Anthracite Capital Prices \$304 Million Secured Debt Offering to Match Fund Credit Sensitive Assets

NEW YORK--(BUSINESS WIRE)--Dec. 2, 2002-- Secured Debt has a weighted average life of 8.5 years and an average fixed rate cost of funds on bonds placed of 5.6%

Anthracite Capital, Inc. (NYSE: AHR) (the "Company") today announced the pricing of \$303,633,000 of non-recourse debt offered through Anthracite CDO II Ltd. and Anthracite CDO II Corp. (collectively the "CDO").

The debt will be secured by a portfolio of Commercial Mortgage Backed Securities and unsecured debt of publicly traded commercial real estate operating companies. The CDO issued debt rated AAA through BB. The Company will privately place the debt rated AAA through BBB- and will retain certain bonds rated BBB- and BB. The weighted average credit rating of all bonds privately placed is expected to be approximately A+. The transaction is expected to close on December 10, 2002.

The terms of the offering permit the Company to contribute to the CDO up to \$50 million of additional CMBS acquired over the next nine months. The additional CMBS will be purchased with proceeds from a credit facility, which will be funded upon the closing of the CDO transaction (the "Ramp Facility"). The debt issuance including the Ramp Facility is intended to match the

Company's existing portfolio assets and similar assets to be purchased with long-term liabilities. The Company intends to account for this transaction on its balance sheet as a financing. The Company will use the proceeds of this offering to replace short-term liabilities currently used to finance its credit sensitive portfolio. All debt placed will carry a fixed rate or will be hedged to create a total fixed cost of funds of approximately 5.6% after issuance expenses. The transaction is expected to provide approximately \$26 million of additional cash for reinvestment which will be employed in the near term to pay down debt. The Company will retain \$26,850,000 of the lowest rated bonds, which may be placed in the future, as the Company's liquidity needs change. The securities offered by the CDO have not been and will not be registered under the Securities Act of 1933, as amended, or any state securities or "blue sky" laws and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

Richard Shea, COO/CFO of the Company, stated: "This transaction is a continuation of the Company's strategy of match funding credit sensitive assets with non-recourse secured debt to increase the quality of the Company's earnings. The innovation of the Ramp Facility provides the Company with significant flexibility by putting in place advance match funding for credit sensitive assets to be purchased after closing. The return on equity is expected to be sufficient to support the Company's current dividend payout over the long term."
