LETTER FROM THE CEO

Dear Shareholders,

[Photo of Robert J. Manning]

Our firm was built on the strength of MFS Original Research(R), our in-depth analysis of every security we consider for our portfolios. We've been honing this process since 1932, when we created one of the mutual fund industry's first research departments. And we continue to fine-tune this process so that we can provide strong and consistent long-term investment performance to help you achieve your financial goals.

While we have achieved strong investment performance in many of our portfolios, our goal is to achieve the same strong results across all asset classes. To ensure that our portfolio teams are doing the best possible job for our firm's clients and shareholders, I am focusing the vast majority of my time on the three key elements that I believe truly differentiate MFS from its competitors: people, process, and culture.

PEOPLE

Our people have always been our most valuable resource. Our philosophy is to deliver consistent, repeatable investment results by hiring the most talented investors in our industry. We recruit from the nation's top business schools and hire experienced analysts, both domestically and around the globe.

Our analysts are the engine that powers our entire investment team because their recommendations have a direct impact on the investment performance of our portfolios. To demonstrate our ongoing commitment in this area, we increased the number of equity analysts at MFS from less than 40 at the end of 2000 to over 50 in April 2004. During that same period, we doubled the average investment experience of our new domestic equity analysts, from 2.6 years to 5.3 years, by recruiting more seasoned analysts to the firm. Moreover, our international network of investment personnel now spans key regions of the world with offices in London, Mexico City, Singapore, and Tokyo, as well as Boston.

One of the major advantages that MFS has over many of its competitors is that the position of research analyst is a long-term career for many members of our team, not simply a steppingstone toward becoming a portfolio manager. We have

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

worked to elevate the stature of the analyst position to be on par with that of a portfolio manager. In fact, an exceptional research analyst has the opportunity to earn more at MFS than some portfolio managers.

At the same time, we look within the firm to promote talented analysts who choose a path toward becoming a portfolio manager. We rarely hire portfolio managers from our competitors because we believe the best investors are those steeped in the MFS process and culture. In the past few months, we have identified four senior research analysts who will assume roles on the management teams of several of our larger portfolios. MFS is fortunate to have a deep bench of talented investment personnel, and we welcome the opportunity to put their skills to work for our clients.

PROCESS

MFS was built on the strength of its bottom-up approach to researching securities. We have enhanced the mentoring process for our research analysts by calling on several of our most seasoned portfolio managers to supplement the work of Director of Global Equity Research David A. Antonelli. These portfolio managers will be taking a special interest in developing the careers of our research analysts and strengthening our investment process. Kenneth J. Enright of our value equity group will work with a team of domestic analysts; David E. Sette-Ducati of our small- and mid-cap equity team will work with analysts concentrating on small- and mid-cap companies; and Barnaby Wiener of our international equity team in London heads the European equity research team.

We have combined the bottom-up approach of our research process with a top-down approach to risk controls on portfolio composition. We have a very strong quantitative team under the leadership of industry veteran Deborah H. Miller, who represents the equity management department on the Management Committee of the firm. Quantitative analysis helps us generate investment ideas and, more importantly, assess the appropriate level of risk for each portfolio. The risk assessment is designed to assure that each portfolio operates within its investment objectives.

Additionally, we have increased the peripheral vision of our investment personnel across asset classes through the collaboration of our Equity, Fixed Income, Quantitative Analysis, and Risk Management teams. We recently codified this key aspect of our culture by forming an Investment Management Committee, composed of key members of these teams. This Committee will work to ensure that all teams are sharing information, actively debating investment ideas, and creating a unified investment team.

CULTURE

Teamwork is at the heart of our ability to deliver consistent and competitive investment performance over time. At MFS, each member of our team is involved in our success; we have no superstars. The collaborative nature of our process works to assure a consistent investment approach across all of our products and provides a high level of continuity in portfolio management because our investment performance never depends on the contributions of just a single individual. Our culture is based on an environment of teamwork that allows our investment personnel to be successful. In turn, we demand superior investment results from every member of our team.

We have created a meritocracy at our firm based on investment results. We hold all of our portfolio managers accountable for the performance of their portfolios and their contributions to the team. We also track the equity and fixed-income ratings of our analysts so we can evaluate them based on the performance of their recommendations. We align bonus compensation to investment performance by weighting rewards to those who have created the

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

greatest long-term benefit for our shareholders and who contribute most successfully to the Original Research(SM) process.

The strength of our culture has resulted in a tremendous amount of stability, both in terms of people and assets under management. Although we have dismissed members of our team whose performance did not meet MFS' high standards, only one member of our investment team has voluntarily left the firm over the past six months, based on a decision to retire from the industry. Similarly, our firm's assets under management have remained quite steady in the midst of a challenging environment.

In short, we can help you achieve your financial goals by hiring talented people, following a disciplined process, and maintaining our firm's unique culture. The recent enhancements described in this letter reflect the collaborative spirit and the depth of resources in our investment teams.

As always, we appreciate your confidence in MFS and welcome any questions or comments you may have.

Respectfully,

/s/ Robert J. Manning

Robert J. Manning
CEO, President, and Chief Investment Officer
MFS Investment Management (R)

May 19, 2004

PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS.

The opinions expressed in this letter are those of MFS, and no forecasts can be guaranteed.

MFS ORIGINAL RESEARCH (R)

THE MFS (R) DIFFERENCE

For 80 years MFS has been offering investors clear paths to pursuing specific investment objectives. Today, millions of individuals and thousands of institutions all over the world look to MFS to manage their assets with insight and care.

Our success, we believe, has to do with the fact that we see investors as people with plans, not just dollars to invest.

When you invest with MFS, you invest with a company dedicated to helping you realize your long-term financial goals.

INVESTORS CHOOSE MFS FOR OUR

- o global asset management expertise across all asset classes
- o time-tested money management process for pursuing consistent results
- o full spectrum of investment products backed by MFS Original Research(R)
- o resources and services that match real-life needs

TURNING INFORMATION INTO OPPORTUNITY

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

Sound investments begin with sound information. MFS has been doing its own research and analyzing findings in-house for decades. The process we use to uncover opportunity is called MFS Original Research(R).

MFS ORIGINAL RESEARCH INVOLVES:

- o meeting with the management of 3,000 companies each year to assess their business plans and the managers' ability to execute those plans
- o making onsite visits to more than 2,000 companies annually to gain first-hand knowledge of their operations and products
- o analyzing financial statements and balance sheets
- o talking extensively with companies' customers and competitors
- o developing our own proprietary estimates of companies' earnings

MANAGEMENT REVIEW

MARKET ENVIRONMENT

Over the six-month period ended April 30, 2004, long-term U.S. Treasury bond yields rose modestly, with 10-year treasury yields increasing from 4.29% to 4.50%. The path upward, however, was marked by significant volatility in the overall bond market.

Previous to the period, in the summer of 2003 and into early September, bond prices had declined as fixed-income investors, in our view, became concerned that the economic recovery was accelerating faster than expected.

In the fall and winter of 2003, however, bond prices revived as several factors combined to drive rates down. Economic reports indicated that inflation was well contained while job growth remained weak. Although most other measures indicated the U.S. economy was improving, we believe investors were concerned that consumer spending might falter because laid-off workers were not finding new jobs. The Federal Reserve Board (the Fed) appeared to sum up the situation in its statements that interest rates could remain low for the foreseeable future.

As the period came to a close in March and April of 2004, bonds reversed direction again. Long-term rates climbed sharply as the United States finally began to experience strong job growth, and the market began to anticipate that a Fed rate increase was imminent. Just after the period ended, the Fed's press release after its May 4 meeting contained the first indication in several years that rates were indeed going up: "At this juncture, ... the [Federal Open Market] Committee believes that policy accommodation can be removed at a pace that is likely to be measured."

The accelerating U.S. recovery over the period was generally positive for lower quality bonds. Growth in GDP (gross domestic product), business profits, and other measures pointed toward improving corporate fundamentals - business factors such as earnings and cash flow growth.

In response, we believe investors moved away from the risk aversion or "flight to quality" that had characterized the bond market in late 2002 and early 2003. Riskier, lower-rated classes of bonds showed the best performance over the period, as investors sought out higher-yielding debt. This caused spreads - the differences between yields on "AAA"-rated municipals and riskier "BBB"-

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

rated issues - to tighten (decrease) over the period. Within categories, lower-rated bonds generally outperformed higher-rated issues. While bonds across most asset classes were hurt by rising rates in the final months of the period, lower-rated debt was less affected than higher-rated issues.

For the period as a whole, the performance of municipal bonds relative to Treasuries of comparable maturities was mixed. On the shorter end of the yield curve - maturities of 10 years and less - municipal bonds underperformed Treasuries. On the longer end of the curve, however, municipal bonds outperformed Treasuries.

In the closing months of the period, municipal bond prices were under pressure from several factors in addition to the rising rates mentioned earlier. A large amount of new issuance, particularly in March of 2004, increased the supply of municipal bonds and put downward pressure on prices. We saw additional pressure on bond prices in April as investors anticipated California's largest-ever municipal bond issue in U.S. history, set to take place in May. A third negative factor for municipal prices toward the end of the period was seasonal fluctuation, because bond selling has historically been higher in March and April as investors liquidate positions to pay tax bills.

PORTFOLIO CONCENTRATION AS OF 4/30/04 QUALITY RATINGS

"AAA"	17.9%
"AA"	4.3%
"A"	8.8%
"BBB"	35.0%
"BB"	18.4%
"B"	13.1%
"CCC"	1.1%
Not Rated and Other	1.4%

The portfolio is actively managed, and current holdings may be different.

Percentages based on assets on 4/30/04.

CONTRIBUTORS TO PERFORMANCE

In the area of credit quality, relative performance was helped by the trust's overweighting in lower-quality debt relative to its Lehman benchmark. During a period when spreads were tightening, lower-rated bonds outperformed higher-rated bonds, and the trust's overweighting in debt rated "BBB" and below helped relative returns. (The Lehman Index is composed primarily of high-grade securities rated "A" or better and does not include securities rated below "BBB.")

The portfolio's positioning on the yield curve also helped relative results. (A yield curve for bonds is a graph showing yield against time remaining to maturity.) In managing the trust, we try to pick what we believe is the optimal spot on the yield curve - a time to maturity that optimizes the combination of yield and risk. Our research has for some time indicated that the 15- to 20-year part of the yield curve is that optimal spot, and the trust has historically tended to be overweighted in that area. This overweighting helped relative performance during the period, as short-term rates rose more than long-term rates and the yield curve flattened. The trust's relative overweighting in the longer part of the yield curve, which saw smaller price declines, and underweighting in the shorter end of the curve, where bond prices declined more, helped relative performance.

DETRACTORS FROM PERFORMANCE

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

Duration - a measure of the trust's holdings' sensitivity to interest rate changes - was the key detractor from the trust's relative performance during the period. We strive to position the trust with a duration comparable to that of its Lipper peer group of closed-end high-yield municipal portfolios. During the period, that strategy resulted in the trust having a longer average duration than that of its benchmark, the Lehman Brothers Municipal Bond Index (the Lehman Index). During a period of rising interest rates, that longer duration meant the trust's holdings, on average, suffered larger price declines than the holdings in our benchmark.

Respectfully,

/s/ Geoffrey L. Schechter

Geoffrey L. Schechter
Portfolio Manager

Note to shareholders: Effective February 17, 2004, Geoffrey L. Schechter became the sole manager of the portfolio. Prior to that date, the trust was managed by a team composed of Geoffrey L. Schechter and Michael W. Roberge.

----- PORTFOLIO MANAGER'S PROFILE -----

Geoffrey L. Schechter, CFA, CPA, is Senior Vice President of MFS Investment Management (R) (MFS(R)) and a portfolio manager of our municipal bond funds. He also manages several other state municipal bond portfolios for MFS.

He joined MFS as Investment Officer in 1993 after working as a municipal credit analyst with a major insurance company. He was named portfolio manager in 1993, Assistant Vice President in 1994, and Vice President in 1995.

Geoff is a graduate of the University of Texas and has an M.B.A. degree from Boston University. He holds the Chartered Financial Analyst (CFA) and Certified Public Accountant (CPA) designations.

All portfolio managers at MFS are supported by an investment staff of over 160 professionals utilizing MFS Original Research(R), a global, issuer-oriented, bottom-up process of selecting securities.

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

PERFORMANCE SUMMARY THROUGH 4/30/04

All results are historical. Investment return and principal value will fluctuate, and shares, when sold, may be worth more or less than their original cost. More recent returns may be different from those shown. Past performance is no guarantee of future results. Price Summary

Six months ended 4/30/04

	Date	Price
Net asset value	10/31/2003	\$7.69
	4/30/2004	\$7.70
New York Stock Exchange price	10/31/2003	\$7.49
	3/9/2004 (high) *	\$8.15
	4/29/2004 (low) *	\$6.95
	4/30/2004	\$7.13

* For the period November 1, 2003, through April 30, 2004.

Total Return vs Benchmarks

INDEX DEFINITIONS

Lehman Brothers Municipal Bond Index A broad measure of the municipal bond market.

LIPPER CLOSED END HIGH YIELD MUNICIPAL INDEX - An index composed of 10 closed-end funds (including MFS Municipal Income Trust) that invest at least 50% of their assets in lower-rated municipal debt securities.

It is not possible to invest directly in an index.

KEY RISK CONSIDERATIONS

Investments in high yield or lower-rated securities may provide greater returns but are subject to greater-than-average risk.

The portfolio focuses on companies in a limited number of sectors making it more

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

susceptible to adverse economic, political, or regulatory developments affecting those sectors than a portfolio that invests more broadly.

Because the portfolio invests in a limited number of companies a change in one security's value may have a more significant effect on the portfolio's value.

Government guarantees apply to the underlying securities only and not to the prices and yields of the portfolio.

The portfolio may invest in derivative securities which may include futures, swaps, and options. These types of instruments can increase price fluctuation.

These risks may increase share price volatility. Please see the prospectus for further information regarding these and other risk considerations.

In accordance with Section 23(c) of the Investment Company Act of 1940, the trust hereby gives notice that it may from time to time repurchase shares of the trust in the open market at the option of the Board of Trustees and on such terms as the Trustees shall determine.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Trust offers a Dividend Reinvestment and Cash Purchase Plan that allows you to reinvest either all of the distributions paid by the trust or only the long-term capital gains. Purchases are made at the market price unless that price exceeds the net asset value (the shares are trading at a premium). If the shares are trading at a premium, purchases will be made at a discounted price of either the net asset value or 95% of the market price, whichever is greater. Twice each year you can also buy shares. Investments may be made in any amount over \$100 in January and July on the 15th of the month or shortly thereafter.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the plan on your behalf. If the nominee does not offer the plan, you may wish to request that your shares be re-registered in your own name so that you can participate.

There is no service charge to reinvest distributions, nor are there brokerage charges for shares issued directly by the trust. However, when shares are bought on the New York Stock Exchange or otherwise on the open market, each participant pays a pro rata share of the commissions. The automatic reinvestment of distributions does not relieve you of any income tax that may be payable (or required to be withheld) on the distributions.

To enroll in or withdraw from the plan, or if you have any questions, call 1-800-637-2304 any business day from 8 a.m. to 8 p.m. Eastern time. Please have available the name of the trust and your account and Social Security numbers. For certain types of registrations, such as corporate accounts, instructions must be submitted in writing. Please call for additional details. When you withdraw from the plan, you can receive the value of the reinvested shares in one of two ways: a check for the value of the full and fractional shares, or a certificate for the full shares and a check for the fractional shares.

Portfolio of Investments (unaudited) - 4/30/04

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

The Portfolio of Investments is a complete list of all securities owned by the trust. It is categorized by broad-based asset classes.

FINANCIAL STATEMENTS

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the trust's financial performance and the past 5 fiscal years. Certain information reflects financial results for a single trust share. The table represents the rate by which an investor would have earned (or lost) on an investment in the trust (net of all distributions) held for the entire period.

	SIX MONTHS ENDED 4/30/04 (UNAUDITED)	2003	2002	YEAR ENDED 10/31/01

(S) As required, effective November 1, 2001, the trust has adopted the provisions of the AICPA A Investment Companies and began accreting market discount on debt securities. The effect of t October 31, 2002 was to increase net investment income per share by \$0.01, decrease net real losses per share by \$0.01, and to increase the ratio of net investment income to average net ratios, and supplemental data for periods prior to November 1, 2001 have not been restated t presentation.

+ Ratio excludes dividend payment on auction preferred shares.

++ Calculated by subtracting the trust's total liabilities (not including preferred shares) fr and dividing this by the number of preferred shares outstanding.

+++ Per share amount was less than \$0.01.

Per share data are based on average shares outstanding.

Ratios do not reflect reductions from fees paid indirectly.

(+) Annualized.

(++) Not annualized.

* As revised, to reflect transactions conducted prior to close, not including in closing activ 2002. Such amount was previously reported as (2.64)%. Additionally, for the years ended Octo 1999, total returns previously reported were based on Net Asset Value (5.20% and (0.59)%, re

SEE NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS (unaudited)

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

(1) BUSINESS AND ORGANIZATION

MFS Municipal Income Trust (the trust) is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as a non-diversified closed-end management investment company.

(2) SIGNIFICANT ACCOUNTING POLICIES

GENERAL - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The trust can invest up to 100% of its portfolio in high-yield securities rated below investment grade. Investments in high-yield securities involve greater degrees of credit and market risk than investments in higher-rated securities and tend to be more sensitive to economic conditions. Municipal securities backed by current or anticipated revenues from a specific project or specific assets can be negatively affected by the discontinuance of the taxation supporting the projects or assets or the inability to collect revenues for the project or from the assets. If the Internal Revenue Service determines an issuer of a municipal security has not complied with applicable tax requirements, interest from the security could become taxable and the security could decline in value.

INVESTMENT VALUATIONS - The trust uses independent pricing services approved by the Board of Trustees wherever possible to value its portfolio securities. Portfolio securities are valued at current market quotations where current market quotations are readily available, or the trust may fair value portfolio securities under the direction of the Board of Trustees when a determination is made that current market quotations are not readily available. Bonds and other fixed income securities (other than short-term obligations) in the trust's portfolio are valued at an evaluated bid price as reported by an independent pricing service, or to the extent a valuation is not reported by a pricing service, such securities are valued on the basis of quotes from brokers and dealers. Prices obtained from pricing services utilize both dealer-supplied valuations and electronic data processing techniques which take into account appropriate factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data without exclusive reliance upon quoted prices or exchange or over-the-counter prices, since such valuations are believed to reflect more accurately the fair value of such securities. Bonds and other fixed income securities for which it is determined that current market quotations are not readily available will be fair valued under the direction of the Board of Trustees. Short-term obligations with a remaining maturity in excess of 60 days will be valued upon dealer-supplied valuations. All other short-term obligations in the trust's portfolio are valued at amortized cost, which constitutes market value as determined by the Board of Trustees.

SWAP AGREEMENTS - The trust may enter into swap agreements. A swap is an exchange of cash payments between the trust and another party, which is based on a specific financial index. Cash payments are exchanged at specified intervals and the expected income or expense is recorded on the accrual basis. The value of the swap is adjusted daily and the change in value is recorded as unrealized appreciation or depreciation. Risks may arise upon entering into these agreements from the potential inability of counterparties to meet the terms of their contract and from unanticipated changes in the value of the financial index on which the swap agreement is based. The trust uses swaps for both hedging and non-hedging purposes. For hedging purposes, the trust may use

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

swaps to reduce its exposure to interest rate fluctuations. For non-hedging purposes, the trust may use swaps to take a position on anticipated changes in the underlying financial index.

INTEREST RATE SWAP AGREEMENTS - Interest rate swap agreements are agreements to exchange cash flows periodically based on a notional principal amount, for example the exchange of fixed rate interest payments for floating rate interest payments which are based on a specific financial index or the exchange of two distinct floating rate payments. The net receivable or payable associated with these payments is accrued daily and is recorded as net interest income or expense. For financial statement purposes, the net interest income or expense periodically recognized for an interest rate is recorded in the same line item as any unrealized and realized gains or losses recognized for that instrument. The primary risk associated with interest rate swap agreements is that unfavorable changes in the fluctuation of interest rates could adversely impact the trust.

RATE LOCK SWAP AGREEMENTS - The trust may enter into rate lock swap agreements, which are used to reduce the interest rate risk of the portfolio. A rate lock swap agreement is a payment or receipt of cash on a specified future date, calculated as the difference between the strike rate and a specific index yield on that date. The payment received or made at the end of the measurement period is recorded as a realized gain or loss in the Statement of Operations. The value of the swap is adjusted daily and the change in value is recorded as unrealized appreciation or depreciation.

INVESTMENT TRANSACTIONS AND INCOME - Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. All premium and discount is amortized or accreted for financial statement purposes in accordance with accounting principles generally accepted in the United States of America. All premium and original issue discount is amortized or accreted for tax reporting purposes as required by federal income tax regulations. Some securities may be purchased on a "when-issued" or "forward delivery" basis, which means that the securities will be delivered to the trust at a future date, usually beyond customary settlement time.

Legal fees and other related expenses incurred to preserve and protect the value of a security owned are added to the cost of the security; other legal fees are expensed. Capital infusions made directly to the security issuer, which are generally non-recurring, incurred to protect or enhance the value of high-yield debt securities, are reported as additions to the cost basis of the security. Costs that are incurred to negotiate the terms or conditions of capital infusions or that are expected to result in a plan of reorganization are reported as realized losses. Ongoing costs incurred to protect or enhance an investment, or costs incurred to pursue other claims or legal actions, are expensed.

FEES PAID INDIRECTLY - The trust's custody fee is reduced according to an arrangement that measures the value of cash deposited with the custodian by the trust. This amount, for the six months ended April 30, 2004, is shown as a reduction of total expenses on the Statement of Operations.

TAX MATTERS AND DISTRIBUTIONS - The trust's policy is to comply with the provisions of the Internal Revenue Code (the Code) applicable to regulated investment companies and to distribute to shareholders all of its net tax-exempt and taxable net income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is provided. Distributions paid by the trust from net interest received on tax-exempt municipal bonds are not includable by shareholders as gross income for federal income tax purposes because the trust intends to meet certain requirements of the Code applicable to regulated investment companies, which will enable the trust to pay exempt-interest dividends. The portion of such interest, if any,

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

earned on private activity bonds issued after August 7, 1986 may be considered a tax-preference item to shareholders.

Distributions to shareholders are recorded on the ex-dividend date. The trust distinguishes between distributions on a tax basis and a financial reporting basis and only distributions in excess of tax basis earnings and profits are reported in the financial statements as distributions from paid-in capital. Differences in the recognition or classification of income between the financial statements and tax earnings and profits, which result in temporary over-distributions for financial statement purposes, are classified as distributions in excess of net investment income or net realized gains. Common types of book and tax differences that could occur include differences in accounting for defaulted bonds, capital losses, derivatives, and amortization and accretion on debt securities.

The tax character of distributions declared for the years ended October 31, 2003 and October 31, 2002 was as follows:

	10/31/03	10/31/02
Distributions declared from:		
Tax-exempt income	\$22,599,683	\$22,909,900
Ordinary income	41,603	64,159
Total distributions declared	\$22,641,286	\$22,974,059

As of October 31, 2003 the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed ordinary income	\$171,028
Undistributed tax-exempt income	7,053,948
Capital loss carryforward	(43,353,428)
Unrealized appreciation	5,948,263
Other temporary differences	(1,027,048)

For federal income tax purposes, the capital loss carryforward may be applied against any net taxable realized gains of each succeeding year until the earlier of its utilization or expiration:

EXPIRATION DATE	
October 31, 2004	\$ (8,774,606)

Total	\$ (43,353,428)

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

AUCTION PREFERRED SHARES - The trust issued 2,800 shares of Auction Preferred Shares (APS), series T and 2,800 of Auction Preferred Shares (APS), series TH. Dividends are cumulative at a rate that is reset every seven days for both series through an auction process. During the six months ended April 30, 2004, the dividend rates ranged from 1.31% to 1.83%. The trust pays an annual fee equivalent to 0.25% of the preferred share liquidation value for remarketing efforts associated with the preferred auction. The APS are redeemable at the option of the trust in whole or in part at the redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends. The APS are also subject to mandatory redemption if certain requirements relating to its asset maintenance coverage are not satisfied. The trust is required to maintain certain asset coverage with respect to the APS as defined in the trust's By-Laws and the Investment Company Act of 1940.

In accordance with the provisions of FASB 150, "Accounting for certain financial instruments with characteristics of both Liabilities and Equity", effective for the current period, the trust has reclassified its Auction Preferred Shares ("APS") outside of permanent equity in the Net Assets section of the Statement of Assets and Liabilities. In addition, distributions to APS shareholders are now classified as a component of the "Increase in net assets from operations" on the Statement of Operations and Statement of Changes in Net Assets and as a component of the "Total from investment operations" in the Financial Highlights. Prior year amounts presented have been reclassified to conform to this period's presentation. This change has no impact of the net assets applicable to common shares of the trust.

(3) TRANSACTIONS WITH AFFILIATES

INVESTMENT ADVISER - The trust has an investment advisory agreement with Massachusetts Financial Services Company (MFS) to provide overall investment advisory and administrative services, and general office facilities. The management fee is computed daily and paid monthly at an annual rate of 0.40% of the trust's average daily net assets and 6.32% of investment income. Management fees incurred for the six months ended April 30, 2004 were 0.79% of average daily net assets, including preferred shares, on an annualized basis.

The trust pays compensation to the Independent Trustees ("Trustees") in the form of both a retainer and attendance fees, and pays no compensation directly to its Trustees who are officers of the investment adviser, or to officers of the trust, all of whom receive remuneration for their services to the trust from MFS. Certain officers and Trustees of the trust are officers or directors of MFS and MFS Service Center, Inc. (MFSC). The trust has an unfunded, defined benefit plan for retired Trustees. Included in Trustees' compensation is a pension expense of \$5,398 for retired trustees for the six months ended April 30, 2004.

ADMINISTRATOR - MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to certain funds for which MFS acts as investment adviser. Under an administrative services agreement between the funds and MFS, MFS is entitled to partial reimbursement of the costs MFS incurs to provide these services, subject to review and approval by the Board of Trustees. The trust is allocated a portion of these administrative costs based on its size and relative average net assets. Prior to April 1, 2004, the maximum amount was based on the following annual percentages of the trust's average daily net assets:

First \$2 billion	0.0175%
-----	-----
Next \$2.5 billion	0.0130%
-----	-----
Next \$2.5 billion	0.0005%

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

In excess of \$7 billion	0.0000%
--------------------------	---------

Effective April 1, 2004 the maximum amount is based on the following annual percentages of the trust's average daily net assets:

First \$2 billion	0.01120%
Next \$2.5 billion	0.00832%
Next \$2.5 billion	0.00032%
In excess of \$7 billion	0.0000%

For the six months ended April 30, 2004, the trust paid MFS \$24,697 equivalent to 0.0110% of average daily net assets including preferred shares, to partially reimburse MFS for the costs of providing administrative services.

TRANSFER AGENT - Included in transfer agent and dividend disbursing costs is a fee paid to MFSC, a wholly owned subsidiary of MFS, for its services as registrar and dividend disbursing agent for the trust. The agreement provides that the trust will pay MFSC an account maintenance fee of no more than \$9.00 and a dividend services fee of \$0.75 per reinvestment. These fees amounted to \$32,576 for the six months ended April 30, 2004. Also included in transfer agent and dividend disbursing costs are out-of-pocket expenses, paid to MFSC, which amounted to \$8,715 for the six months ended April 30, 2004, as well as other expenses paid to unaffiliated vendors.

(4) PORTFOLIO SECURITIES

Purchases and sales of investments, other than U.S. government securities and short-term obligations, aggregated \$21,043,063 and \$23,523,580, respectively.

The cost and unrealized appreciation and depreciation in the value of the investments owned by the trust as computed on a federal income tax basis, are as follows:

Aggregate cost	\$427,660,278
Gross unrealized appreciation	\$20,723,066
Gross unrealized depreciation	(13,745,431)
Net unrealized appreciation	\$6,977,635

(5) SHARES OF BENEFICIAL INTEREST

The trust's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. The Trustees have authorized 39,777,078 full and fractional shares of beneficial interest. The Trustees have authorized share repurchase by the trust of up to 10% annually of its own shares of beneficial interest. During the six months ended April 30, 2004, the trust did not repurchase any shares. Transactions in trust shares were as follows:

Six months ended		Year ended	
4/30/04		10/31/03	
SHARES	AMOUNT	SHARES	AMOUNT

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

Shares issued to shareholders in reinvestment of distributions	64,891	\$511,173	42,903	\$332,939
---	--------	-----------	--------	-----------

(6) LINE OF CREDIT

The trust and other affiliated funds participate in an \$800 million unsecured line of credit provided by a syndication of banks under a line of credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the bank's base rate plus 0.50%. In addition, a commitment fee, based on the average daily, unused portion of the line of credit, is allocated among the participating funds at the end of each calendar quarter. The commitment fee allocated to the trust for the six months ended April 30, 2004, was \$373. The trust had no significant borrowings during the period.

(7) FINANCIAL INSTRUMENTS

The trust trades financial instruments with off-balance-sheet risk in the normal course of its investing activities in order to manage exposure to market risks such as interest rates and foreign currency exchange rates. These financial instruments include swap agreements. The notional or contractual amounts of these instruments represent the investment the trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

Swap Agreements

Interest Rate Swaps

EXPIRATION	NOTIONAL PRINCIPAL AMOUNT (000 OMITTED)	CASH FLOWS RECEIVED BY THE TRUST	CASH FLOWS PAID BY THE TRUST
5/18/19	9,000	Floating - 7 day BMA Swap Index	Fixed - 4.184%
10/6/19	30,000	Floating - 7 Day BMA Swap Index	Fixed - 4.128%
6/16/24	20,000	Floating - 7 Day BMA Swap Index	Fixed - 4.423%

At April 30, 2004, the trust had sufficient cash and/or securities to cover any margin requirements under these contracts.

(8) RESTRICTED SECURITIES

The trust may invest not more than 15% of its total assets in securities which are subject to legal or contractual restrictions on resale. At April 30, 2004 the trust owned the following restricted securities, excluding securities issued under Rule 144A, constituting 1.7% of net assets, including preferred shares, which may not be publicly sold without registration under the

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

Securities Act of 1933. The trust does not have the right to demand that such securities be registered. The value of these securities is determined by valuations furnished by dealers or by a pricing service, or if not available, in good faith at the direction of the Trustees.

Niagara Falls, NY, Bridge Commission, Toll Rev., RITES, FGIC, 9.1623%, 2015	5/21/99	1,500,000	1,609,680

(9) CONCENTRATION OF CREDIT RISK

For the six months ended April 30, 2004, 12.1% of securities in the portfolio of investments are backed by letters of credit or bond insurance of various financial institutions and financial guaranty assurance agencies. The percentage of investments insured by or supported (backed) by a letter of credit from any one institution or agency did not exceed 6.0% of total investments.

(10) LEGAL PROCEEDINGS

On March 31, 2004, MFS settled an administrative proceeding with the Securities and Exchange Commission ("SEC") regarding disclosure of brokerage allocation practices in connection with fund sales. Under the terms of the settlement, in which MFS neither admitted nor denied any wrongdoing, MFS agreed to pay (one dollar) \$1.00 in disgorgement and \$50 million in penalty to certain MFS funds, pursuant to a plan administered by an independent distribution consultant. The agreement with the SEC is reflected in an order of the SEC. The settlement order states that MFS failed to adequately disclose to the Boards and Trustees and to shareholders of the MFS funds the specifics of its preferred arrangements with certain brokerage firms selling MFS fund

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

shares. The settlement order states that MFS had in place policies designed to obtain best execution of all fund trades. As part of the settlement, MFS has retained an independent compliance consultant to review the completeness of its disclosure to fund trustees and to fund shareholders of strategic alliances between MFS or its affiliates and broker-dealers and other financial advisers who support the sale of fund shares. The brokerage allocation practices which were the subject of this proceeding were discontinued by MFS in November 2003.

In addition, in February, 2004, MFS reached agreement with the SEC, the New York Attorney General ("NYAG") and the Bureau of Securities Regulation of the State of New Hampshire ("NH") to settle administrative proceedings alleging false and misleading information in certain MFS fund prospectuses regarding market timing and related matters (the "February Settlements"). These regulators alleged that prospectus language for certain MFS funds was false and misleading because, although the prospectuses for those funds in the regulators' view indicated that the funds prohibited market timing, MFS did not limit trading activity in 11 domestic large cap stock, high grade bond and money market funds. MFS' former Chief Executive Officer, John W. Ballen, and former President, Kevin R. Parke, also reached agreement with the SEC in which they agreed to, among other terms, monetary fines and temporary suspensions from association with any investment adviser or registered investment company. Messrs. Ballen and Parke have resigned their positions with, and will not be returning to, MFS and the MFS funds. Under the terms of the February Settlements, MFS and the executives neither admit nor deny wrongdoing.

Under the terms of the February Settlements, a \$225 million pool has been established for distribution to shareholders in certain of the MFS funds offered to retail investors ("Retail Funds"), which has been funded by MFS and of which \$50 million is characterized as a penalty. This pool will be distributed in accordance with a methodology developed by an independent distribution consultant in consultation with MFS and the Board of Trustees of the Retail Funds, and acceptable to the SEC. MFS has further agreed with NYAG to reduce its management fees in the aggregate amount of approximately \$25 million annually over the next five years, and not to increase certain management fees during this period. MFS has also paid an administrative fine to NH in the amount of \$1 million, which will be used for investor education purposes (NH retained \$250,000 and \$750,000 was contributed to the North American Securities Administrators Association's Investor Protection Trust). In addition, under the terms of the February Settlements, MFS is in the process of adopting certain governance changes and reviewing its policies and procedures.

Since December 2003, MFS, Sun Life Financial Inc., various MFS funds, the Trustees of these MFS funds, and certain officers of MFS have been named as defendants in multiple lawsuits filed in federal and state courts. The lawsuits variously have been commenced as class actions or individual actions on behalf of investors who purchased, held or redeemed shares of the funds during specified periods, as class actions on behalf of participants in certain retirement plan accounts, or as derivative actions on behalf of the MFS funds. The lawsuits generally allege that some or all of the defendants (i) permitted or acquiesced in market timing and/or late trading in some of the MFS funds, inadequately disclosed MFS' internal policies concerning market timing and such matters, and received excessive compensation as fiduciaries to the MFS funds, or (ii) permitted or acquiesced in the improper use of fund assets by MFS to support the distribution of fund shares and inadequately disclosed MFS' use of fund assets in this manner. The actions assert that some or all of the defendants violated the federal securities laws, including the Securities Act of 1933 and the Securities Exchange Act of 1934, the Investment Company Act of 1940 and the Investment Advisers Act of 1940, the Employee Retirement Income Security Act of 1974, as well as fiduciary duties and other violations of common law. The lawsuits seek unspecified compensatory damages.

Edgar Filing: MFS MUNICIPAL INCOME TRUST - Form N-CSRS

Insofar as any of the actions is appropriately brought derivatively on behalf of any of the MFS funds, any recovery will inure to the benefit of the funds. The defendants are reviewing the allegations of the multiple complaints and will respond appropriately. Additional lawsuits based on similar allegations may be filed in the future.

Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against MFS, the MFS funds, or any other named defendant. As noted above, as part of the regulatory settlements, MFS has established a restitution pool in the amount of \$225 million to compensate certain shareholders of the Retail Funds for damages that they allegedly sustained as a result of market timing or late trading in certain of the funds, and will pay \$50 million to compensate certain MFS funds based upon the amount of brokerage commissions allocated in recognition of fund sales. It is not clear whether these amounts will be sufficient to compensate shareholders for all of the damage they allegedly sustained, whether certain shareholders or putative class members may have additional claims to compensation, or whether the damages that may be awarded in any of the actions will exceed these amounts. In the event the MFS funds incur any losses, costs or expenses in connection with such lawsuits, the Boards of Trustees of the affected funds may pursue claims on behalf of such funds against any party that may have liability to the funds in respect thereof.

While these developments primarily relate to MFS' open-end funds, there can be no assurance that these developments, or the adverse publicity associated with these developments, will not result in an increase to the market discount of the Trust's shares or other adverse consequences.

 TRUSTEES AND OFFICERS -- IDENTIFICATION AND BACKGROUND

The Trustees and officers of the Trust are listed below, together with their principal occupation five years. (Their titles may have varied during that period.) The business address of each Trust is 500 Boylston Street, Boston, Massachusetts 02116.

(born 06/12/60)

Assistant Treasurer September 1990

Massachusetts Financial
Company, Senior Vice President

-
- (1) Date first appointed to serve as Trustee/Officer of an MFS fund. Each Trustee has served continuous appointment unless indicated otherwise.
 - (2) Directorships or trusteeships of companies required to report to the Securities and Exchange Commission ("public companies").
 - (3) "Interested person" of MFS within the meaning of the Investment Company Act of 1940 (referred to as the Act) which is the principal federal law governing investment companies like the series/the funds of MFS is 500 Boylston Street, Boston, Massachusetts 02116.

The Trust holds annual shareholder meetings for the purpose of electing Trustees, and Trustees are elected for terms. The Board of Trustees is currently divided into three classes, each having a term of three years, the term of one class expires. Each Trustee's term of office expires on the date of the third annual meeting following the election to office of the Trustee's class. Each Trustee will serve until next election, earlier death, resignation, retirement or removal.

Each of the Trust's Trustees and officers holds comparable positions with certain other funds of the Trust. A subsidiary is the investment adviser or distributor, and, in the case of the officers, with certain other funds of MFS. Each Trustee serves as a board member of 109 funds within the MFS Family of Funds.

The Statement of Additional Information contains further information about the Trustees and is available without charge upon request by calling 1-800-225-2606.
