Securitization borrowing and a decrease in book overdrafts, partially offset by additional borrowing under the U.S. ABL Facility. Cash used by financing activities increased by \$228 million when compared to \$12 million used by financing activities during the first quarter of 2008, which included capital lease payments and a decrease in book overdrafts.

Debt and Capital Structure

Information related to the Company's debt is set forth in Note 10 Debt to the consolidated financial statements included herein under Item 1.

Covenants and Restrictions

Subject to limited exceptions, each of the Company's direct and indirect, existing and future, domestic subsidiaries as well as certain foreign subsidiaries, acts as guarantor under its term loan credit agreement. The obligations under the credit agreement are secured by a first-priority lien on certain assets of the Company and most of its domestic subsidiaries, including intellectual property, intercompany debt, the capital stock of nearly all direct and indirect domestic subsidiaries as well as certain foreign subsidiaries, and 65% of the stock of certain foreign subsidiaries, as well as a second-priority lien on substantially all other material tangible and intangible assets of the Company and most of its domestic subsidiaries.

Obligations under the U.S. ABL Facility are secured by a first-priority lien on certain assets of the Company and most of its domestic subsidiaries, including real property, accounts receivable, inventory, equipment and other tangible and intangible property, including the capital stock of nearly all direct and indirect domestic subsidiaries (other than those domestic subsidiaries the sole assets of which are capital stock of foreign subsidiaries) and certain foreign subsidiaries, as well as a second-priority lien on substantially all other material tangible and intangible assets of the Company and most of its domestic subsidiaries which secure the Company's term loan credit agreement.

The terms relating to both credit agreements specifically limit the obligations to be secured by a security interest in certain U.S. manufacturing properties and intercompany indebtedness and capital stock of U.S. manufacturing subsidiaries in order to ensure that, at the time of any borrowing under the Credit Agreement and other credit lines, the amount of the applicable borrowing which is secured by such assets (together with other borrowings which are secured by such assets and obligations in respect of certain sale-leaseback transactions) do not exceed 15% of Consolidated Net Tangible Assets (as defined in the indenture applicable to the Company's outstanding bonds and debentures).

Table of Contents

The credit agreements contain, among other things, mandatory prepayment provisions for certain asset sales, recovery events, equity issuances and debt incurrence, covenants, representations and warranties and events of default customary for facilities of this type. Such covenants include certain restrictions on the incurrence of additional indebtedness, liens, acquisitions and other investments, mergers, consolidations, liquidations and dissolutions, sales of assets, dividends and other repurchases in respect of capital stock, voluntary prepayments of certain other indebtedness, capital expenditures, transactions with affiliates, changes in fiscal periods, hedging arrangements, lines of business, negative pledge clauses, subsidiary distributions and the activities of certain holding company subsidiaries, subject to certain exceptions.

Under certain conditions, amounts outstanding under the credit agreements may be accelerated. Bankruptcy and insolvency events with respect to the Company or certain of its subsidiaries will result in an automatic acceleration of the indebtedness under the credit agreements. Subject to notice and cure periods in certain cases, other events of default under the credit agreements will result in acceleration of indebtedness under the credit agreements at the option of the lenders. Such other events of default include failure to pay any principal, interest or other amounts when due, failure to comply with covenants, breach of representations or warranties in any material respect, non-payment or acceleration of other material debt, entry of material judgments not covered by insurance, or a change of control of the Company.

At March 31, 2009, the Company was in compliance with applicable covenants and restrictions, as amended, although there can be no assurance that the Company will remain in compliance with such covenants in the future. If the Company was to violate a covenant and not obtain a waiver, the credit agreements could be terminated and amounts outstanding would be accelerated. The Company can provide no assurance that, in such event, that it would have access to sufficient liquidity resources to repay such amounts.

Off-Balance Sheet Arrangements

The Company has guaranteed approximately \$75 million for lease payments and \$7 million of debt capacity related to its subsidiaries. In connection with the January 2009 PBGC Agreement, the Company agreed to provide a guarantee by certain affiliates of certain contingent pension obligations of up to \$30 million. In the first quarter of 2009, in connection with the UK Administration the Company recorded a liability of approximately \$5 million related to the guarantee of the UK Debtor's lease payments.

Fair Value Measurements

The Company uses fair value measurements in the preparation of its financial statements, which utilize various inputs including those that can be readily observable, corroborated or generally unobservable. The Company utilizes market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Company applies assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. The primary financial instruments that are recorded at fair value in the Company's financial statements are derivative instruments.

The Company's use of derivative instruments creates exposure to credit loss in the event of nonperformance by the counterparty to the derivative financial instruments. The Company limits this exposure by entering into agreements directly with a variety of major financial institutions with high credit standards and that are expected to fully satisfy their obligations under the contracts. Fair value measurements related to derivative assets take into account the non-performance risk of the respective counterparty, while derivative liabilities take into account the non-performance risk of Visteon and its foreign affiliates. The hypothetical gain or loss from a 100 basis point change in non-performance risk would be less than \$1 million for the fair value of foreign currency derivatives and net interest rate swaps as of March 31, 2009.

Table of Contents

New Accounting Standards

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-4 (FSP FAS 157-4), Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly. FSP FAS 157-4 provides guidance on estimating the fair value when the volume and level of activity have significantly decreased and on identifying circumstances that indicate a transaction is not orderly. FSP FAS 157-4 is effective for interim and annual periods ending after June 15, 2009. The Company does not expect FSP FAS 157-4 to have a significant impact on its consolidated financial statements.

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1 (FSP FAS 107-1), Interim Disclosures about Fair Value of Financial Instruments. This FSP requires disclosures around the fair value of financial instruments for interim reporting periods, including (a) the fair value at the period end and (b) the methods and assumptions used to calculate the fair value. FSP FAS 107-1 is effective for interim reporting periods after June 15, 2009. The Company does not expect FSP FAS 107-1 to have a significant impact on its consolidated financial statements.

In December 2008, the FASB issued FSP No. FAS 132(R)-1 (FSP FAS 132(R)-1), Employers Disclosures about Postretirement Benefit Plan Assets. This FSP requires disclosure of (a) how pension plan assets investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies, (b) the major categories of plan assets, (c) the inputs and valuation techniques used to measure the fair value of plan assets, (d) the effect of fair value measurements using significant unobservable inputs (Level 3) on changes in plan assets for the period and (e) significant concentrations of risk within plan assets. FSP FAS 132(R)-1 is effective for fiscal years ending after December 15, 2009 and will be adopted by the Company for its annual consolidated financial statements for the fiscal year ending December 31, 2009.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133. This statement requires disclosure of (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement of Financial Accounting Standards No. 133 and its related interpretations and (c) how derivative instruments and related hedged items affect an entity's financial position, results of operations and cash flows. This statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 and was adopted by the Company on a prospective basis on January 1, 2009, as more fully described in Note 16, Derivative Financial Instruments to the consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), Business Combinations and Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements, an amendment to ARB No. 51. These statements change the accounting and reporting for business combination transactions and minority interests in consolidated financial statements. These statements are required to be adopted simultaneously and are effective for the first annual reporting period beginning on or after December 15, 2008. The Company adopted these standards effective January 1, 2009 as more fully described in Note 13 Shareholders Deficit and Noncontrolling Interests to the consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS 157), Fair Value Measurements. This statement, which became effective January 1, 2008, defines fair value, establishes a framework for measuring fair value and expands disclosure requirements regarding fair value measurements. The Company adopted the requirements of SFAS 157 as of January 1, 2008 without a material impact on its consolidated financial statements. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2 (FSP FAS 157-2), Effective Date of FASB Statement No. 157, which delayed the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed in the financial statements on a nonrecurring basis to fiscal years beginning

after November 15, 2008. The application of SFAS 157 to the Company's nonfinancial assets and liabilities did not impact its consolidated financial statements.

Table of Contents

Cautionary Statements Regarding Forward-Looking Information

Certain statements contained or incorporated in this Quarterly Report on Form 10-Q which are not statements of historical fact constitute Forward-Looking Statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the Reform Act). Forward-looking statements give current expectations or forecasts of future events. Words such as anticipate, expect, intend, plan, believe, seek, estimate and other words and terms of similar connection with discussions of future operating or financial performance signify forward-looking statements. These statements reflect the Company's current views with respect to future events and are based on assumptions and estimates, which are subject to risks and uncertainties including those discussed in Item 1A under the heading Risk Factors in this Quarterly Report on Form 10-Q and in the Company's Annual Report on Form 10-K for fiscal year 2008 as well as elsewhere in this report. Accordingly, the reader should not place undue reliance on these forward-looking statements. Also, these forward-looking statements represent the Company's estimates and assumptions only as of the date of this report. The Company does not intend to update any of these forward-looking statements to reflect circumstances or events that occur after the statement is made. The Company qualifies all of its forward-looking statements by these cautionary statements.

The reader should understand that various factors, in addition to those discussed elsewhere in this document, could affect the Company's future results and could cause results to differ materially from those expressed in such forward-looking statements, including:

Visteon's ability to satisfy its future capital and liquidity requirements; Visteon's ability to access the credit and capital markets at the times and in the amounts needed and on terms acceptable to Visteon; Visteon's ability to comply with covenants applicable to it; and the continuation of acceptable supplier payment terms.

Visteon's ability to satisfy its pension and other postemployment benefit obligations, and to retire outstanding debt and satisfy other contractual commitments, all at the levels and times planned by management.

Visteon's ability to access funds generated by its foreign subsidiaries and joint ventures on a timely and cost effective basis.

Visteon's ability to restructure its capital structure, which will depend on, among other things, the outcome of negotiations with customers and lenders.

Changes in the operations (including products, product planning and part sourcing), financial condition, results of operations or market share of Visteon's customers, particularly its largest customer, Ford.

Changes in vehicle production volume of Visteon's customers in the markets where it operates, and in particular changes in Ford's North American and European vehicle production volumes and platform mix.

Visteon's ability to profitably win new business from customers other than Ford and to maintain current business with, and win future business from, Ford, and, Visteon's ability to realize expected sales and profits from new business.

Increases in commodity costs or disruptions in the supply of commodities, including steel, resins, aluminum, copper, fuel and natural gas.

Visteon's ability to generate cost savings to offset or exceed agreed upon price reductions or price reductions to win additional business and, in general, improve its operating performance; to achieve the benefits of its restructuring actions; and to recover engineering and tooling costs and capital investments.

Visteon's ability to compete favorably with automotive parts suppliers with lower cost structures and greater ability to rationalize operations; and to exit non-performing businesses on satisfactory terms, particularly due to limited flexibility under existing labor agreements.

Table of Contents

Restrictions in labor contracts with unions that restrict Visteon's ability to close plants, divest unprofitable, noncompetitive businesses, change local work rules and practices at a number of facilities and implement cost-saving measures.

The costs and timing of facility closures or dispositions, business or product realignments, or similar restructuring actions, including potential asset impairment or other charges related to the implementation of these actions or other adverse industry conditions and contingent liabilities.

Significant changes in the competitive environment in the major markets where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.

Legal and administrative proceedings, investigations and claims, including shareholder class actions, inquiries by regulatory agencies, product liability, warranty, employee-related, environmental and safety claims and any recalls of products manufactured or sold by Visteon.

Changes in economic conditions, currency exchange rates, changes in foreign laws, regulations or trade policies or political stability in foreign countries where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.

Shortages of materials or interruptions in transportation systems, labor strikes, work stoppages or other interruptions to or difficulties in the employment of labor in the major markets where Visteon purchases materials, components or supplies to manufacture its products or where its products are manufactured, distributed or sold.

Changes in laws, regulations, policies or other activities of governments, agencies and similar organizations, domestic and foreign, that may tax or otherwise increase the cost of, or otherwise affect, the manufacture, licensing, distribution, sale, ownership or use of Visteon's products or assets.

Possible terrorist attacks or acts of war, which could exacerbate other risks such as slowed vehicle production, interruptions in the transportation system, or fuel prices and supply.

The cyclical and seasonal nature of the automotive industry.

Visteon's ability to comply with environmental, safety and other regulations applicable to it and any increase in the requirements, responsibilities and associated expenses and expenditures of these regulations.

Visteon's ability to protect its intellectual property rights, and to respond to changes in technology and technological risks and to claims by others that Visteon infringes their intellectual property rights.

Visteon's ability to provide various employee and transition services in accordance with the terms of existing agreements between the parties, as well as Visteon's ability to recover the costs of such services.

Visteon's ability to quickly and adequately remediate control deficiencies in its internal control over financial reporting.

The possibility that Visteon and any of its subsidiaries may need to seek protection under the U.S. Bankruptcy Code or similar laws in other jurisdictions.

Other factors, risks and uncertainties detailed from time to time in Visteon's Securities and Exchange Commission filings.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The primary market risks to which the Company is exposed include changes in foreign currency exchange rates, interest rates and certain commodity prices. The Company manages these risks through derivative instruments and various operating actions including fixed price contracts with suppliers and cost sourcing arrangements with customers. The Company's use of derivative instruments is limited to hedging activities and such instruments are not used for speculative or trading purposes, as per clearly defined risk management policies. Additionally, the Company's use of derivative instruments creates exposure to credit loss in the event of nonperformance by the counterparty to the derivative financial instruments. The Company limits this exposure by entering into agreements directly with a variety of major financial institutions with high credit standards and that are expected to fully satisfy their obligations under the contracts. Additionally, the Company's ability to utilize derivatives to manage market risk is dependent on credit conditions and market conditions given the current economic environment.

Foreign Currency Risk

The Company's net cash inflows and outflows exposed to the risk of changes in exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends and investments in subsidiaries. The Company utilizes derivative financial instruments to manage foreign currency exchange rate risks. Forward contracts and, to a lesser extent, option contracts are utilized to protect the Company's cash flow from adverse movements in exchange rates. Foreign currency exposures are reviewed monthly and any natural offsets are considered prior to entering into a derivative financial instrument. The Company's primary foreign exchange operating exposures include the Euro, Korean Won, Czech Koruna and Mexican Peso. For transactions in these currencies, the Company utilizes a strategy of partial coverage. As of March 31, 2009, the Company's coverage for projected transactions in these currencies was approximately 34%. As of March 31, 2009 and December 31, 2008, the net fair value of foreign currency forward and option contracts was a liability of \$6 million and an asset of \$4 million, respectively.

The hypothetical pre-tax gain or loss in fair value from a 10% favorable or adverse change in quoted currency exchange rates would be approximately \$21 million and \$33 million as of March 31, 2009 and December 31, 2008, respectively. These estimated changes assume a parallel shift in all currency exchange rates and include the gain or loss on financial instruments used to hedge loans to subsidiaries. Because exchange rates typically do not all move in the same direction, the estimate may overstate the impact of changing exchange rates on the net fair value of the Company's financial derivatives. It is also important to note that gains and losses indicated in the sensitivity analysis would generally be offset by gains and losses on the underlying exposures being hedged.

Interest Rate Risk

The Company is subject to interest rate risk principally in relation to fixed-rate and variable-rate debt. The Company uses derivative financial instruments to manage exposure to fluctuations in interest rates in connection with its risk management policies. The Company has entered into interest rate swaps for a portion of the 8.25% notes due August 1, 2010 (\$125 million) and a portion of the 7.00% notes due March 10, 2014 (\$225 million). These interest rate swaps effectively convert the designated portions of these notes from fixed interest rate to variable interest rate instruments. Additionally, the Company has entered into interest rate swaps for a portion of the \$1 billion term loan due 2013 (\$200 million), effectively converting the designated portion of this loan from a variable interest rate to a fixed interest rate instrument. Approximately 30% of the Company's borrowings were effectively on a fixed rate basis as of March 31, 2009 and December 31, 2008. As of March 31, 2009 and December 31, 2008, the net fair value of interest rate swaps were assets of \$8 million and \$17 million, respectively.

Table of Contents

The potential loss in fair value of these swaps from a hypothetical 50 basis point adverse change in interest rates would be approximately \$1 million as of March 31, 2009 and \$5 million as of December 31, 2008. The annual increase in pre-tax interest expense from a hypothetical 50 basis point adverse change in variable interest rates (including the impact of interest rate swaps) would be approximately \$10 million as of March 31, 2009 and December 31, 2008. This analysis may overstate the adverse impact on net interest expense because of the short-term nature of the Company's interest bearing investments.

On April 1, 2009, the Company terminated interest rate swaps with a notional amount of \$225 million related to the 7.00% notes due March 10, 2014 and \$100 million related to the \$1 billion term loan due 2013.

Commodity Risk

The Company's exposure to market risks from changes in the price of commodities including steel products, plastic resins, aluminum, natural gas and diesel fuel are not hedged due to a lack of acceptable hedging instruments in the market. The Company's strategy for addressing exposures to price changes in such commodities is to negotiate with the Company's suppliers and customers, although there can be no assurance that the Company will not have to absorb any or all price increases and/or surcharges. When and if acceptable hedging instruments are available in the market, management will determine at that time if financial hedging is appropriate, depending upon the Company's exposure level at that time, the effectiveness of the financial hedge and other factors.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports the Company files with the SEC under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

The Company's management carried out an evaluation, under the supervision and with the participation of the CEO and the CFO, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of March 31, 2009. Based upon that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal controls over financial reporting during the quarterly period ended March 31, 2009 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

**PART II
OTHER INFORMATION**

ITEM 1. LEGAL PROCEEDINGS

See the information above under Note 17, Commitments and Contingencies, to the consolidated financial statements which is incorporated herein by reference.

ITEM 1A. RISK FACTORS

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed in Part I, Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. See also, Cautionary Statements Regarding Forward-Looking Information included in Part I, Item 2 of this Quarterly Report on Form 10-Q.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table summarizes information relating to purchases made by or on behalf of the Company, or an affiliated purchaser, of shares of Visteon common stock during the first quarter of 2009.

Issuer Purchases of Equity Securities

Period	Total Number of Shares (or Units) Purchased(1)	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs(2)
January 1, 2009 to January 31, 2009	1,850	\$ 0.42		
February 1, 2009 to February 28, 2009				
March 1, 2009 to March 31, 2009				
Total	1,850	\$ 0.42		1,650,000

(1)

This column includes only shares surrendered to the Company by employees to satisfy tax withholding obligations in connection with the vesting of restricted share awards made pursuant to the Visteon Corporation 2004 Incentive Plan and/or the Visteon Corporation Employees Equity Incentive Plan.

- (2) On December 12, 2007, the Board of Directors of the Company authorized the open market purchases of up to two million shares of the Company's common stock during the subsequent 24 months to be used solely to satisfy obligations under the Company's employee benefit programs.
